Goal

Find the receipt for any payment: a Direct payment, a food order, or a QR payment.

Before you start

1. Sign in to your OxSteed account for order and payment receipts.

Process map

4 Receipt reviewed

START / END

- *Food order:* Direct, food order, or QR? → Open the food order detail
- *QR payment:* Direct, food order, or QR? → Check the QR payment confirmation
- Open the food order detail → Receipt reviewed
- Check the QR payment confirmation → Receipt reviewed

Text version. OxSteed renders receipts in context rather than in a standalone receipts hub. For Direct payments, open /direct/payments/:id ("Receipt confirmation") and use "Confirm receipt". For food orders, open /food/orders/:orderId or /orders/:id, where the order detail shows items, the order summary, and payment details. For QR payments, the "Payment successful" screen is the receipt.

Steps

Step 1: Open a Direct payment receipt

Open /direct/payments/:id. The page shows "Receipt confirmation" ("Confirm that the proof has been received and tied to history."). Review the payment record, then choose "Confirm receipt" ("Receipt confirmed.").

> **Expected result:** The receipt is confirmed and tied to the payment history.

Step 2: Review a food order as a receipt

Open the order from /orders or /food/orders/:orderId. The order detail is the receipt: the "Order summary" card shows "Subtotal", "Tax", "Shipping", "Discount", and "Total", and the "Payment details" card shows the "Payment method", payment "Status", and "Transaction ID". Items list each price and quantity ("Your order").

> **Expected result:** You can read every line item, the totals, and the payment record.

Step 3: Print a food order receipt

On the order tracking page (/food/track/:token), choose "Print Receipt" for the paper record of the order ("Order", "Status", "Items", "Total").

> **Expected result:** The browser print dialog opens with the order receipt.

Step 4: Keep the QR payment confirmation

After paying at /pay/:code, the "Payment successful" screen shows the amount and recipient and is your receipt. The optional "Email for receipt (optional)" field ("you@example.com") sends a copy to your email if you filled it in before paying.

> **Expected result:** You have a record of the payment on screen and, if you entered it, in your email.

Confirm it worked

You can find the receipt for the payment and read the items, totals, and payment method.

If something goes wrong

Problem	What to do

You cannot find an old receipt.	Open /orders for order history or /direct/history for "All of your Direct quote requests, jobs, and receipts in one place." Then open the record to see its receipt view.
The order shows "Payment failed" or no payment details.	The payment never completed. Use "Order again" on the order detail to place it again with a working payment method.

Need help?

For receipt issues, use the in-app support page at /support.
