Goal

Leave a review for a finished job and respond to reviews left for you.

Before you start

1. Be signed in to your OxSteed account.
2. The job must be completed before reviews unlock.

Process map

- Open the completed job → Respond to a review left for you
- Respond to a review left for you → Review published

Text version. 1. Open the completed job (/jobs/:id) or order (/orders/:id). 2. Choose the review action to open the review dialog ("Leave a Review"). 3. Pick a Rating and write "Your Review" (and the testimonial where asked). 4. Choose "Submit Review" ("Submitting..." while it saves). 5. When someone reviews you, answer with the response action; responses show as the "Business Response" on the review.

Steps

Step 1: Open the review action on the finished job

On the completed job detail page, choose the review action to open the review dialog titled "Leave a Review". Reviews are eligibility-checked: the action only appears when you are allowed to review that job or order.

> **Expected result:** The "Leave a Review" dialog opens.

Step 2: Set the rating and write your review

Pick the Rating (stars) and write "Your Review". Say what was done, how communication went, and whether you would hire again. The dialog counts characters and requires a rating ("Rating is required") before you can submit.

> **Expected result:** The rating is selected and the review text is complete.

Step 3: Submit the review

Choose "Submit Review". The button shows "Submitting..." and then a success confirmation. The review appears on the helper's or business's profile and in the job or order history.

> **Expected result:** The review publishes and appears on the profile.

Step 4: Respond to a review left for you

When a customer reviews you, open the review and use the respond action. Your answer shows as the "Business Response" under the review. Keep it factual and professional; future customers read both sides.

> **Expected result:** Your response appears under the original review.

Confirm it worked

The review appears on the profile with your rating and text; your responses appear as the Business Response. Food order reviews are per order and follow the same pattern.

If something goes wrong

Problem	What to do

The review action does not appear.	Reviews are eligibility-checked and only unlock after completion. Confirm the job is marked complete and that you have not already reviewed it.
The submit fails.	Make sure a rating is selected and the text meets the length limits, then try again.
