Goal

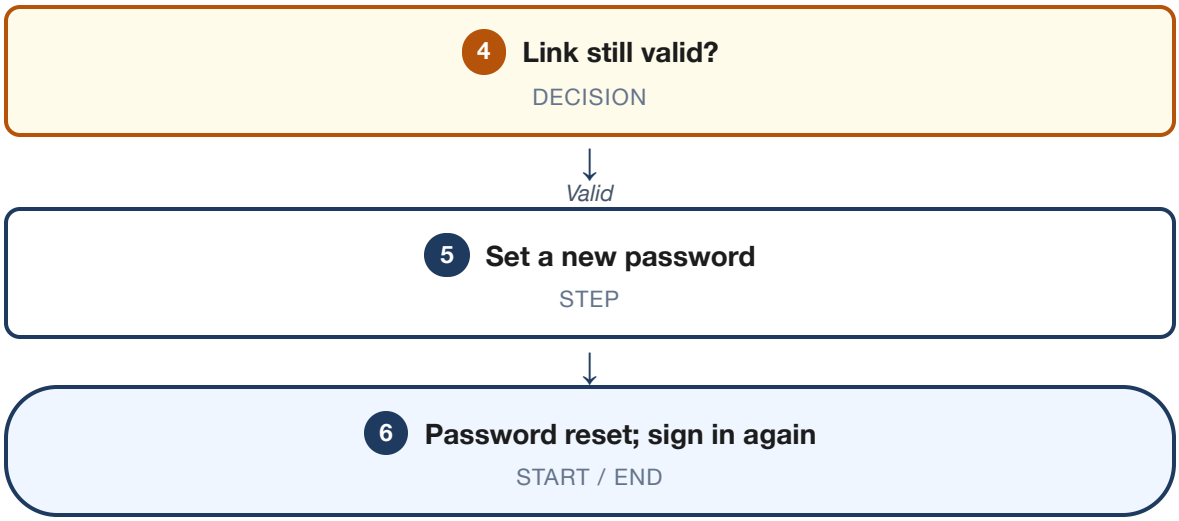

Reset your password with an email link when you cannot sign in.

Before you start

1. Access to the email inbox of your OxSteed account.

Process map

- *Expired or invalid:* Link still valid? → Request a new link
- Request a new link → Open the reset email

Text version. 1. Open the forgot-password page from the sign-in screen. 2. Enter the email address of your account and choose "Send Reset Link". 3. Open the reset email and choose the link. 4. If the link is expired or invalid, request a new one. 5. Enter a new password twice on the "Set New Password" page. 6. Sign in with the new password.

Steps

Step 1: Open the password reset page

From the sign-in page, choose "Forgot password?", or open /forgot-password directly. The page heading is "Reset your password" with the subtitle "Enter your email and we'll send you a link to reset your password."

> **Expected result:** The reset page shows a single Email address field and a "Send Reset Link" button.

Step 2: Request the reset link

Type your account email address (placeholder "you@example.com") and choose "Send Reset Link". A confirmation tells you the link was sent. If you never get it, check your spam folder, then come back and choose "Try again".

> **Expected result:** A confirmation appears that the reset link was sent to your email.

Step 3: Set a new password from the email link

Open the email and choose the reset link, which opens /reset-password/:token. The page heading is "Set New Password". Type your new password in the New password field and repeat it in the Confirm password field, then choose "Reset Password". The new password must meet the minimum length shown.

> **Expected result:** A success message appears and a "Go to Sign In now" option is shown.

Confirm it worked

The success screen appears; sign in at /login with your new password. If the link shows as invalid, request a fresh link.

If something goes wrong

Problem	What to do
The reset link shows as invalid or expired.	Reset links expire for security. Request a new one from /forgot-password and use it right away.
No reset email arrives.	Check the spam folder and confirm you typed the exact email registered on the account. Wait a few minutes before requesting again.
The new password is rejected.	Both fields must match and meet the minimum length. Avoid reusing your most recent passwords.
