Manage account settings

Guide ID	**account-settings**
Revision	Revision 3 (generated October 16, 2026)
Intended for	Customer, Helper, Business owner, Restaurant, Logistics
Availability	**Supported**
Online version	/how-it-works/account/manage-settings

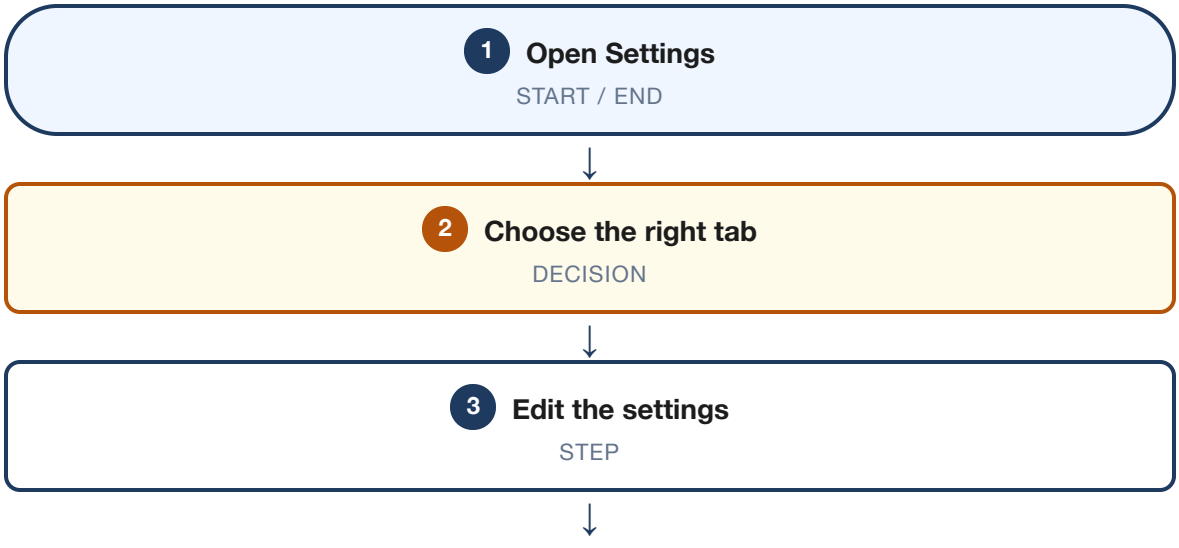

Goal

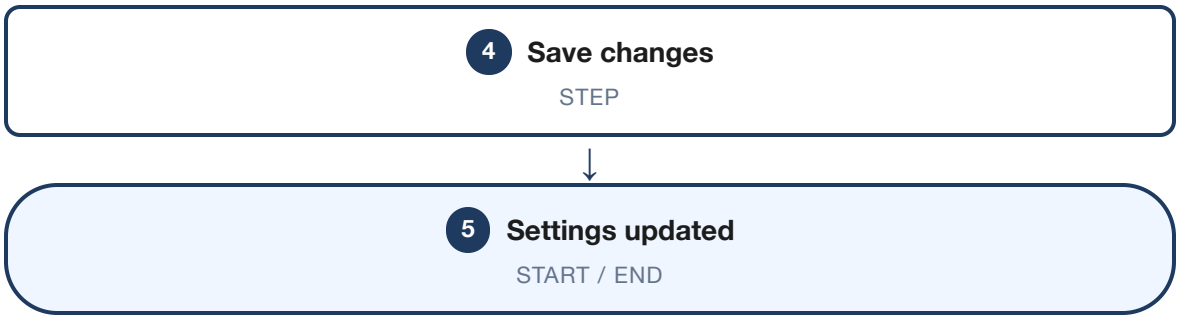

Change your profile, security, notifications, country, businesses, and tax documents from one settings hub.

Before you start

1. Be signed in to your OxSteed account.

Process map

Text version. 1. Open /settings. 2. Pick the tab you need: Profile, Security, Businesses, Notifications, Privacy & Data, Account Type, Danger Zone, or Tax documents (helpers only). 3. Edit the fields or toggle the controls on that tab. 4. Save; most changes confirm with a toast. 5. Security changes like 2FA and passkeys take effect immediately.

Steps

Step 1: Open Settings and pick a tab

Choose Settings from your account menu, or open /settings directly. The page shows tabs: Profile, Security, Businesses, Notifications, Privacy & Data, Account Type, and Danger Zone. Helpers also see a Tax documents tab. You can deep-link a tab, for example /settings?tab=tax.

> **Expected result:** The settings page loads with the tab list and the Profile tab selected.

Step 2: Update your profile or account basics

On the Profile tab, update your name, contact details, and profile photo. On the Account Type tab you can review your "Current Role", see the "Workspaces you belong to", and use "Switch" to move into a granted workspace role.

> **Expected result:** The changed values stay in the fields after saving.

Step 3: Manage security: 2FA, passkeys, and sessions

On the Security tab, set up two-factor authentication (TOTP), add or remove passkeys, and review your active sessions. Sessions can be signed out individually from the sessions list. The Notifications tab controls email and push preferences; the country selector sets your marketplace country.

> **Expected result:** Security changes confirm immediately; a new 2FA setup asks you to verify a test code.

Step 4: File tax documents as a helper (W-9)

Helpers: open the Tax documents tab and complete "Tax documents (W-9)". The subtitle explains: "File your W-9 so payouts can be released. Your tax ID is stored encrypted." Payouts are gated until your tax identity is on file.

> **Expected result:** The W-9 shows as filed and the payout tax gate is satisfied.

Confirm it worked

Each change confirms with a toast or an updated value. Your Security tab reflects the new 2FA or passkey state immediately.

If something goes wrong

Problem	What to do

You cannot find a setting you expected.	Check every tab; some controls are role-specific (the Tax documents tab is helper-only, businesses live under the Businesses tab).
A save fails with an error.	Check the highlighted field for the validation message, fix it, and save again. If it keeps failing, reload the page and retry.

Need help?

For account or security issues you cannot fix in Settings, contact support from the Help menu or visit /support.
