OXSTEED

# Standard Operating Procedures

## Helper Handbook

Language: **English**

Revision date: **October 16, 2026**

Guides included: **37**

**About this PDF.** This handbook was generated from the online guides in the SOP library at **/how-it-works**. The online versions are the primary, most current editions.

Revision info: this edition was generated on 2026-10-16 from the guide data files. Each guide section below carries its own revision line (guide ID and revision number).

# Contents

Select a guide to jump to its section.

## Account

Verify identity (Didit) (rev 1)
Create an account (rev 1)
Switch between customer, helper, business and other modes (rev 1)
Complete helper or business onboarding (rev 1)
Recover a forgotten password (rev 1)
Privacy controls, data export, account deletion (rev 1)
Manage account settings (rev 1)
Sign in (rev 1)
Get help and track support tickets (rev 1)

## Hiring

Cancel a booking or job (rev 1)
Compare bids on a job (rev 1)
Mark a job complete (rev 1)
Open and manage a dispute (rev 1)
Message about a job or booking (rev 1)
Leave and respond to reviews (rev 1)
Create and sign work agreements (rev 1)

## Helper work

Work assigned jobs and incoming bookings (rev 1)
Set your availability (rev 1)
Bid on a job (rev 1)
Manage client relationships (rev 1)
View your earnings overview (rev 1)
Browse open jobs (rev 1)
Create and send invoices (rev 1)
Receive payouts (rev 1)
Manage your helper profile and public listing (rev 1)
Send quotes to customers (rev 1)
Manage your skills (rev 1)

## Financial records

- Browse archived statements (rev 1)
- Download statement exports (rev 1)
- Get paid by QR and pay by QR (rev 1)
- View statements (rev 1)

## Media

- Use OxSteed Media (feed, posts, communities) (rev 1)

## Delivery

- Request and track deliveries (rev 1)

## Calendar

- Manage the calendar (rev 1)

## Messages

- Message across the platform (rev 1)

## Consulting

- Request and deliver consulting (rev 1)

## Rentals

- Rent and list tools (rev 1)

SOP LIBRARY / ACCOUNT **ENGLISH**

# Verify identity (Didit)

| | |
|---|---|
| **Guide ID** | **account-identity-verification** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/account/verify-identity |

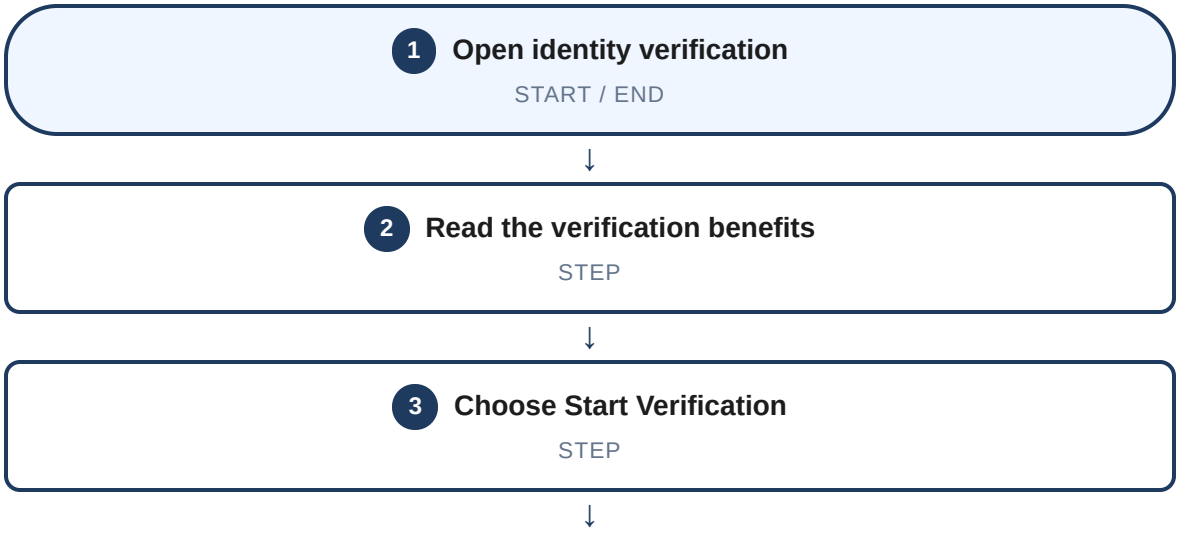

## Goal

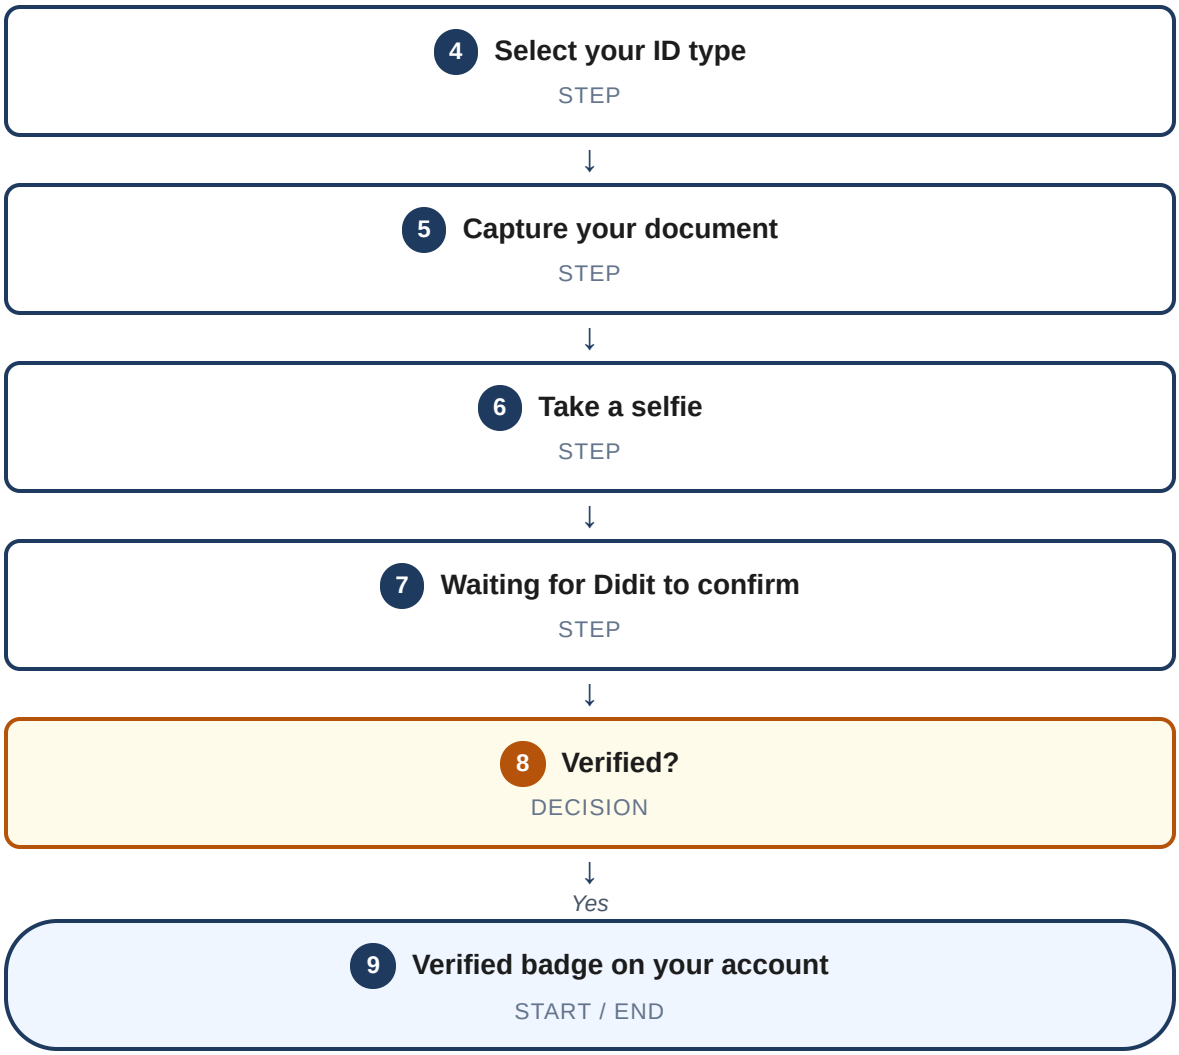

Verify your identity with a government ID and a selfie so bookings, payments, and approvals trust your account.

## Before you start

1. Be signed in to your OxSteed account.
2. Have a government ID (passport, driver's license, or national ID) and a camera ready.

## Process map

- *Failed:* Verified? → Try again with a clearer photo
- Try again with a clearer photo → Select your ID type
- *Skip for now:* Read the verification benefits → Verify later (skip)
- *Return later:* Verify later (skip) → Open identity verification

**Text version.** 1. Open /verify-identity and read the benefits: better marketplace trust, safer payments, and smoother approvals. 2. Choose "Start Verification". 3. Select your ID type: passport, driver's license, or national ID. 4. Capture your document with your camera, front and back if needed. 5. Take a selfie for the live face match. 6. Wait while Didit confirms your identity. If verification fails, try again with a clearer photo and good lighting. You may also choose "Verify later" to skip and return another time.

## Steps

### Step 1: Open the identity verification page

Open /verify-identity while signed in. The page shows a "Secure verification" badge and the heading "Verify once. Work, hire, and get paid with more confidence." The card lists the steps: "1. Account" (already done) and "2. Identity Verification".

> **Expected result:** The verification card loads with the Didit panel and a "Start Verification" button.

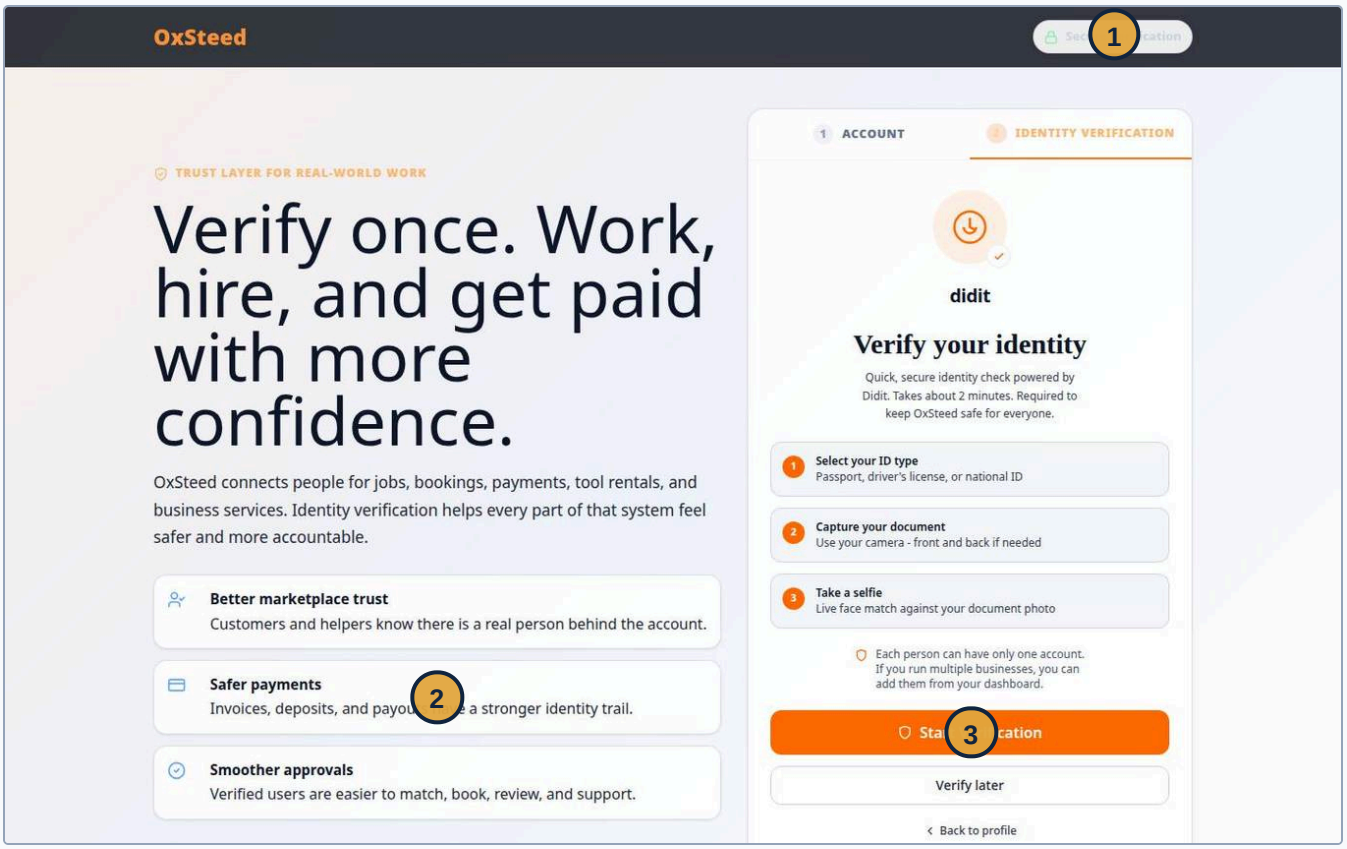

**Figure 1.** The identity verification page, desktop view. *(Image description: Verify your identity page with benefits and the start button)*

1. **1.** Secure verification badge
2. **2.** Benefits list
3. **3.** Start Verification button

## Step 2: Select your ID type and start

Choose "Start Verification". The panel shows "Select your ID type" with the hint "Passport, driver's license, or national ID". Pick the document you have.

> **Expected result:** The document capture step appears: "Capture your document".

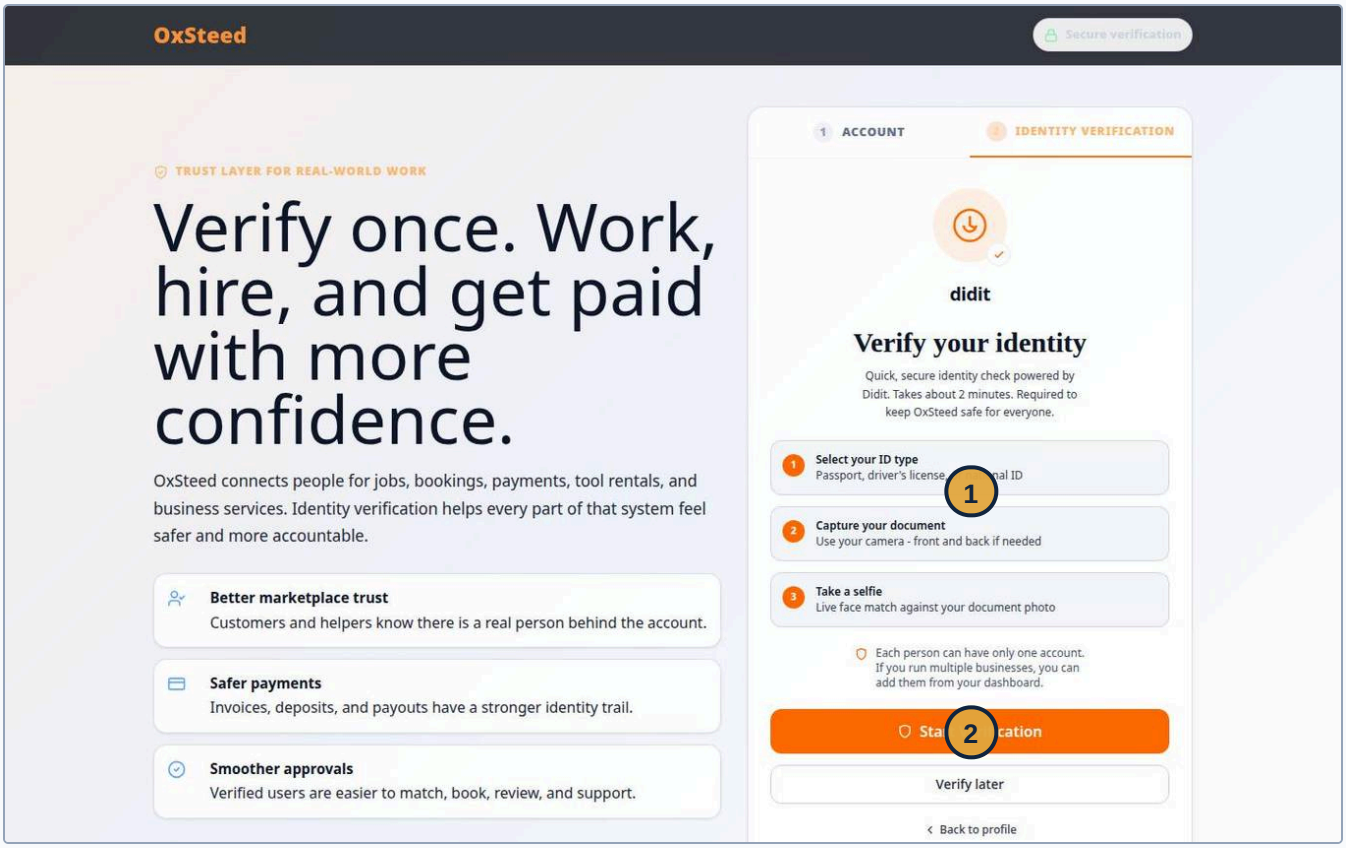

**Figure 2.** Select the ID type you will verify with. *(Image description: ID type selection options in the verification panel)*

1. **1.** Select your ID type
2. **2.** ID options

## Step 3: Capture your document and take a selfie

Follow "Capture your document" with the hint "Use your camera - front and back if needed". Then complete "Take a selfie" with the hint "Live face match against your document photo". Use good lighting and hold the camera steady. When everything is captured, the panel shows "Verifying..." with the note "Waiting for Didit to confirm your identity. This usually takes a few seconds."

> **Expected result:** The panel shows "Verifying..." while Didit processes your identity.

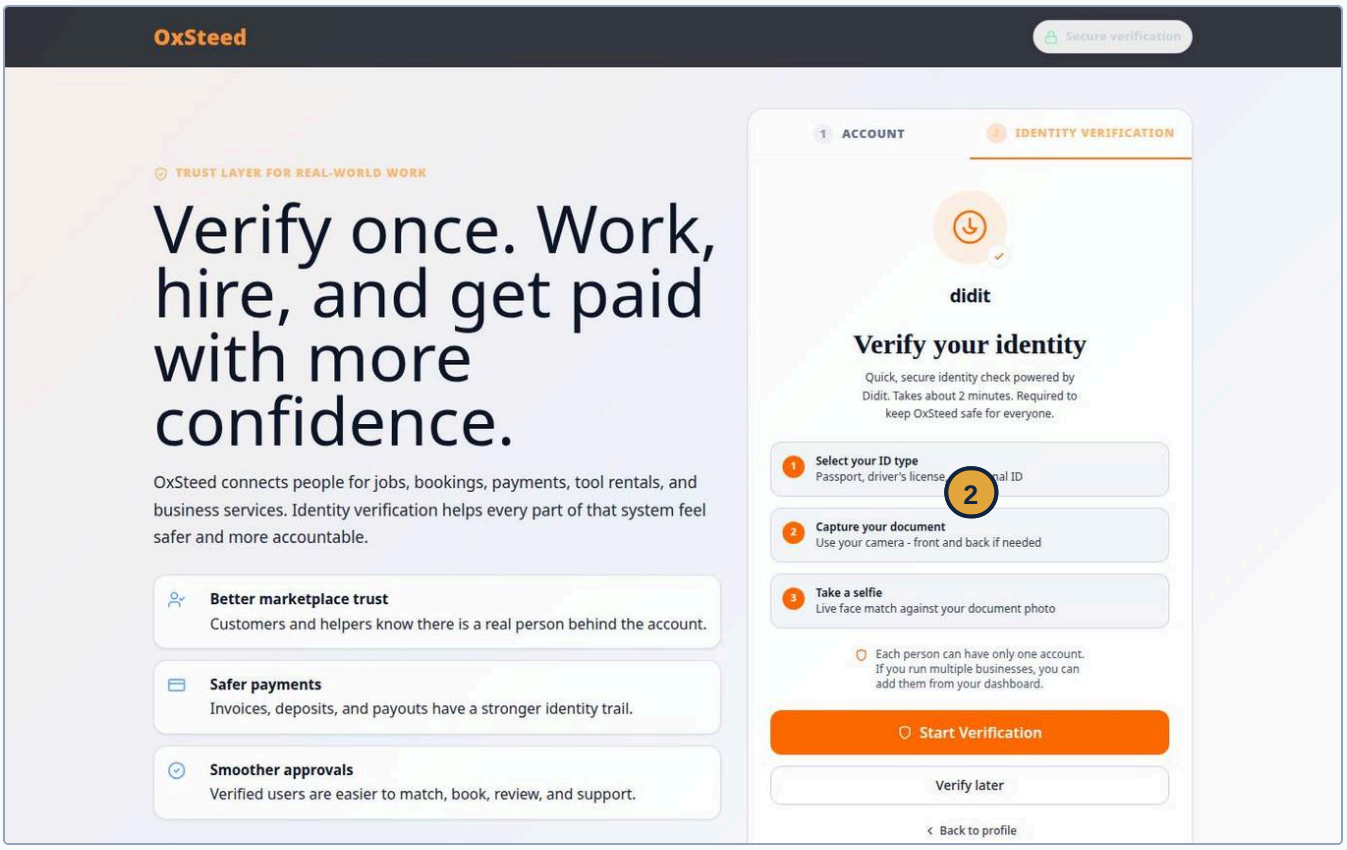

**Figure 3.** Capture your document, then take the selfie. *(Image description: Document capture step with camera instructions)*

1. **1.** Capture your document
2. **2.** Take a selfie

### Step 4: Finish and confirm your verified status

When Didit approves, the panel confirms verification and shows "Continue to Dashboard". Choose it. If verification fails, the panel shows "Verification Failed" with guidance to try again; choose "Try with a different ID" only if your document type was the problem. Skipping is allowed: "Verify later" continues without verification and shows the "Continuing without verification" toast.

> **Expected result:** You return to your dashboard with identity verified on your account.

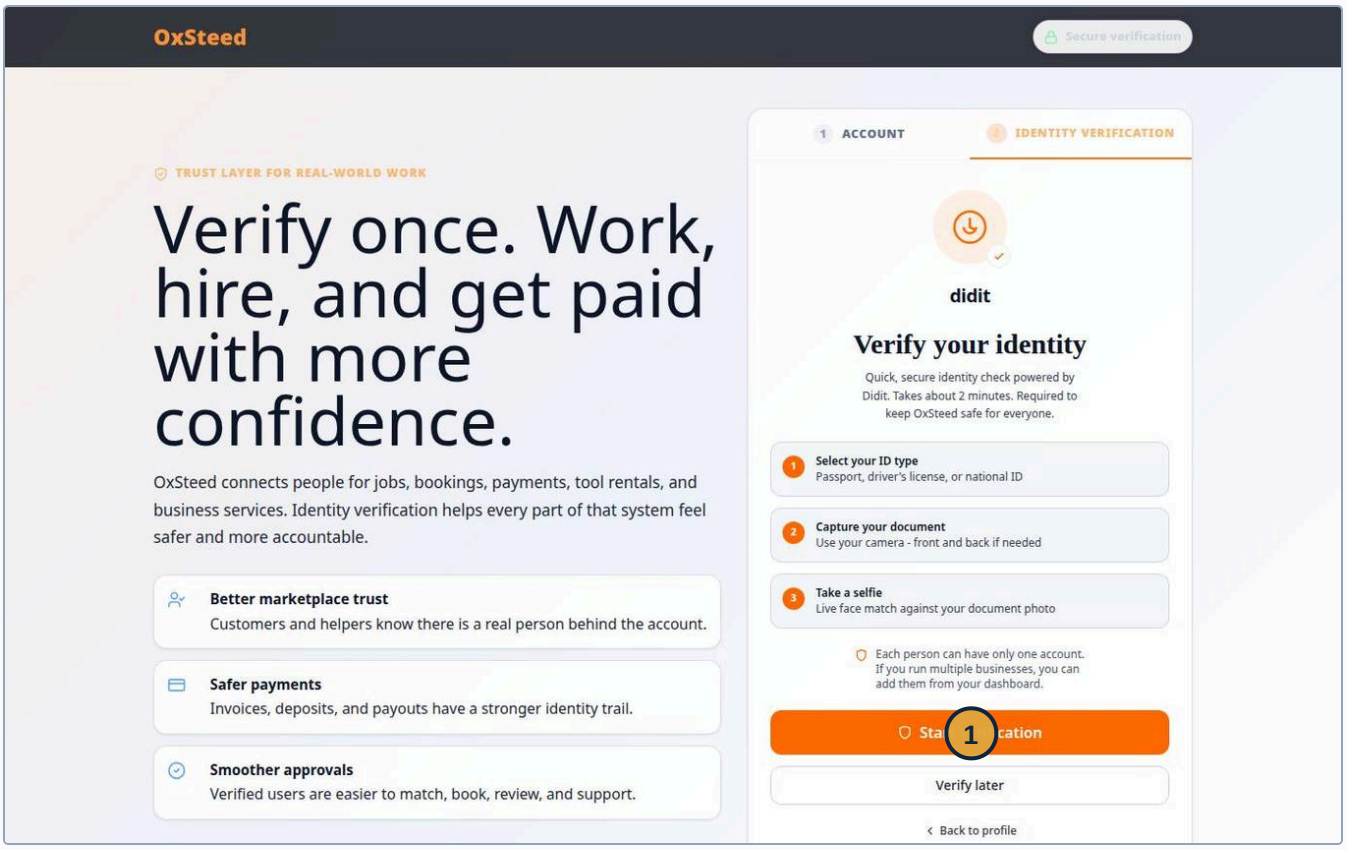

**Figure 4.** The approved state with the Continue button. *(Image description: Verification approved panel with Continue to Dashboard)*

1. **1.** Continue to Dashboard button

## Confirm it worked

Your account shows the verified identity state; helpers also get listed faster and the onboarding checklist marks "Identity verified" as done.

## If something goes wrong

| Problem | What to do |
| --- | --- |
| Verification fails repeatedly. | Use a clear, uncreased photo of the ID in good lighting, remove glare, and make sure the selfie matches the document photo. Try again with better lighting. |
| You see "Account Already Exists" (This identity is already linked to an existing OxSteed account). | Each person can have only one account. Sign in to that account instead of creating a new one; run multiple businesses from the same dashboard. |
| The verification cannot start ("Could not start verification"). | Reload the page and try again. If it still fails, the verification service may be unavailable; choose "Verify later" and return another time. |

## Need help?

If your ID is valid but verification keeps failing, contact support from the Help menu or visit /support.

**Guide ID:** account-join | **Revision:** 1 | **Area:** Account

SOP LIBRARY / ACCOUNT **ENGLISH**

# Create an account

| | |
|---|---|
| **Guide ID** | **account-join** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper, Business owner |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/account/join-oxsteed |

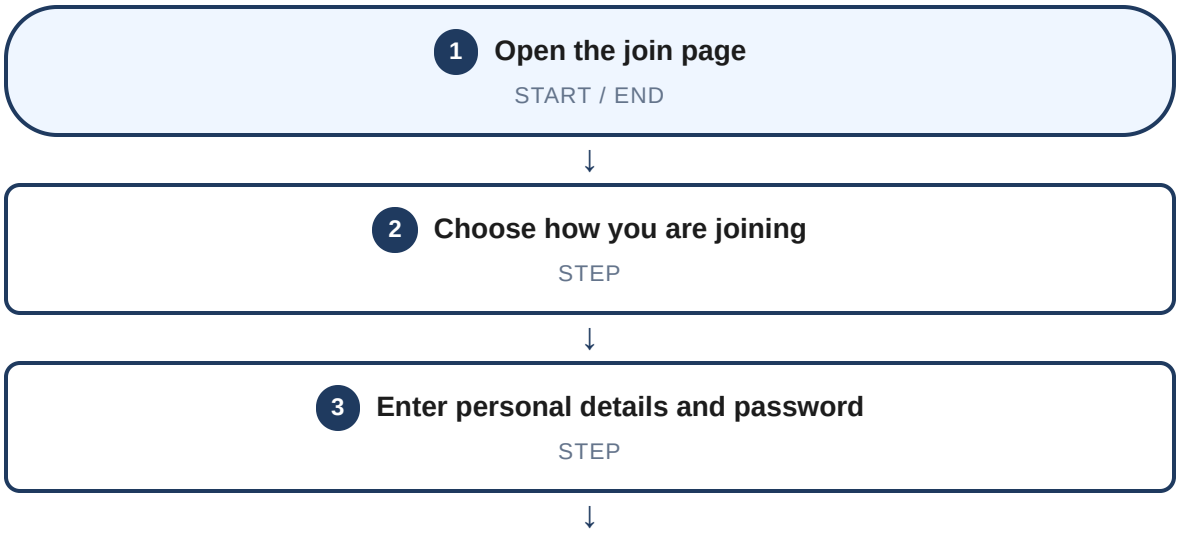

## Goal

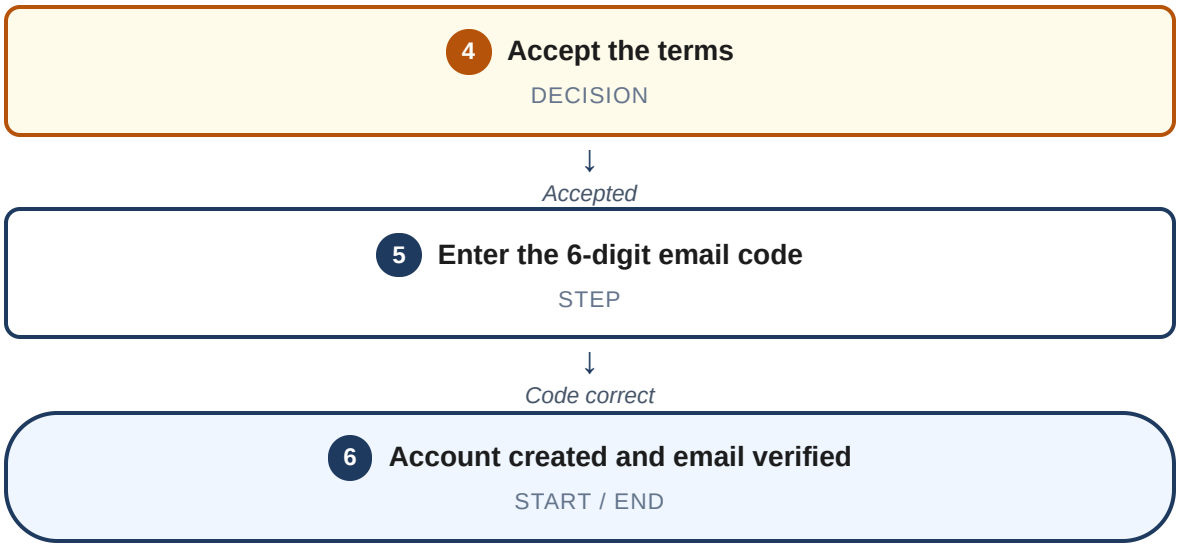

Create your OxSteed account so you can hire helpers, offer services, or run a business.

## Before you start

1. Have an email address you can open right away; you will receive a 6-digit verification code.
2. Know your ZIP code; it is used to match you with nearby helpers and jobs.

## Process map

- *Not accepted:* Accept the terms → Enter personal details and password
- *No code received:* Enter the 6-digit email code → Resend the code or edit details
- Resend the code or edit details → Enter the 6-digit email code

**Text version.** 1. Open the Join OxSteed page. 2. Under "I'm joining as", pick Customer, Helper, or Business Owner. 3. Enter your personal details and a password. 4. Accept the terms to continue. 5. Open the email OxSteed sent you and enter the 6-digit code. If the code never arrives, use "Resend code" or "Wrong email or phone? Edit details". 6. Your account is created and your email is verified.

# Steps

## Step 1: Open the join page and choose how you are joining

Choose Join in the top navigation, or open /join directly. The page heading is "Join OxSteed" with the subtitle "One account. Pick how you want to show up." Under "I'm joining as", select one of the mode cards: Customer ("Post jobs, hire helpers, shop the marketplace."), Helper ("Offer services, bid on jobs, build your reputation."), or Business Owner ("Run a service business with clients, invoices, and a team.").

> **Expected result:** The mode card you picked shows a check mark as the selected mode.

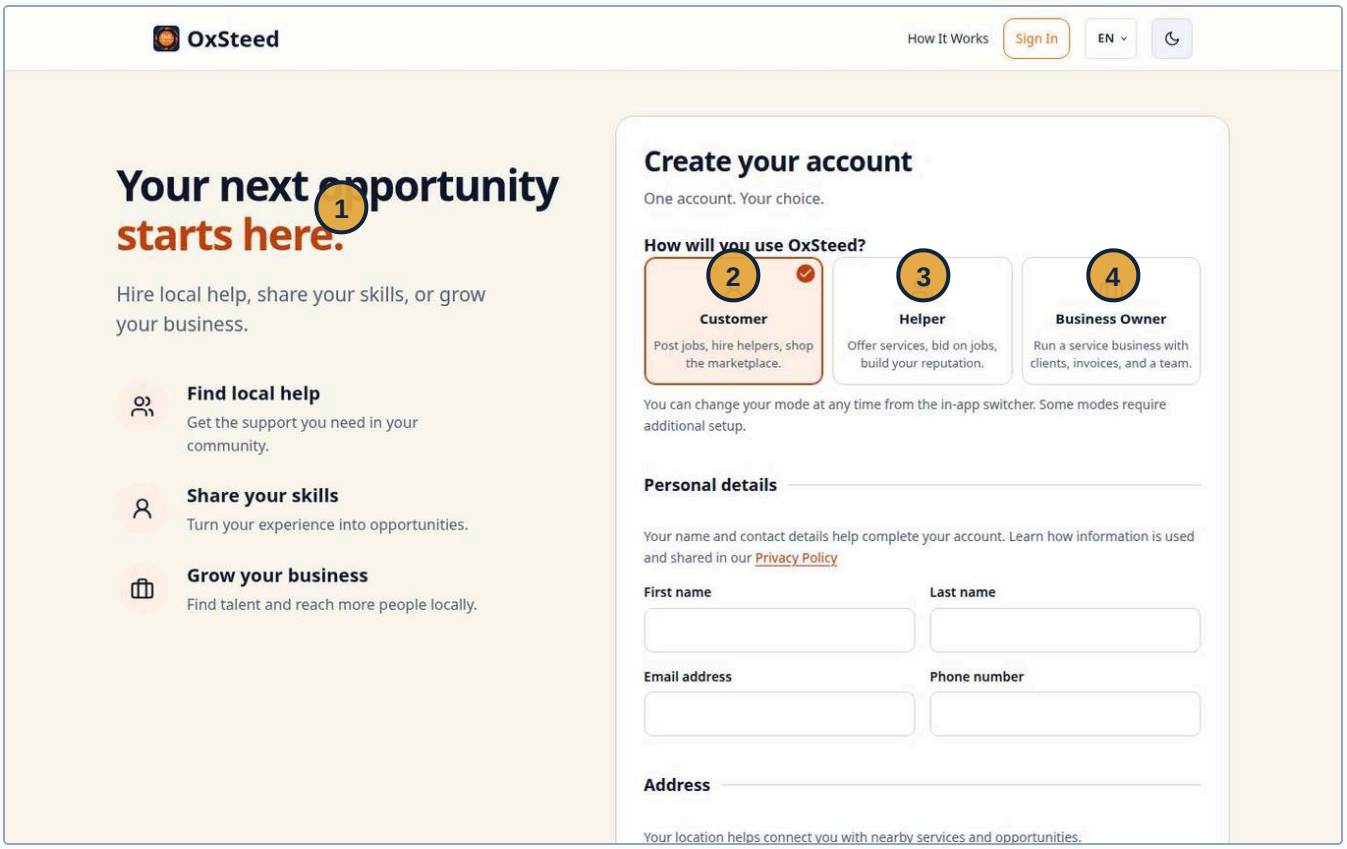

**Figure 1.** Choose how you are joining before you fill in the form. *(Image description: Join OxSteed page with the three mode cards visible)*

1. **1.** Join OxSteed heading
2. **2.** Customer card
3. **3.** Helper card
4. **4.** Business Owner card

## Step 2: Enter your personal details and a password

Fill in First name, Last name, Email address, and Phone number. Then complete the address section: Country, Street address, City, State, and ZIP code. Choose a password in the password field (a show-password toggle is available). Email availability is checked as you type.

> **Expected result:** Every field shows an entered value and no red validation errors.

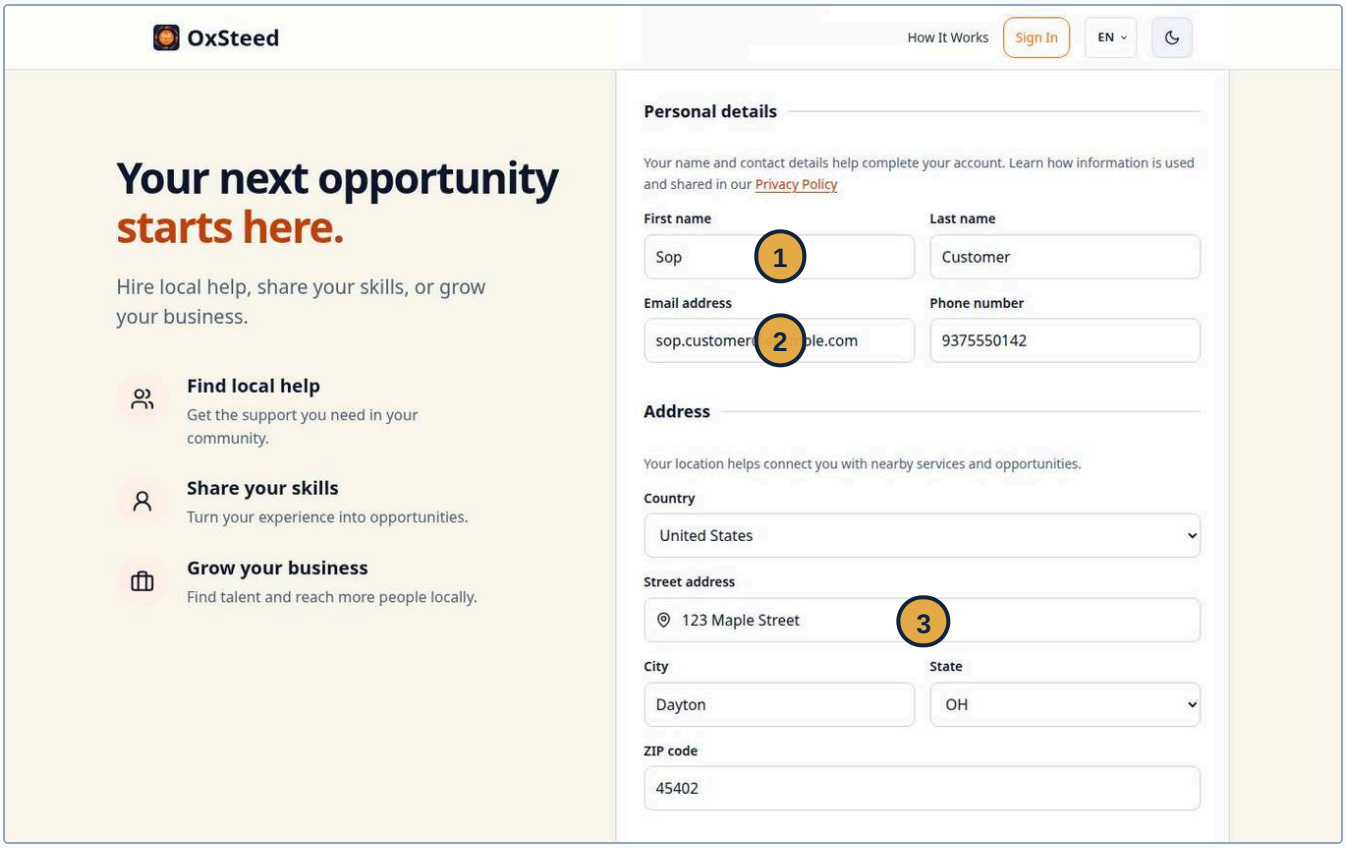

**Figure 2.** The personal details section of the join form. *(Image description: Join form with personal details and address fields filled in)*

1. **1.** First name and Last name
2. **2.** Email address
3. **3.** Address fields

## Step 3: Accept the terms and continue

Tick the checkbox next to "I agree to OxSteed's" terms and privacy links, then choose Continue. Without the checkbox ticked, the form will not submit.

> **Expected result:** The form submits and the "Check your email" step appears.

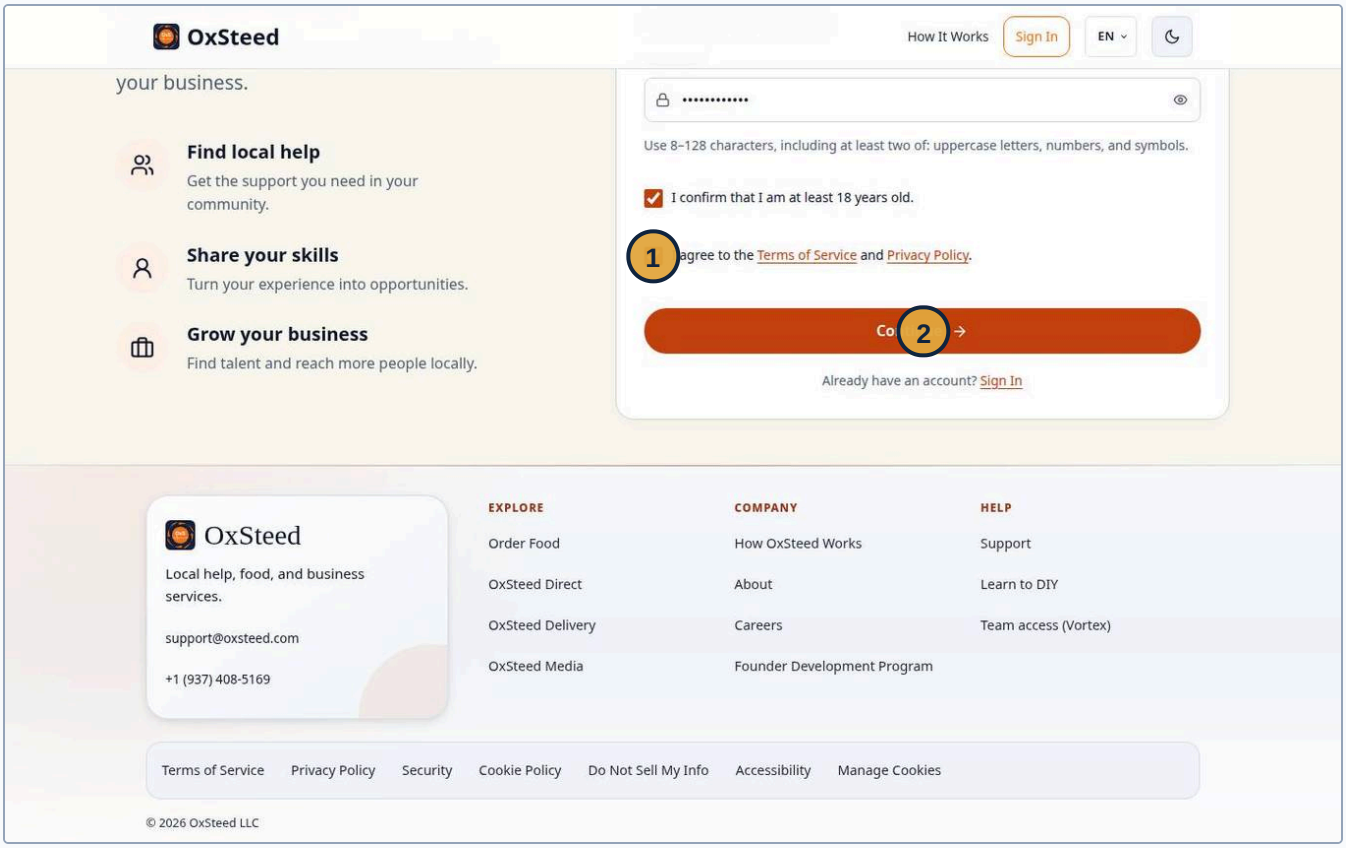

**Figure 3.** Accept the terms, then choose Continue. *(Image description: Terms acceptance checkbox and Continue button on the join form)*

1. **1.** Terms checkbox
2. **2.** Continue button

### Step 4: Verify your email with the 6-digit code

The page now shows "Check your email" with the hint "We sent a 6-digit code to" your address. Open the email and type the code into the code boxes, then choose "Verify Email & Continue". If nothing arrives, choose "Resend code". If you typed the wrong address, choose "Wrong email or phone? Edit details" to go back and fix it.

> **Expected result:** The code is accepted and you are signed in to your new account.

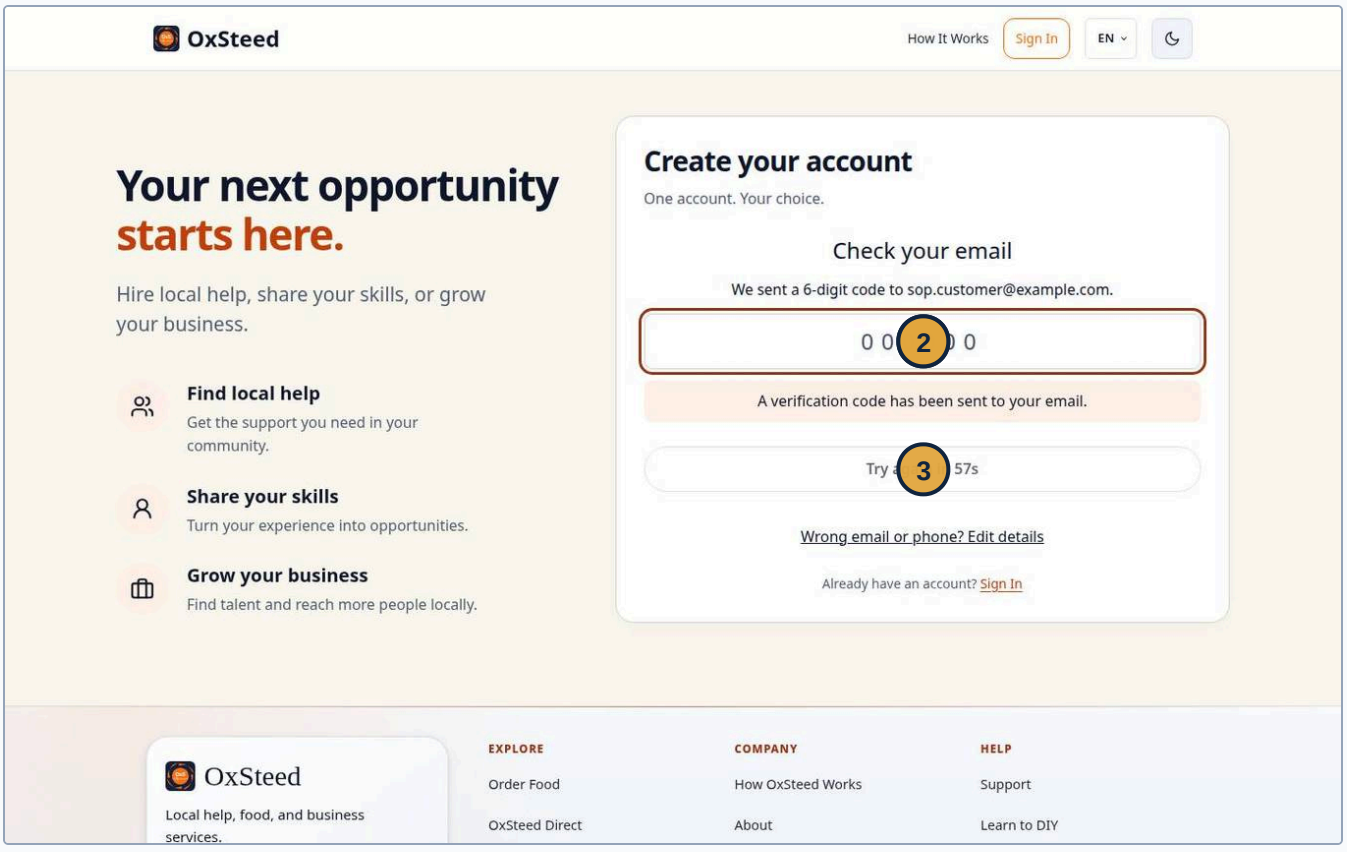

**Figure 4.** Enter the 6-digit code from your email. *(Image description: Check your email step with code boxes and verify button)*

1. **1.** Code entry boxes
2. **2.** Verify Email & Continue
3. **3.** Resend code link

## Confirm it worked

You land on your dashboard, signed in, and your email shows as verified. Your selected mode (Customer, Helper, or Business Owner) is active.

## If something goes wrong

| Problem | What to do |
| --- | --- |
| The email address is reported as already taken. | That address already has an OxSteed account. Use the sign-in guide instead, or choose "Forgot password?" if you cannot get in. |
| The 6-digit code never arrives. | Check your spam folder, confirm the address is spelled correctly with "Wrong email or phone? Edit details", then choose "Resend code". Wait a few minutes before requesting again. |
| The Continue button does nothing. | Look for a highlighted field: the terms checkbox must be ticked, and every required field must be filled. The ZIP code must be valid. |

## Need help?

If you cannot create an account after retrying, contact support from the Help menu or visit /support.

SOP LIBRARY / ACCOUNT **ENGLISH**

# Switch between customer, helper, business and other modes

| | |
|---|---|
| **Guide ID** | **account-mode-switching** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper, Business owner, Restaurant, Logistics |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/account/switch-modes |

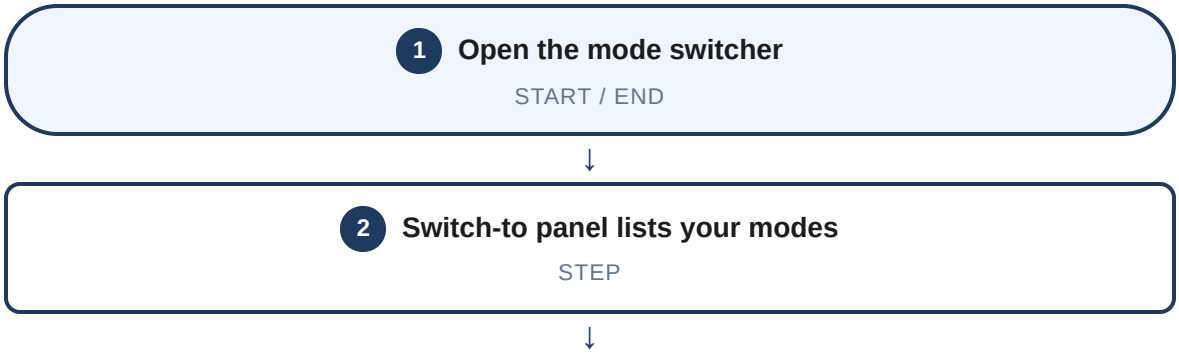

## Goal

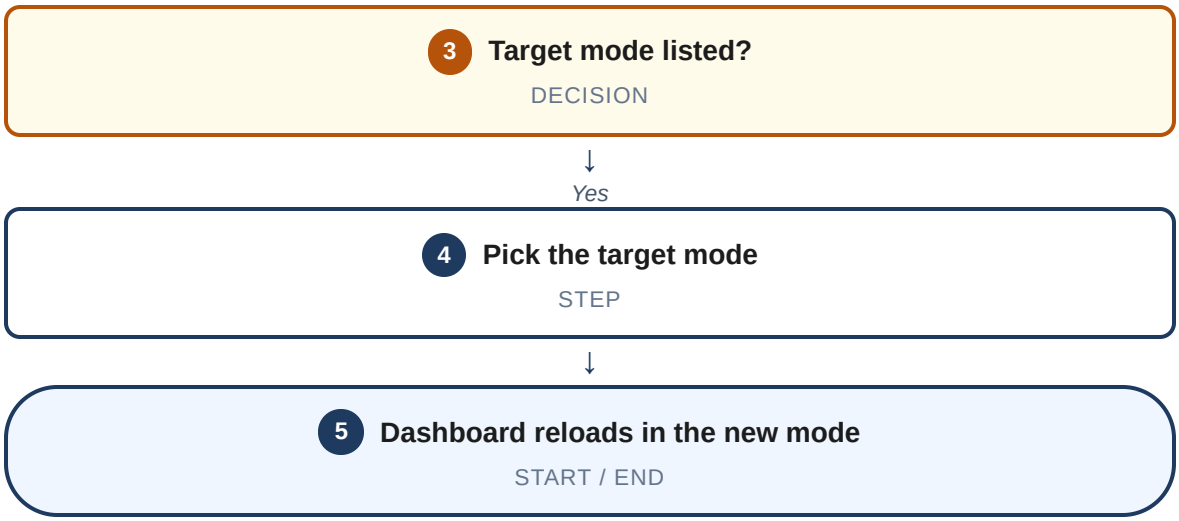

Switch between the modes you belong to (Customer, Helper, Business Owner and granted team modes) without signing out.

## Before you start

1. Be signed in to your OxSteed account.
2. Granted modes (business team roles) require a workspace invitation; they do not appear until you accept it.

## Process map

- *No:* Target mode listed? → Request or accept a workspace invitation
- *After grant accepted:* Request or accept a workspace invitation → Switch-to panel lists your modes

**Text version.** 1. In the top navigation, choose the mode button that shows "Mode" and your current mode. 2. The "Switch to" panel lists every mode available to you; your current mode carries a "Current" badge. 3. Choose the mode you want. The button briefly shows "Switching..." and a "Switched to" toast confirms it. 4. Your dashboard reloads for the new mode. If a mode is missing, it is granted by a workspace owner; accept the invitation first.

# Steps

## Step 1: Open the mode switcher in the navigation

Find the mode switcher button in the top navigation: it shows the label "Mode" with your current mode name next to a colored dot. Choose it to open the switcher panel.

> **Expected result:** The "Switch to" panel opens beneath the button.

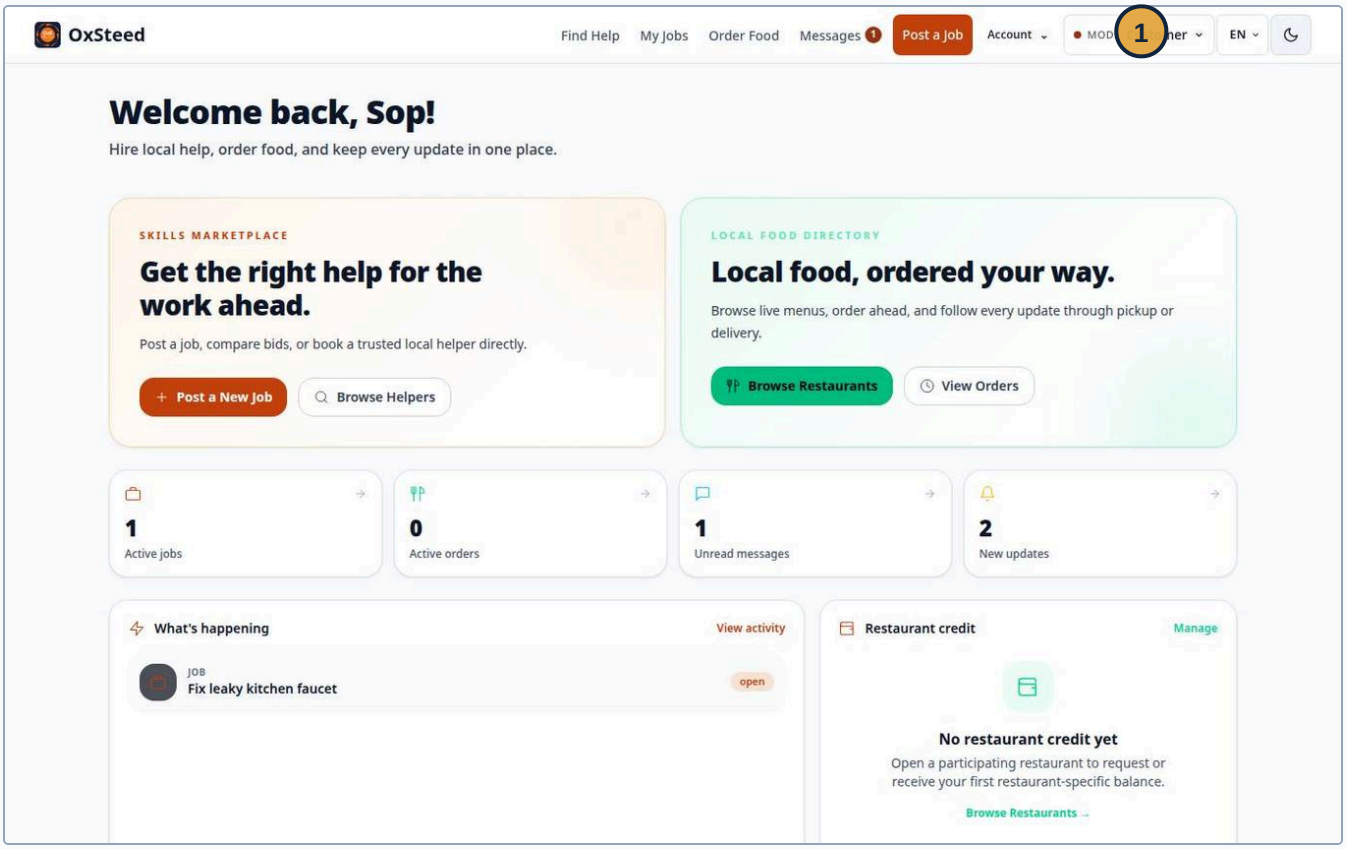

**Figure 1.** The mode switcher in the top navigation. *(Image description: Top navigation with the mode switcher button highlighted)*

1. **1.** Mode switcher button

## Step 2: Pick the mode you want to use

The panel is titled "Switch to" and lists your available modes: self-selectable modes such as Customer, Helper, and Business Owner, plus any granted modes (business team roles) a workspace owner gave you. Your current mode shows a "Current" badge and is disabled. Choose the target mode row; it briefly shows "Switching...".

> **Expected result:** A "Switched to" toast confirms the change and the dashboard reloads.

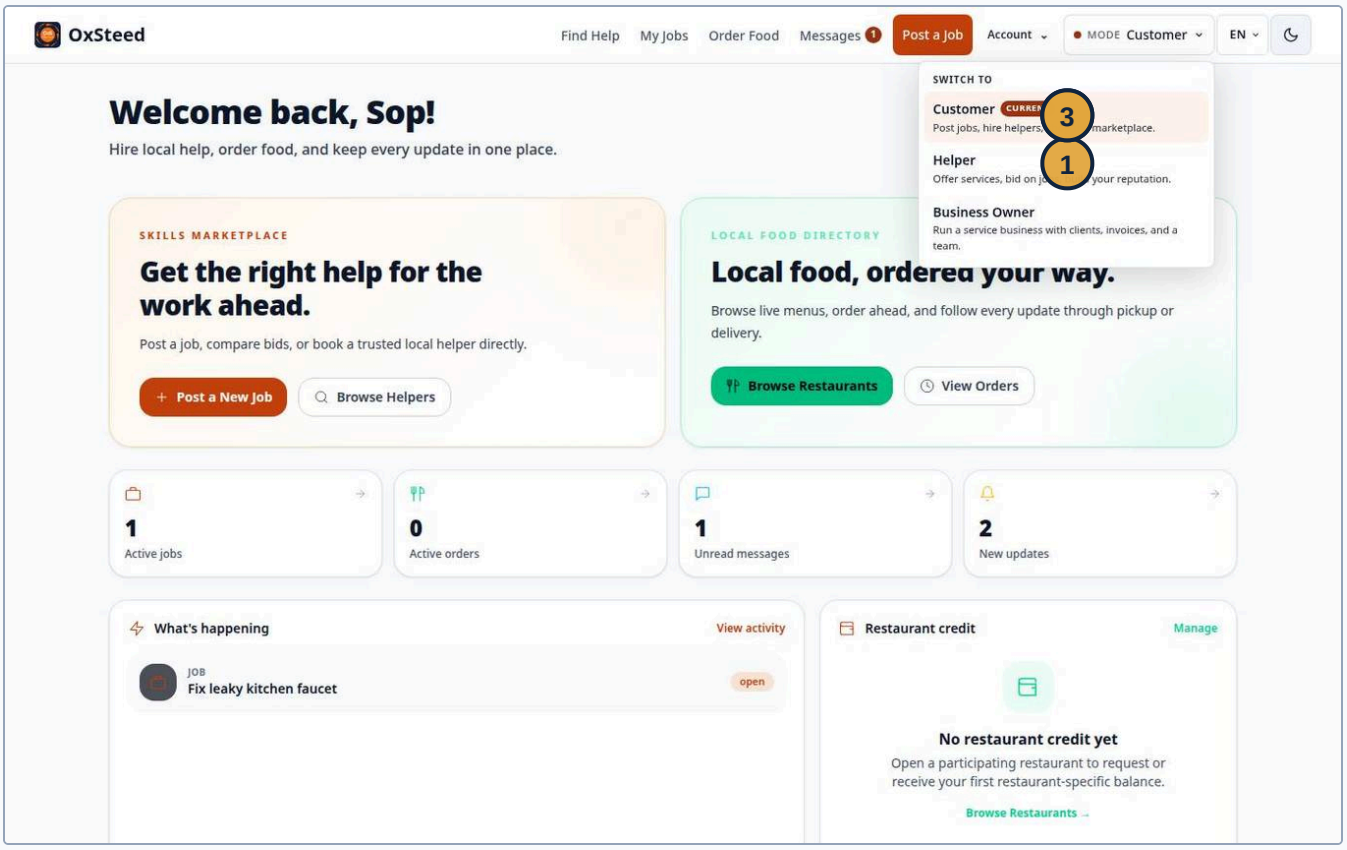

**Figure 2.** The Switch to panel with your available modes. *(Image description: Switch to panel listing available modes with a Current badge)*

1. **1.** Switch to panel
2. **2.** Current badge
3. **3.** Target mode row

### Step 3: Confirm the new mode is active

The mode button in the navigation now shows the new mode name, and the dashboard renders that mode's home screen (for example, Helper shows the helper dashboard). If the wrong dashboard appears, your effective mode may fall back to your original account type; check Settings, Account Type.

> **Expected result:** The navigation shows the new mode and the dashboard matches it.

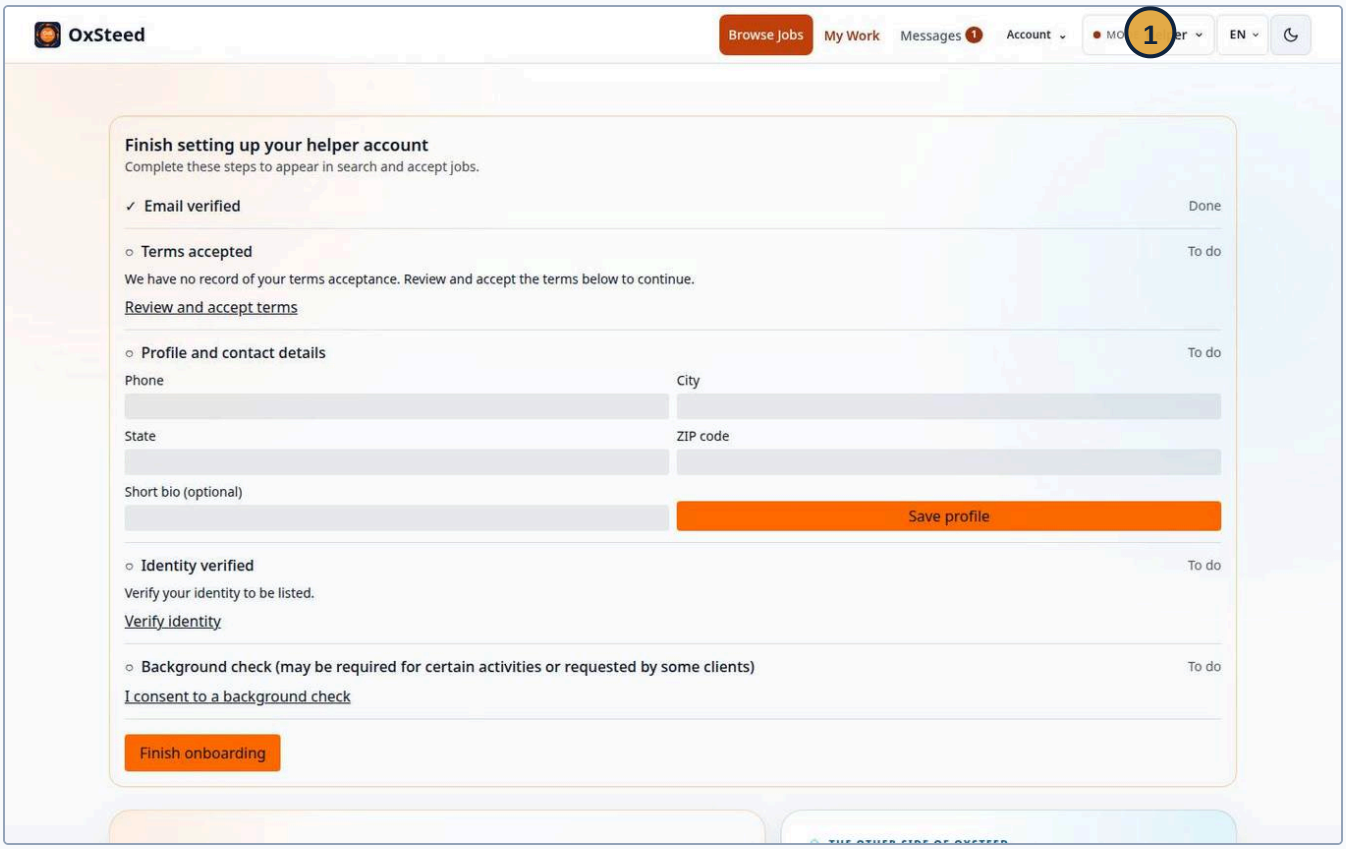

**Figure 3.** The switcher confirms the new active mode. *(Image description: Dashboard with the mode switcher showing the new mode)*

1. **1.** New current mode

## Confirm it worked

The mode button shows the new mode and the dashboard content matches it. A "Switched to" toast appeared at the moment of switching.

## If something goes wrong

| Problem | What to do |
| --- | --- |
| The mode you want is not listed. | Self-selectable modes are Customer, Helper, and Business Owner. Business team roles (Manager, Representative, Employee) are granted, not self-selected: a workspace owner must invite you and you must accept the invitation. |
| You see "Could not switch." | Reload the page and try again. If it persists, sign out and back in; your granted roles are reloaded on sign in. |

## Need help?

If a granted mode never appears after you accepted an invitation, contact support from the Help menu or visit /support.

SOP LIBRARY / ACCOUNT **ENGLISH**

# Complete helper or business onboarding

| | |
|---|---|
| **Guide ID** | **account-onboarding** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Helper, Business owner |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/account/complete-onboarding |

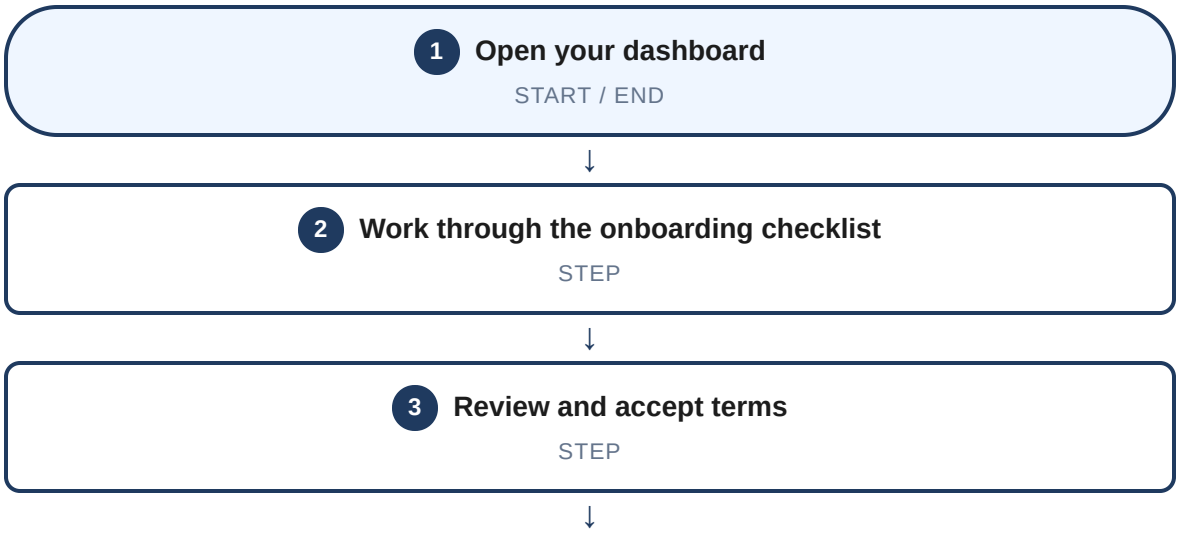

## Goal

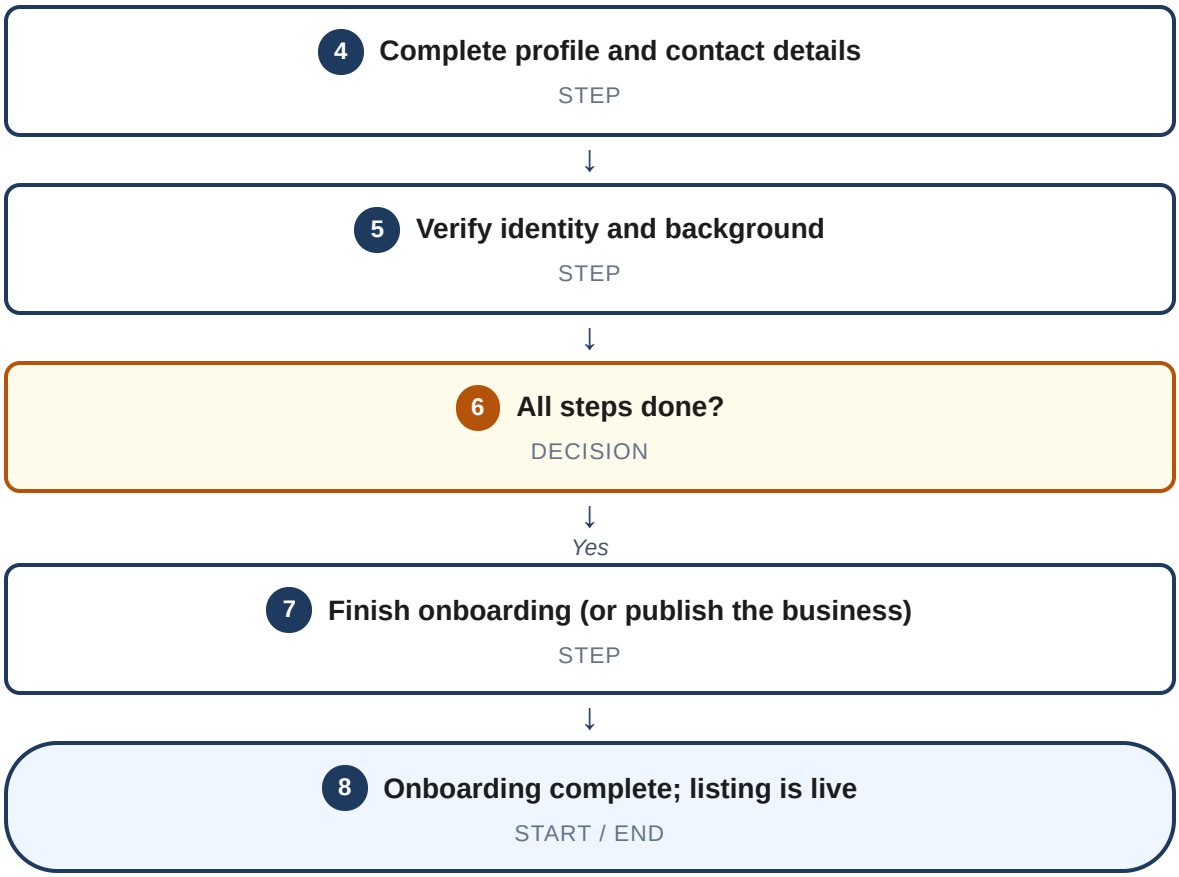

Finish onboarding so you appear in search results and can bid, list services, or publish your business.

## Before you start

1. Be signed in with the Helper or Business Owner mode active.
2. Helpers: complete identity verification first.

## Process map

- *No:* All steps done? → Complete the highlighted step
- Complete the highlighted step → All steps done?

**Text version.** 1. Open your dashboard to see the onboarding checklist. 2. Review and accept the terms. 3. Fill in your profile and contact details (phone, city, state, ZIP code, bio) and save. 4. Verify your identity and consent to the background check. 5. When every step shows "Done", choose "Finish onboarding" (helpers) or "Publish" (businesses). 6. Your listing goes live and you can bid on jobs or accept bookings. Businesses also track launch progress on the launch-status page.

# Steps

## Step 1: Find the onboarding checklist on your dashboard

Open your dashboard (/dashboard in Helper mode, /business-hub in Business Owner mode). Helpers see the card "Finish setting up your helper account" with the intro "Complete these steps to appear in search and accept jobs." Each step shows "To do" until it is complete.

> **Expected result:** The checklist lists the remaining onboarding steps with their current state.

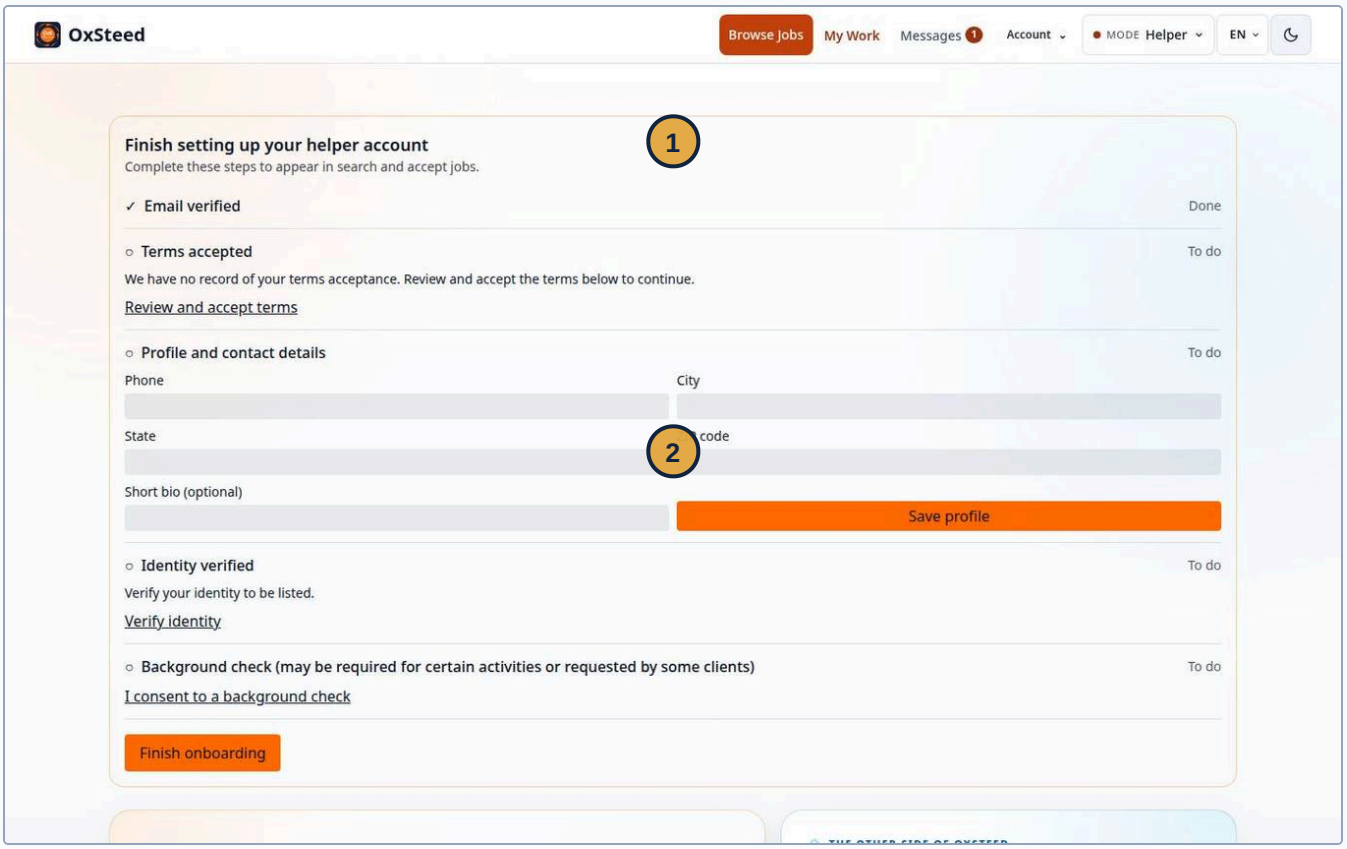

**Figure 1.** The helper onboarding checklist, desktop view. *(Image description: Finish setting up your helper account checklist on the dashboard)*

1. **1.** Finish setting up your helper account
2. **2.** Checklist steps with To do states

## Step 2: Review and accept the terms

If the "Terms accepted" row is not done, open "Review and accept terms", read the terms, and accept them. This is also where helpers who missed the signup checkbox accept terms later.

> **Expected result:** The terms row changes to "Done".

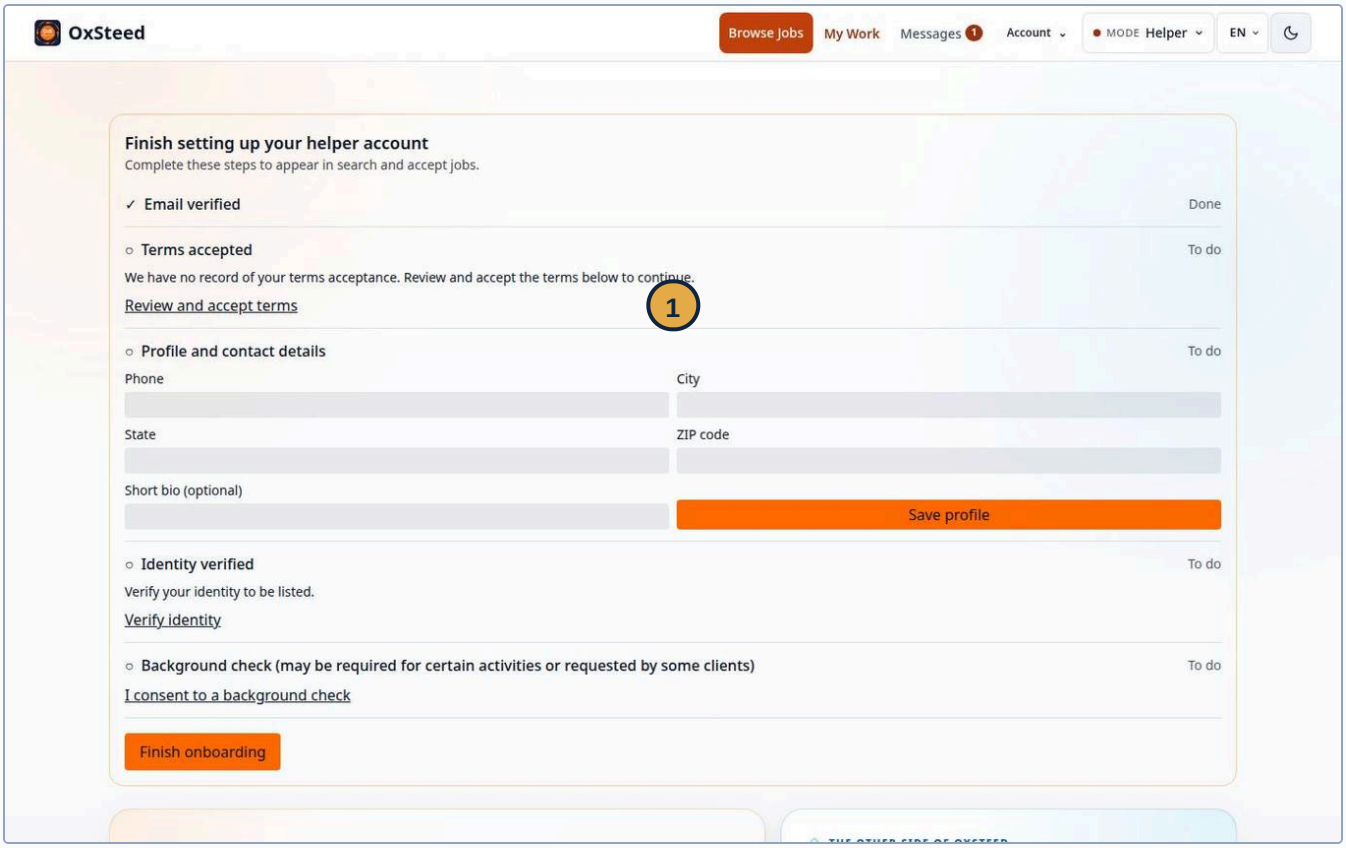

**Figure 2.** The terms acceptance step. *(Image description: Review and accept terms step in the checklist)*

1. **1.** Review and accept terms

## Step 3: Complete your profile and contact details

Open "Profile and contact details", fill in phone, city, state, ZIP code, and a short bio, then choose "Save profile". The identity step links to "Verify identity" ("Verify your identity to be listed."); complete it if it is still pending.

> **Expected result:** The profile and identity rows show "Done".

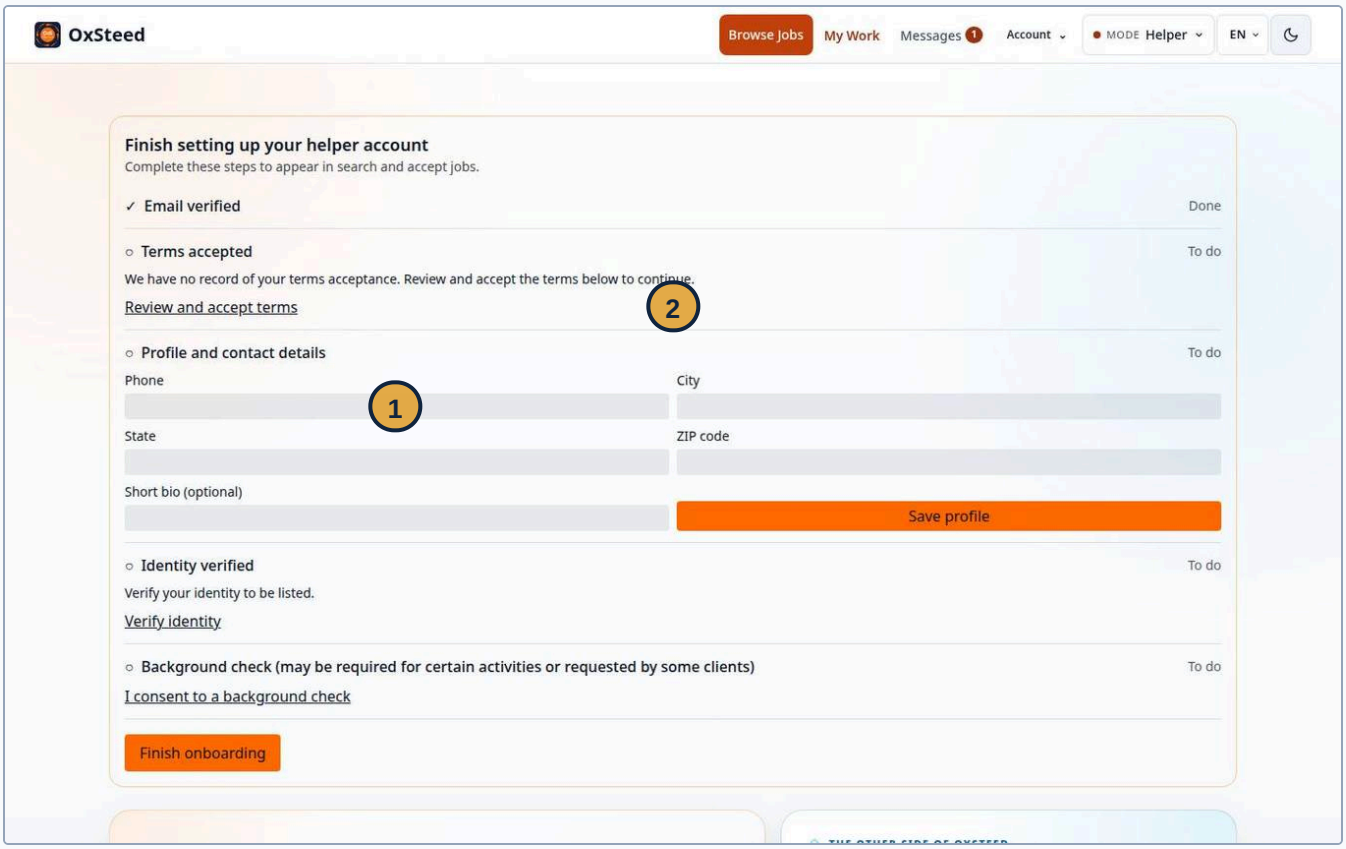

**Figure 3.** The profile details step with the Save profile button. *(Image description: Profile and contact details form with Save profile button)*

1. **1.** Contact fields
2. **2.** Save profile button

### Step 4: Finish onboarding and go live

When every row shows "Done", choose "Finish onboarding" at the bottom of the checklist. Business owners instead complete the business onboarding checks and choose "Publish" to take the business live; they can follow launch progress on /business-launch-status. Helpers who want payouts should also file a W-9 under Settings, Tax documents.

> **Expected result:** The checklist disappears and you can bid on jobs, accept bookings, or take bookings as a business.

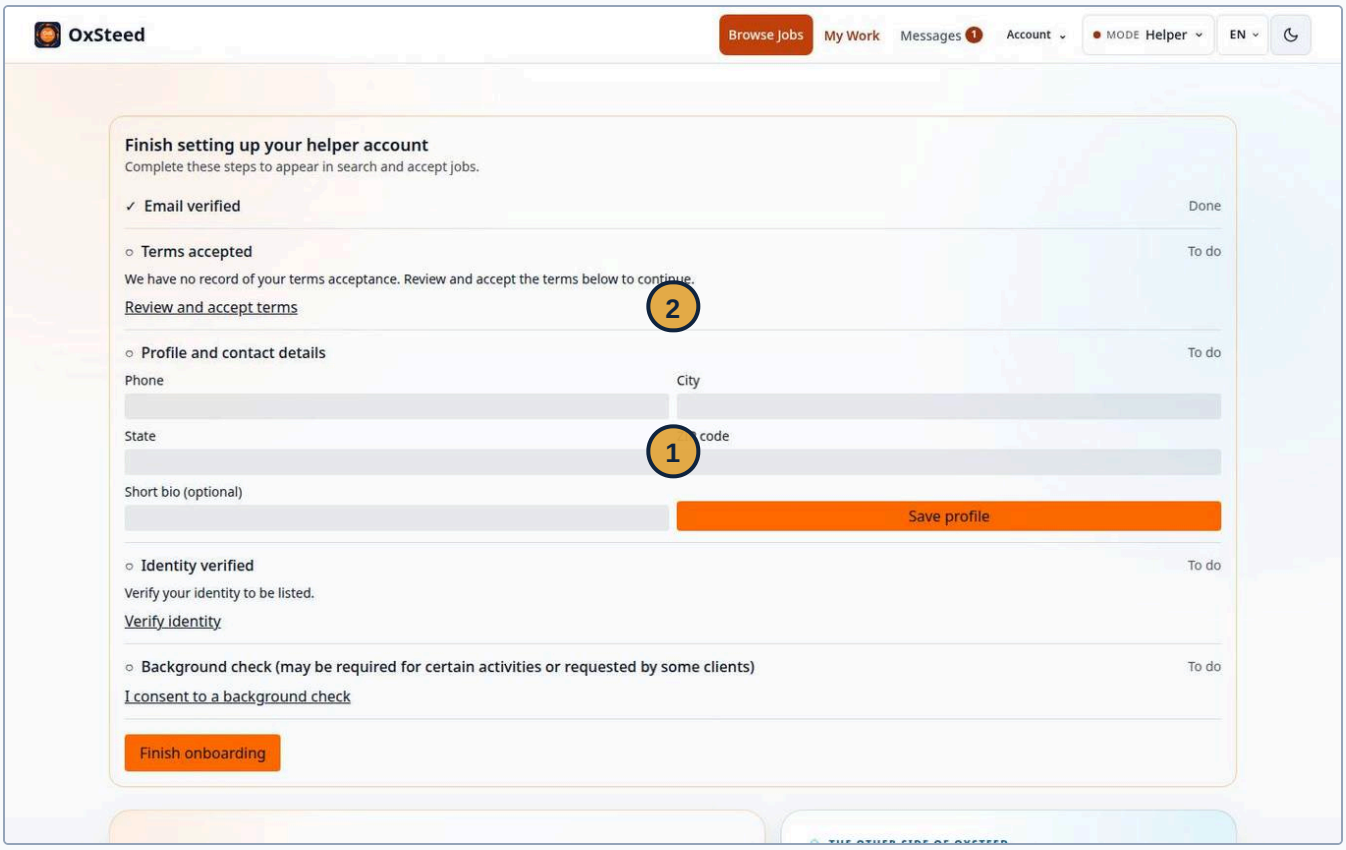

**Figure 4.** All steps done; choose Finish onboarding. *(Image description: Completed checklist with the Finish onboarding button)*

1. **1.** All steps Done
2. **2.** Finish onboarding button

## Confirm it worked

The checklist no longer appears, and you show up in the helper directory or your business is listed. Listing, bidding, and starting work are enforced on the server, so a completed onboarding is required.

## If something goes wrong

| Problem | What to do |
| --- | --- |
| A step stays on "To do" after you completed it. | Reload the page; progress is re-derived from your records. If identity shows "Your identity check is being reviewed.", wait for the review to finish. |
| You cannot bid or accept bookings yet. | Check that onboarding shows complete and that you are in Helper mode. Helpers must complete onboarding; customers can browse and post without it. |
| The business cannot publish. | Review the remaining checklist items on /business/:businessId/onboarding. Every incomplete check blocks publishing. |

## Need help?

If a step will not complete despite your records being correct, contact support from the Help menu or visit /support.

SOP LIBRARY / ACCOUNT **ENGLISH**

# Recover a forgotten password

| | |
|---|---|
| **Guide ID** | **account-password-recovery** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper, Business owner, Restaurant, Logistics |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/account/recover-password |

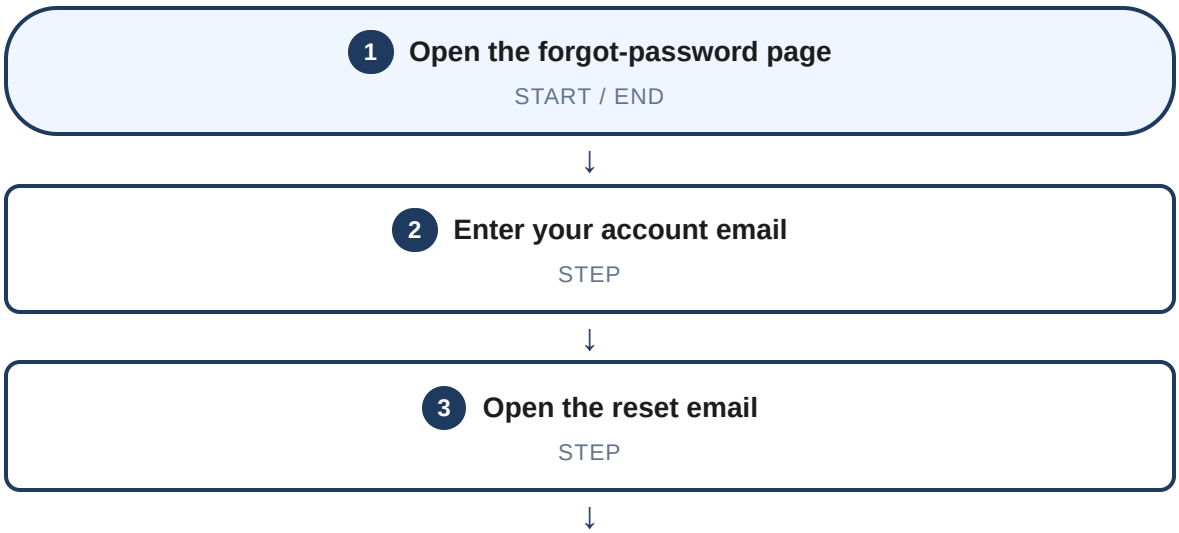

## Goal

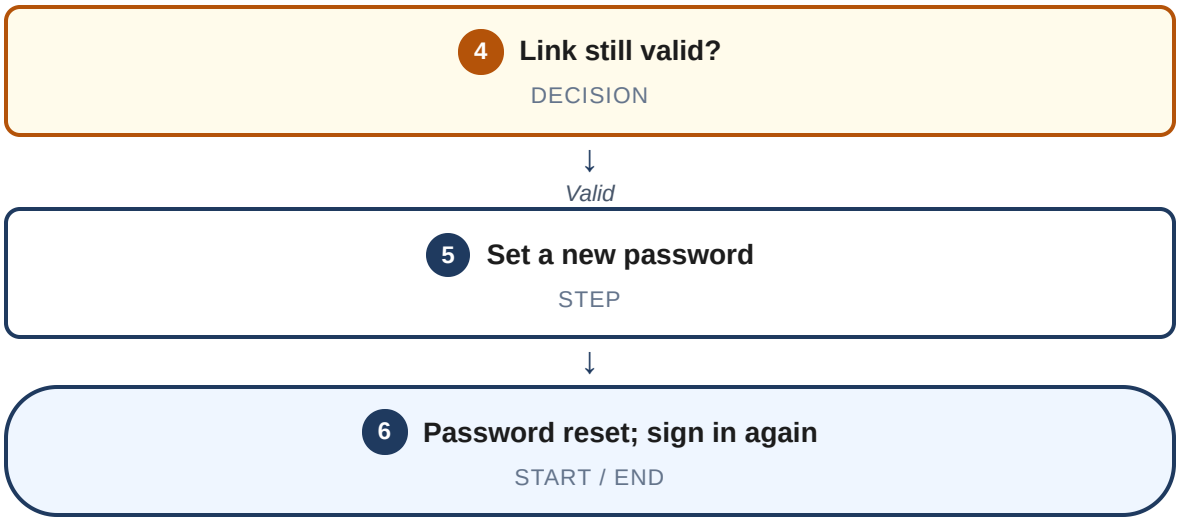

Reset your password with an email link when you cannot sign in.

## Before you start

1. Access to the email inbox of your OxSteed account.

## Process map

- *Expired or invalid:* Link still valid? → Request a new link
- Request a new link → Open the reset email

**Text version.** 1. Open the forgot-password page from the sign-in screen. 2. Enter the email address of your account and choose "Send Reset Link". 3. Open the reset email and choose the link. 4. If the link is expired or invalid, request a new one. 5. Enter a new password twice on the "Set New Password" page. 6. Sign in with the new password.

# Steps

## Step 1: Open the password reset page

From the sign-in page, choose "Forgot password?", or open /forgot-password directly. The page heading is "Reset your password" with the subtitle "Enter your email and we'll send you a link to reset your password."

> **Expected result:** The reset page shows a single Email address field and a "Send Reset Link" button.

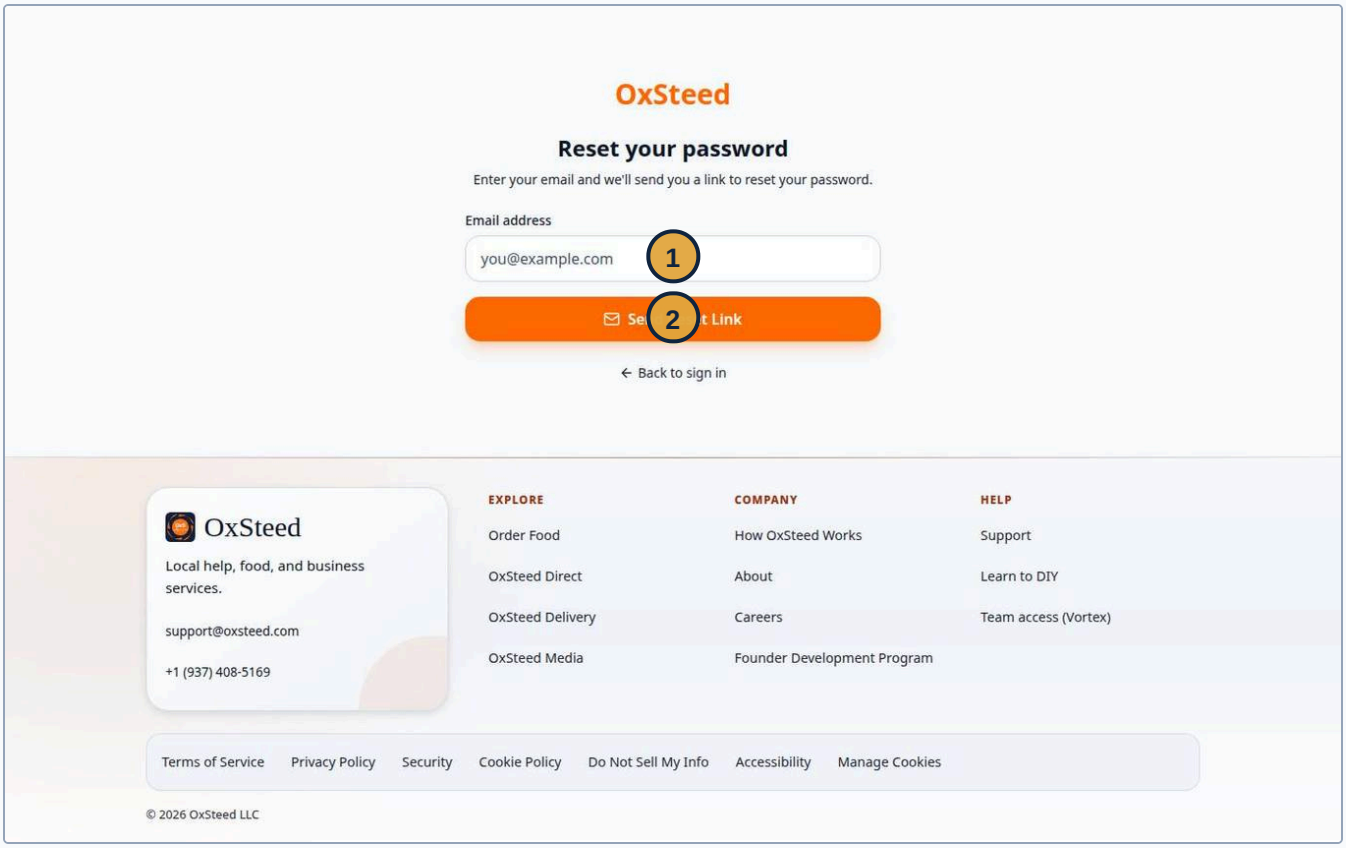

**Figure 1.** The password reset page, desktop view. *(Image description: Reset your password page with an email field and Send Reset Link button)*

1. **1.** Email address field
2. **2.** Send Reset Link button

## Step 2: Request the reset link

Type your account email address (placeholder "you@example.com") and choose "Send Reset Link". A confirmation tells you the link was sent. If you never get it, check your spam folder, then come back and choose "Try again".

> **Expected result:** A confirmation appears that the reset link was sent to your email.

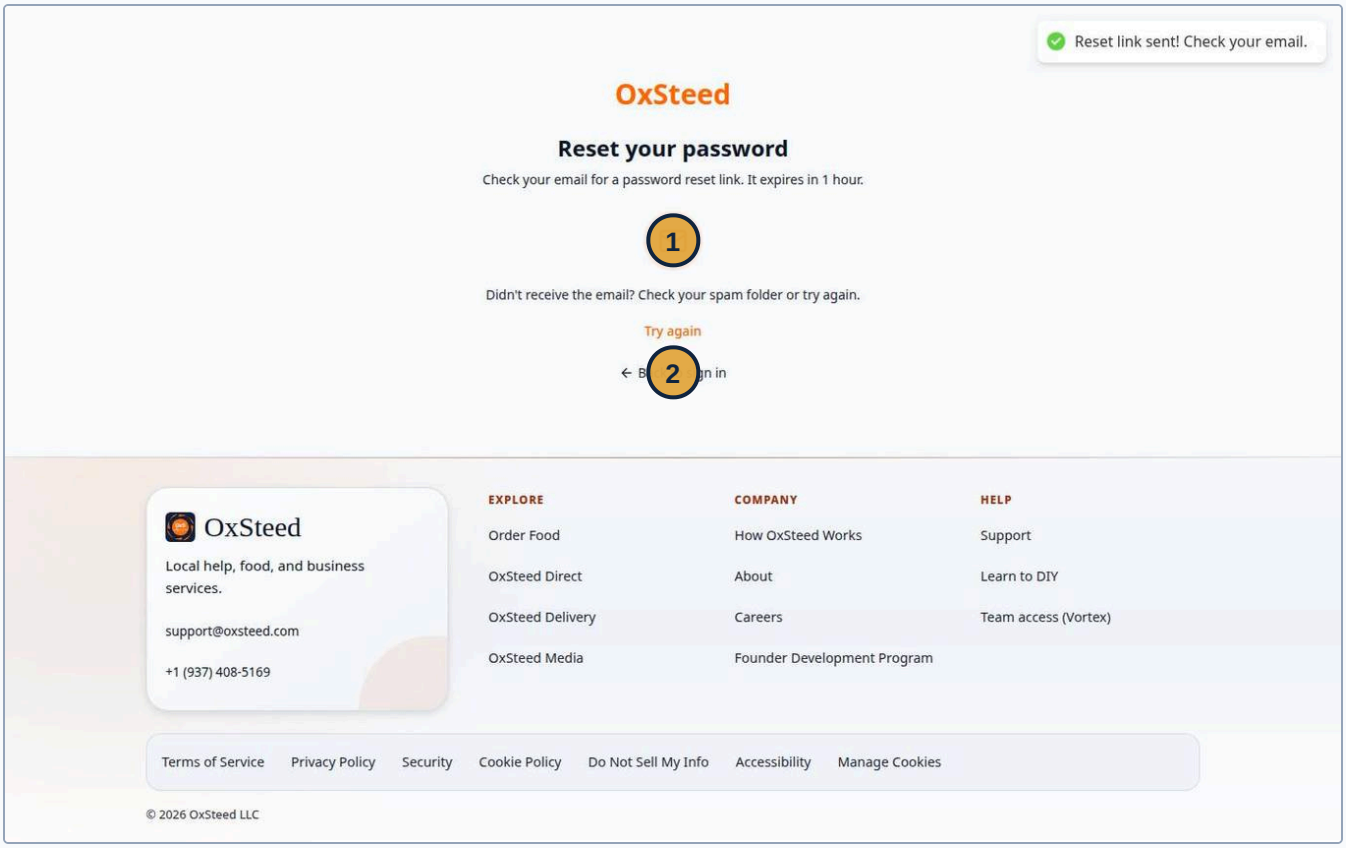

**Figure 2.** The sent confirmation after requesting the link. *(Image description: Confirmation that the reset link was sent)*

1. **1.** Sent confirmation
2. **2.** Back to sign in link

### Step 3: Set a new password from the email link

Open the email and choose the reset link, which opens /reset-password/:token. The page heading is "Set New Password". Type your new password in the New password field and repeat it in the Confirm password field, then choose "Reset Password". The new password must meet the minimum length shown.

> **Expected result:** A success message appears and a "Go to Sign In now" option is shown.

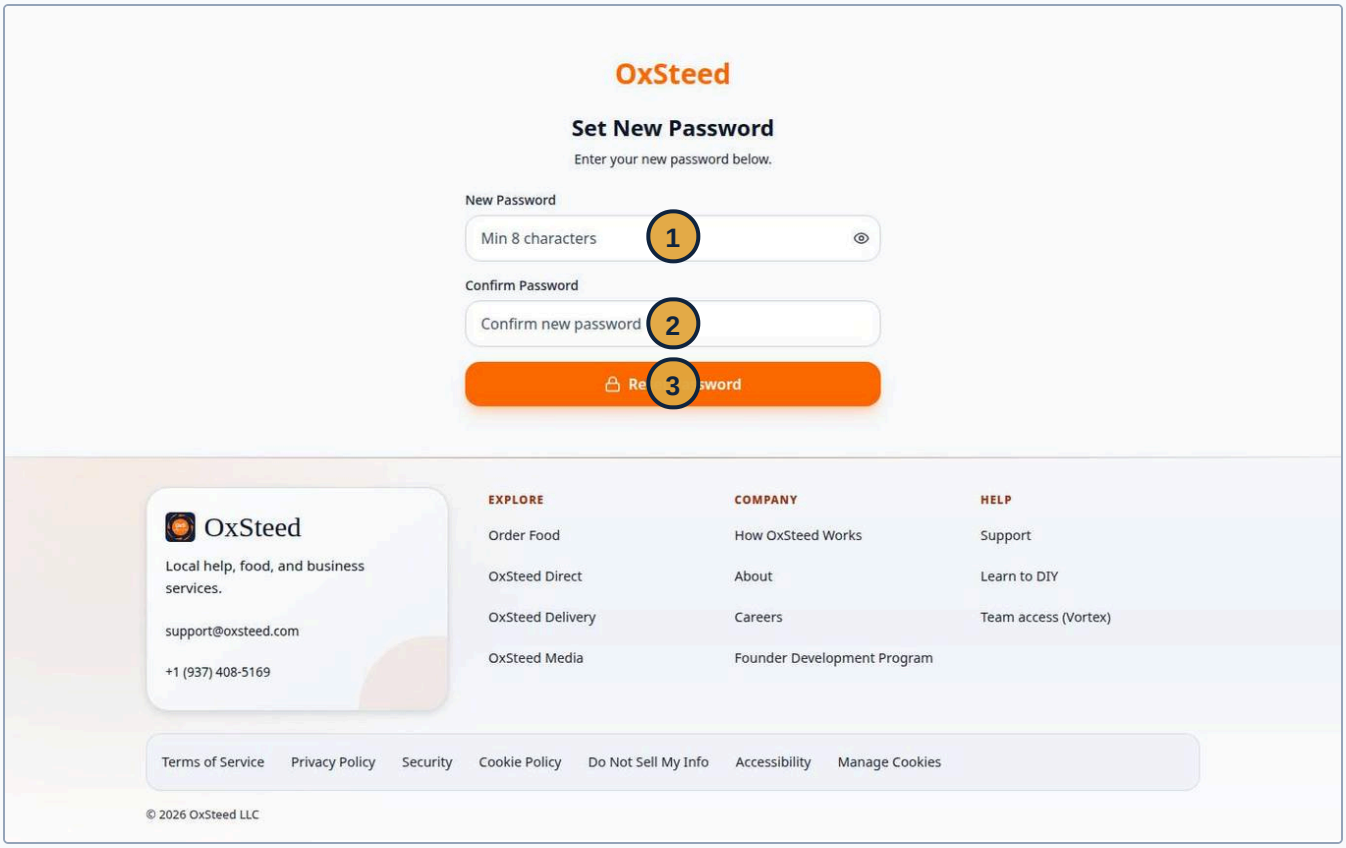

**Figure 3.** The new password form, desktop view. *(Image description: Set New Password page with new and confirm password fields)*

1. **1.** New password field
2. **2.** Confirm password field
3. **3.** Reset Password button

## Confirm it worked

The success screen appears; sign in at /login with your new password. If the link shows as invalid, request a fresh link.

## If something goes wrong

| Problem | What to do |
| --- | --- |
| The reset link shows as invalid or expired. | Reset links expire for security. Request a new one from /forgot-password and use it right away. |
| No reset email arrives. | Check the spam folder and confirm you typed the exact email registered on the account. Wait a few minutes before requesting again. |
| The new password is rejected. | Both fields must match and meet the minimum length. Avoid reusing your most recent passwords. |

## Need help?

If you no longer have access to the registered email, contact support from the Help menu or visit /support.

SOP LIBRARY / ACCOUNT **ENGLISH**

# Privacy controls, data export, account deletion

| | |
|---|---|
| **Guide ID** | **account-privacy** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper, Business owner, Restaurant, Logistics |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/account/privacy-and-data |

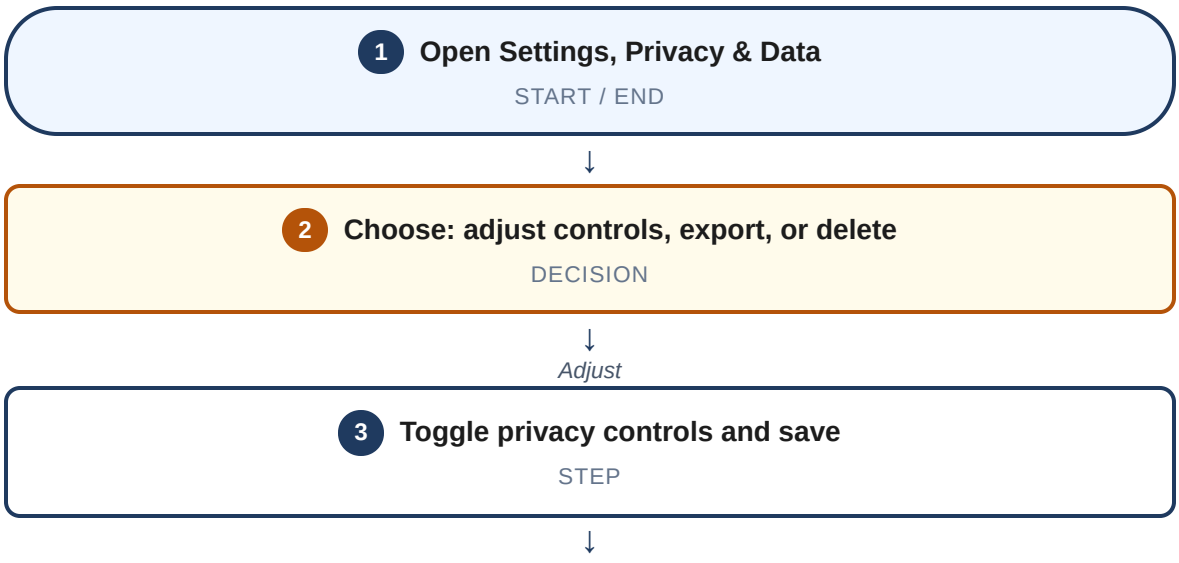

## Goal

Control your privacy settings, export your data, or delete your account.

## Before you start

1. Be signed in for export and deletion; the policy pages are public.

## Process map

4 **Privacy change applied**

START / END

- *Export:* Choose: adjust controls, export, or delete → Verify password and email code, download export
- *Delete:* Choose: adjust controls, export, or delete → Danger Zone: Delete Account with confirmation
- Verify password and email code, download export → Privacy change applied
- Danger Zone: Delete Account with confirmation → Privacy change applied

**Text version.** 1. Open Settings and choose the "Privacy & Data" tab. 2. Decide what you want: adjust privacy controls, export your data, or delete your account. 3. For controls, toggle the options (communication, job, live chat, booking visibility) and save. 4. For export, confirm your current password, then enter the six-digit code sent to your email; the export downloads. 5. For deletion, use the "Danger Zone" tab, choose "Delete Account", and confirm in the "Delete Your Account" dialog.

# Steps

## Step 1: Open the Privacy & Data tab

Choose Settings from your account menu and pick the "Privacy & Data" tab. The page shows privacy preference toggles (for example communication controls, job controls, live chat, and booking visibility). The public legal pages (/privacy, /do-not-sell, /cookie-policy, /terms) are readable without signing in.

> **Expected result:** The privacy toggles load with their current saved states.

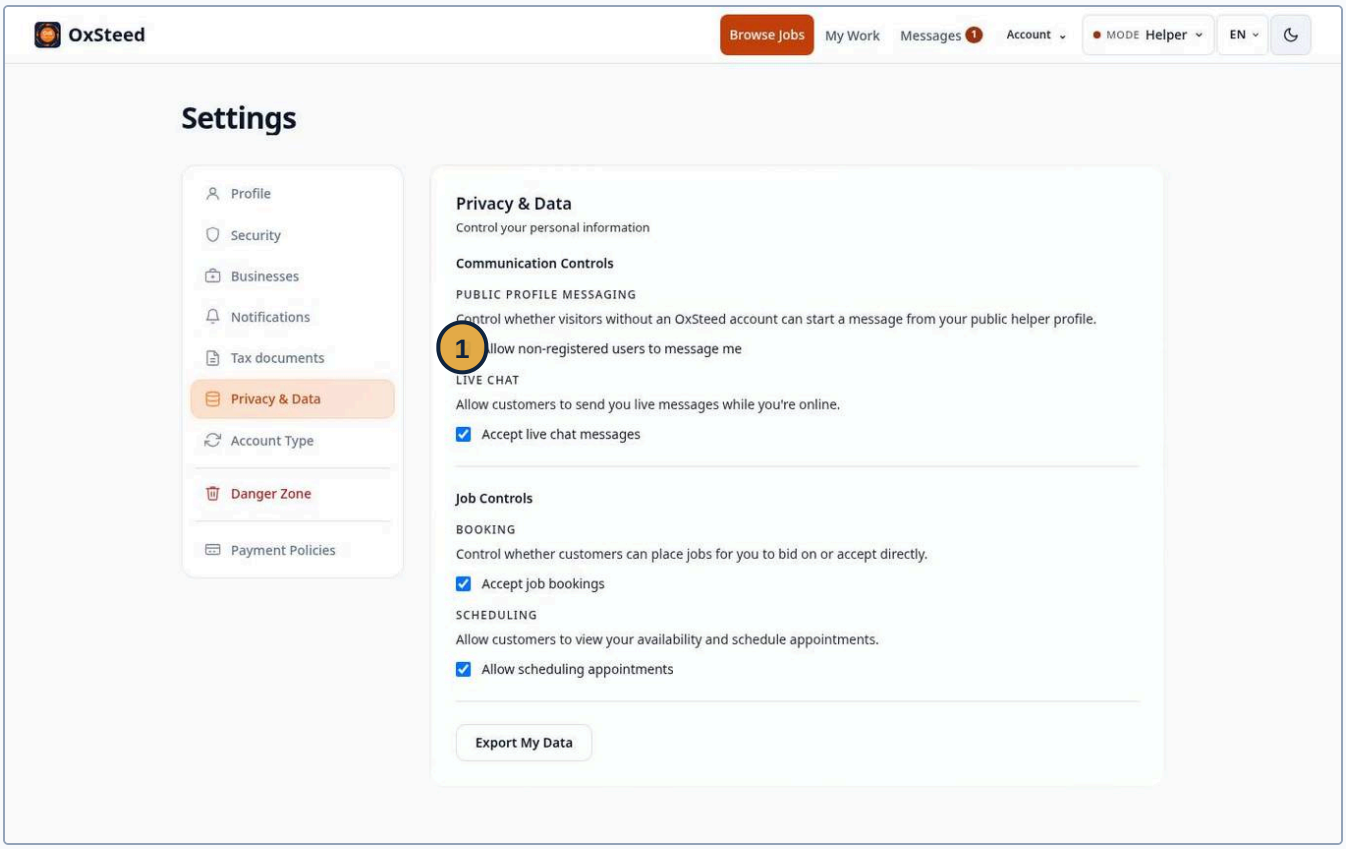

**Figure 1.** The Privacy & Data tab, desktop view. *(Image description: Privacy and Data tab with privacy toggles)*

1. **1.** Privacy toggles

## Step 2: Adjust privacy controls and save

Toggle the controls you want to change (for example who can contact you or see your activity) and choose Save. A confirmation toast shows when the update is stored.

> **Expected result:** The saved states persist after you reload the page.

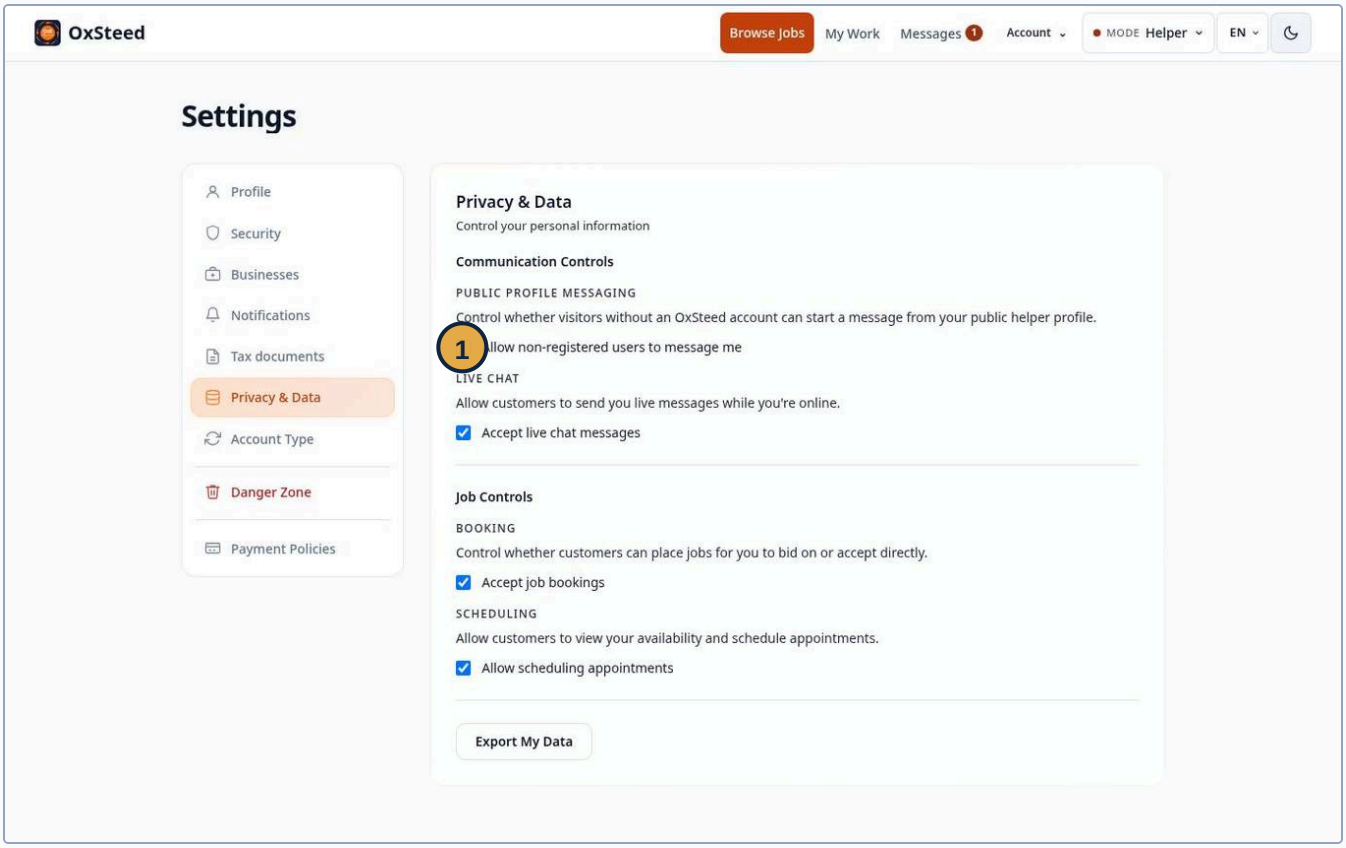

**Figure 2.** Adjusting privacy controls. *(Image description: Privacy toggles with one changed)*

1. **1.** Save button

## Step 3: Export your data with two-step verification

In the Privacy & Data tab, start the data export. First confirm your current password; a verification code is sent to your email ("A verification code was sent to your email."). Enter the six-digit code, then choose the verify-and-export option to download your data export.

> **Expected result:** The export file downloads to your device.

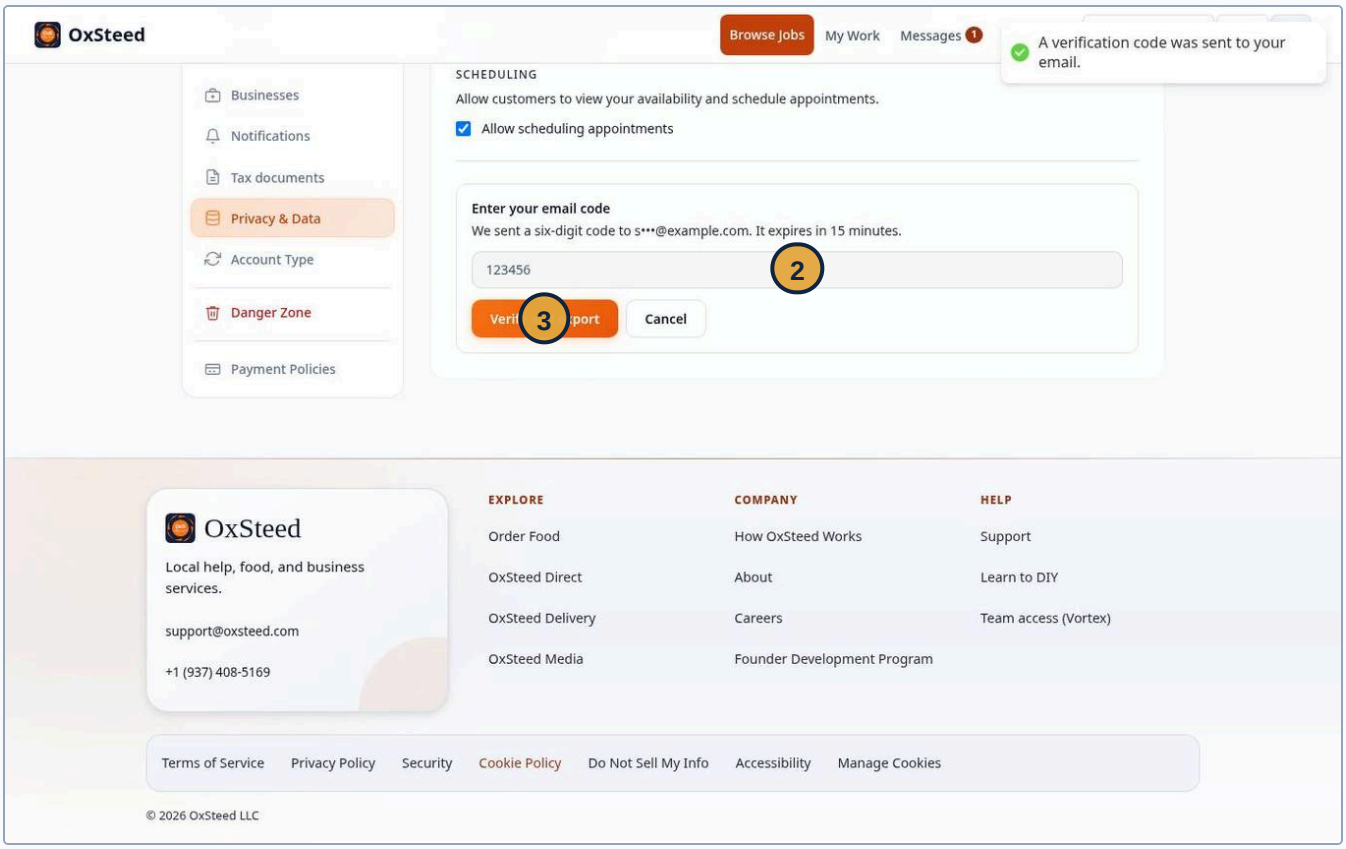

**Figure 3.** The export verification step, desktop view. *(Image description: Data export verification with code entry)*

1. **2.** Six-digit code field
2. **3.** Verify and export

### Step 4: Delete your account from the Danger Zone

Choose the "Danger Zone" tab and choose "Delete Account". A confirmation dialog titled "Delete Your Account" explains what is removed (including active jobs and pending balances if any). Type the confirmation as requested and confirm the deletion. This cannot be undone.

> **Expected result:** Your account is deleted and you are signed out.

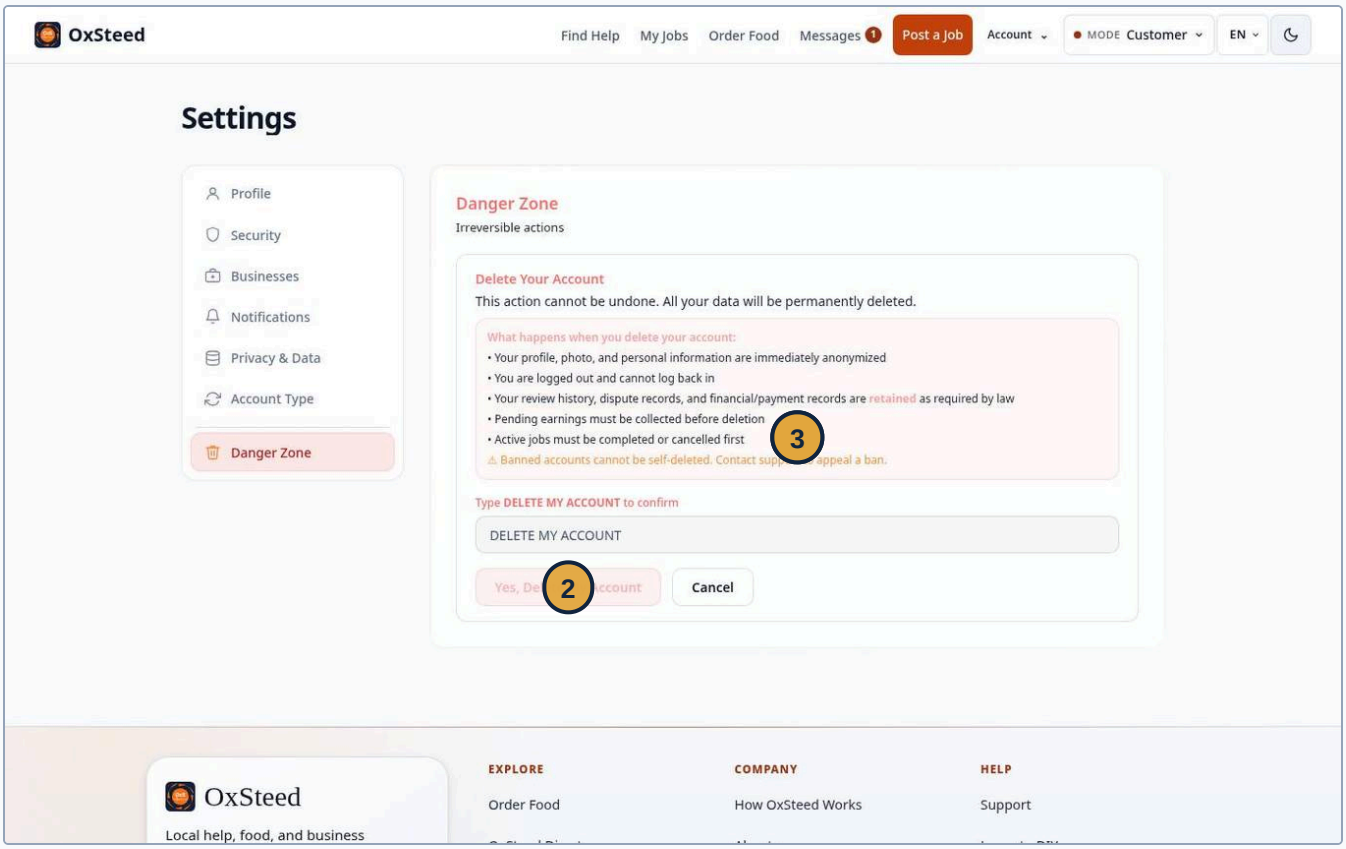

**Figure 4.** The Delete Your Account confirmation. *(Image description: Danger Zone tab with the delete confirmation dialog)*

1. **1.** Danger Zone title
2. **2.** Delete Account button
3. **3.** Confirmation dialog

## Confirm it worked

Privacy toggles keep their new values after a reload; exports download; after deletion you can no longer sign in with that account.

## If something goes wrong

| Problem | What to do |
| --- | --- |
| The export code never arrives. | Check spam, then request a new code. You must enter your current password first; without it no code is sent. |
| Account deletion is blocked. | The dialog lists blockers such as active jobs or a remaining balance. Finish or cancel those jobs and withdraw balances first, then retry deletion. |

## Need help?

For data requests you cannot complete yourself, contact support from the Help menu or visit /support.

# Manage account settings

| | |
|---|---|
| **Guide ID** | **account-settings** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper, Business owner, Restaurant, Logistics |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/account/manage-settings |

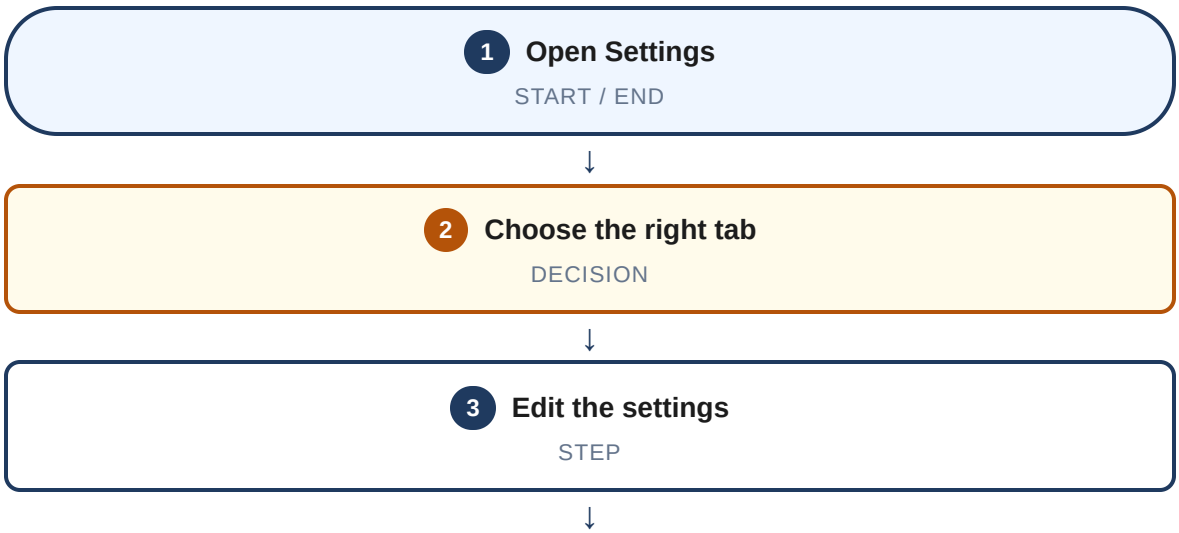

## Goal

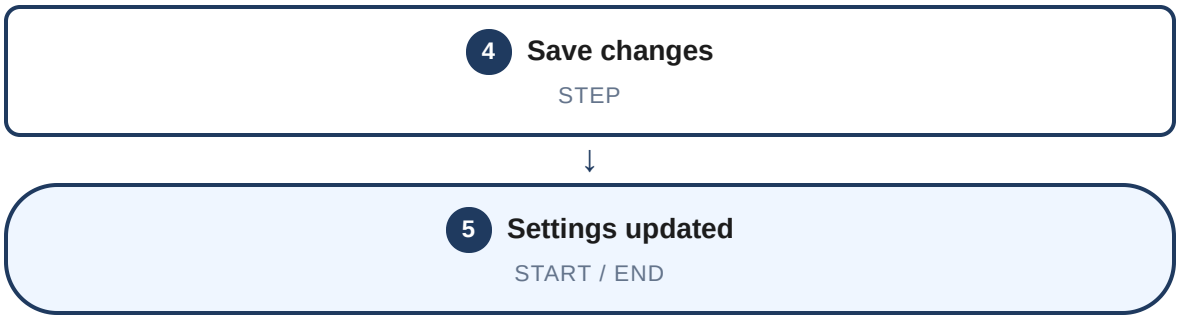

Change your profile, security, notifications, country, businesses, and tax documents from one settings hub.

## Before you start

1. Be signed in to your OxSteed account.

## Process map

**Text version.** 1. Open /settings. 2. Pick the tab you need: Profile, Security, Businesses, Notifications, Privacy & Data, Account Type, Danger Zone, or Tax documents (helpers only). 3. Edit the fields or toggle the controls on that tab. 4. Save; most changes confirm with a toast. 5. Security changes like 2FA and passkeys take effect immediately.

# Steps

## Step 1: Open Settings and pick a tab

Choose Settings from your account menu, or open /settings directly. The page shows tabs: Profile, Security, Businesses, Notifications, Privacy & Data, Account Type, and Danger Zone. Helpers also see a Tax documents tab. You can deep-link a tab, for example /settings?tab=tax.

> **Expected result:** The settings page loads with the tab list and the Profile tab selected.

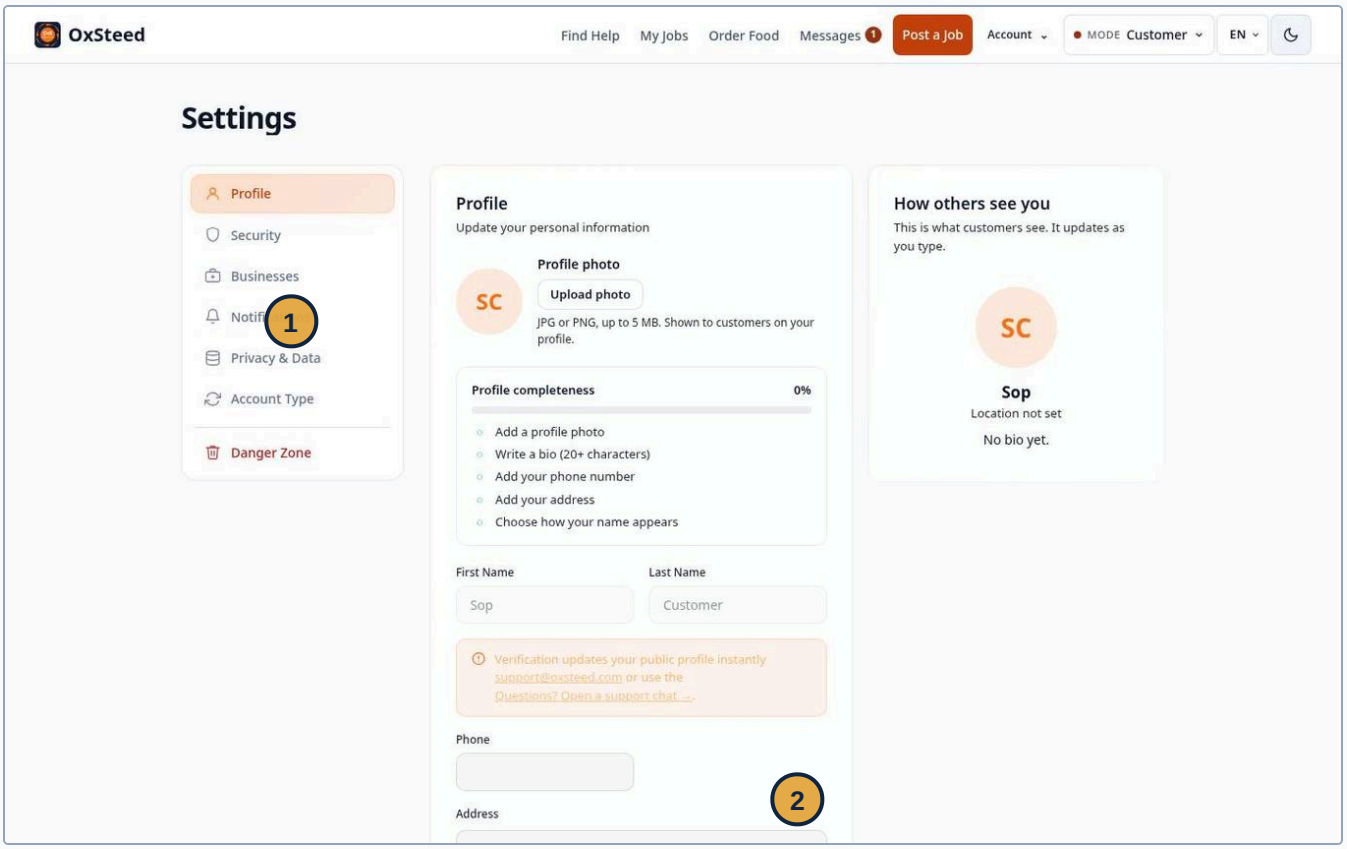

**Figure 1.** The settings tabs, desktop view. *(Image description: Settings page with the tab list on the side)*

1. **1.** Settings tabs
2. **2.** Active tab content

## Step 2: Update your profile or account basics

On the Profile tab, update your name, contact details, and profile photo. On the Account Type tab you can review your "Current Role", see the "Workspaces you belong to", and use "Switch" to move into a granted workspace role.

> **Expected result:** The changed values stay in the fields after saving.

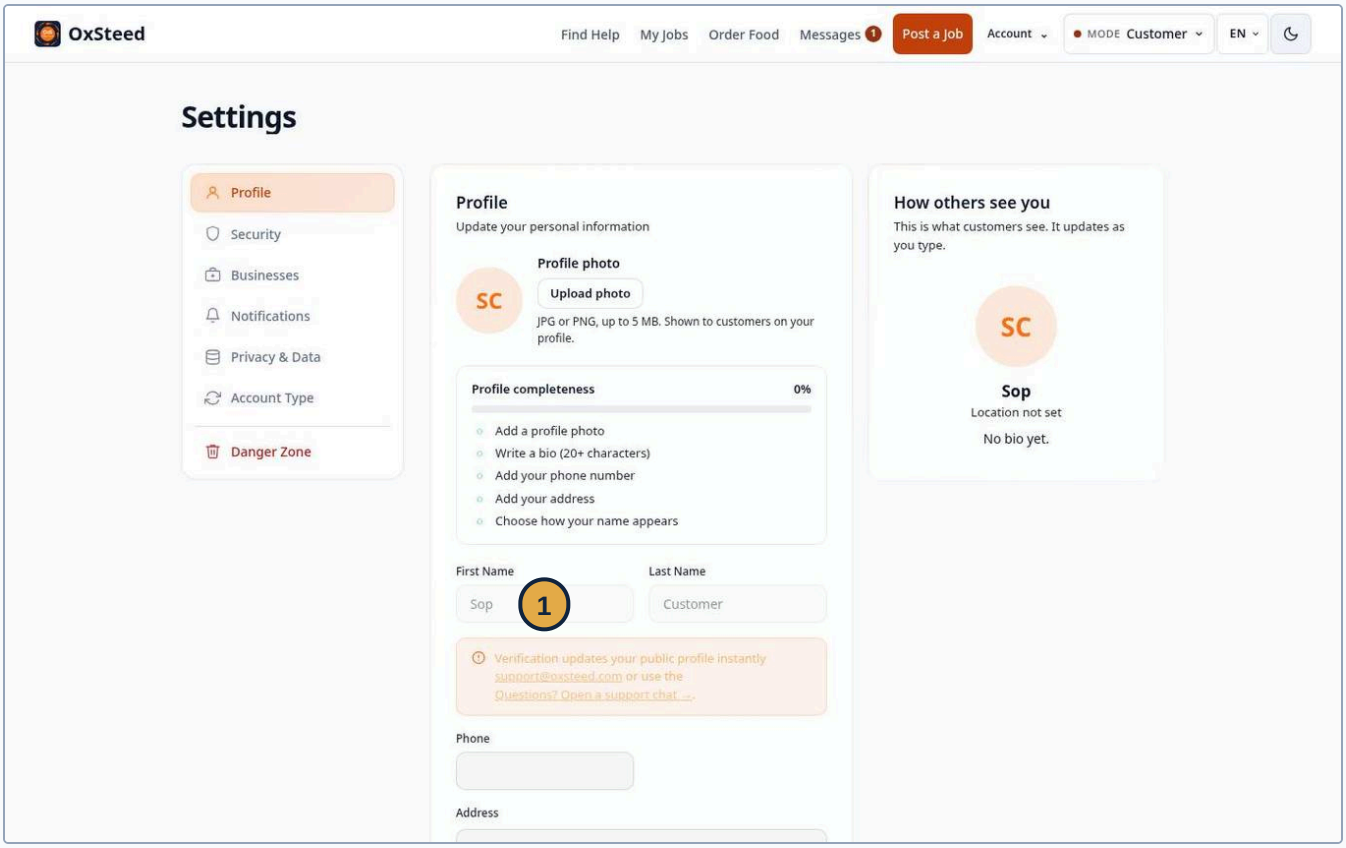

**Figure 2.** The Profile tab. *(Image description: Profile tab with editable fields)*

1. **1.** Profile fields

## Step 3: Manage security: 2FA, passkeys, and sessions

On the Security tab, set up two-factor authentication (TOTP), add or remove passkeys, and review your active sessions. Sessions can be signed out individually from the sessions list. The Notifications tab controls email and push preferences; the country selector sets your marketplace country.

> **Expected result:** Security changes confirm immediately; a new 2FA setup asks you to verify a test code.

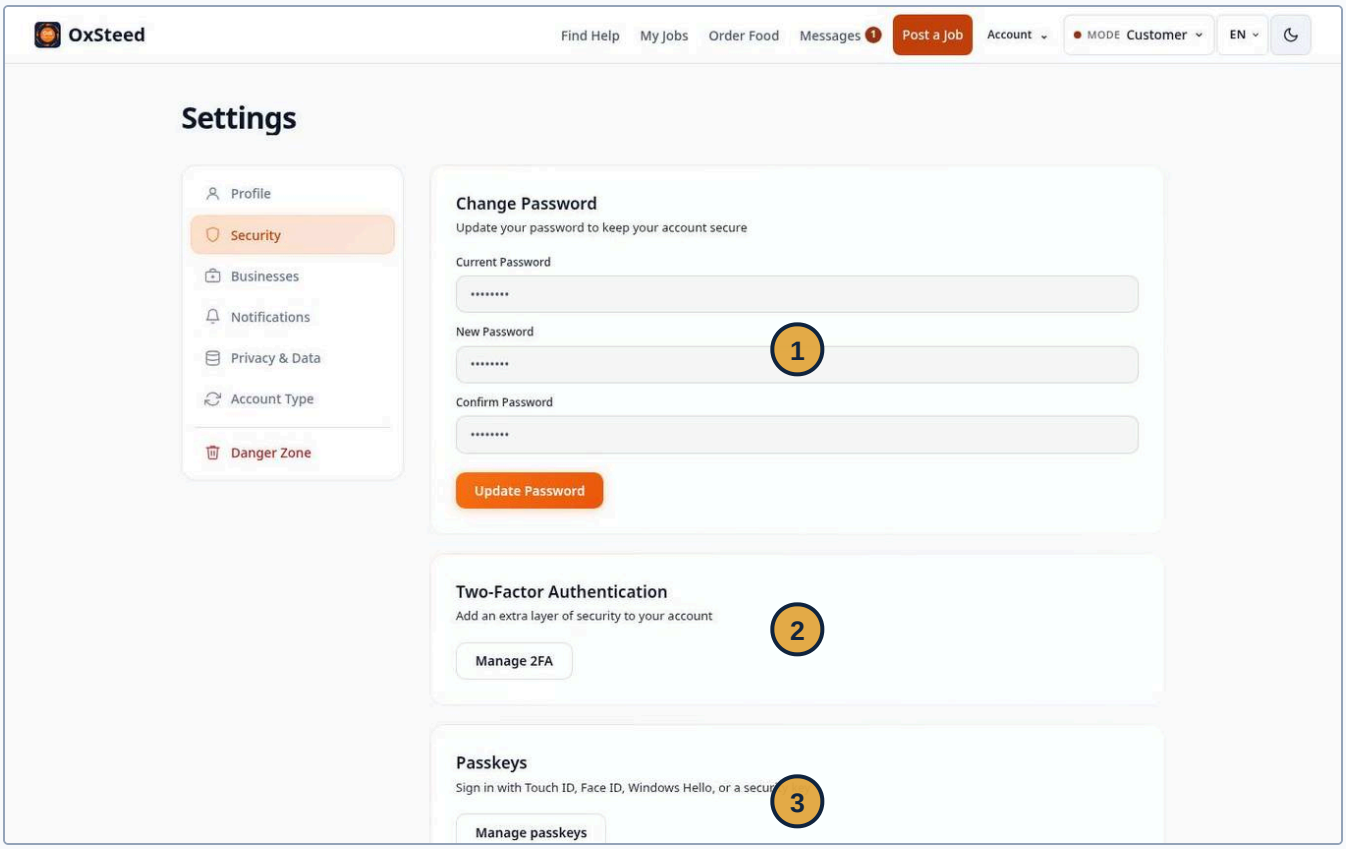

**Figure 3.** The Security tab: 2FA, passkeys, and sessions. *(Image description: Security tab with two-factor, passkeys, and sessions sections)*

1. **1.** Two-factor setup
2. **2.** Passkeys
3. **3.** Active sessions

### Step 4: File tax documents as a helper (W-9)

Helpers: open the Tax documents tab and complete "Tax documents (W-9)". The subtitle explains: "File your W-9 so payouts can be released. Your tax ID is stored encrypted." Payouts are gated until your tax identity is on file.

> **Expected result:** The W-9 shows as filed and the payout tax gate is satisfied.

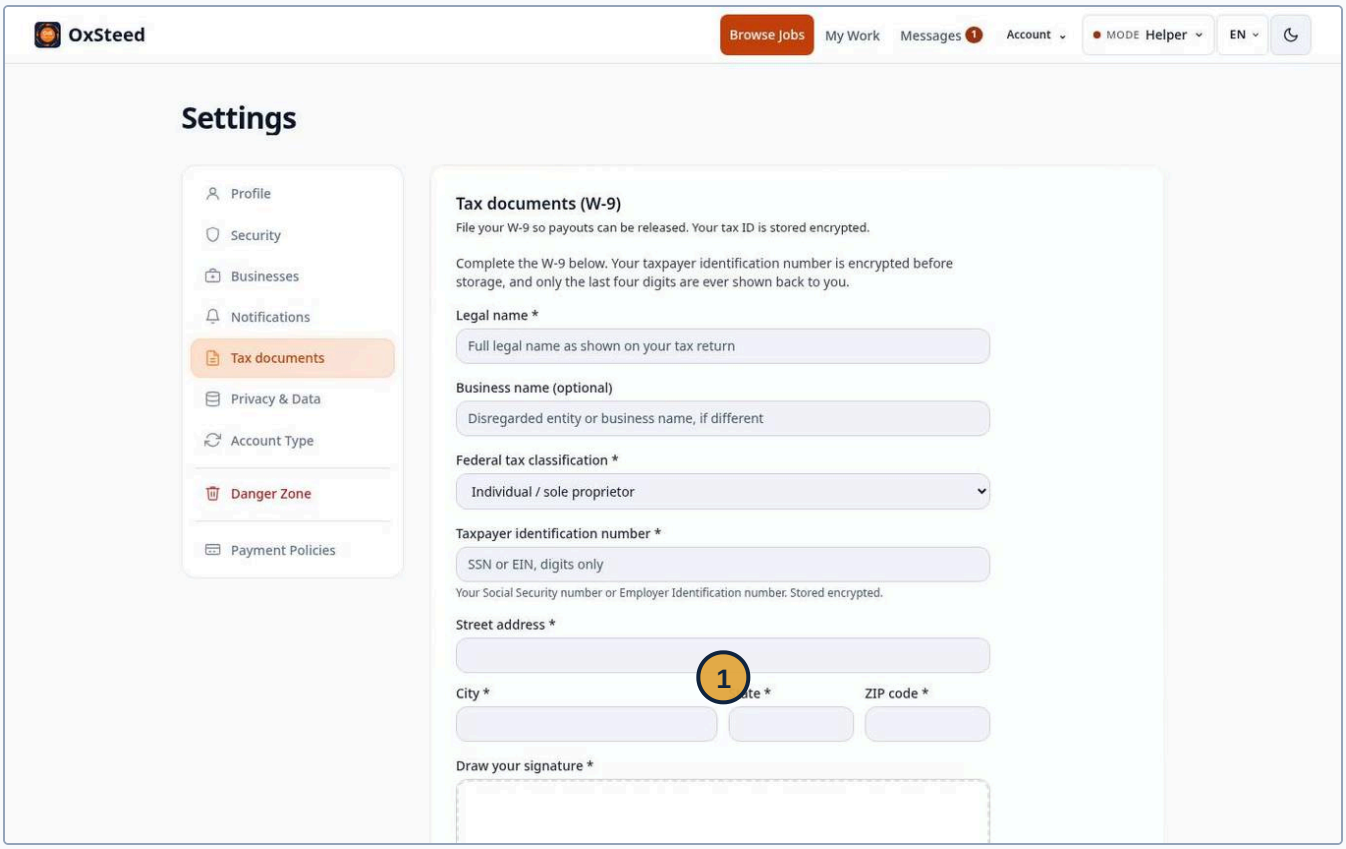

**Figure 4.** The Tax documents tab for helpers. *(Image description: Tax documents tab with the W-9 form)*

1. **1.** W-9 form

## Confirm it worked

Each change confirms with a toast or an updated value. Your Security tab reflects the new 2FA or passkey state immediately.

## If something goes wrong

| Problem | What to do |
|---|---|

| | |
|---|---|
| You cannot find a setting you expected. | Check every tab; some controls are role-specific (the Tax documents tab is helper-only, businesses live under the Businesses tab). |
| A save fails with an error. | Check the highlighted field for the validation message, fix it, and save again. If it keeps failing, reload the page and retry. |

## Need help?

For account or security issues you cannot fix in Settings, contact support from the Help menu or visit /support.

SOP LIBRARY / ACCOUNT **ENGLISH**

# Sign in

| | |
|---|---|
| **Guide ID** | **account-signin** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper, Business owner, Restaurant, Logistics |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/account/sign-in |

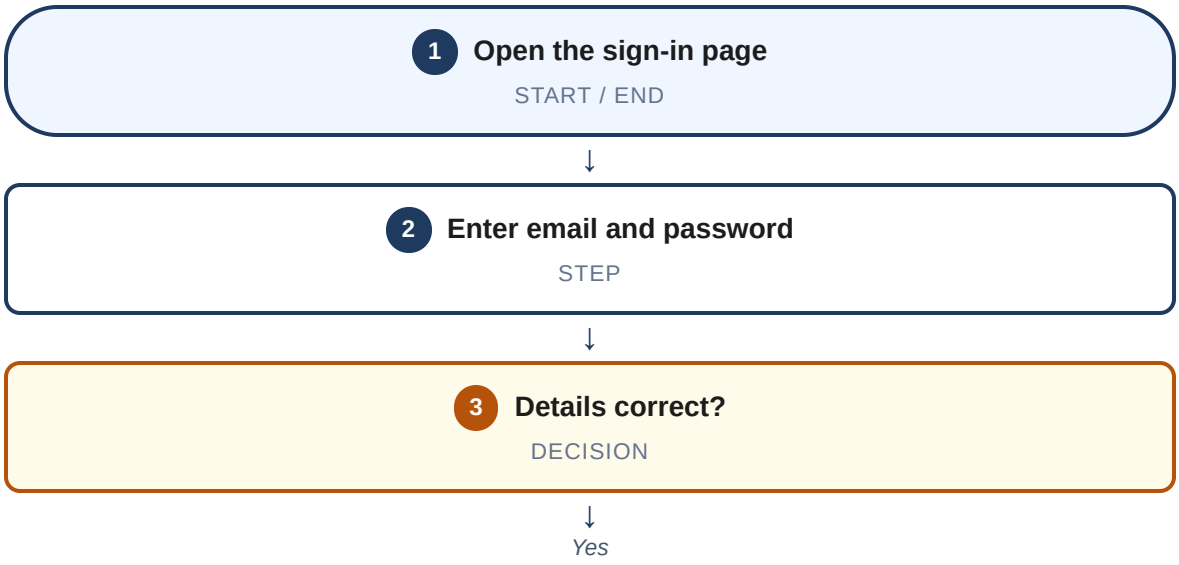

## Goal

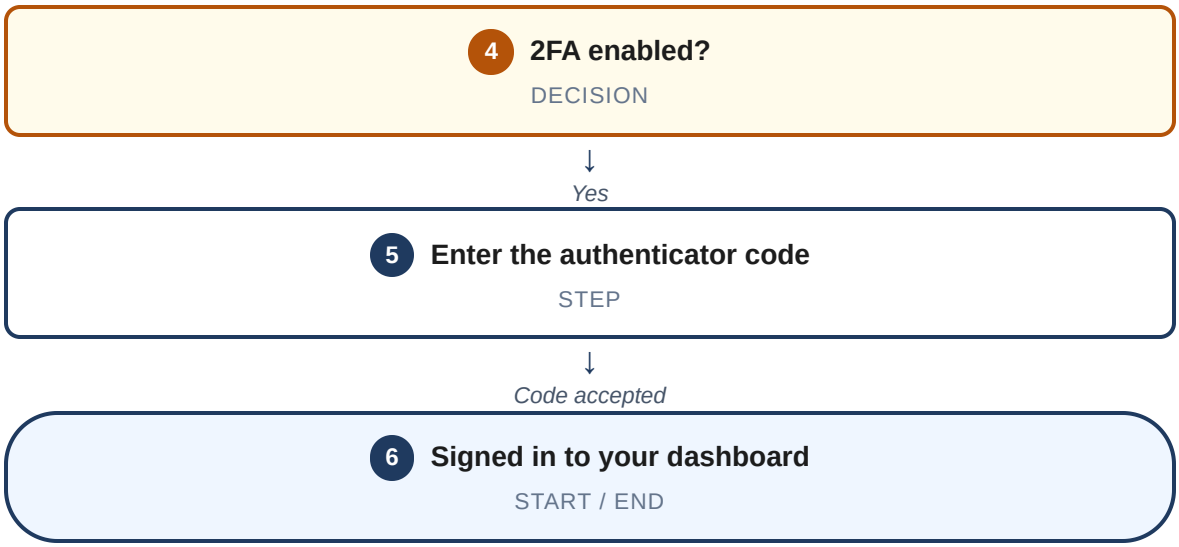

Sign in to your OxSteed account with your email and password, including two-factor and passkey options.

## Before you start

1. Have an OxSteed account.
2. If you enabled two-factor authentication, have your authenticator app ready.

## Process map

- *No:* Details correct? → Use Forgot password?
- *No:* 2FA enabled? → Signed in to your dashboard
- *Password reset:* Use Forgot password? → Enter email and password

**Text version.** 1. Open the sign-in page. 2. Enter your email address and password, then choose "Sign in". 3. If the details are wrong, use "Forgot password?" to reset. 4. If two-factor authentication is on, the page switches to "Verify it's you"; enter your Authentication code. 5. You land on your dashboard. Passkey users can sign in with their device instead of typing a password.

# Steps

## Step 1: Open the sign-in page

Choose "Sign In" in the top navigation, or open /login directly. The page shows the heading "Welcome back" and the subtitle "Sign in to access your local skills marketplace", with an Email address field, a Password field, and a "Sign in" button. New users see a "Join OxSteed" link instead.

> **Expected result:** The sign-in form is visible with empty Email address and Password fields.

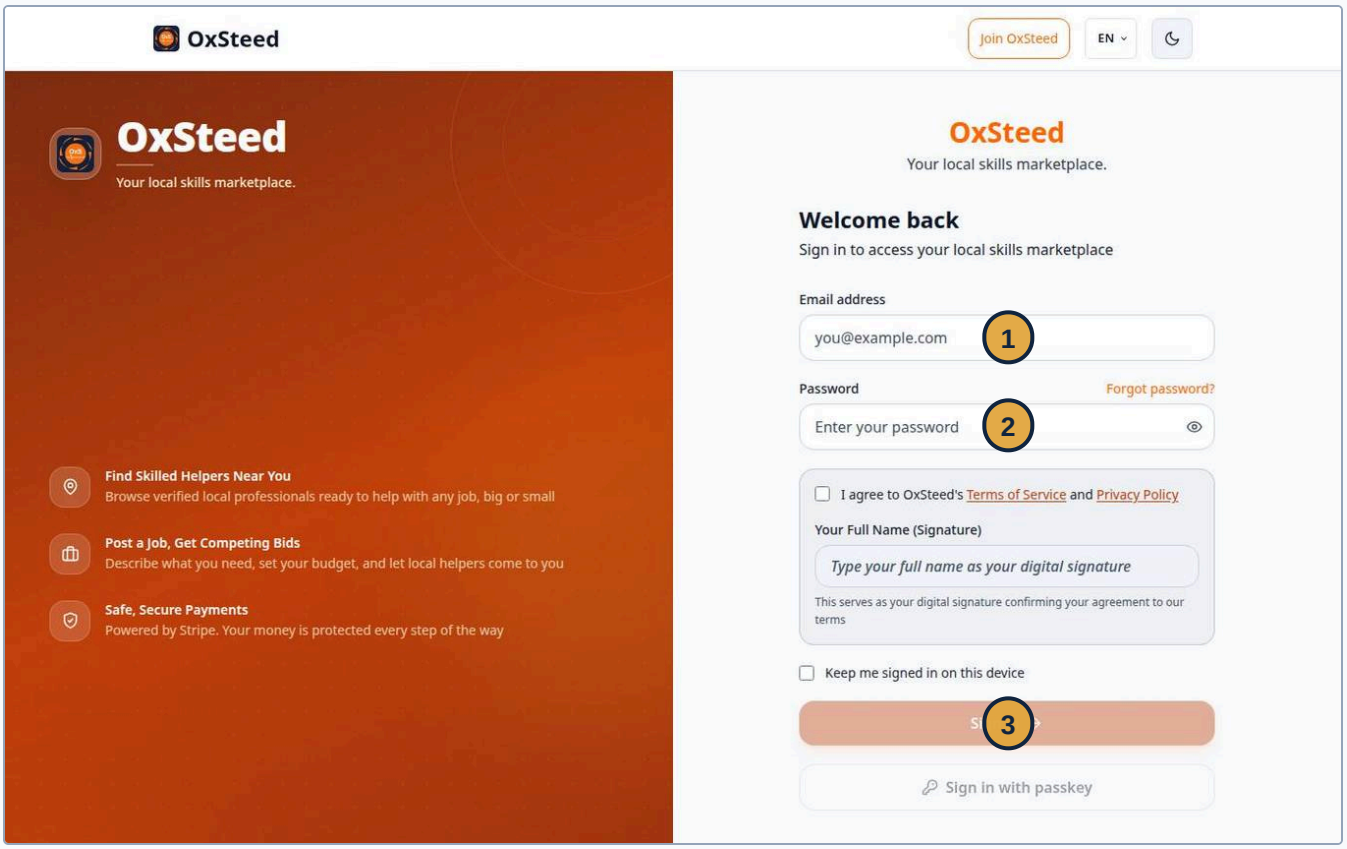

**Figure 1.** The sign-in page, desktop view. *(Image description: Sign-in page with Welcome back heading and empty email and password fields)*

1. **1.** Email address field
2. **2.** Password field
3. **3.** Sign in button

## Step 2: Enter your email and password

Type the email address you registered with into the Email address field (placeholder "you@example.com") and your password into the Password field (placeholder "Enter your password"). Passwords are case sensitive. Use "Show password" if you want to check your typing, then choose "Sign in". The "Forgot password?" link sits next to the password field.

> **Expected result:** The Sign in button shows a loading state, then you are redirected.

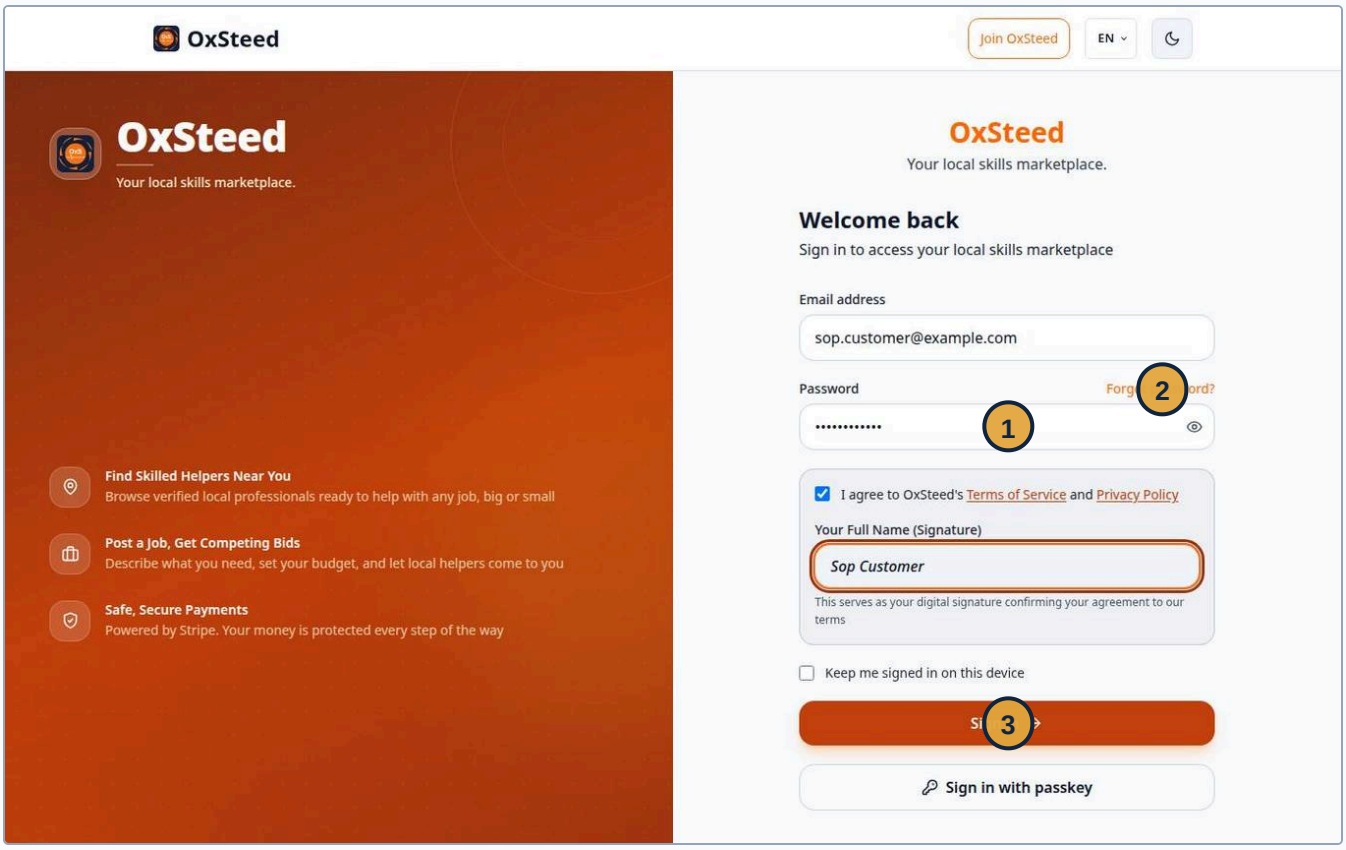

**Figure 2.** The filled sign-in form before choosing Sign in. *(Image description: Sign-in form with email and password entered)*

1. **1.** Password field
2. **2.** Forgot password? link
3. **3.** Sign in button

## Step 3: Complete the two-factor check if prompted

If you enabled two-factor authentication, the page changes to "Verify it's you". Enter the current code from your authenticator app into the Authentication code field and submit. Users with a passkey can choose the passkey option instead of typing a password.

> **Expected result:** The code is accepted and you continue to your dashboard.

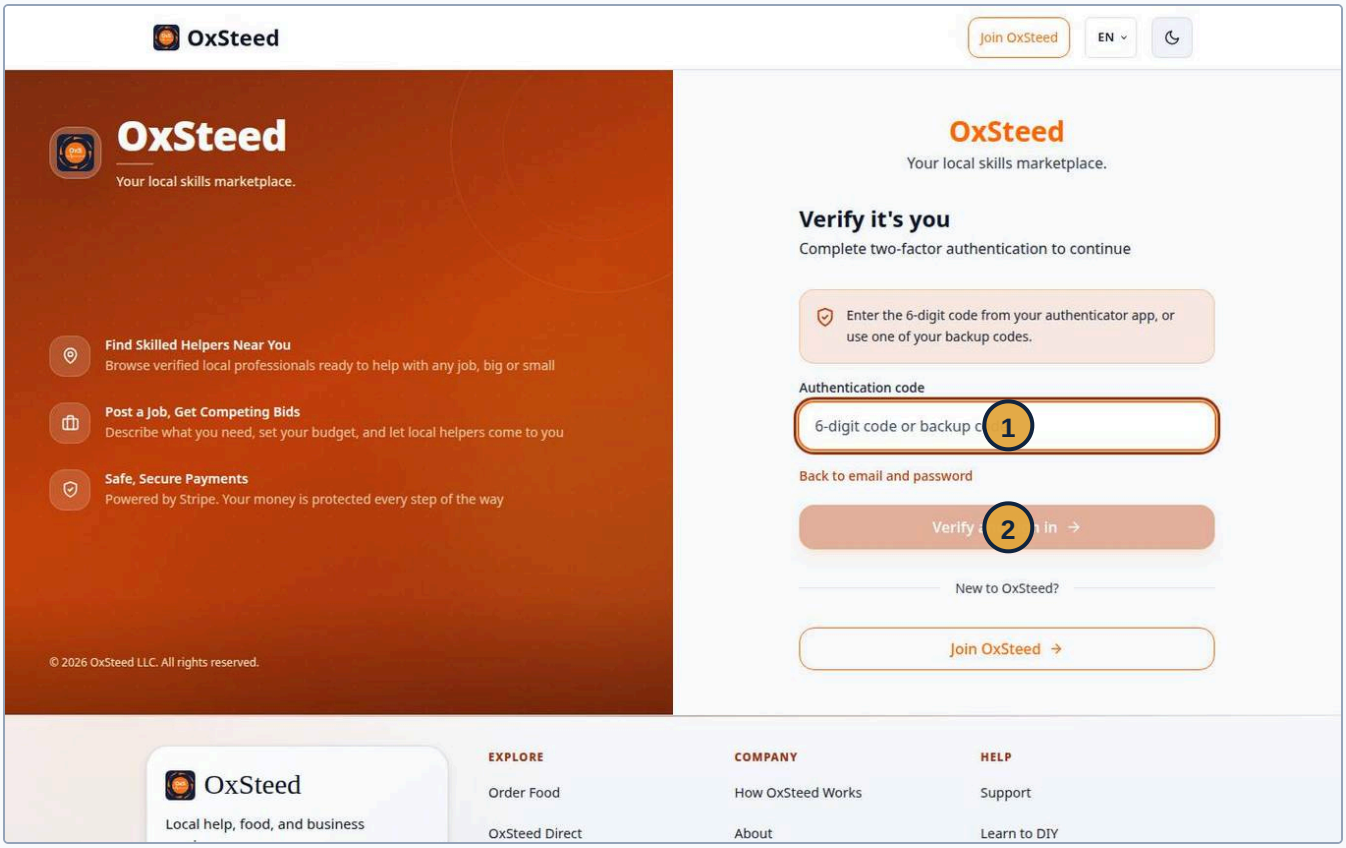

**Figure 3.** The two-factor step, shown only when 2FA is enabled. *(Image description: Two-factor page titled Verify it is you with an authentication code field)*

1. **1.** Authentication code field
2. **2.** Submit button

### Step 4: Confirm you landed on your dashboard

After sign in, your dashboard loads. Open the account menu in the navigation to confirm it shows your name or email. If you expected a different mode (for example Helper instead of Customer), use the mode switcher in the navigation.

> **Expected result:** Your dashboard is visible and the account menu shows your name or email.

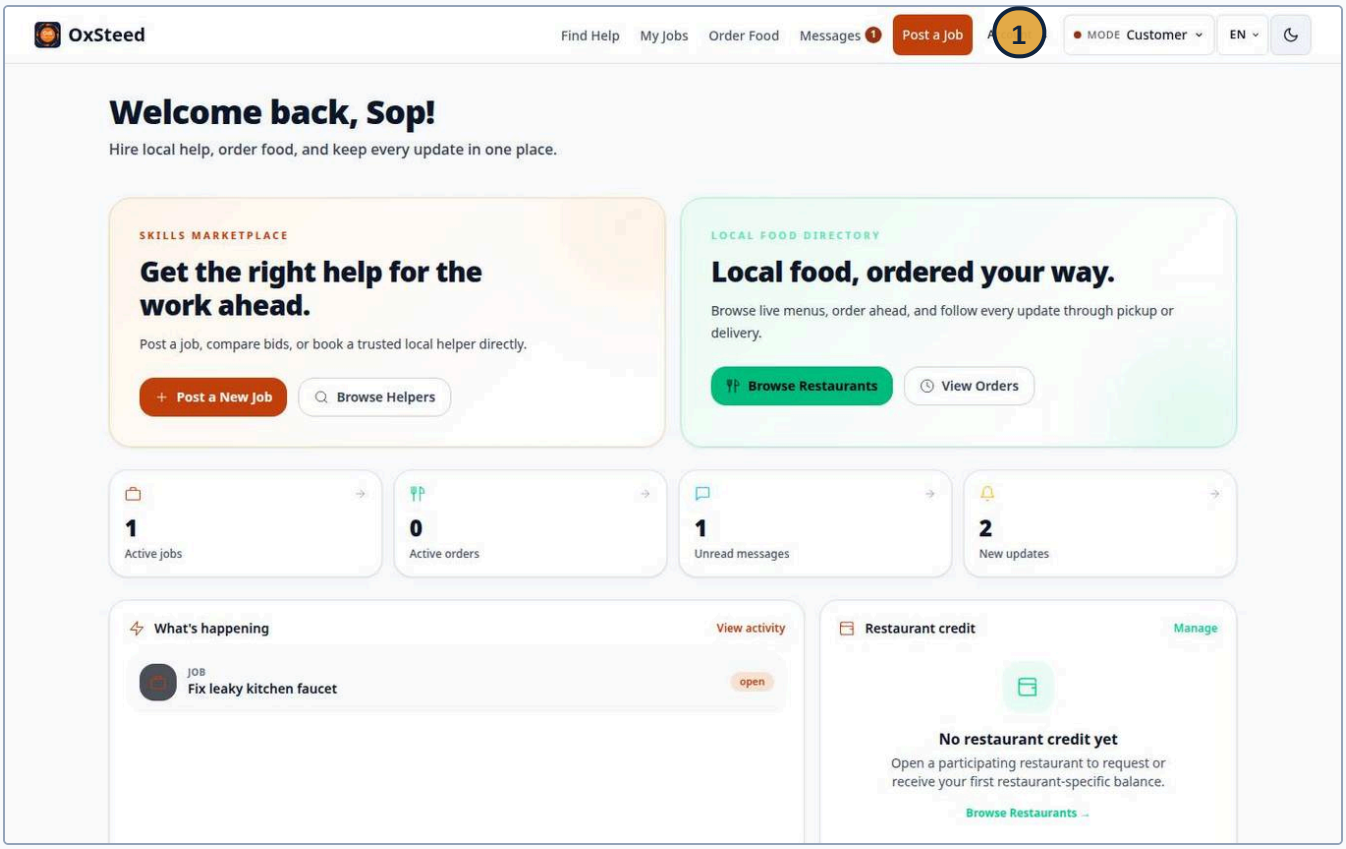

**Figure 4.** A signed-in dashboard with the account menu. *(Image description: Dashboard with the account menu highlighted)*

1. **1.** Account menu

## Confirm it worked

Your dashboard loads and the account menu shows your name or email. Review active sessions anytime under Settings, Security.

## If something goes wrong

| Problem | What to do |
| --- | --- |
| You see "Invalid email or password". | Check for typos and caps lock, then try again. After several failed attempts the sign-in is rate-limited; wait a few minutes or reset the password. |
| Your two-factor code is rejected. | Make sure your phone clock is set automatically; authenticator codes drift when the clock is off. If you lost the authenticator, use your saved recovery code from the Security tab in Settings. |
| Passkey sign in fails. | Make sure your browser and device support passkeys and that you use the same device or synced profile where the passkey was created. Fall back to email and password. |

## Need help?

If you cannot access your account after a password reset, contact support from the Help menu or visit /support.

**Guide ID:** account-support | **Revision:** 1 | **Area:** Account

SOP LIBRARY / ACCOUNT **ENGLISH**

# Get help and track support tickets

| | |
|---|---|
| **Guide ID** | **account-support** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper, Business owner, Restaurant |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/account/get-support |

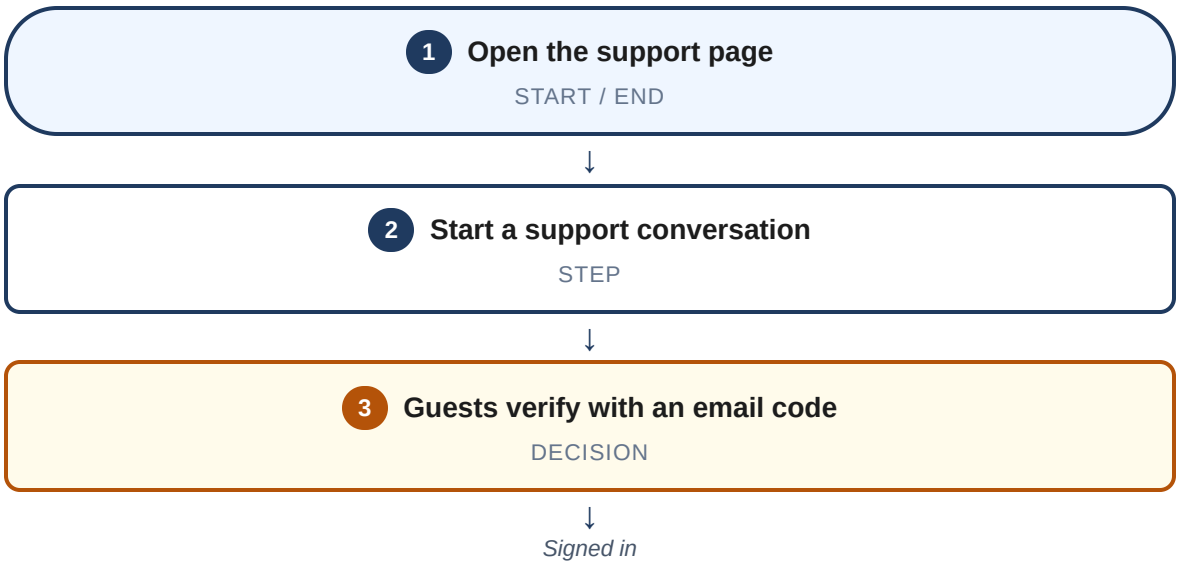

## Goal

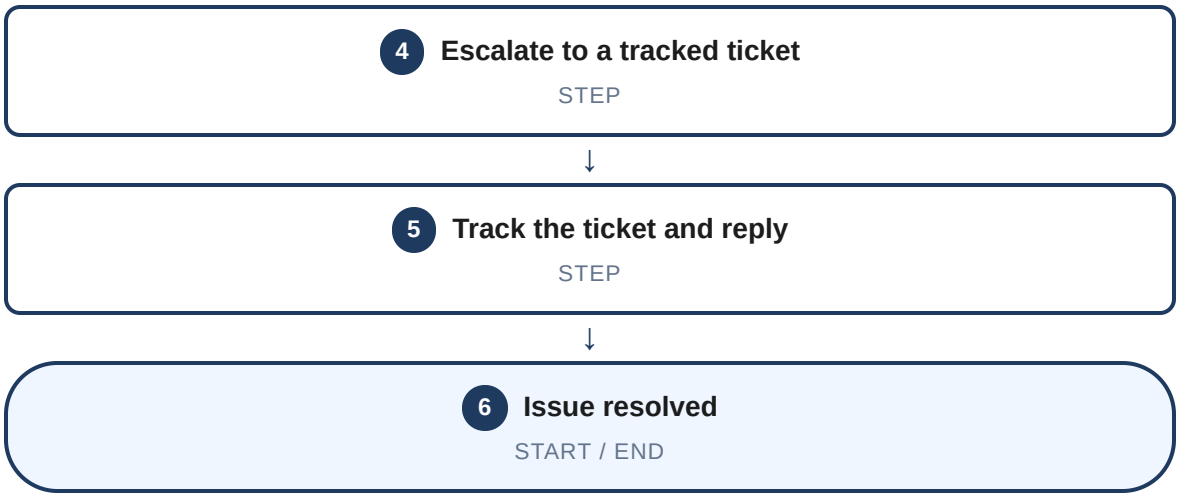

Start a support conversation, escalate it to a tracked ticket, and follow it to resolution.

## Before you start

1. Know the job, booking, or order the issue is about, and have photos or receipts ready.

## Process map

- *Guest:* Guests verify with an email code → Enter name and email to continue
- Enter name and email to continue → Escalate to a tracked ticket

**Text version.** 1. Open /support. 2. Start a support conversation and describe the issue; guests verify with an email code first. 3. If the issue needs human follow-up, it is escalated into a tracked ticket and you get a ticket identifier. 4. Track the ticket on /support/my-tickets/:ticketId: read replies under Messages, answer with the Reply box ("Write your reply..."), and reopen it if needed. 5. The ticket closes when the issue is resolved.

# Steps

## Step 1: Open the support page and start a conversation

Open /support (the Help menu links here). Start a new support conversation and describe what went wrong. The page tells you when escalation is best: "Urgent booking or support failures where normal chat was not enough." Attach an image with "Attach image" when the issue is visible.

> **Expected result:** A support conversation opens and your first message is sent.

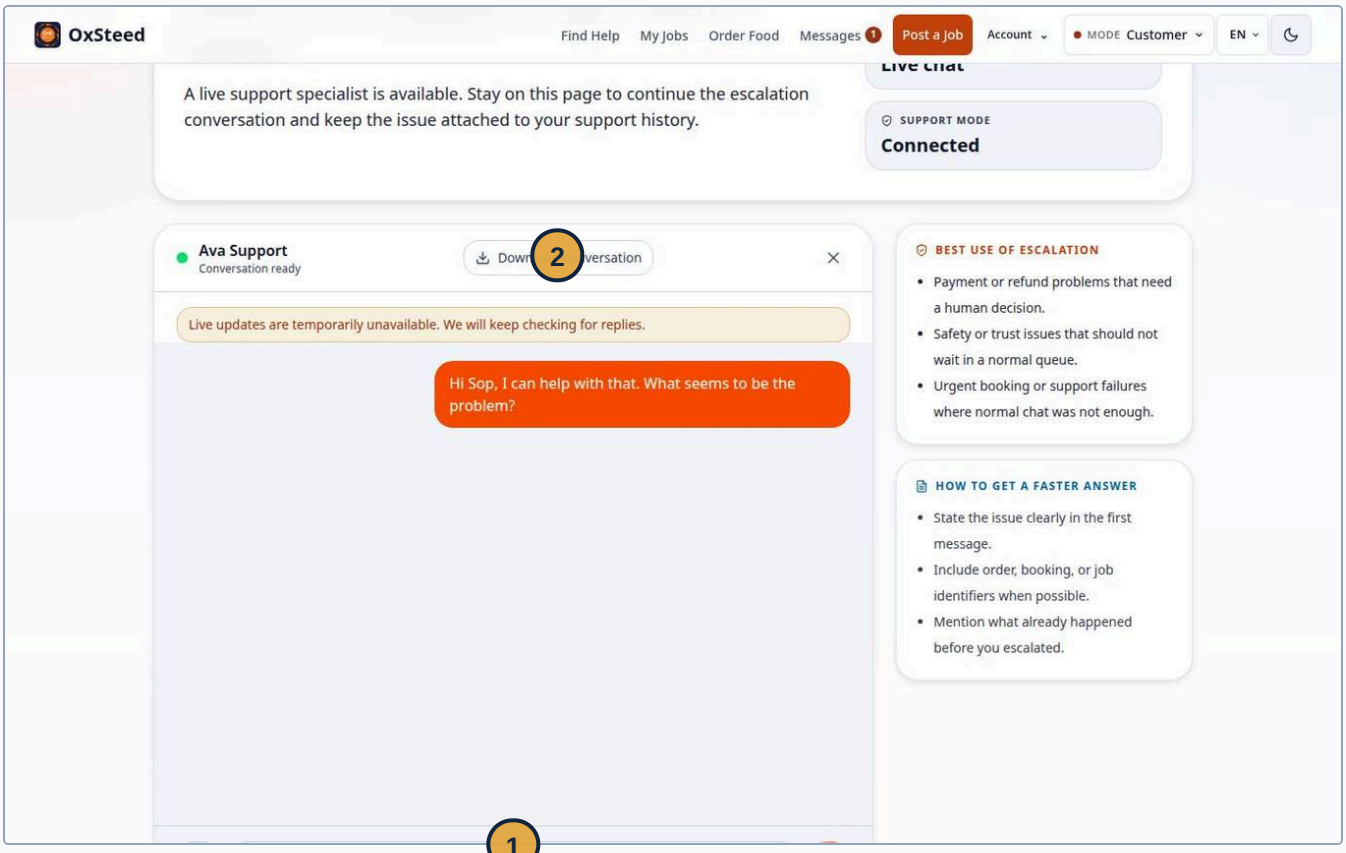

**Figure 1.** Starting a support conversation, desktop view. *(Image description: Support page with a new conversation composer)*

1. **1.** Conversation composer
2. **2.** Attach image button

## Step 2: Escalate to a tracked ticket when needed

For issues that need a human decision (payment or refund problems, safety or trust issues), escalate the conversation. The page explains "What happens after you submit": the escalation becomes a tracked ticket, the team can follow up by email, and "You get a ticket identifier to reference if the issue continues." Save that identifier.

> **Expected result:** You receive a ticket identifier for the tracked ticket.

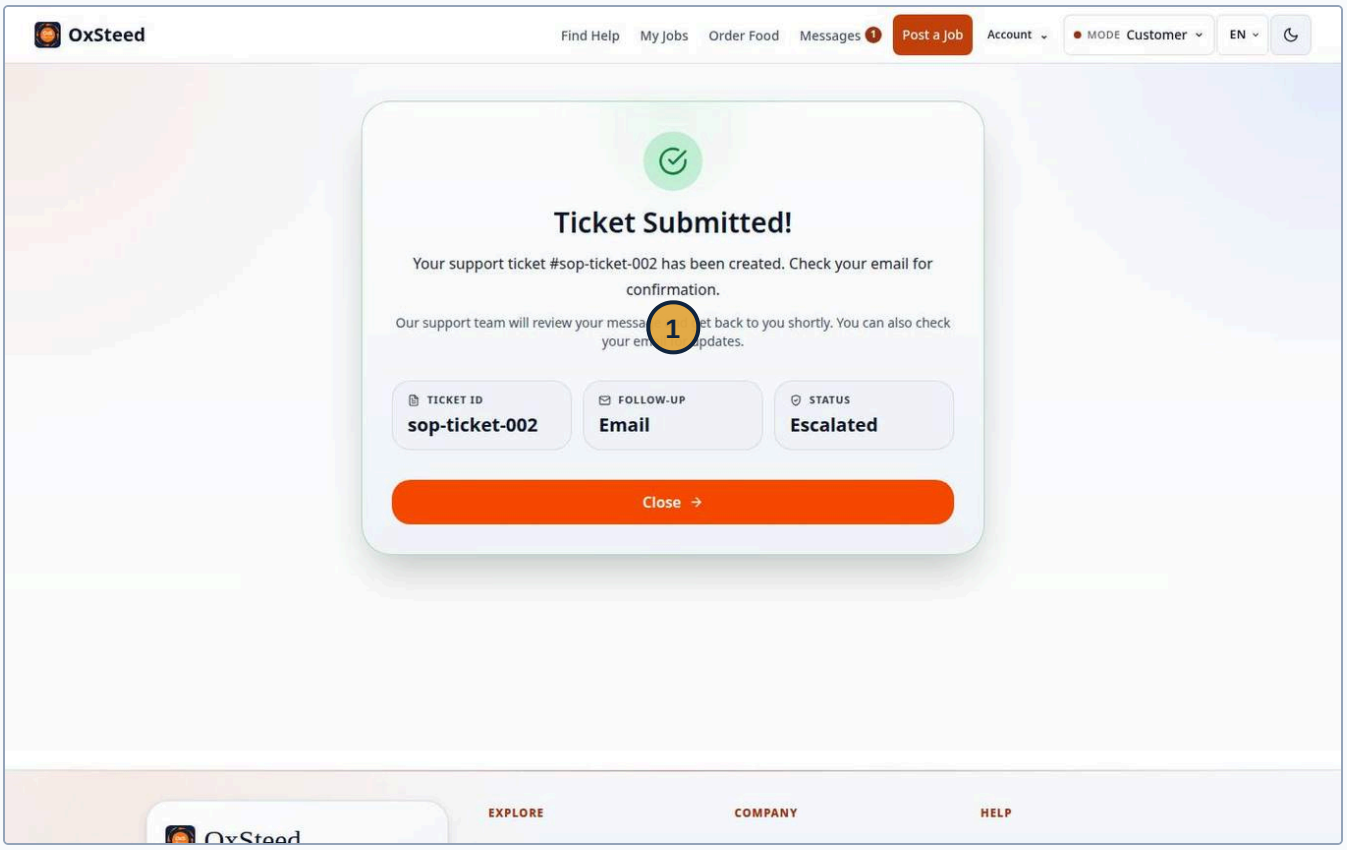

**Figure 2.** The escalation confirmation with your ticket identifier. *(Image description: Escalation confirmation with the ticket identifier)*

1. **1.** Ticket identifier

### Step 3: Track the ticket and reply to the team

Open your ticket (signed-in users: your tickets list; guests: the ticket link from email). The ticket page shows Category, Priority, and Created, with the "Messages" thread. Write in the Reply box (placeholder "Write your reply...") and choose Reply. If the ticket was closed but the issue continues, reopen it from the support center.

> **Expected result:** Your reply appears in the Messages thread and the team is notified.

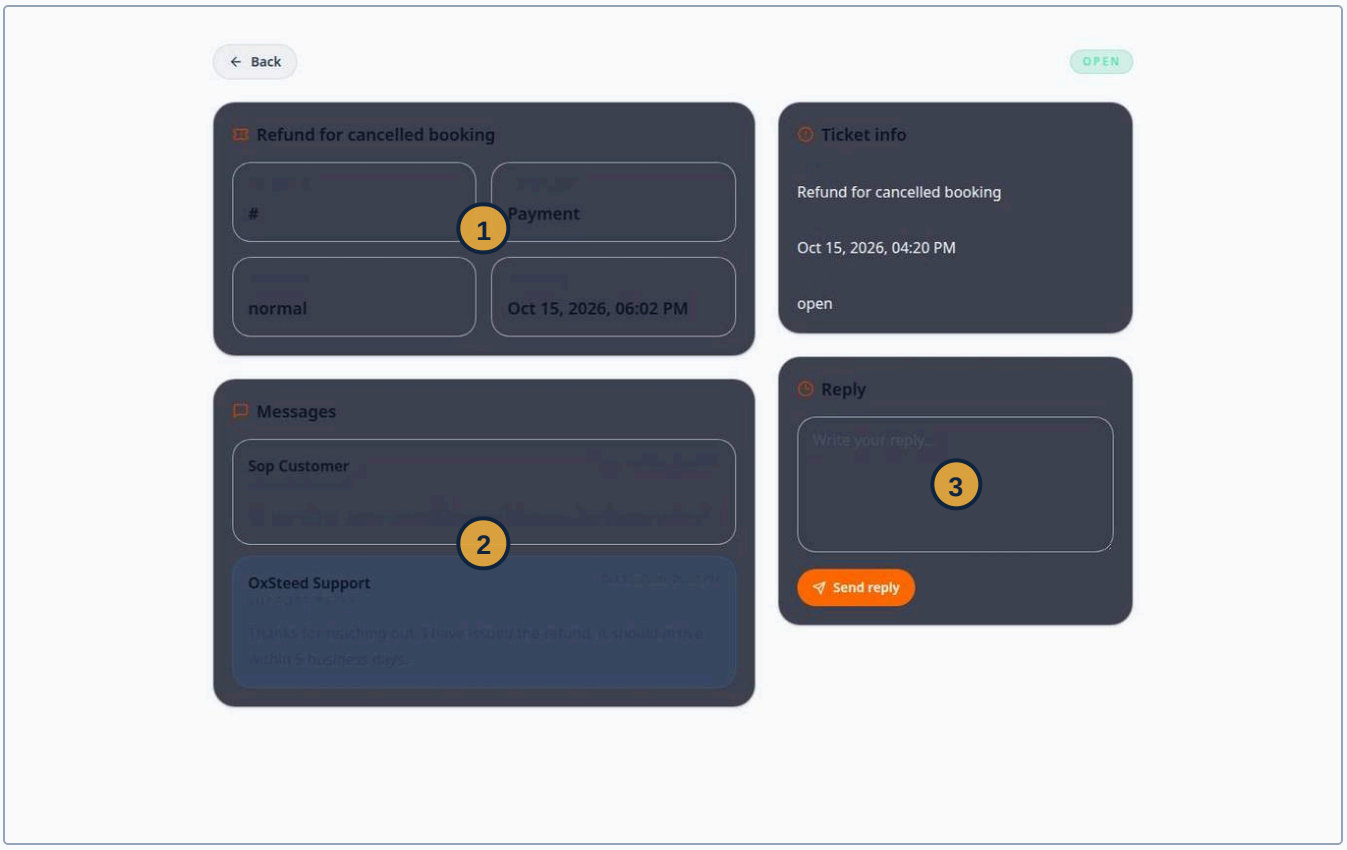

**Figure 3.** The ticket detail page, desktop view. *(Image description: Ticket detail page with the messages thread and reply box)*

1. **1.** Ticket details
2. **2.** Messages thread
3. **3.** Reply box

## Confirm it worked

The ticket page shows your messages and the team's replies; closed tickets say so and can be reopened.

## If something goes wrong

| Problem | What to do |
| --- | --- |
| The conversation will not verify (guest). | Use the exact email you started the conversation with and enter the code before it expires. Choose the resend option if nothing arrives. |
| The ticket page fails to load. | Reload and check you opened the current ticket link. If the error persists, start a fresh conversation and reference your ticket identifier. |

## Need help?

For urgent safety issues, use the direct contact option on the escalation page ("Need a faster response?").

**Guide ID:** hiring-cancellations | **Revision:** 1 | **Area:** Hiring

SOP LIBRARY / HIRING **ENGLISH**

# Cancel a booking or job

| | |
|---|---|
| **Guide ID** | **hiring-cancellations** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/hiring/cancel-booking |

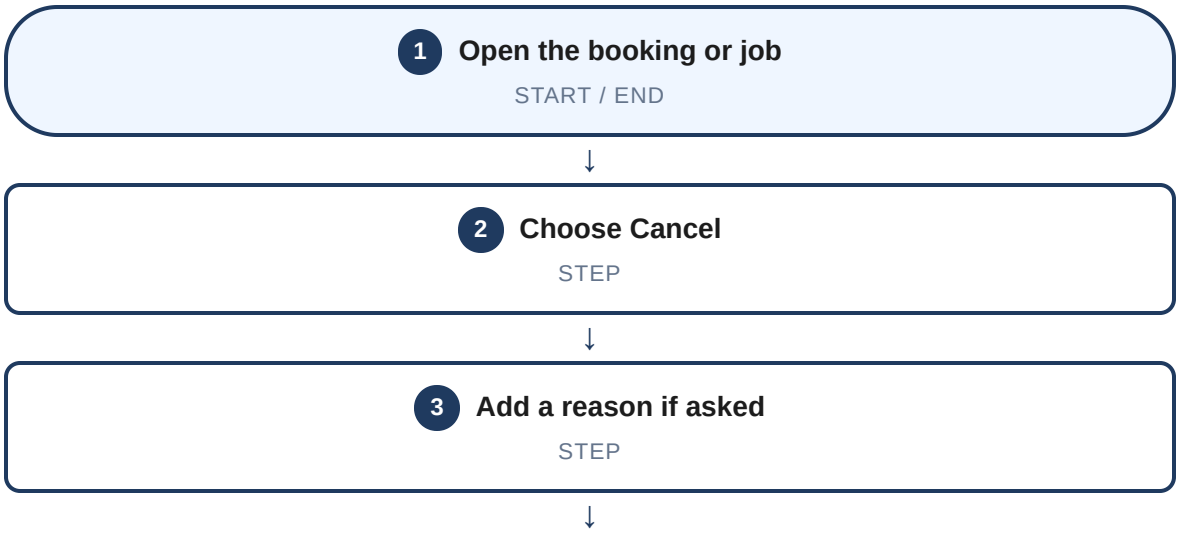

## Goal

Cancel a booking or a posted job correctly, understanding what happens to payment and the other party.

## Before you start

1. Be signed in to your OxSteed account.
2. Know which booking or job you want to cancel.

## Process map

**Text version.** 1. Find the booking on /my-bookings or the job on /my-jobs. 2. Choose Cancel (helpers use the helper-cancel action on incoming requests). 3. Add a cancellation reason when asked ("Reason for cancellation (optional)"). 4. Confirm; the booking shows the Cancelled status or the job is removed from the listing. 5. The other party is notified. Helpers set their own terms under /settings/payment-policies ("Payment & Cancellation Policies").

# Steps

## Step 1: Cancel a booking from My bookings

Open /my-bookings and find the booking. Choose Cancel on the booking card and confirm when asked ("Booking request cancelled"). The booking moves to the Cancelled status. Helpers cancel their side with the helper-cancel action on incoming requests.

> **Expected result:** The booking shows the Cancelled status.

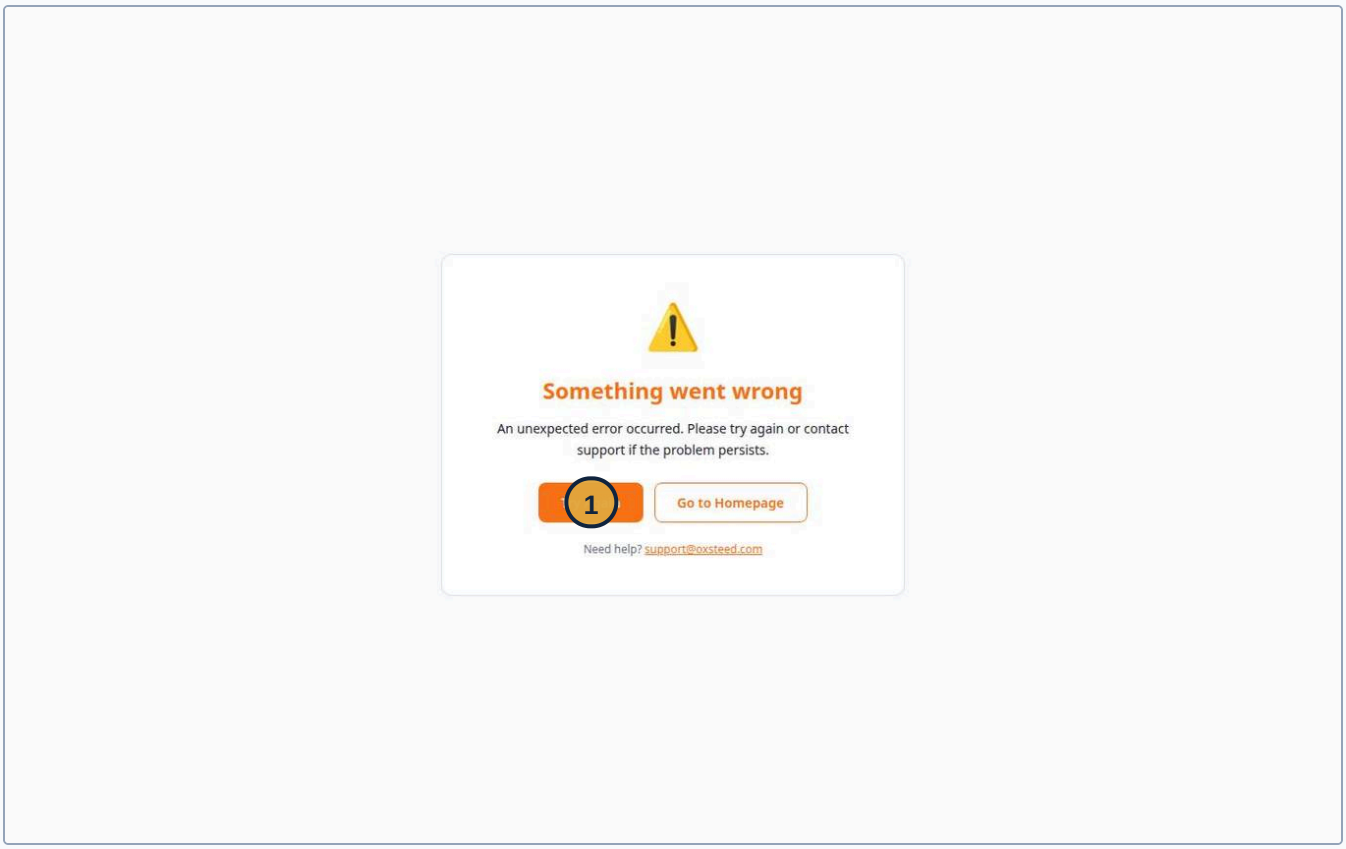

**Figure 1.** Cancelling a booking, desktop view. *(Image description: Booking card with the Cancel action and confirmation)*

1. **1.** Cancel action

## Step 2: Cancel a posted job from the job detail page

Open the job on /jobs/:id and choose "Cancel Job". The "Cancel this job?" dialog appears; add a cancellation reason in the "Cancellation reason (optional)" field and confirm ("Cancelling..."). The page warns: "This will remove your job listing. Helpers who bid will be notified."

> **Expected result:** The job is cancelled and bidding helpers are notified.

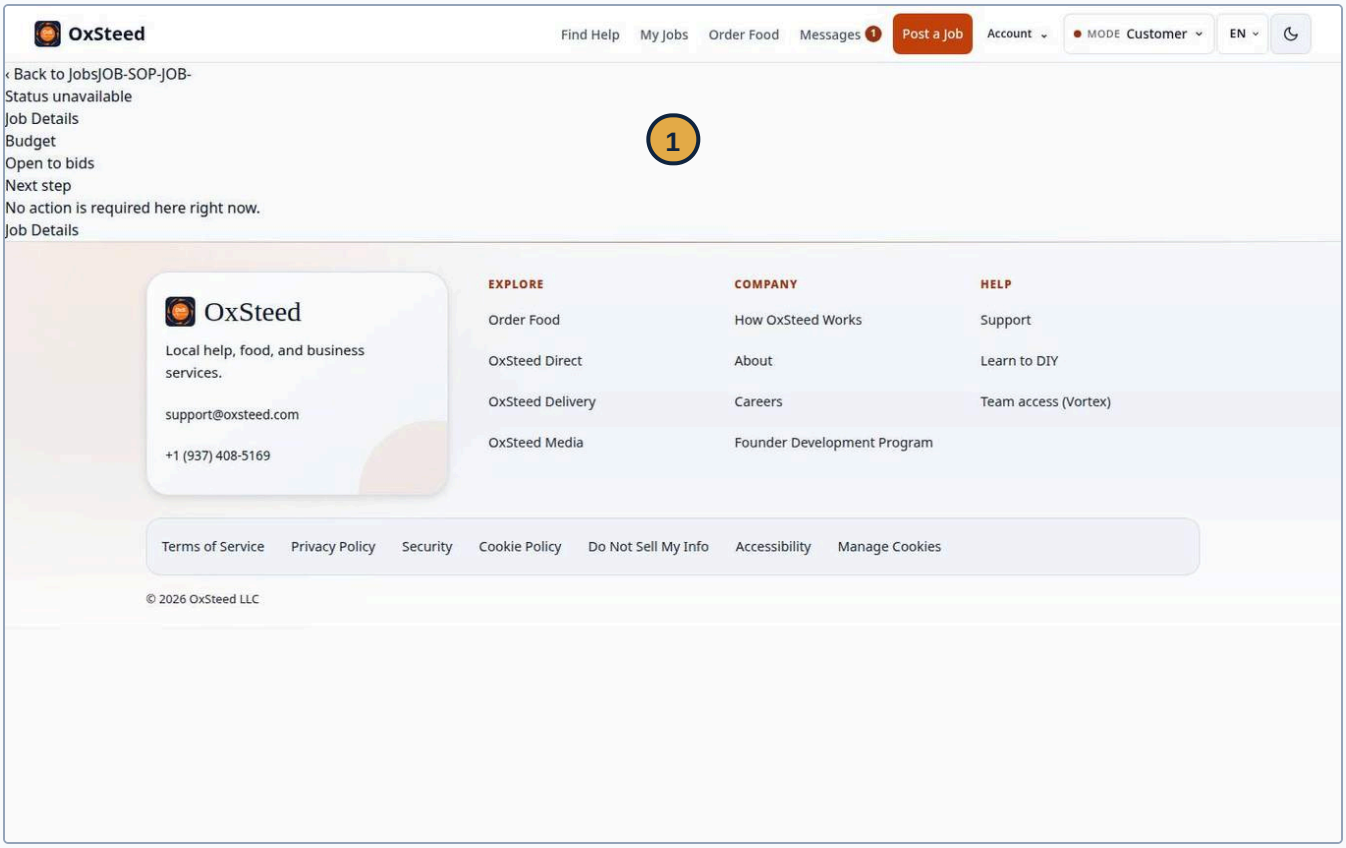

**Figure 2.** The Cancel this job dialog. *(Image description: Cancel this job dialog with reason field)*

1. **1.** Cancel this job? title

### Step 3: Set your cancellation terms as a helper

Helpers: open /settings/payment-policies, the "Payment & Cancellation Policies" page ("Choose how customers pay you, and what happens when plans change."). Set "Minimum Notice Hours" ("How far ahead a customer must cancel under your terms."), the "Deposit Required (%)" ("Collected upfront when the booking is confirmed."), and enable payment methods: "OxSteed Platform Payment" ("Customers pay via OxSteed with standard cancellation protection") or "Custom Off-Platform Payment" ("Negotiate directly with customers (payment outside OxSteed)"). You must enable at least one payment method.

> **Expected result:** Your policies are saved and customers see your terms when reviewing your bid.

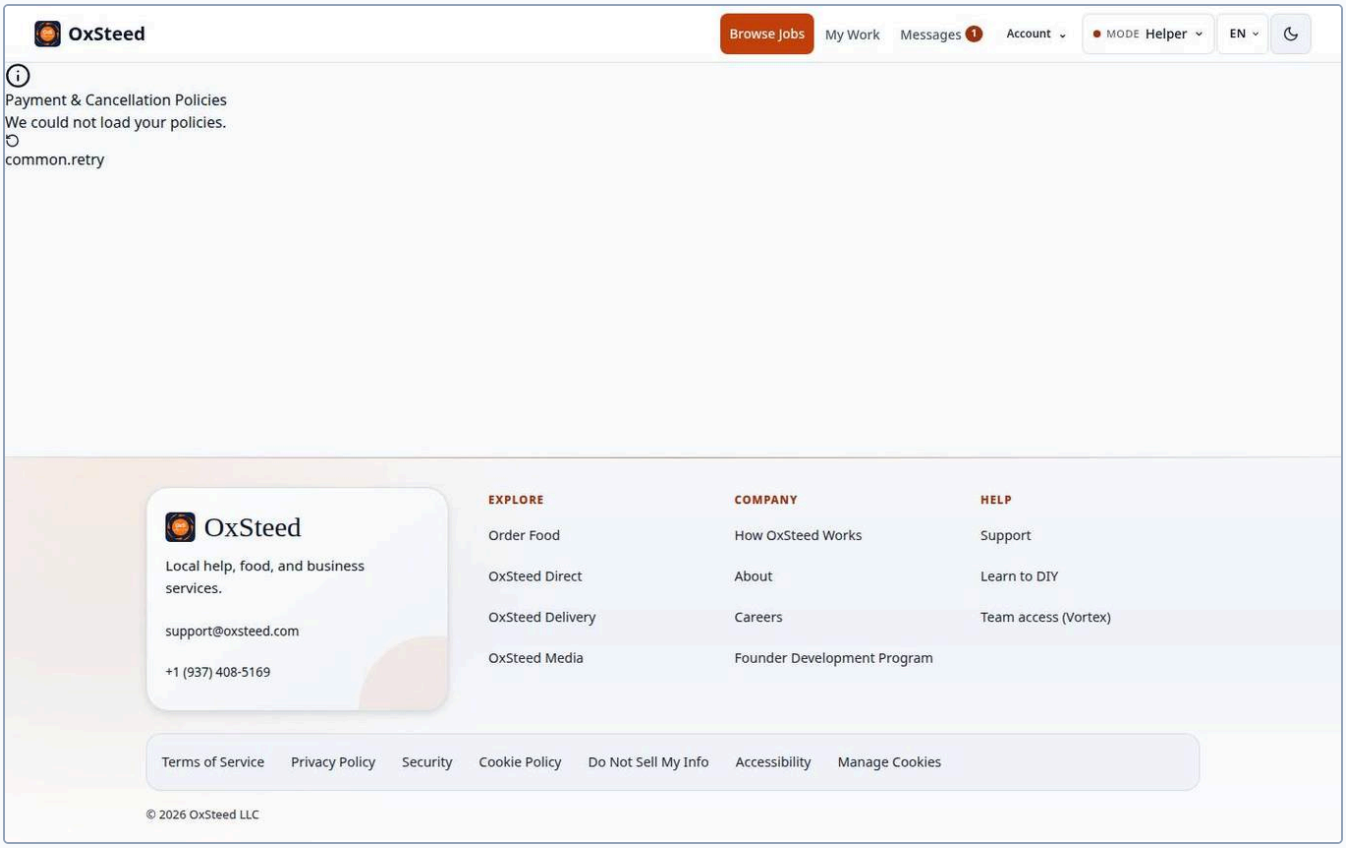

**Figure 3.** The helper cancellation policy settings. *(Image description: Payment and Cancellation Policies settings)*

## Confirm it worked

Cancelled bookings show the Cancelled status; cancelled jobs disappear from the open listings. Helpers see their policy terms reflected on their bids.

## If something goes wrong

| Problem | What to do |
| --- | --- |
| Cancellation is blocked or fails. | Some states (for example already completed or in dispute) block cancellation. Check the current status; open a dispute or contact support if money is already involved. |
| You cancelled by mistake. | Cancellations are final. Rebook the same helper or repost the job; your history keeps the original details. |

## Need help?

If a cancellation leaves payment in the wrong state, contact support from the Help menu or visit /support.

**Guide ID:** hiring-compare-bids | **Revision:** 1 | **Area:** Hiring

SOP LIBRARY / HIRING ENGLISH

# Compare bids on a job

| | |
|---|---|
| **Guide ID** | **hiring-compare-bids** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/hiring/compare-bids |

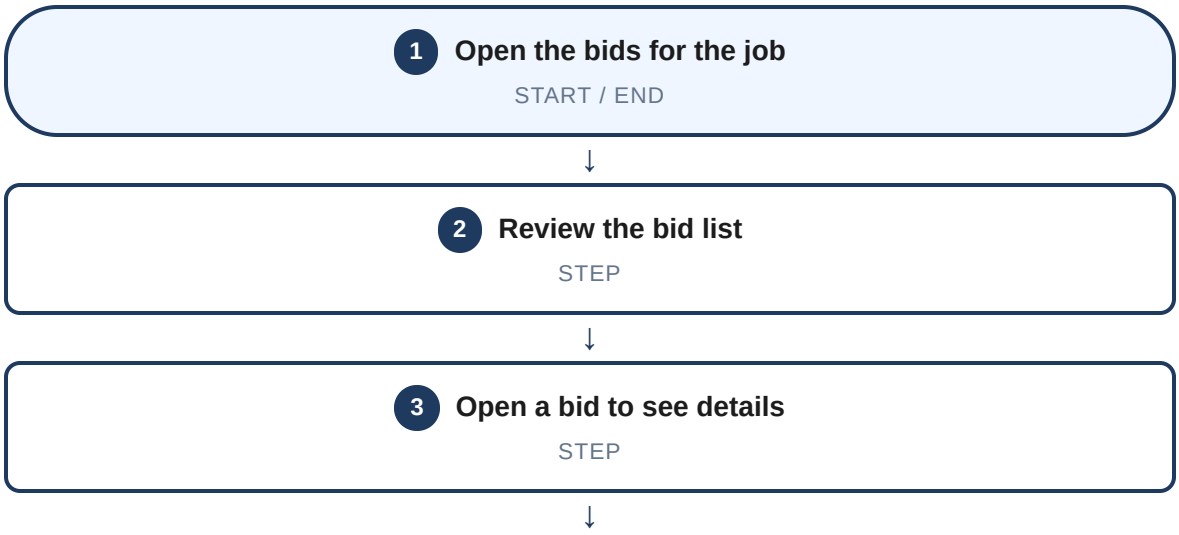

## Goal

Compare the bids on your job and accept the right one; or, as a helper, track your own bids.

## Before you start

1. Be signed in to your OxSteed account.
2. Have a job with bids posted.

## Process map

- *No:* Found the right bid? → Wait for more bids or decline
- *More bids arrive:* Wait for more bids or decline → Review the bid list

**Text version.** 1. On the job detail page, open the "Bids" section (or choose "Review bids"). 2. Scan the bids: amount, ETA, location, and the helper's message. 3. Choose "View Bid" on a bid to open its "Bid Details" page. 4. If the bid is right, choose "Accept Bid". Helpers can track and manage their own bids on the "My Bids" page, including "Withdraw". 5. The accepted bid assigns the job to that helper.

# Steps

## Step 1: Open the bids on your job

Open your job (/jobs/:id) and scroll to the "Bids" heading. Each bid shows the amount, the ETA, the location, and the helper's message ("Message"). Choose "Review bids" to focus on the bid list.

> **Expected result:** All bids on the job are listed with their amounts and statuses.

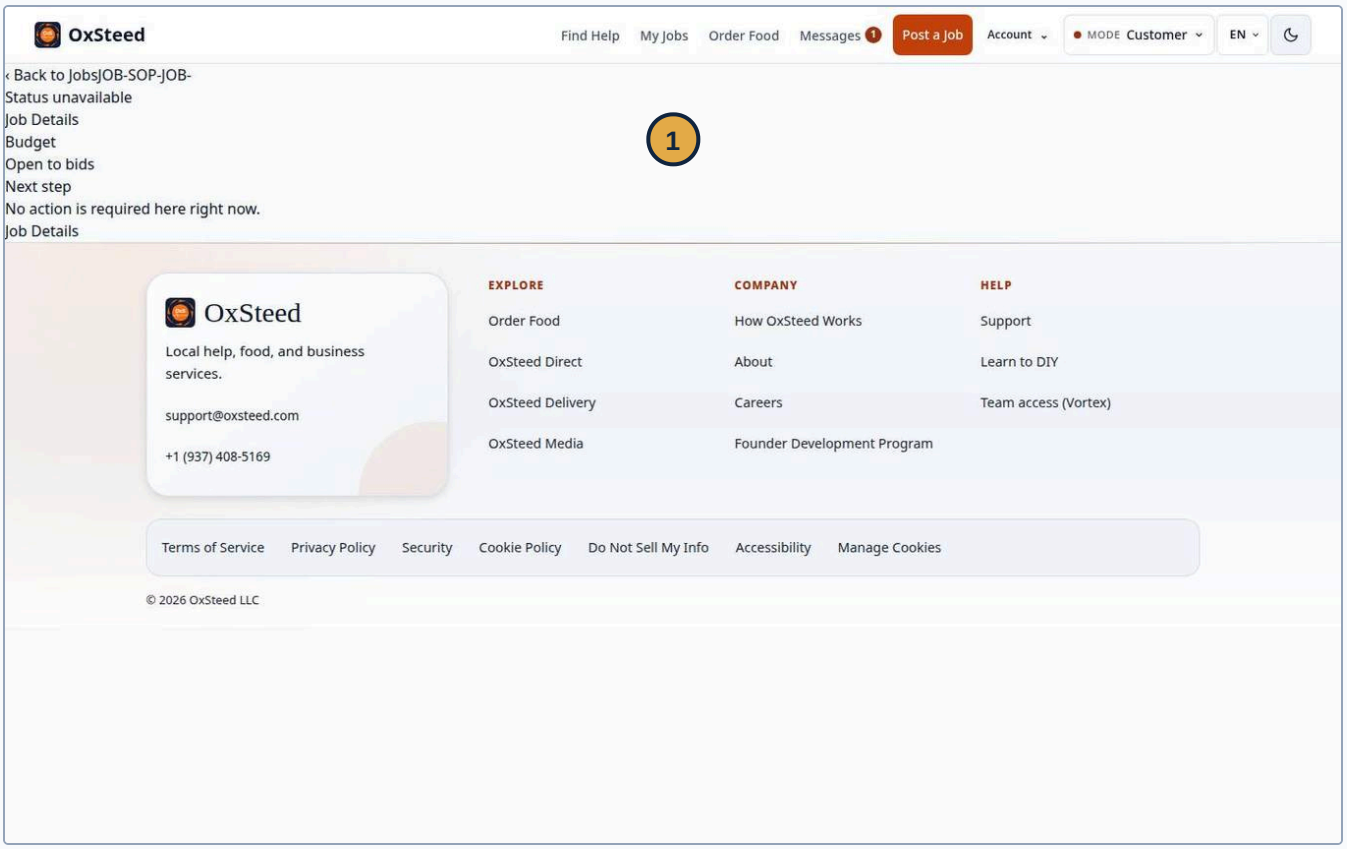

**Figure 1.** The Bids section on your job, desktop view. *(Image description: Bids section on a job detail page)*

1. **1.** Bids heading

## Step 2: Open a bid to read the full details

Choose "View Bid" on a bid to open its "Bid Details" page (/bids/:bidId). It shows the Amount, ETA, Location, Submitted time, the helper's message, and the "Next step" panel. Helpers see the same page for their own bids and can "Withdraw" a pending bid ("Are you sure you want to withdraw this bid?").

> **Expected result:** The full bid detail loads with the helper profile link.

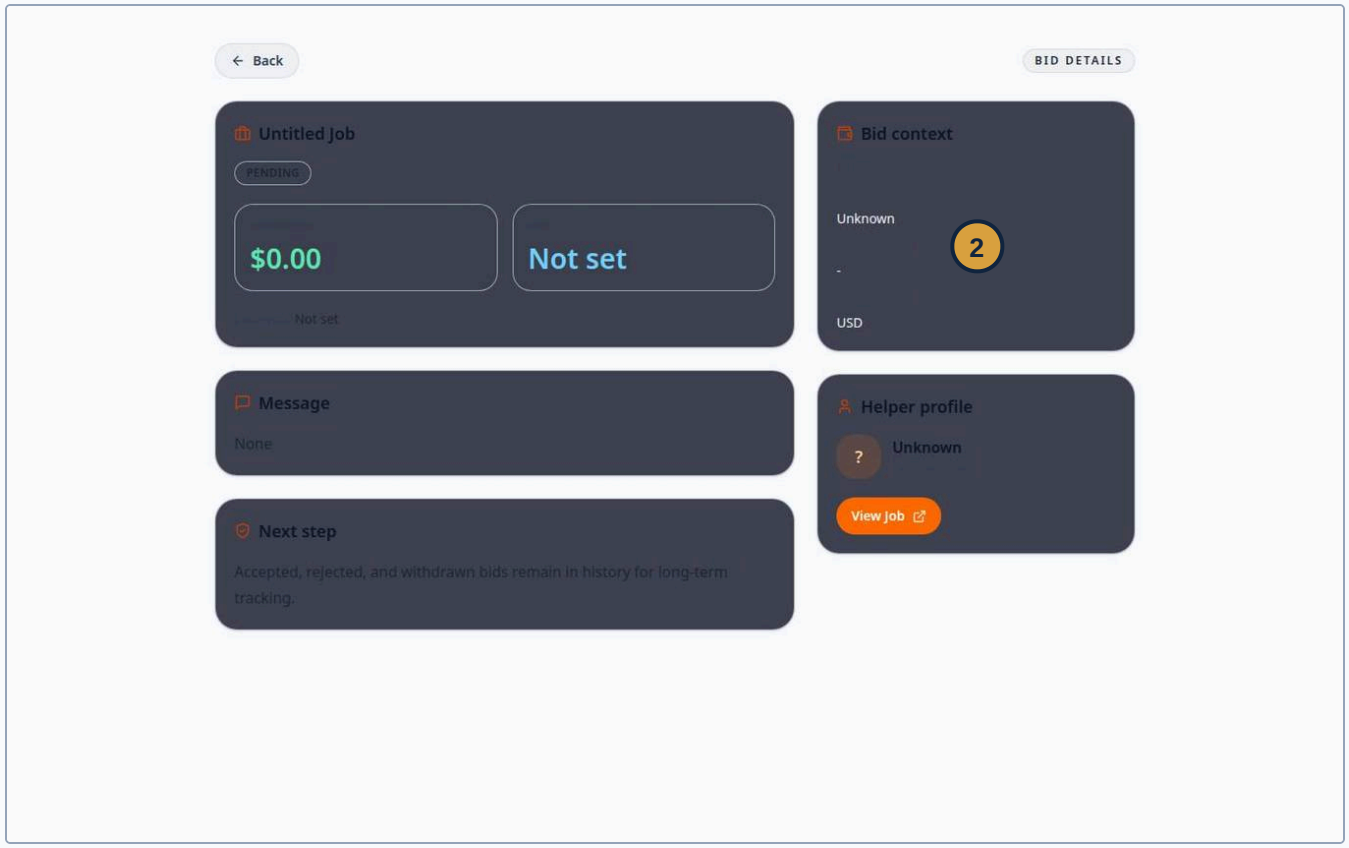

**Figure 2.** The Bid Details page, desktop view. *(Image description: Bid Details page with amount, ETA, and message)*

1. **2.** Amount and ETA

### Step 3: Accept the winning bid

On the bid or the job detail page, choose "Accept Bid". The bid moves to "Accepted" and the job is assigned to that helper. The "Next step" panel explains: "This bid has been accepted. Continue through the booking and job workflow." Other bids can be declined or left; accepted, rejected, and withdrawn bids remain in history for tracking.

> **Expected result:** The bid shows as accepted and the job is assigned to the helper.

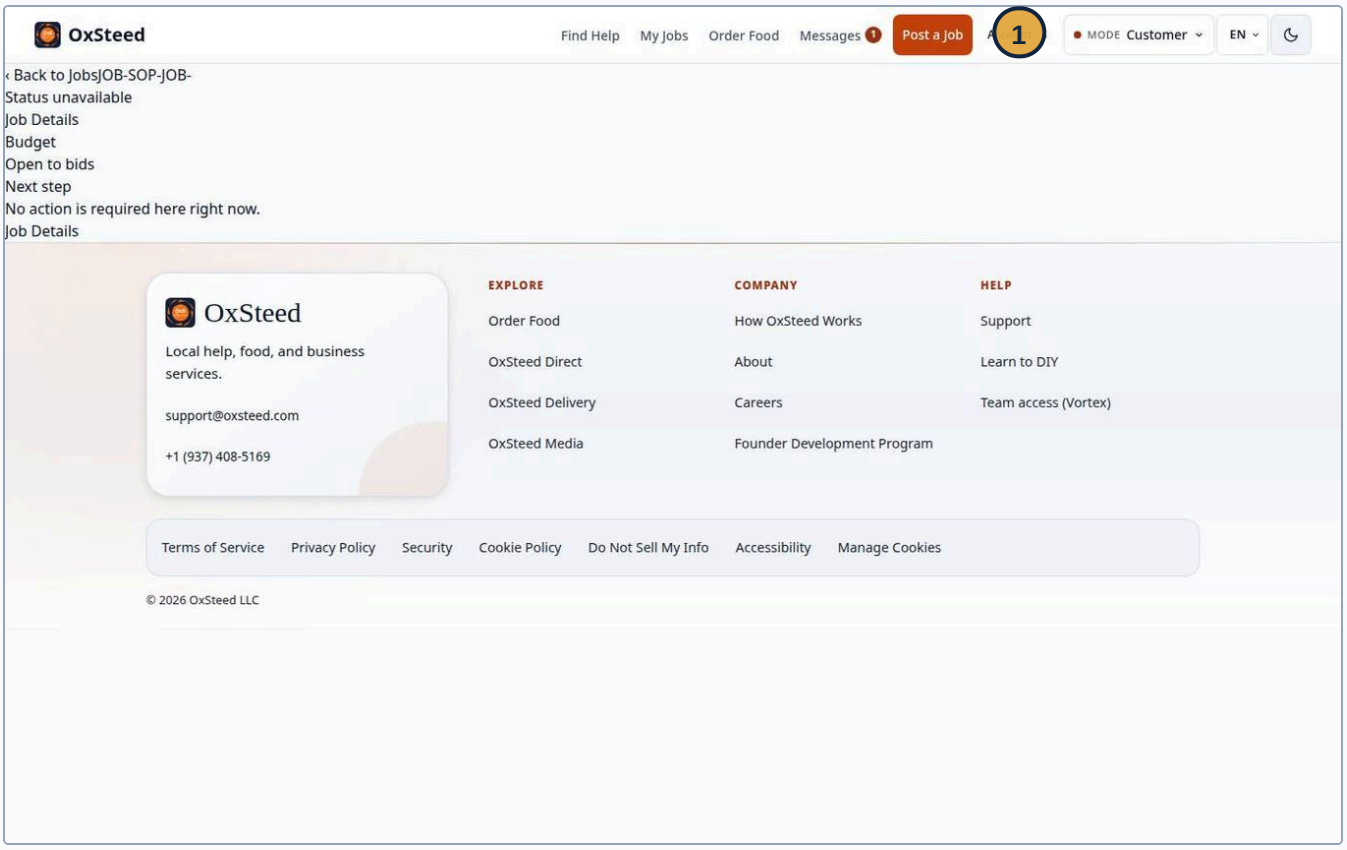

**Figure 3.** The accepted bid on the job. *(Image description: Job detail with the accepted bid marked)*

1. **1.** Accept Bid button

## Confirm it worked

The accepted bid shows "Accepted" and the job moves to its assigned state. Helpers see the same status on the My Bids page ("My Bids", "Track the status of all your bids").

## If something goes wrong

| Problem | What to do |
| --- | --- |
| A bid expired before you accepted it. | Expired bids show "This bid has expired." Ask the helper to submit a fresh bid, or choose another bid. |
| A bid needs reconfirmation. | If you edited the job after the bid arrived, the helper must choose "Reconfirm my bid" first; wait for the "Awaiting reconfirmation" state to clear. |

## Need help?

If a bid is stuck or acceptance fails, contact support from the Help menu or visit /support.

**Guide ID:** hiring-completion | **Revision:** 1 | **Area:** Hiring

SOP LIBRARY / HIRING **ENGLISH**

# Mark a job complete

| | |
|---|---|
| **Guide ID** | **hiring-completion** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/hiring/mark-job-complete |

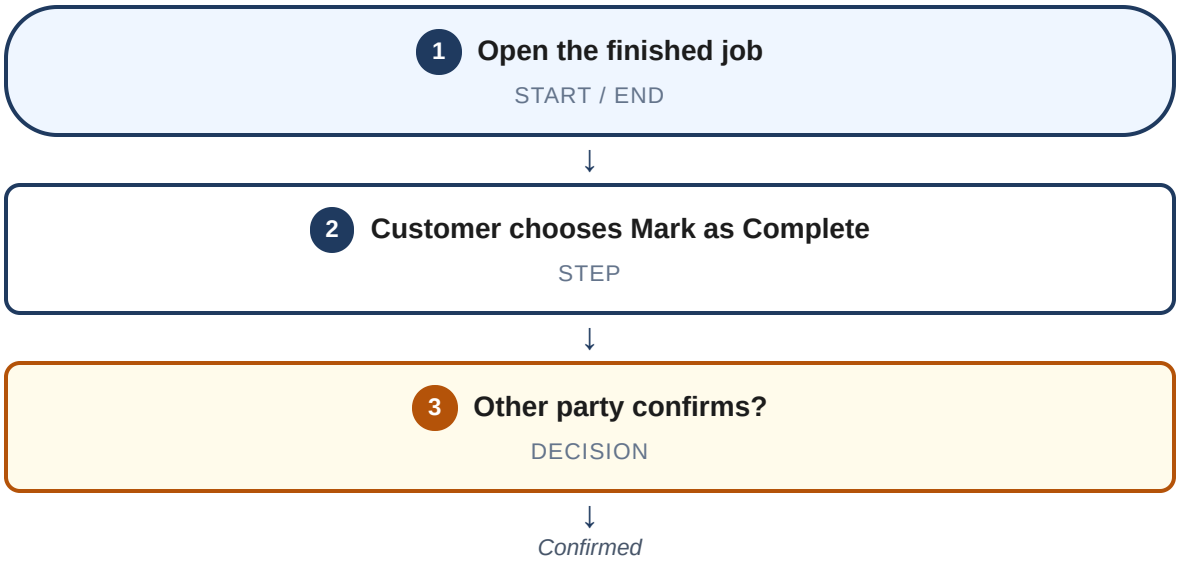

## Goal

Confirm a finished job so payment releases, reviews unlock, and the record closes.

## Before you start

1. Be signed in to your OxSteed account.
2. The work itself must be finished and checked.

## Process map

**4 Job completed; reviews unlock**

START / END

- Open the finished job → Helper chooses Mark job done
- Helper chooses Mark job done → Other party confirms?
- *No response:* Other party confirms? → Auto-confirm after no response
- Auto-confirm after no response → Job completed; reviews unlock

**Text version.** 1. Open the finished job on /my-jobs or /jobs/:id. 2. Customers choose "Mark as Complete"; helpers choose "Mark job done". 3. The other party confirms. If the customer does not respond, it confirms automatically after the waiting period ("You marked this job done. Waiting for the customer to confirm; it confirms automatically if they don't respond."). 4. Completion shows "Job completed successfully" and unlocks reviews. 5. Work agreements have their own completion: open /agreements/:id and choose "Confirm complete"; both parties confirm before the agreement is marked complete.

# Steps

## Step 1: Open the finished job

Open /my-jobs and choose the job, or open /jobs/:id directly. Make sure the work is actually finished: completion triggers payment release and review eligibility.

> **Expected result:** The job detail shows the completion action for your role.

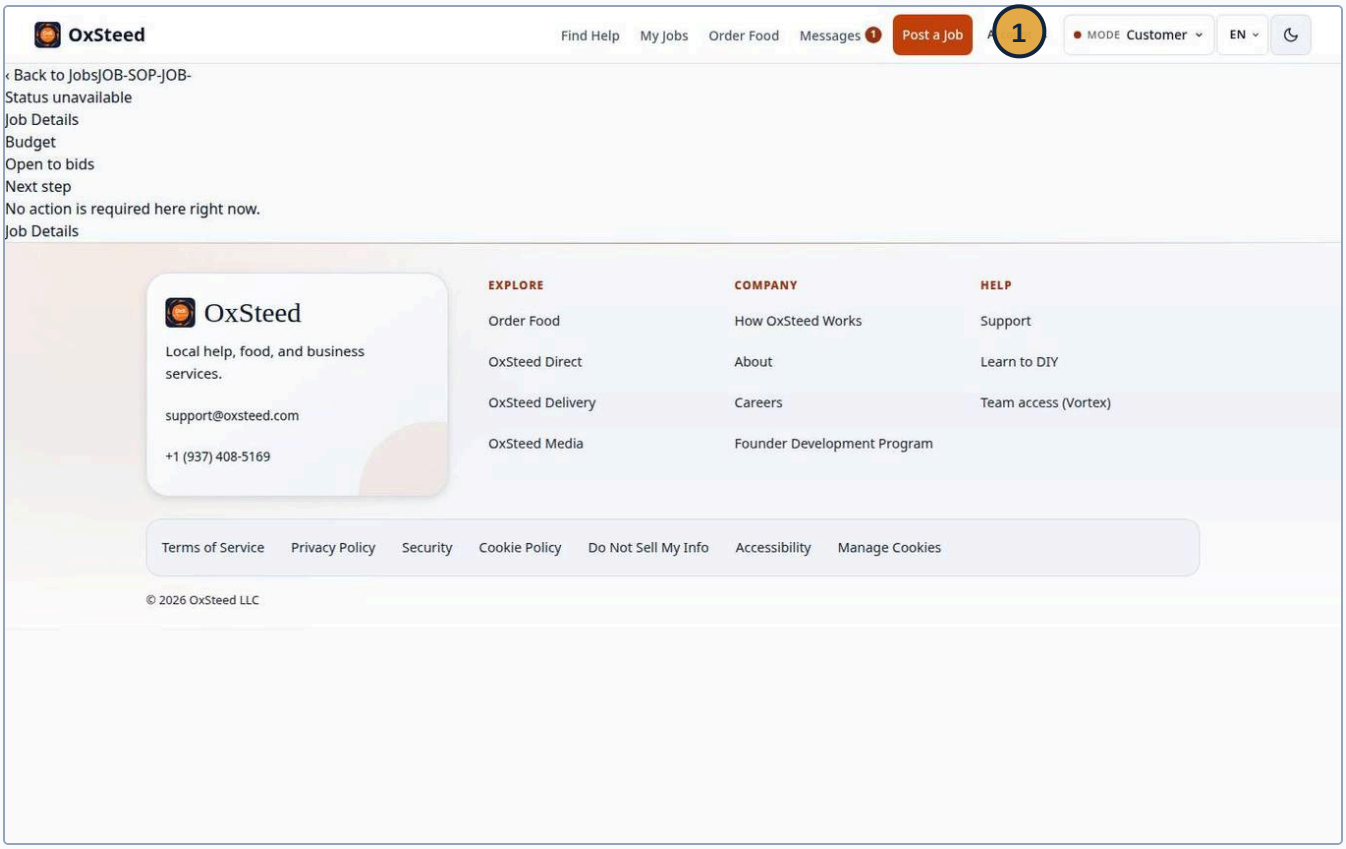

**Figure 1.** The finished job with the completion action. *(Image description: Job detail page with the completion button visible)*

1. **1.** Mark as Complete button

## Step 2: Mark the job complete and wait for confirmation

Customers choose "Mark as Complete"; helpers choose "Mark job done". The page confirms: "Job completed successfully", or, for the helper side, "You marked this job done. Waiting for the customer to confirm; it confirms automatically if they don't respond." Do not mark complete until the work is checked.

> **Expected result:** The job shows as completed (or pending the other party's confirmation).

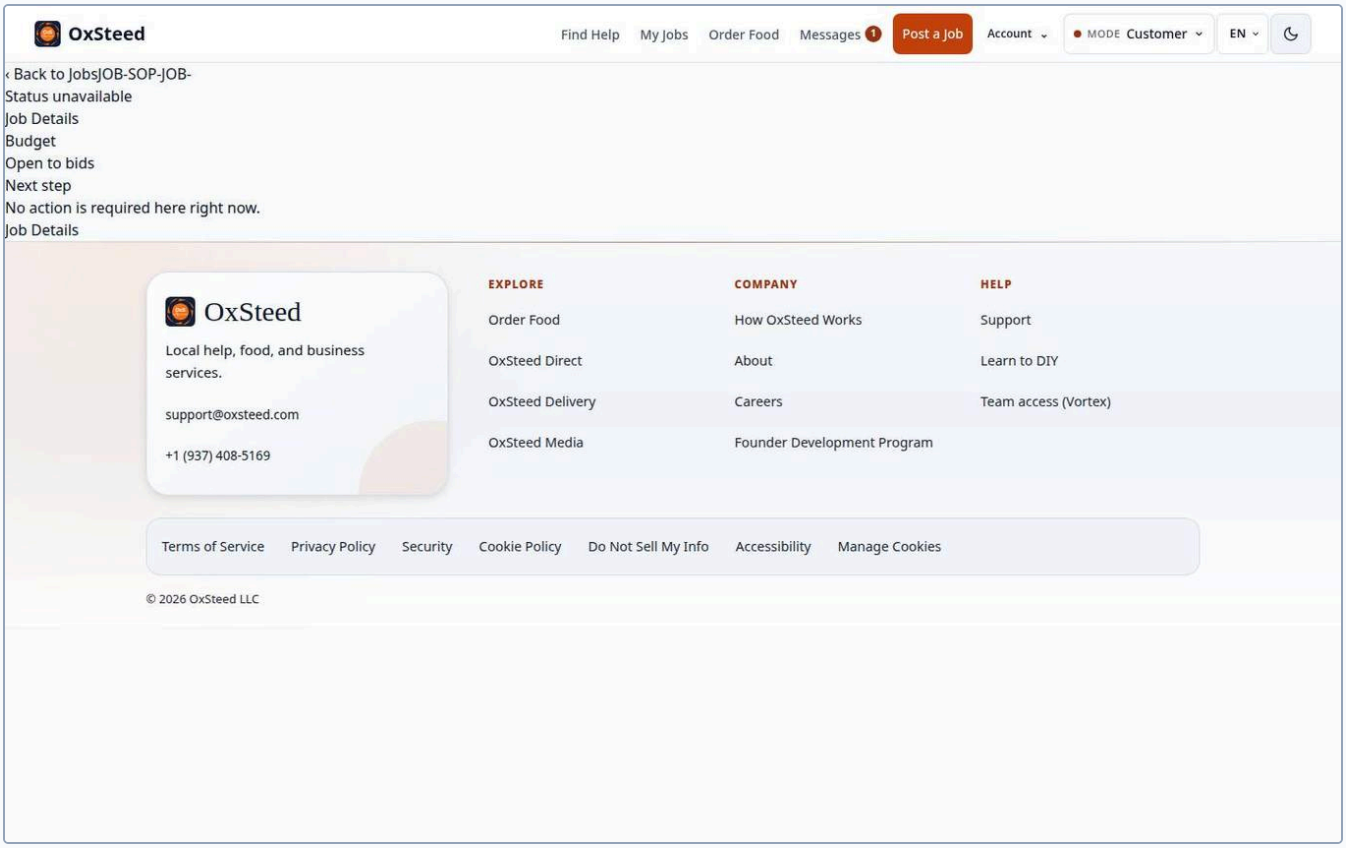

**Figure 2.** The completed confirmation. *(Image description: Job completed successfully confirmation)*

### Step 3: Complete the work agreement if one exists

If the job has a signed work agreement, completion is a separate step: open /agreements/:id, find the "Work finished?" section, and choose "Confirm complete". The agreement notes: "Both of you confirm before the agreement is marked complete." Once both confirm, held payment is released unless open issues remain.

> **Expected result:** The agreement shows as complete and payment releases to the helper.

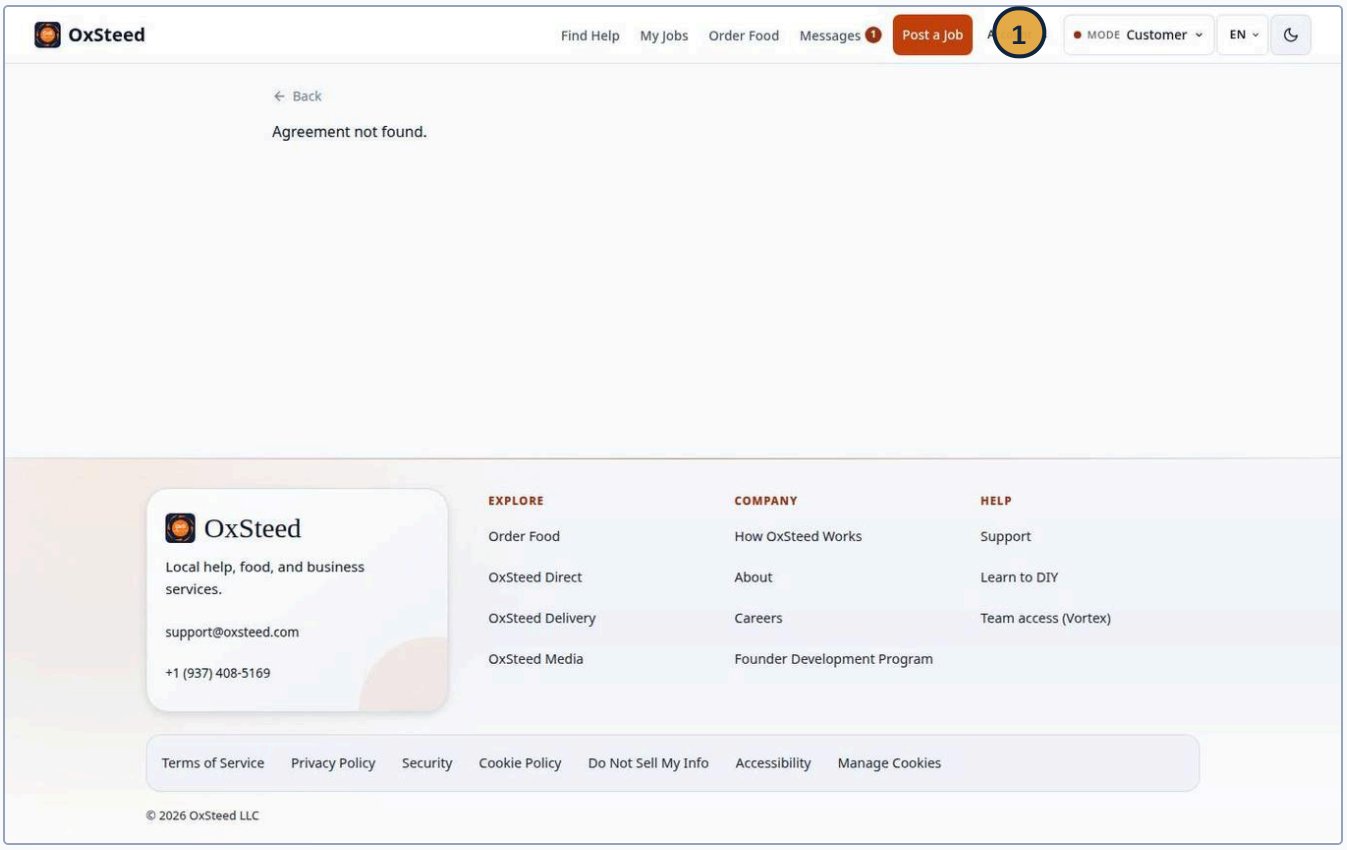

**Figure 3.** Completing the work agreement. *(Image description: Work agreement page with the Confirm complete button)*

1. **1.** Confirm complete button

## Confirm it worked

The job shows the completed status and review eligibility opens. For agreements, both parties see the completed state and "Payment released to the helper."

## If something goes wrong

| Problem | What to do |
| --- | --- |
| The job will not mark complete. | Only the parties on the job can complete it, and some states (for example cancelled) block completion. Check the job status and your role first. |
| Payment is still held after agreement completion. | That is by design when open issues remain: "The agreement is complete, but the job payment is still held. It will be released once any open issues are resolved." Resolve the issues or open a dispute. |

## Need help?

If completion is blocked by a state you cannot change, contact support from the Help menu or visit /support.

## Related guides

SOP LIBRARY / HIRING **ENGLISH**

# Open and manage a dispute

| | |
|---|---|
| **Guide ID** | **hiring-disputes** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/hiring/open-dispute |

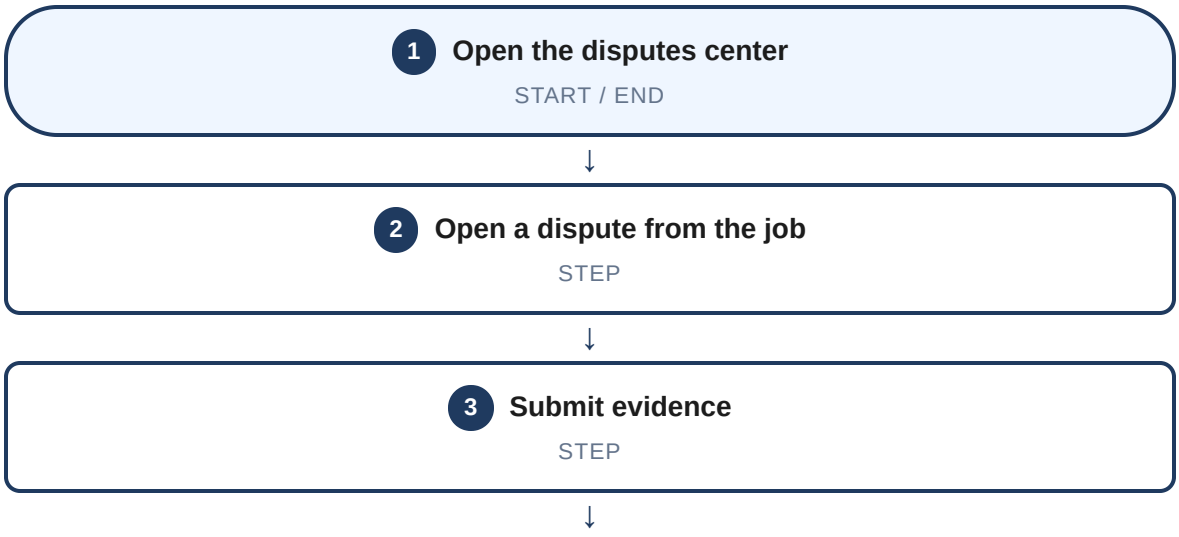

## Goal

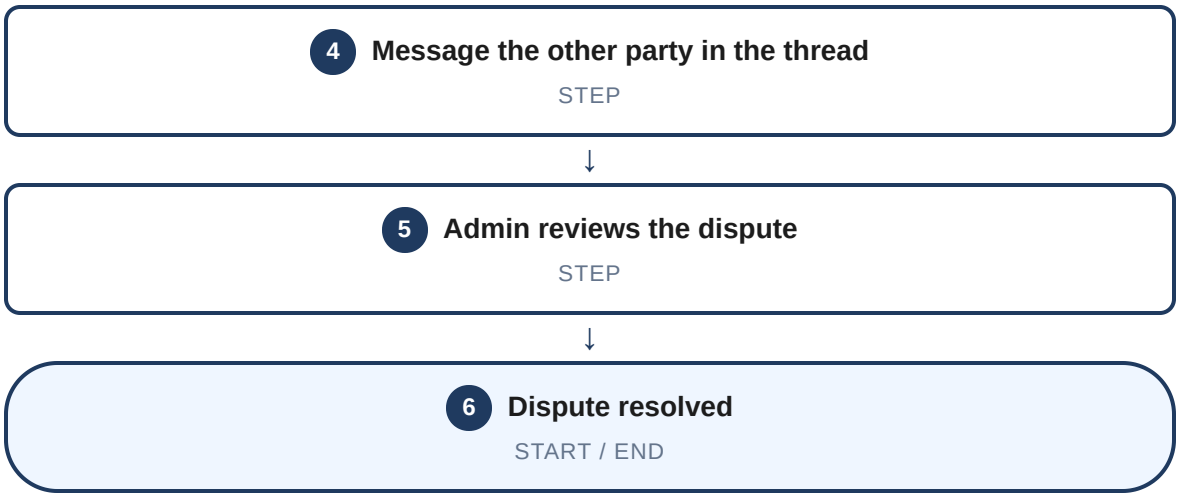

Open a dispute on a job, preserve evidence, and message the other party until it resolves.

## Before you start

1. Be signed in to your OxSteed account.
2. Try to clarify the scope in messages first; disputes work best with a written record.

## Process map

**Text version.** 1. Open /disputes ("Trust and resolution center") and choose "Open a dispute from a job". 2. Pick the job and describe the issue. 3. Add evidence on the dispute detail page: the "Evidence ({{count}})" section with "Submit Evidence" and "Attach files (images, videos, documents - max 5)". 4. Use the "Messages" thread ("Type a message...") to discuss with the other party so support can follow the record. 5. When the evidence window closes ("Evidence window closed. Awaiting admin review."), an admin reviews and the dispute resolves.

# Steps

## Step 1: Open a dispute from the job

Open /disputes, the "Trust and resolution center". Your disputes are listed with Open and In review stats. Choose "Open a dispute from a job" (or "Open a dispute" on the job detail page), pick the job, and describe the issue. Before opening, the empty state reminds you to clarify scope in messages and to save photos, receipts, and time details.

> **Expected result:** The dispute is created and opens on its detail page.

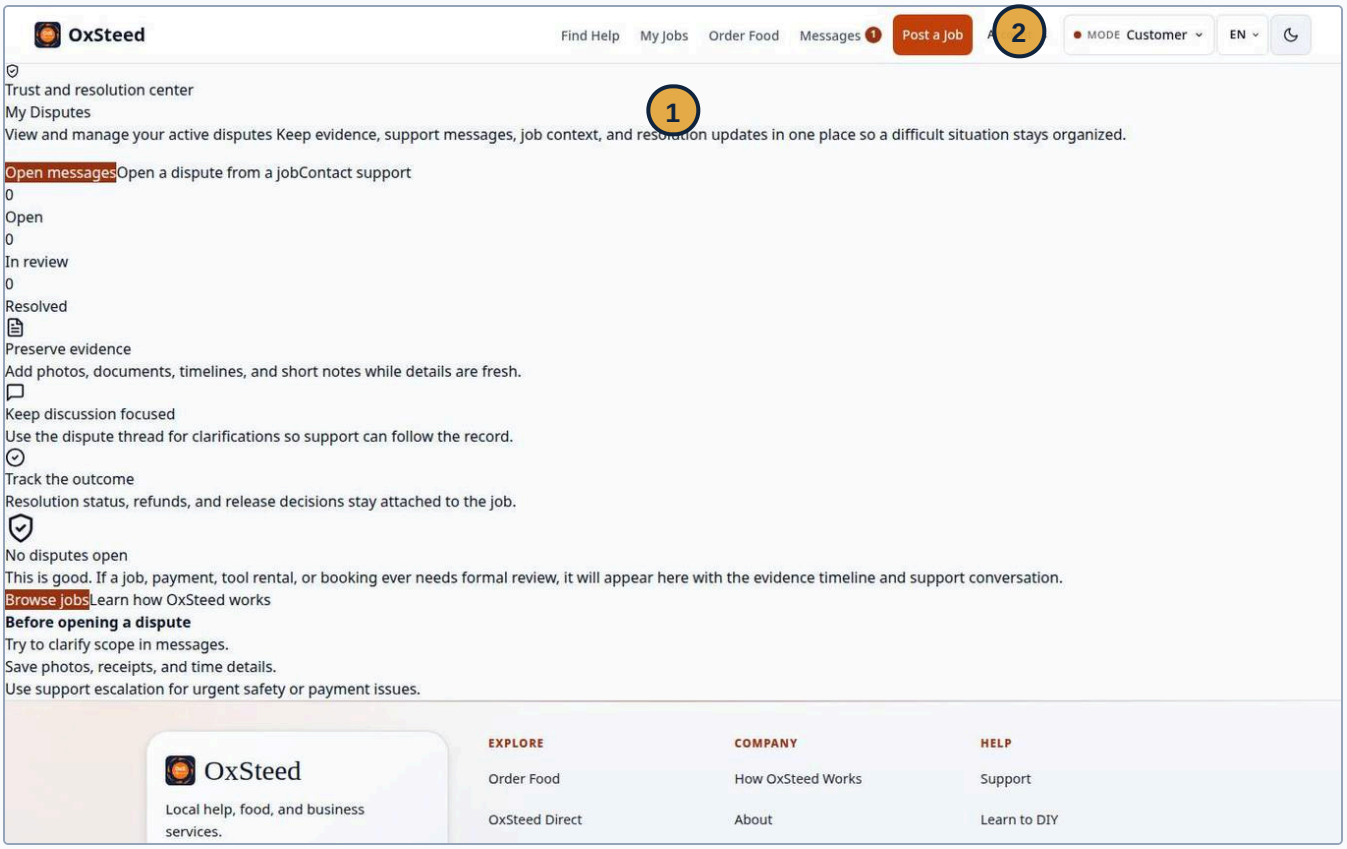

**Figure 1.** The dispute center, desktop view. *(Image description: Dispute center with the Open a dispute from a job button)*

1. **1.** Trust and resolution center
2. **2.** Open a dispute from a job

## Step 2: Submit evidence while the window is open

On the dispute detail page (/disputes/:id), find the "Evidence ({{count}})" section. Describe what happened in the evidence box ("Describe what happened, provide context, links, or any relevant information...") and add up to 5 files with "Attach files (images, videos, documents - max 5)". Choose "Submit Evidence". You must provide text or files; empty submissions are rejected.

> **Expected result:** Your evidence appears in the Evidence section with a count.

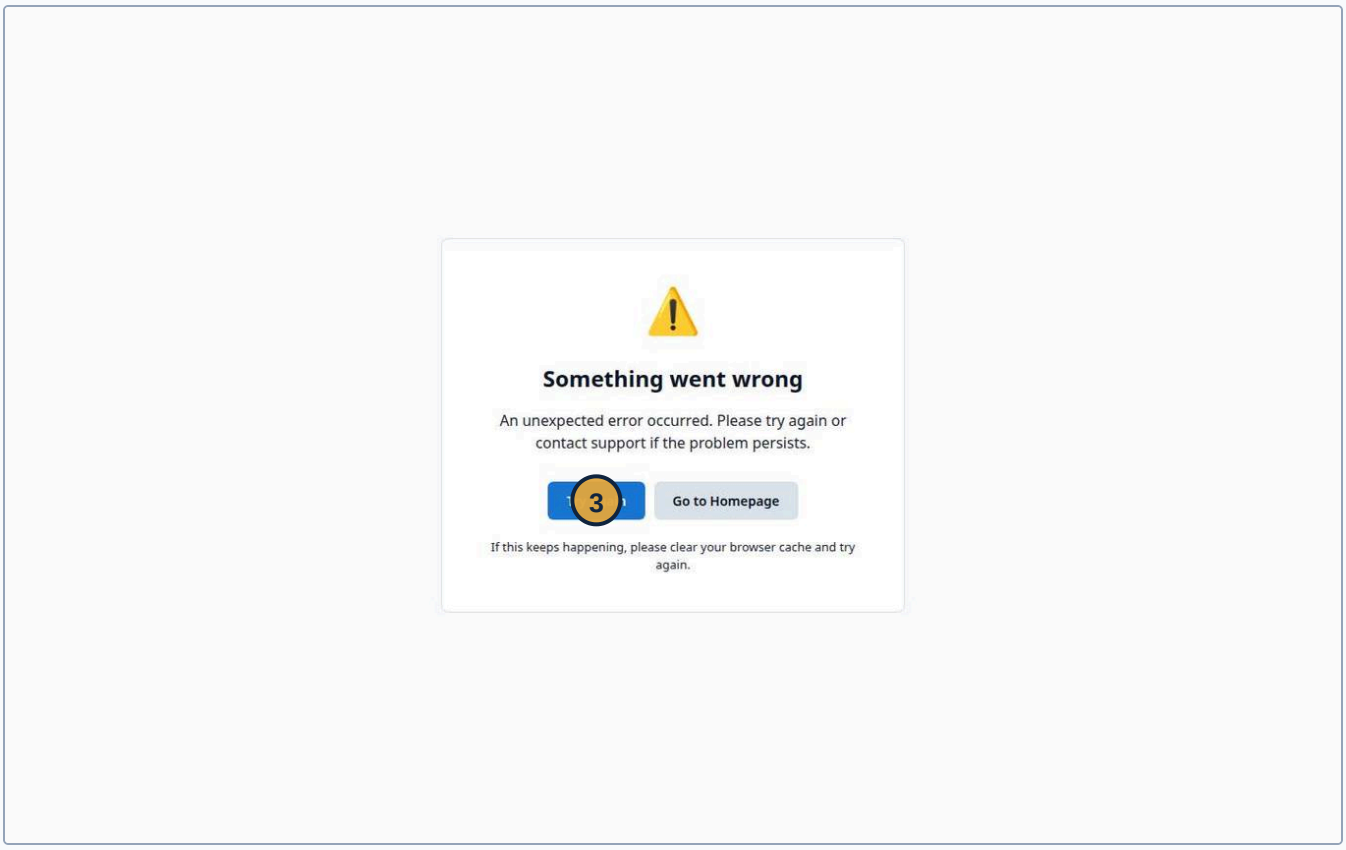

**Figure 2.** The Evidence section, desktop view. *(Image description: Evidence section with the submit form)*

1. **3.** Submit Evidence button

### Step 3: Keep the discussion in the dispute thread

Use the "Messages" section on the dispute detail page ("Type a message...") for all discussion with the other party. Keeping the discussion focused here (not in scattered chats) lets support follow the record. "Open messages" jumps to the thread from the center.

> **Expected result:** Messages appear in the dispute thread for both parties and support to see.

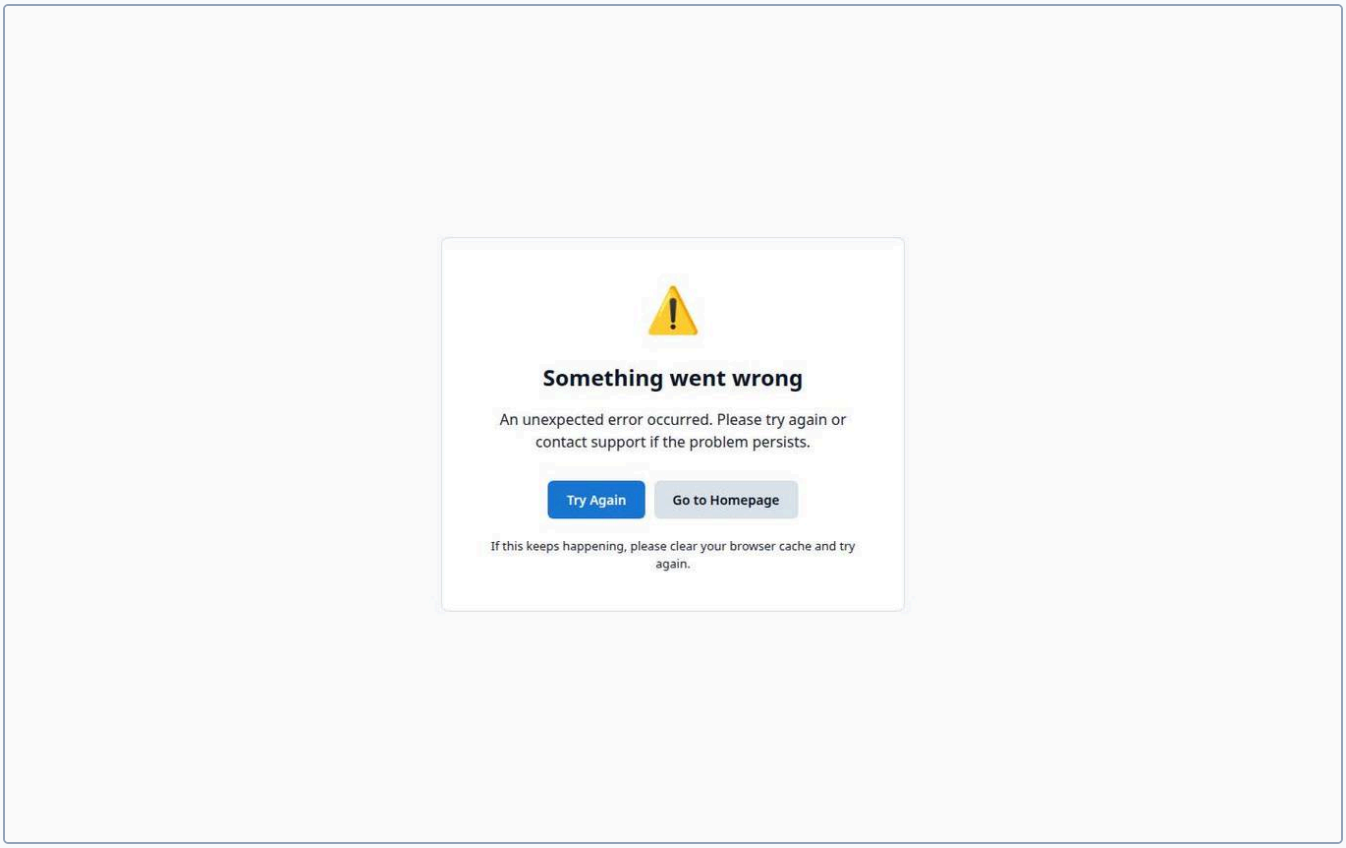

**Figure 3.** The dispute Messages thread. *(Image description: Dispute messages thread with the message box)*

## Confirm it worked

The dispute shows its status in the center (Open, then In review). When resolved, the outcome, refunds, and release decisions stay attached to the job.

## If something goes wrong

| Problem | What to do |
|---|---|

| | |
|---|---|
| You cannot add more evidence. | The evidence window may be closed ("Evidence window closed. Awaiting admin review."). Add new facts as messages instead. |
| The other party will not engage. | Admin review proceeds on the record you built. For urgent safety or payment issues, also use support escalation at /support/escalation. |

## Need help?

For urgent safety or payment issues, use the support escalation page at /support/escalation alongside the dispute.

# Message about a job or booking

| | |
|---|---|
| **Guide ID** | **hiring-message** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/hiring/message-about-job |

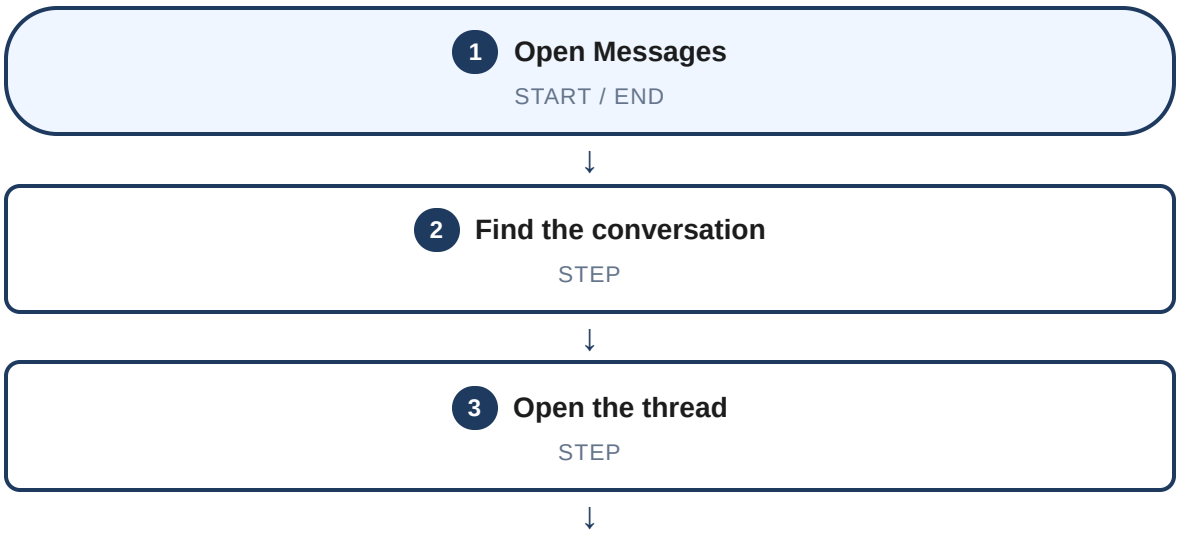

## Goal

Message helpers and customers about jobs, bookings, and bids from the Messages inbox.

## Before you start

1. Be signed in to your OxSteed account.

## Process map

**Text version.** 1. Open /messages ("Messages"). 2. Use the search box ("Search people, jobs, or messages...") or the filters ("Filter conversations", All / Unread) to find the thread. 3. Open the conversation thread. 4. Type in the message box and choose "Send". Job-scoped conversations start from a job or booking; helpers also see guest inquiries here.

## Steps

### Step 1: Open Messages and find the conversation

Open /messages. The page title is "Messages" with the conversation list, a search box ("Search people, jobs, or messages..."), and filters ("Filter conversations") including All and Unread. Guest inquiries from customers who have not booked yet also land here.

> **Expected result:** Your conversations are listed with unread counts.

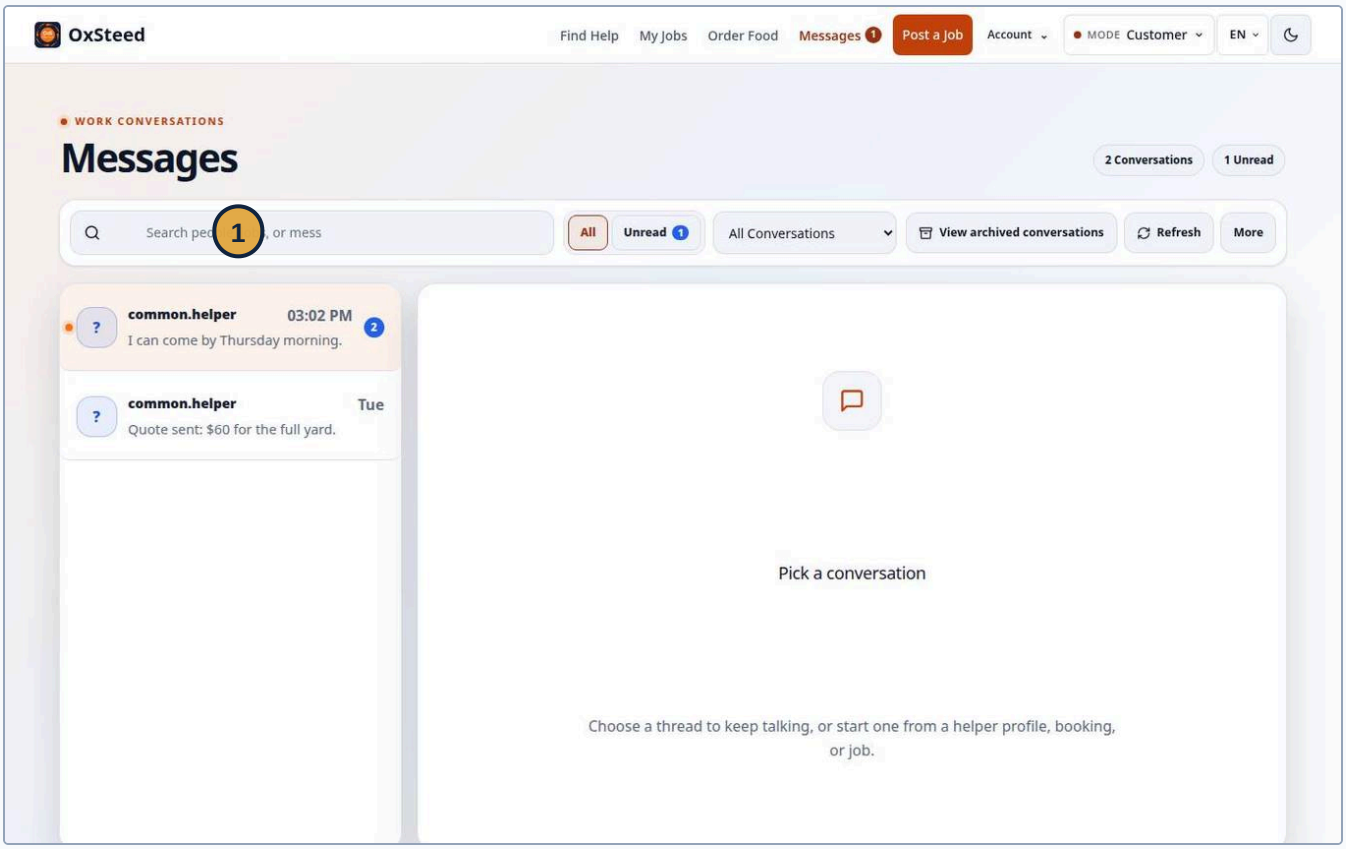

**Figure 1.** The Messages inbox, desktop view. *(Image description: Messages inbox with search and conversation list)*

1. **1.** Search box

### Step 2: Open the thread and send your message

Choose a conversation to open the thread. The composer placeholder is "Type a message..." (helpers see "Type a reply"). Write your message and choose "Send". Messages send in real time; failed sends show a retry option.

> **Expected result:** Your message appears in the thread.

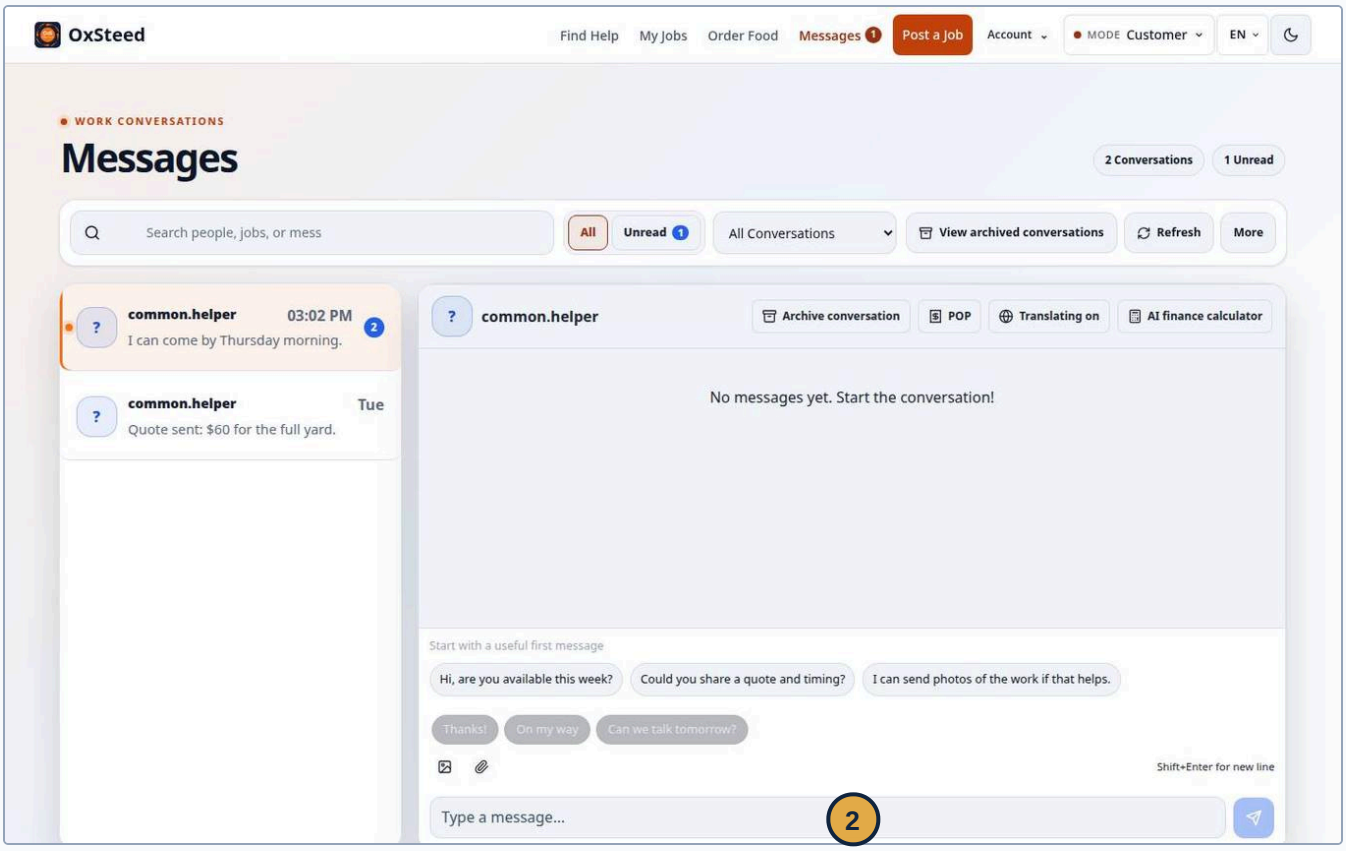

**Figure 2.** The conversation thread, desktop view. *(Image description: Conversation thread with messages and the composer)*

1. **2.** Composer and Send button

## Confirm it worked

Your message appears in the thread and the other party is notified. Job-context threads stay linked to the job for the record.

## If something goes wrong

| Problem | What to do |
| --- | --- |
| You cannot find the conversation. | Use the search box and check the Unread filter; archived threads are under the archived view. |
| A message fails to send. | Use the retry option. If it keeps failing, reload the page and try again. |

## Need help?

For urgent issues that messaging cannot resolve, escalate from /support.

# Leave and respond to reviews

| | |
|---|---|
| **Guide ID** | **hiring-reviews** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper, Business owner, Restaurant |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/hiring/leave-review |

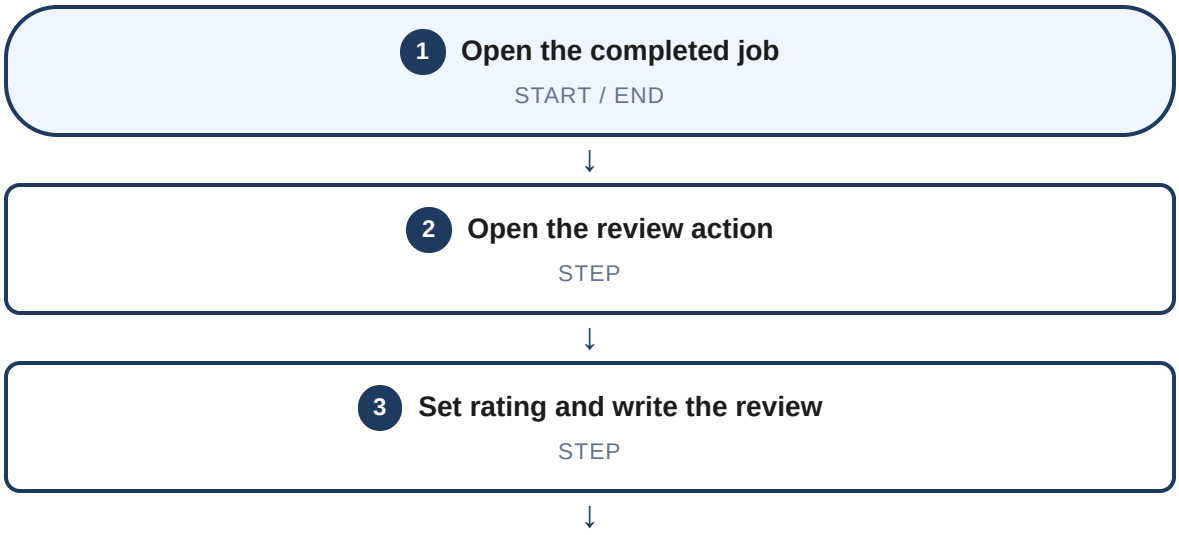

## Goal

Leave a review for a finished job and respond to reviews left for you.

## Before you start

1. Be signed in to your OxSteed account.
2. The job must be completed before reviews unlock.

## Process map

- Open the completed job → Respond to a review left for you
- Respond to a review left for you → Review published

**Text version.** 1. Open the completed job (/jobs/:id) or order (/orders/:id). 2. Choose the review action to open the review dialog ("Leave a Review"). 3. Pick a Rating and write "Your Review" (and the testimonial where asked). 4. Choose "Submit Review" ("Submitting..." while it saves). 5. When someone reviews you, answer with the response action; responses show as the "Business Response" on the review.

# Steps

## Step 1: Open the review action on the finished job

On the completed job detail page, choose the review action to open the review dialog titled "Leave a Review". Reviews are eligibility-checked: the action only appears when you are allowed to review that job or order.

> **Expected result:** The "Leave a Review" dialog opens.

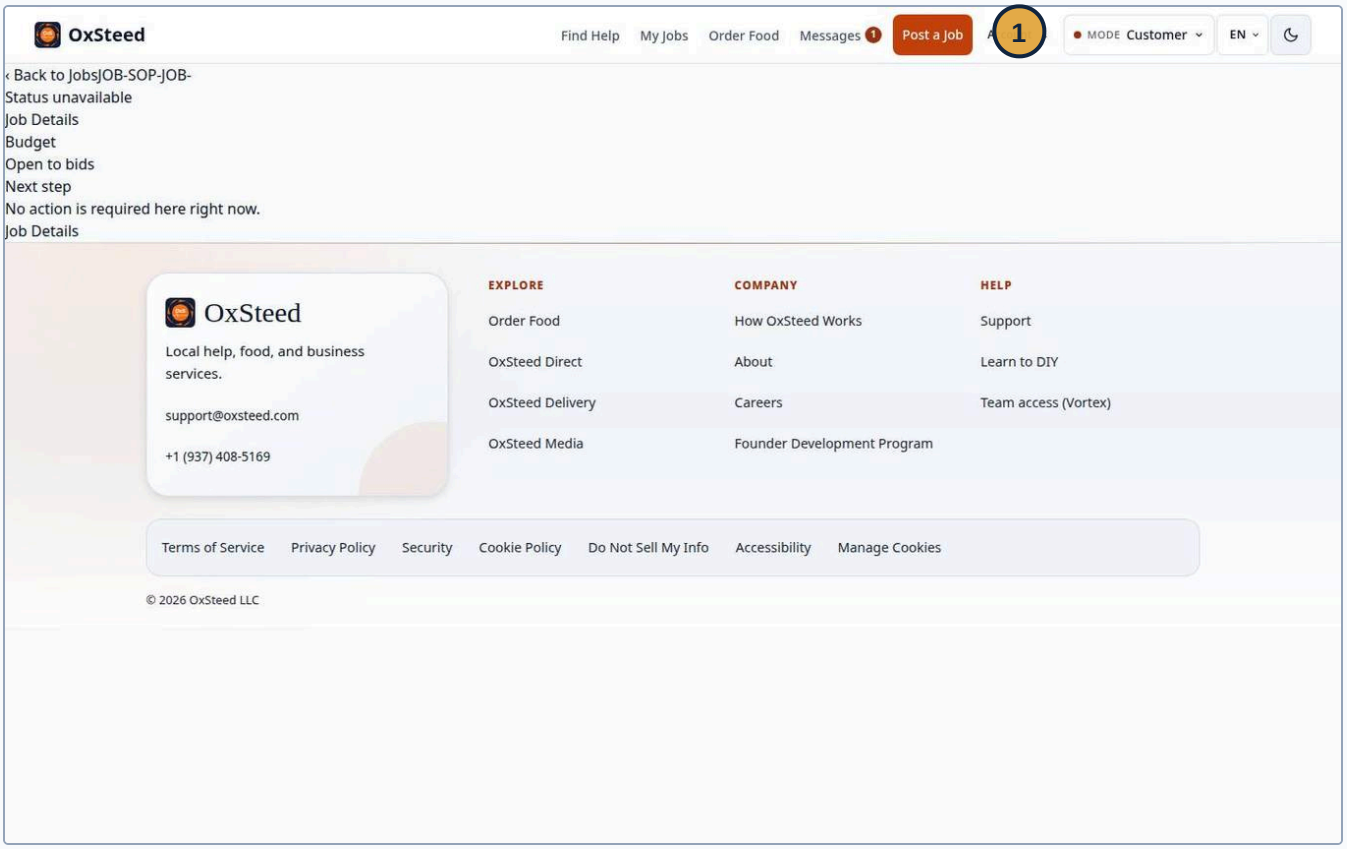

**Figure 1.** The review action on a completed job. *(Image description: Completed job page with the review action available)*

1. **1.** Review action

## Step 2: Set the rating and write your review

Pick the Rating (stars) and write "Your Review". Say what was done, how communication went, and whether you would hire again. The dialog counts characters and requires a rating ("Rating is required") before you can submit.

> **Expected result:** The rating is selected and the review text is complete.

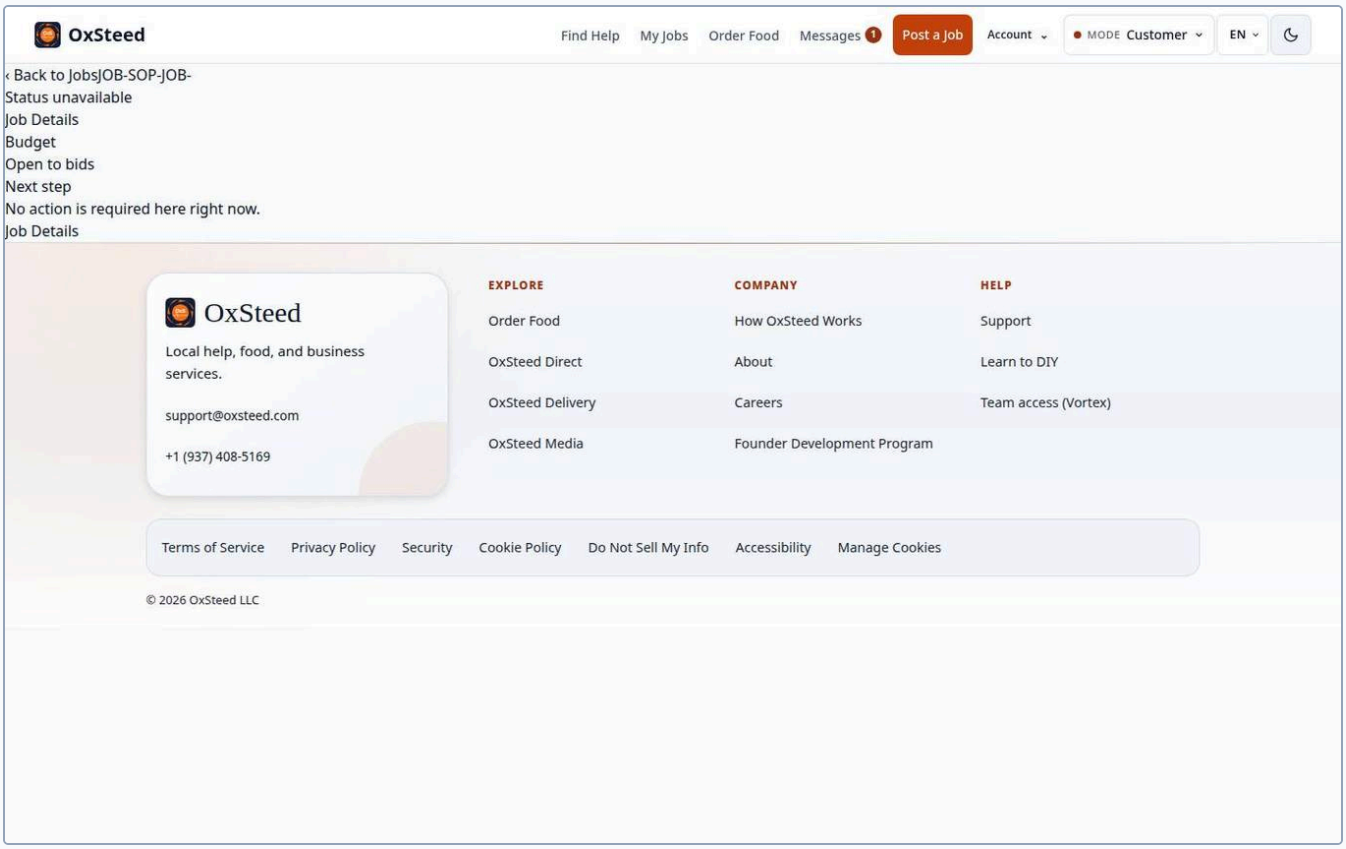

**Figure 2.** The Leave a Review dialog, desktop view. *(Image description: Leave a Review dialog with rating and review text)*

## Step 3: Submit the review

Choose "Submit Review". The button shows "Submitting..." and then a success confirmation. The review appears on the helper's or business's profile and in the job or order history.

> **Expected result:** The review publishes and appears on the profile.

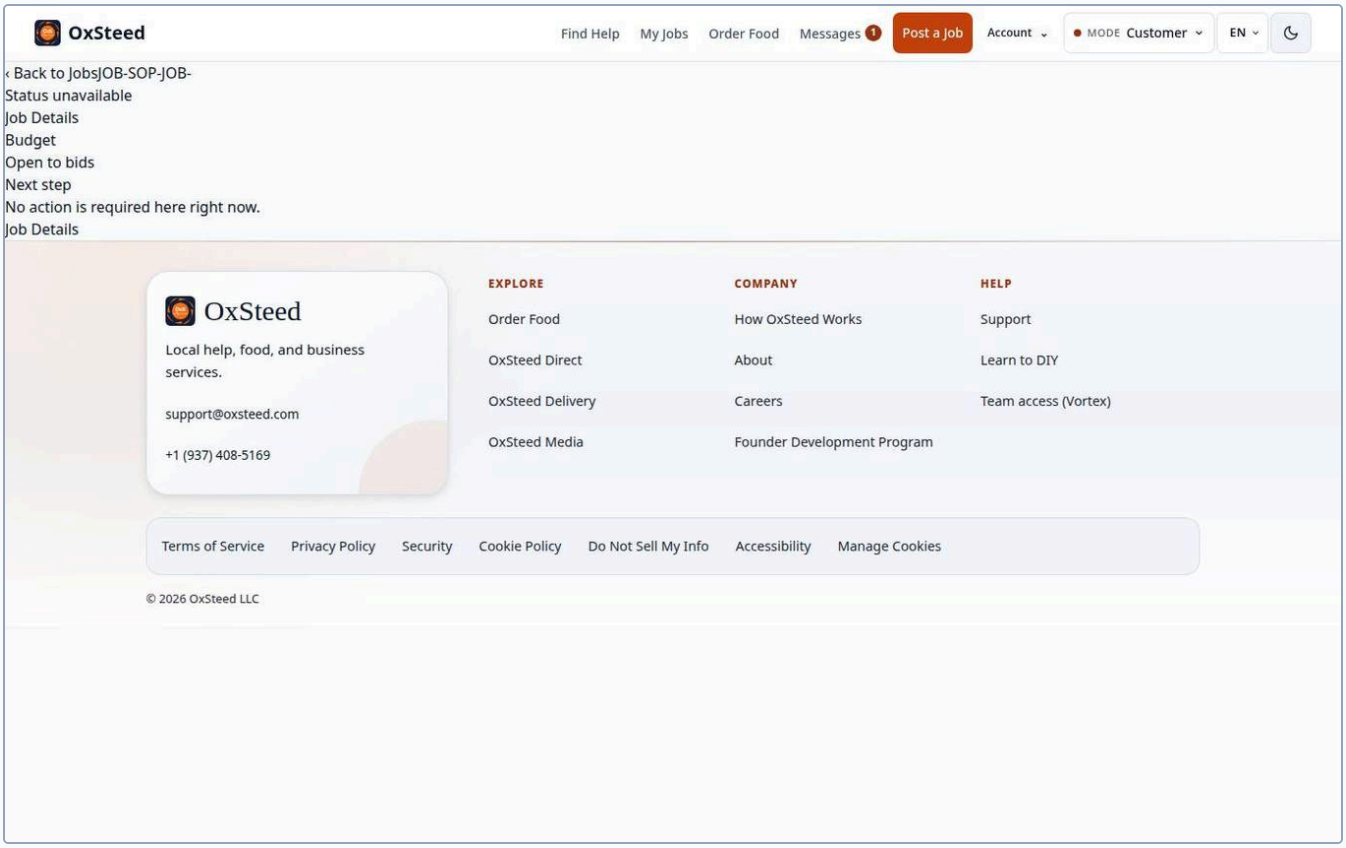

**Figure 3.** The submitted review confirmation. *(Image description: Review submitted confirmation)*

### Step 4: Respond to a review left for you

When a customer reviews you, open the review and use the respond action. Your answer shows as the "Business Response" under the review. Keep it factual and professional; future customers read both sides.

> **Expected result:** Your response appears under the original review.

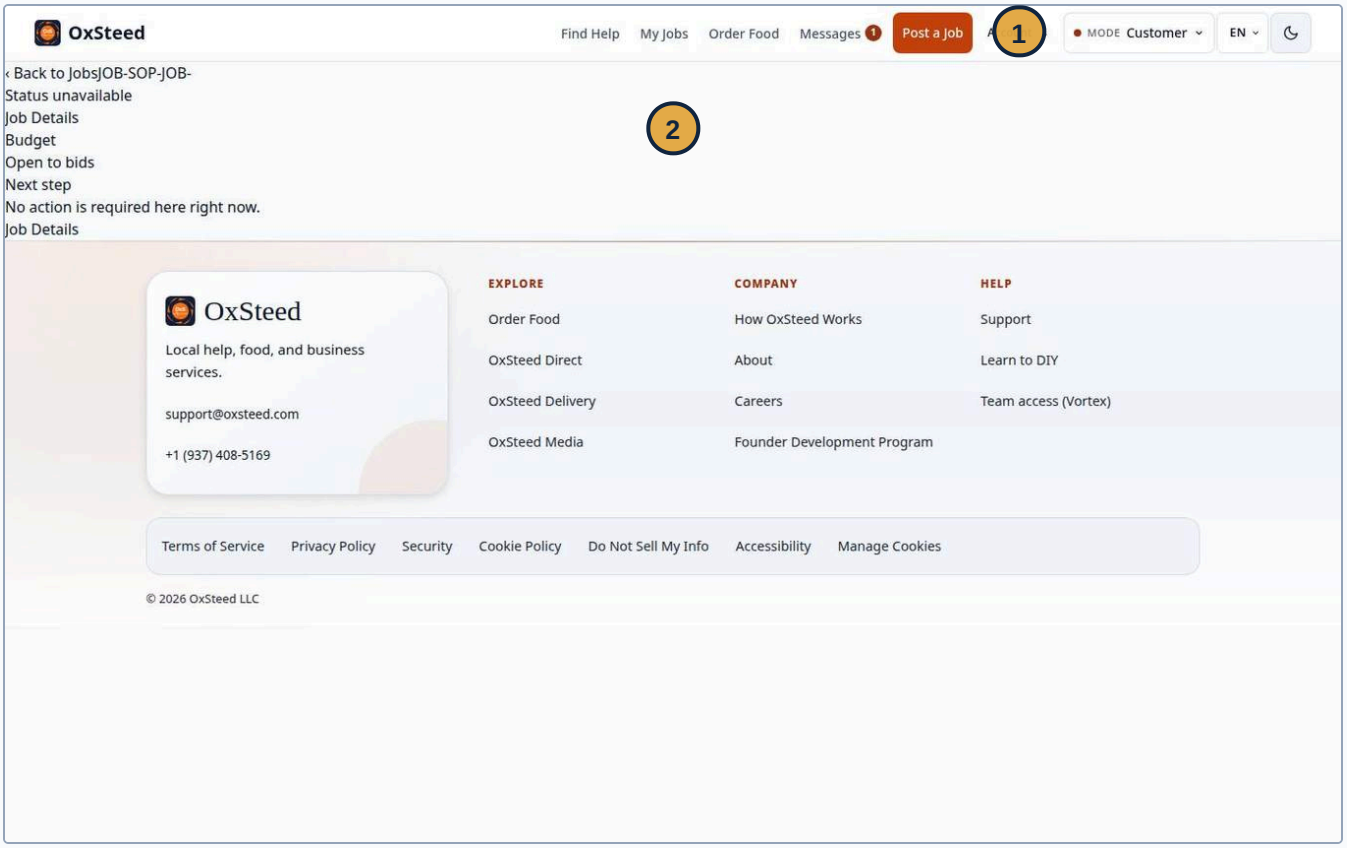

**Figure 4.** Responding to a review. *(Image description: Review with the respond action and Business Response area)*

1. **1.** Respond action
2. **2.** Business Response area

## Confirm it worked

The review appears on the profile with your rating and text; your responses appear as the Business Response. Food order reviews are per order and follow the same pattern.

## If something goes wrong

| Problem | What to do |
|---|---|

| | |
|---|---|
| The review action does not appear. | Reviews are eligibility-checked and only unlock after completion. Confirm the job is marked complete and that you have not already reviewed it. |
| The submit fails. | Make sure a rating is selected and the text meets the length limits, then try again. |

## Need help?

If a review is abusive or wrong, report it through support at /support.

# Create and sign work agreements

| | |
|---|---|
| **Guide ID** | **hiring-work-agreements** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/hiring/work-agreements |

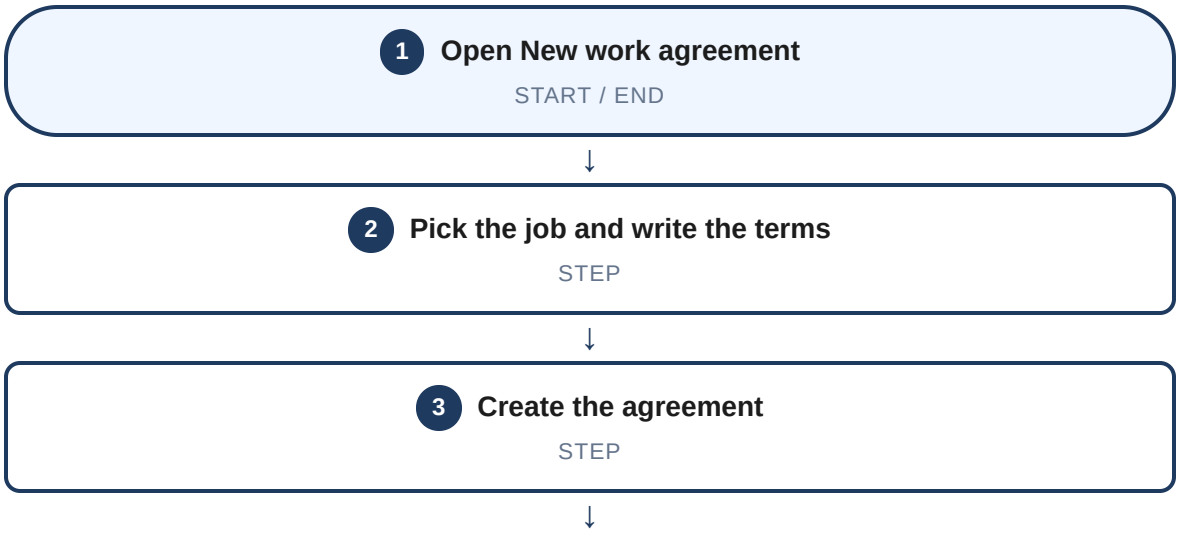

## Goal

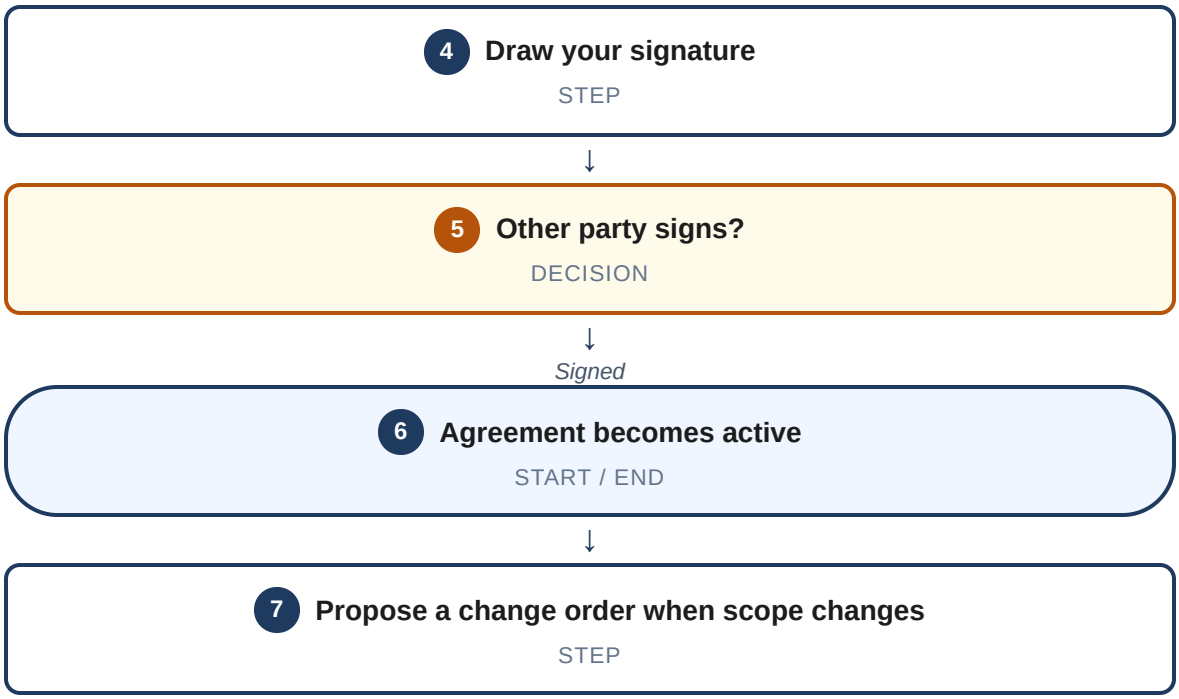

Create a bilateral work agreement with drawn signatures, manage change orders, and keep the records.

## Before you start

1. Be signed in to your OxSteed account.
2. Have a job the agreement starts from ("An agreement starts from a job. Pick a job first.").

## Process map

- *Not yet:* Other party signs? → Waiting for the other party
- *Signed:* Waiting for the other party → Agreement becomes active

**Text version.** 1. Open /agreements/new ("New work agreement"). 2. Pick the job, write the Scope of work, the Agreed price, warranty terms, reimbursement terms, and any Other terms; "Draft terms with AI" can start the text. 3. Choose "Create agreement". 4. Open "Sign the agreement" and draw your signature in the pad ("Your drawn signature is binding. A new version requires signing again."), then "Sign" or "Sign this version". 5. The other party signs the same way ("Both parties must sign before the agreement becomes active."). 6. When scope changes, use Change orders: "Propose", then "Sign and submit" ("Your drawn signature is required. Change orders are binding once both parties sign.").

## Steps

### Step 1: Create a new work agreement from the job

Open /agreements/new. The heading is "New work agreement" with the description "Create a bilateral work agreement with drawn signatures." Pick the job the agreement is for. Write the Scope of work, the Agreed price, Warranty terms ("e.g. Six months on the repair. If the leak returns, the helper returns to fix it."), Reimbursement terms, and Other terms. "Draft terms with AI" can generate a starting draft if you prefer.

> **Expected result:** All terms fields are complete and ready to create.

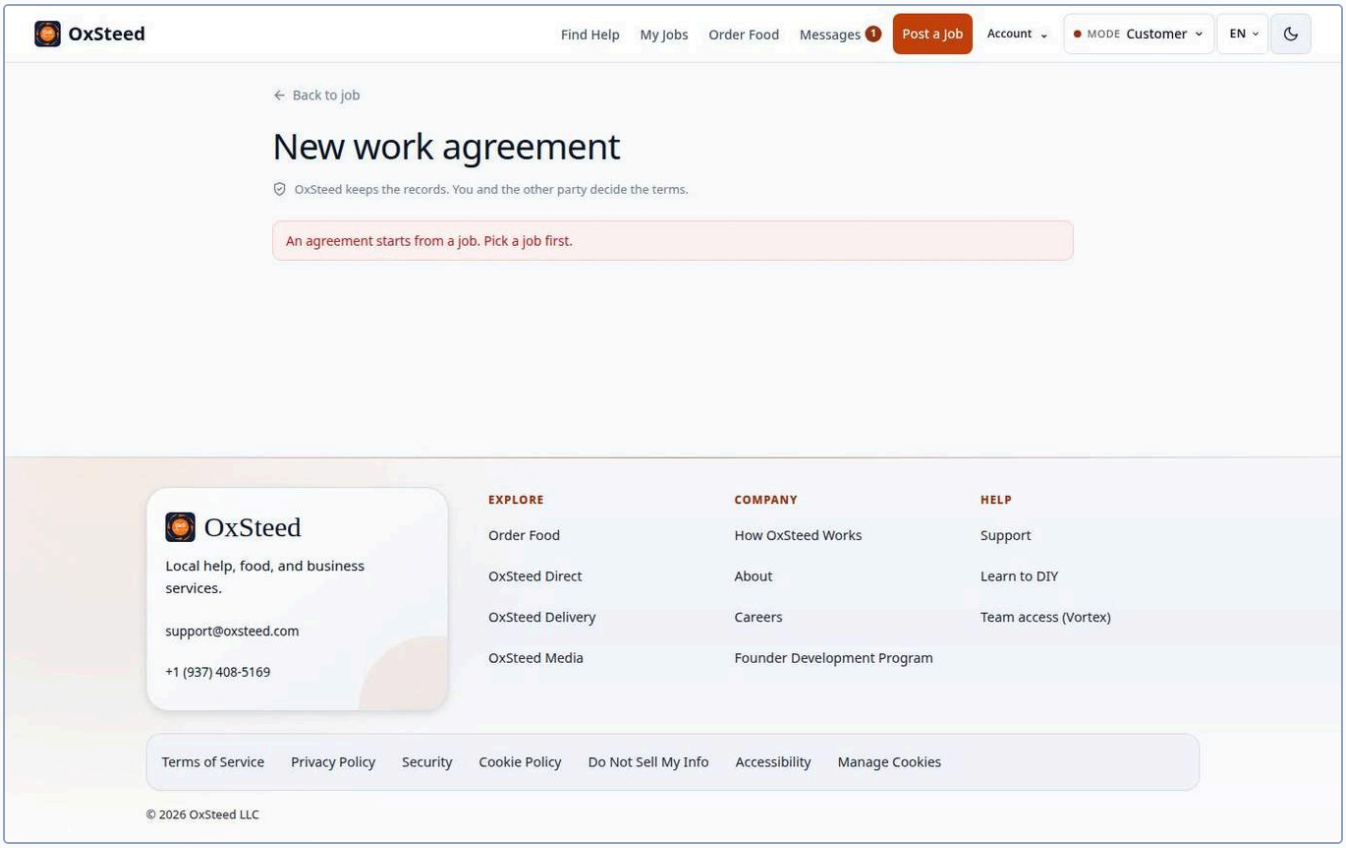

**Figure 1.** The New work agreement form, desktop view. *(Image description: New work agreement form with scope and price fields)*

## Step 2: Sign the agreement with a drawn signature

On /agreements/:id, open "Sign the agreement". Draw your signature in the signature pad and choose "Sign" or "Sign this version". The warning reads: "Your drawn signature is binding. A new version requires signing again." Both parties must sign ("Awaiting signature" shows until they do) before the agreement becomes active.

> **Expected result:** Your signature is recorded under Signatures and the other party is asked to sign.

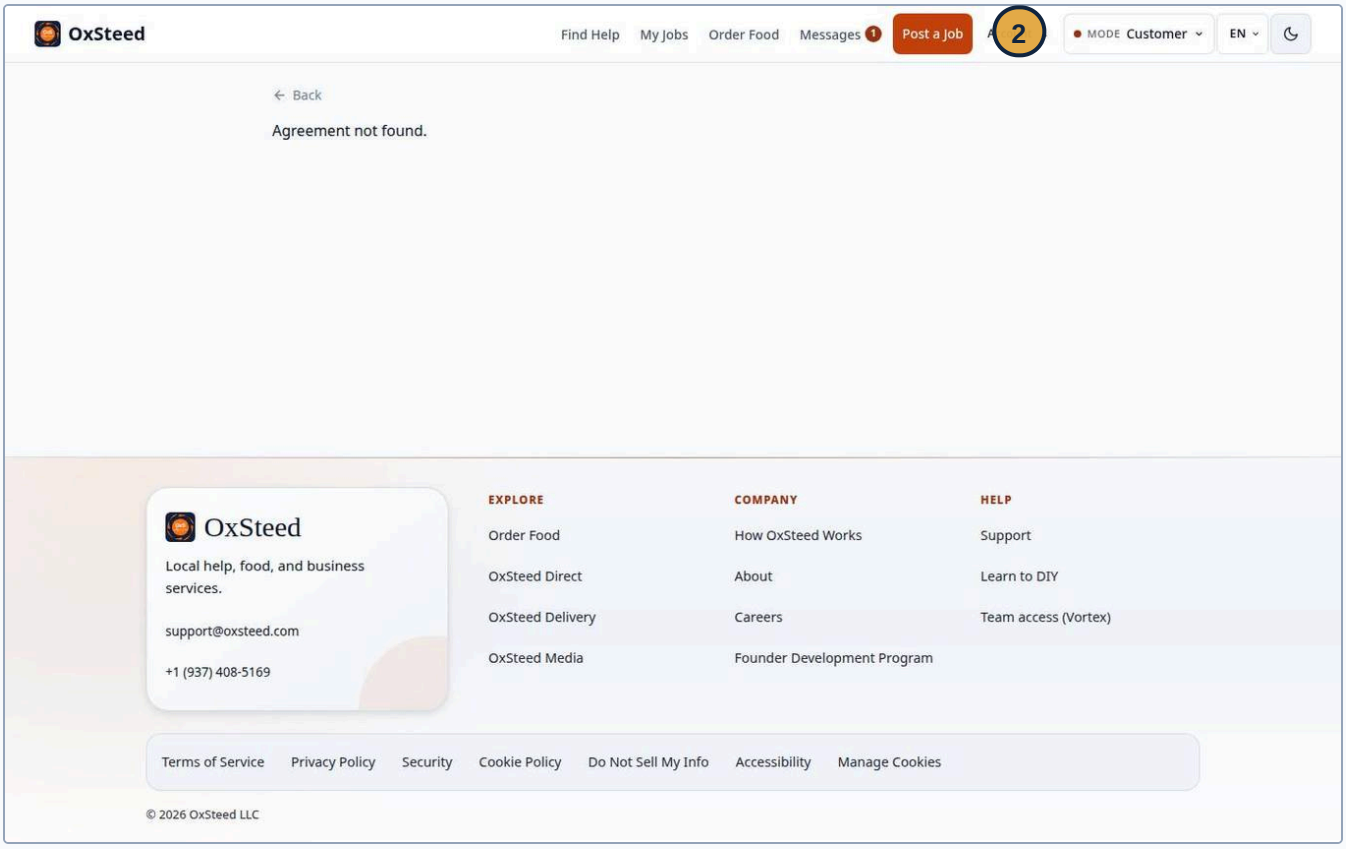

**Figure 2.** The drawn-signature pad, desktop view. *(Image description: Sign the agreement dialog with the signature pad)*

1. **2.** Sign button

## Step 3: Use change orders when the scope changes

On the agreement page, open Change orders. Choose "Propose", describe the change and the Price change (USD), then open "Sign the change order" and choose "Sign and submit". The other party reviews and signs too; "Waiting for the other party to decide." shows in the meantime. Every version keeps its own Timeline entry.

> **Expected result:** The change order is proposed and signed by both parties.

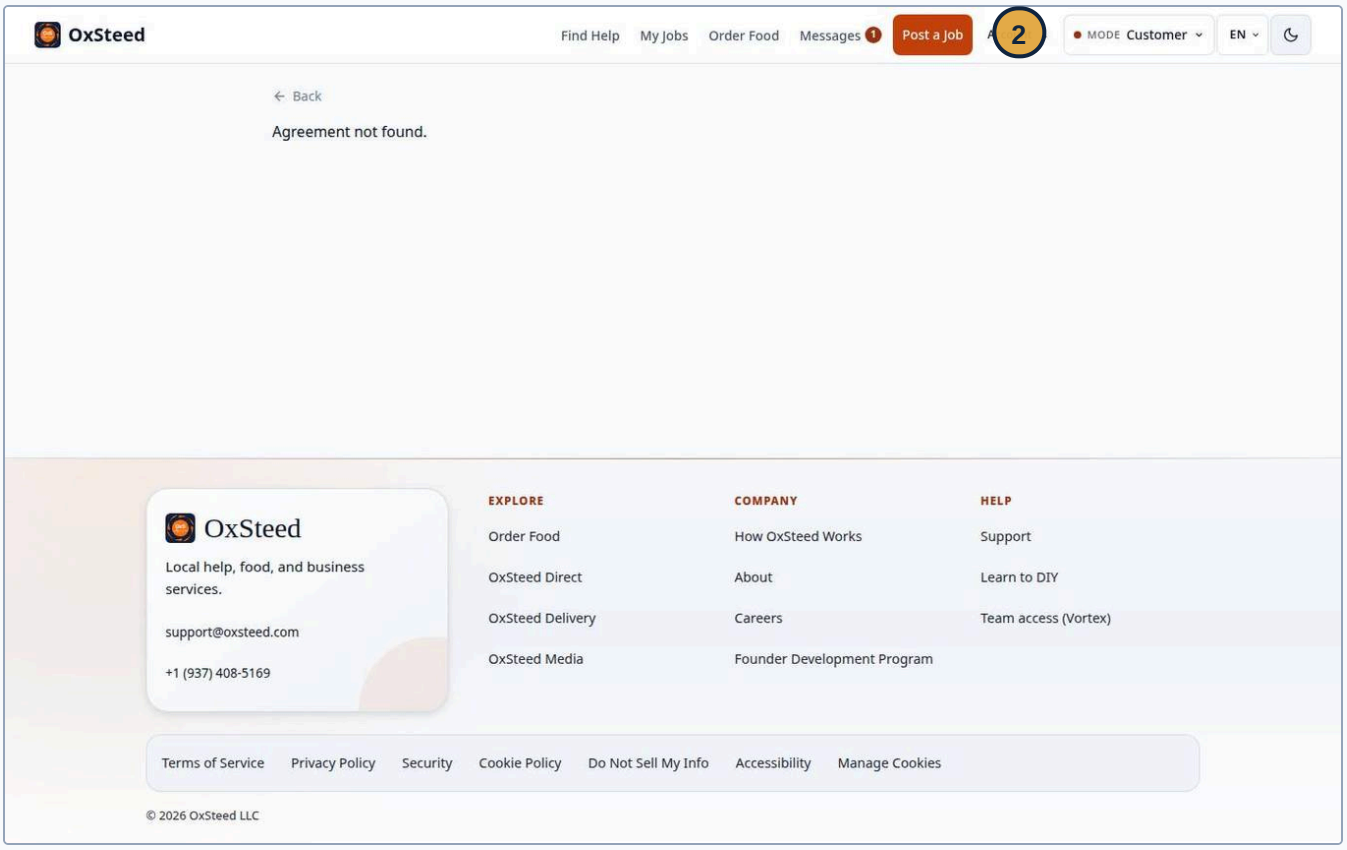

**Figure 3.** The Change orders section. *(Image description: Change orders section with the Propose button)*

1. **2.** Propose button

### Step 4: Keep the records: vault, evidence, and warranty claims

Use the Document vault to upload outside paperwork ("Choose a file" or "Or paste an https link"). Add Evidence: before and after photos plus the testing record. If the work fails under warranty, choose "File claim" in Warranty claims; the note explains "OxSteed records the claim. The parties resolve it between themselves." When the work is done, use "Confirm complete" ("Both of you confirm before the agreement is marked complete.").

> **Expected result:** Records, evidence, and any claims are stored on the agreement timeline.

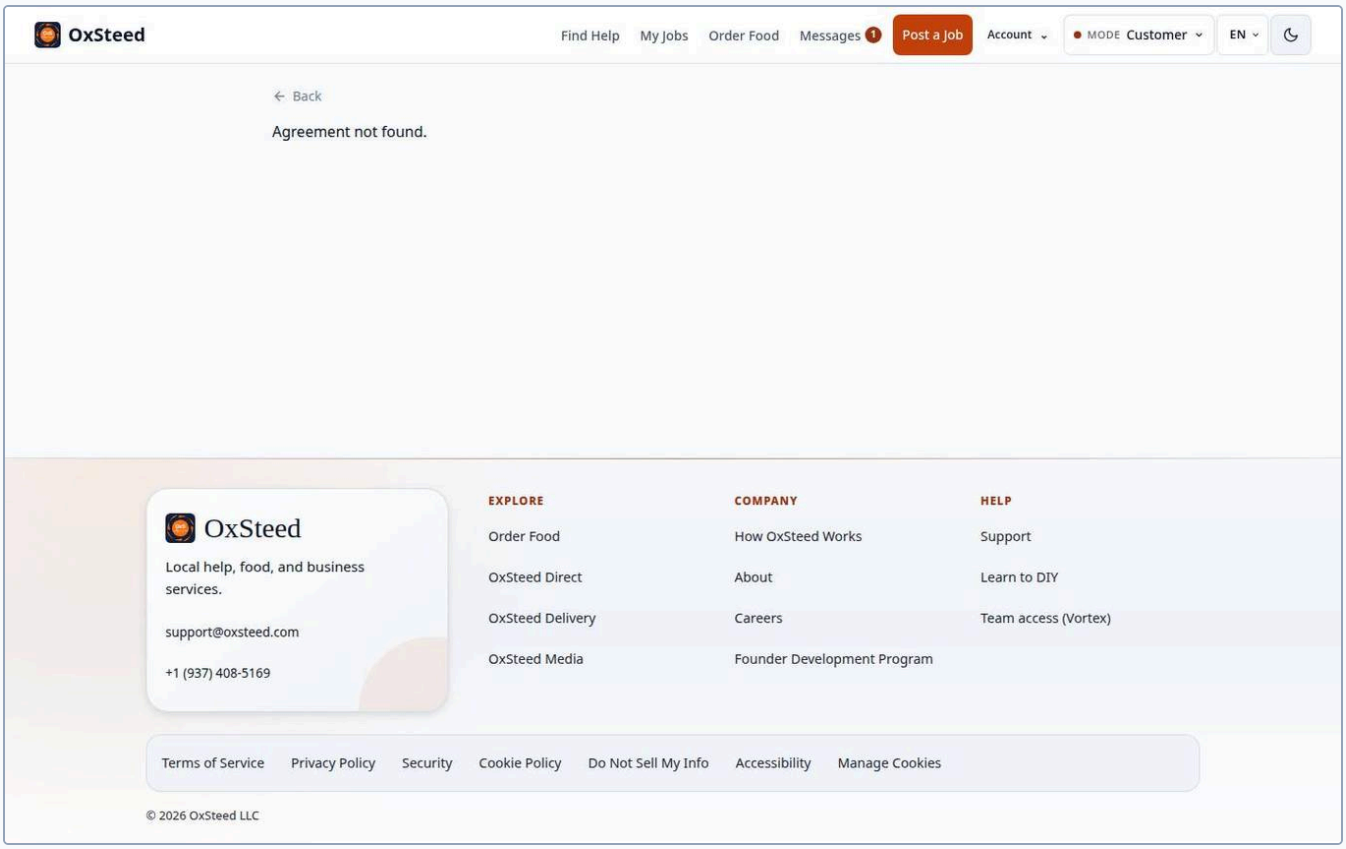

**Figure 4.** The records sections, desktop view. *(Image description: Document vault and warranty claims sections)*

## Confirm it worked

The agreement shows both signatures and becomes active. The Timeline records versions, change orders, evidence, and claims; "OxSteed keeps the records. You and the other party decide the terms."

## If something goes wrong

| Problem | What to do |
|---|---|

| | |
|---|---|
| The agreement will not become active. | Both parties must sign the current version. If you edited the terms after signing, the version changed and signing is required again. |
| A change order is stuck waiting. | The other party must sign too ("You confirmed. Waiting for the other party to confirm."). Message them from the job thread. |

## Need help?

For issues with a signed agreement, open a dispute on the job or contact support at /support.

SOP LIBRARY / HELPER WORK ENGLISH

# Work assigned jobs and incoming bookings

| | |
|---|---|
| **Guide ID** | **helper-work-assigned-jobs** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Helper |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/helper-work/work-assigned-jobs |

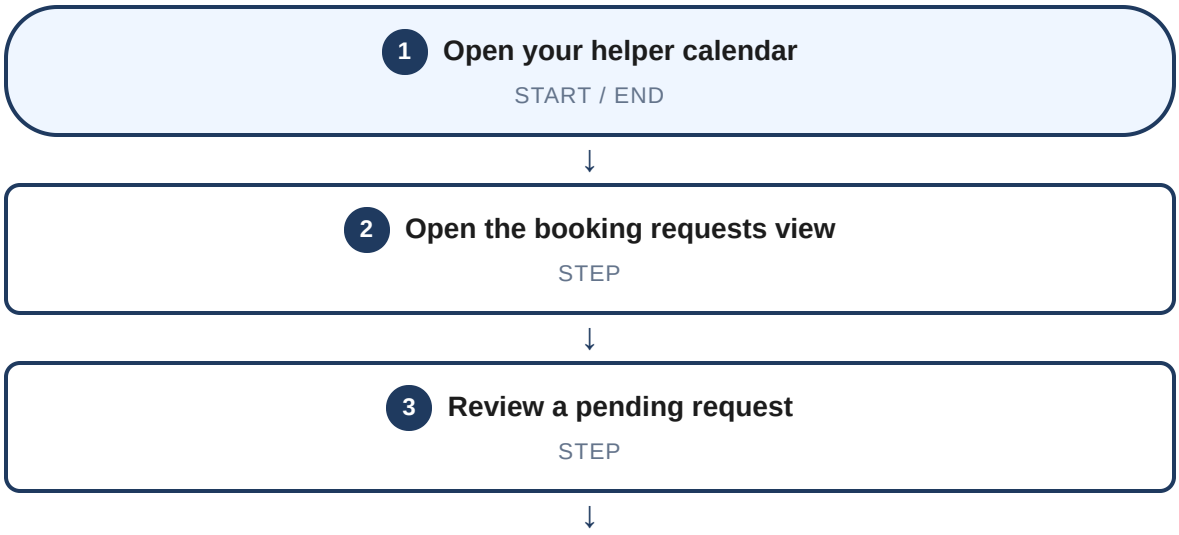

## Goal

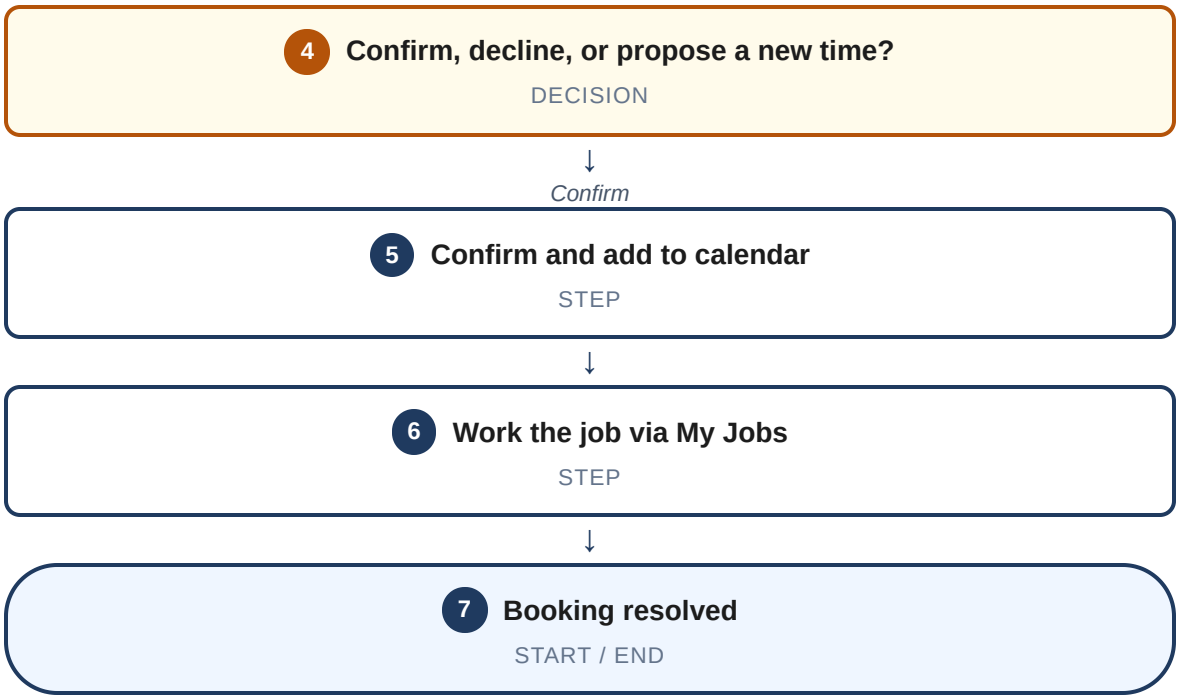

Respond to incoming booking requests quickly and keep your assigned jobs moving.

## Before you start

1. Sign in and switch to helper mode.
2. Set your availability so customers can book you.

## Process map

- *Decline:* Confirm, decline, or propose a new time? → Decline the request
- *Propose time:* Confirm, decline, or propose a new time? → Propose a different time
- Propose a different time → Work the job via My Jobs
- Decline the request → Booking resolved

**Text version.** 1. Open your helper calendar. 2. Open the booking requests view. 3. Review each pending booking request. 4. Decide: confirm the request, decline it, or propose a different time. 5. Confirmed bookings are added to your calendar; declined requests are resolved. 6. Work the confirmed jobs through My Jobs.

## Steps

### Step 1: Open your helper calendar

Open /calendar while in helper mode. The calendar shows your helper schedule, including any booking-request view for incoming requests.

> **Expected result:** Your calendar loads with the booking requests view available.

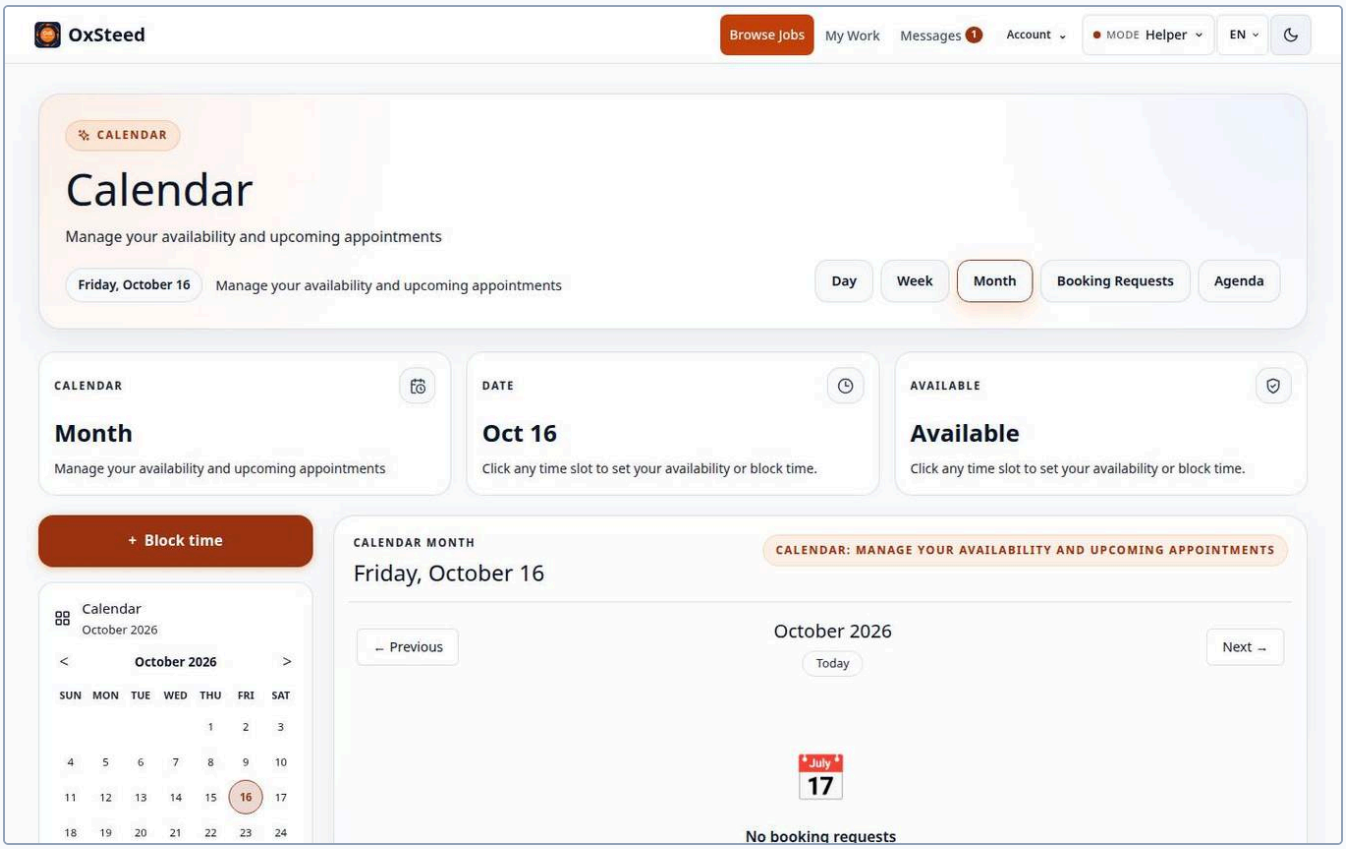

**Figure 1.** The helper calendar, desktop view. *(Image description: Helper calendar showing the booking requests view selector)*

## Step 2: Review a pending booking request

In the Pending Booking Requests panel, each request card shows the customer, the requested date and time, the service, and any notes. Review the details before acting.

> **Expected result:** You can read the full request details on the card.

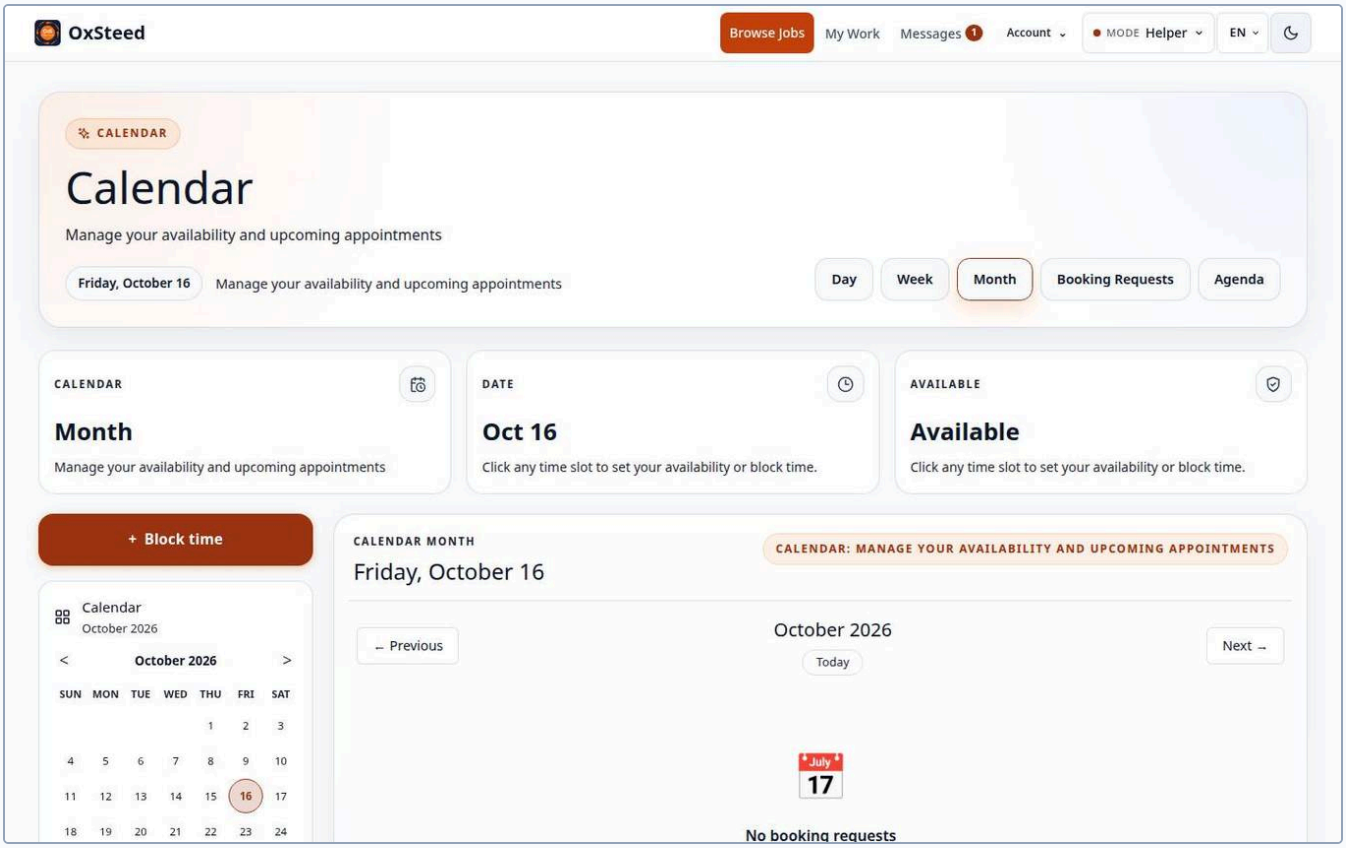

**Figure 2.** Pending booking requests, desktop view. *(Image description: Pending Booking Requests panel with request cards showing customer, time, and service)*

## Step 3: Confirm, decline, or propose a new time

On the request card, choose Confirm ("Confirm and add to calendar") to accept the booking, Decline to turn it down, or "Propose different time" to counter with another slot. Confirming adds the booking to your calendar.

> **Expected result:** "Booking confirmed!" appears, or the request moves to declined or counter-proposed.

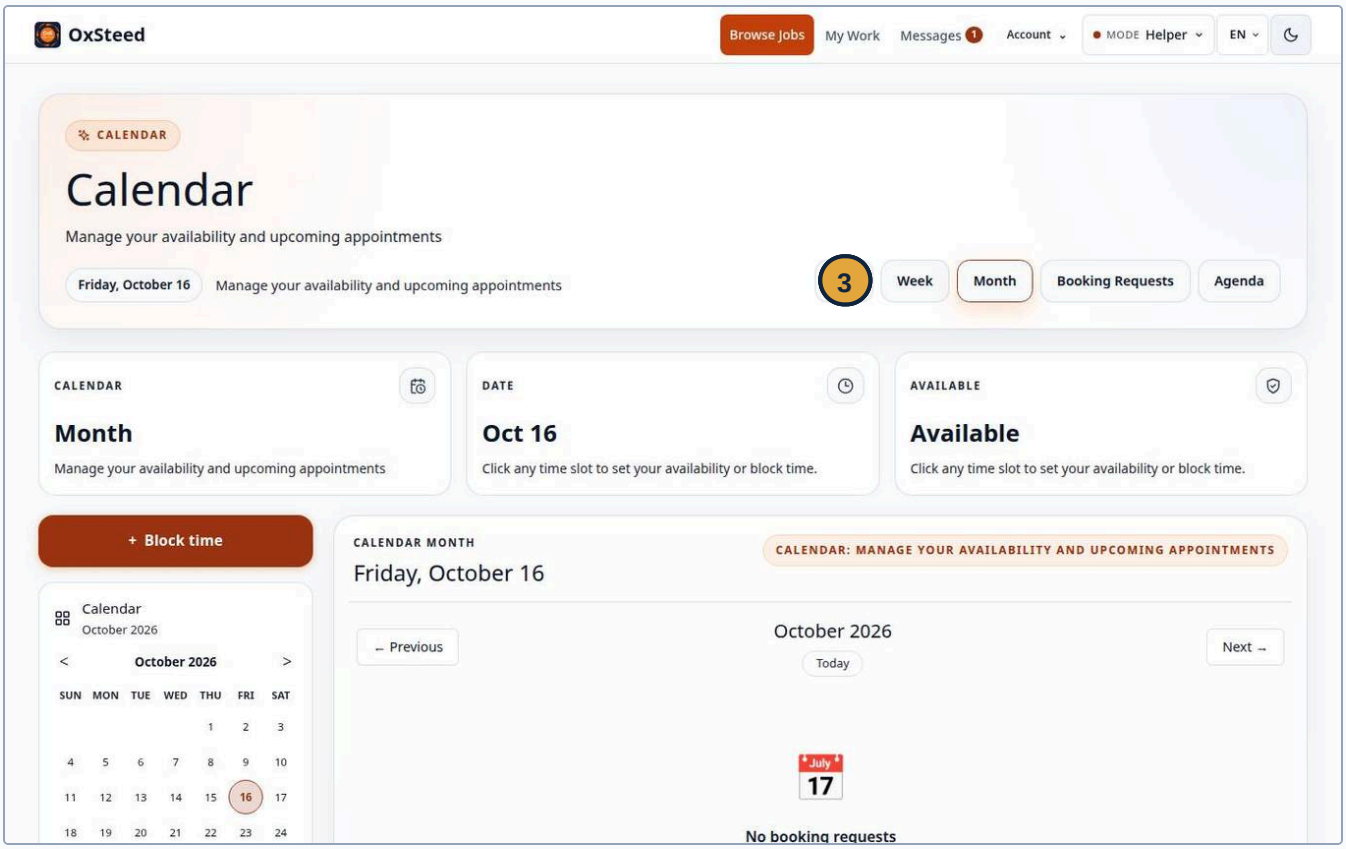

**Figure 3.** Responding to a booking request, desktop view. *(Image description: Booking request card with Confirm, Propose different time, and Decline buttons)*

1. **1.** Confirm button
2. **2.** Propose different time
3. **3.** Decline button

### Step 4: Work the job via My Jobs

Open My Jobs (/my-jobs) to see your assigned and won jobs with their statuses. Message the customer from the job when you need to coordinate, and keep the status accurate as work progresses.

> **Expected result:** Your jobs list shows the confirmed work with correct statuses.

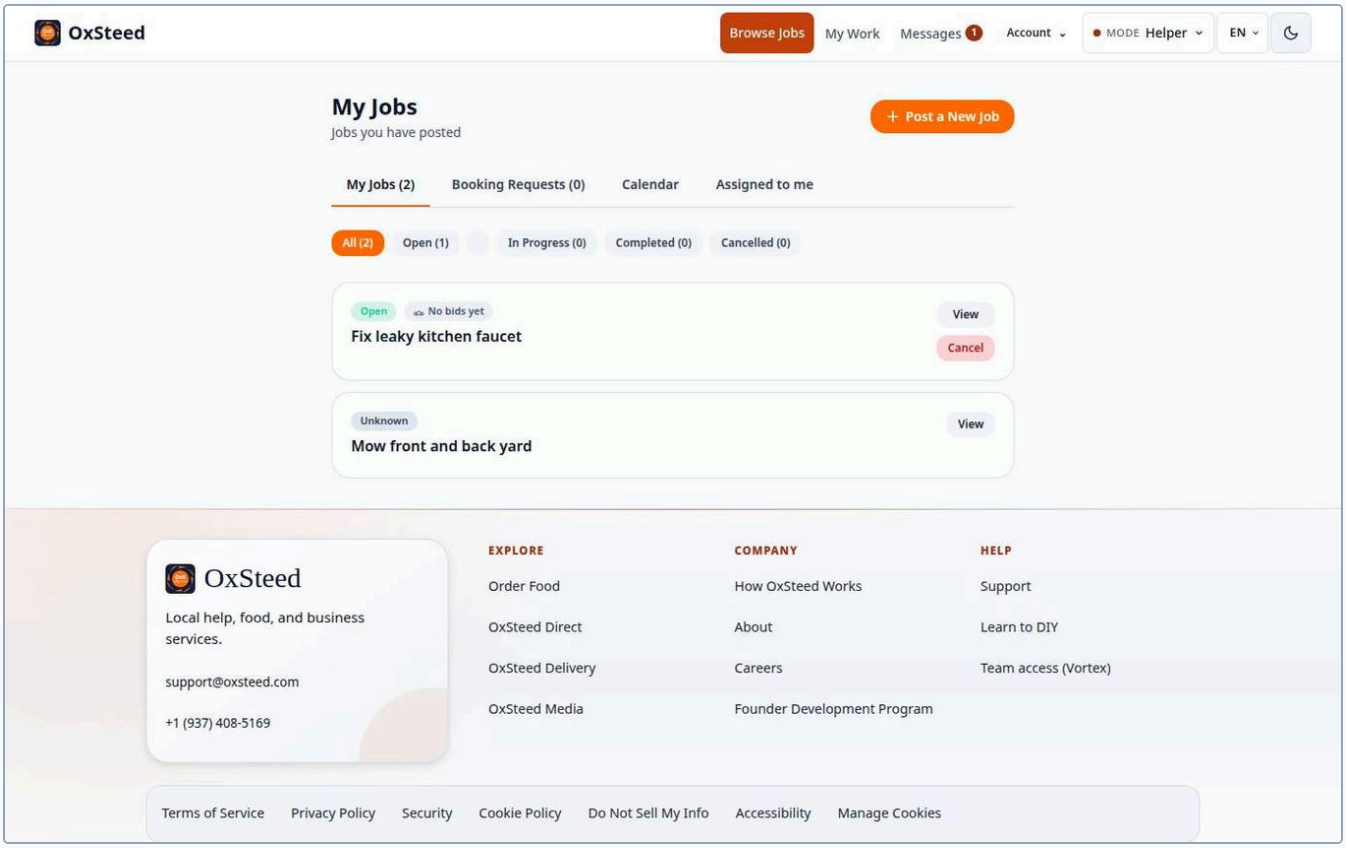

**Figure 4.** The My Jobs page, desktop view. *(Image description: My Jobs page showing assigned jobs with status badges)*

## Confirm it worked

Confirmed bookings appear on your calendar; declined requests are gone from the pending list.

## If something goes wrong

| Problem | What to do |
|---|---|

| | |
|---|---|
| No booking requests appear. | Check that you are in helper mode and your directory listing is Online. Booking requests only arrive when customers can book you. |
| You confirmed a booking but cannot make it. | Message the customer immediately from the job and use the cancellation flow in My Bookings or My Jobs so the customer is not left waiting. |

## Need help?

If booking requests do not load, contact OxSteed Support from the /support page.

**Guide ID:** helper-work-availability | **Revision:** 1 | **Area:** Helper work

SOP LIBRARY / HELPER WORK ENGLISH

# Set your availability

| | |
|---|---|
| **Guide ID** | **helper-work-availability** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Helper |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/helper-work/set-availability |

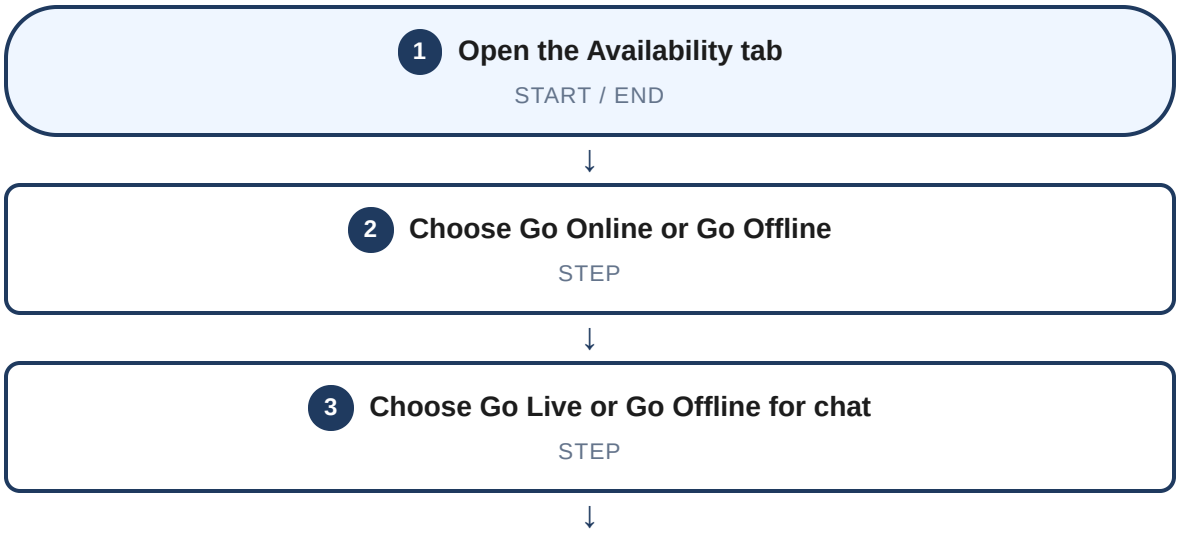

## Goal

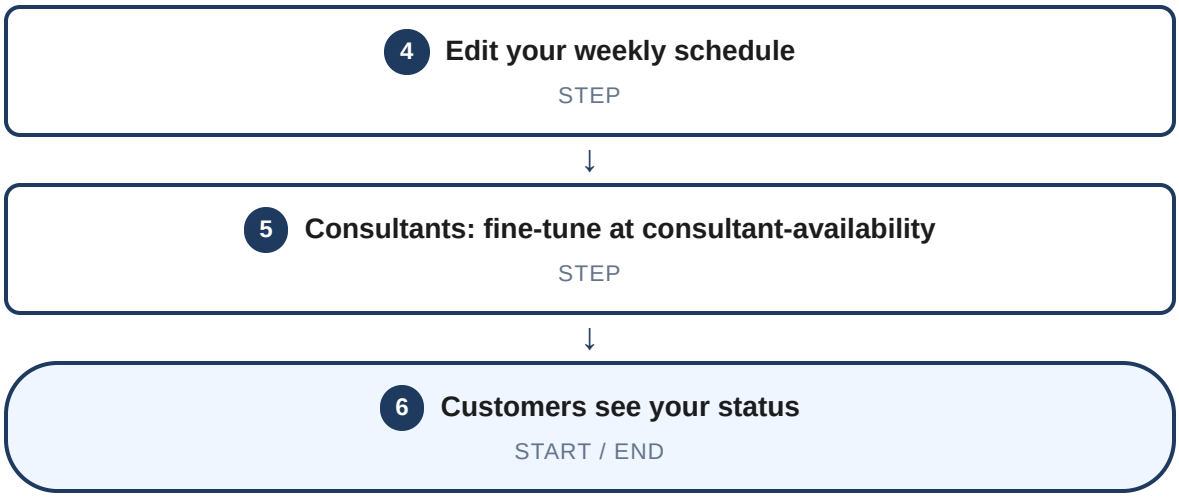

Control when customers can find you, book you, and reach you for live chat.

## Before you start

1. Sign in and switch to helper mode.
2. Complete your helper profile first.

## Process map

**Text version.** 1. Open the Availability tab on your dashboard. 2. Choose Go Online to appear in the helper directory, or Go Offline to hide your listing. 3. Choose Go Live to accept live chat requests, or Go Offline for chat when you are busy. 4. Edit your weekly schedule so customers know when you work. 5. Consultants can fine-tune weekly slots and blocked dates at /consultant-availability. 6. Customers now see your listing status, live status, and hours.

# Steps

## Step 1: Open the Availability tab

Open your helper dashboard (/dashboard or /helper-dashboard) and choose the Availability tab. The card explains how customers can find and reach you and shows two status rows: directory listing and live chat.

> **Expected result:** Your current directory and live statuses are shown with toggle buttons.

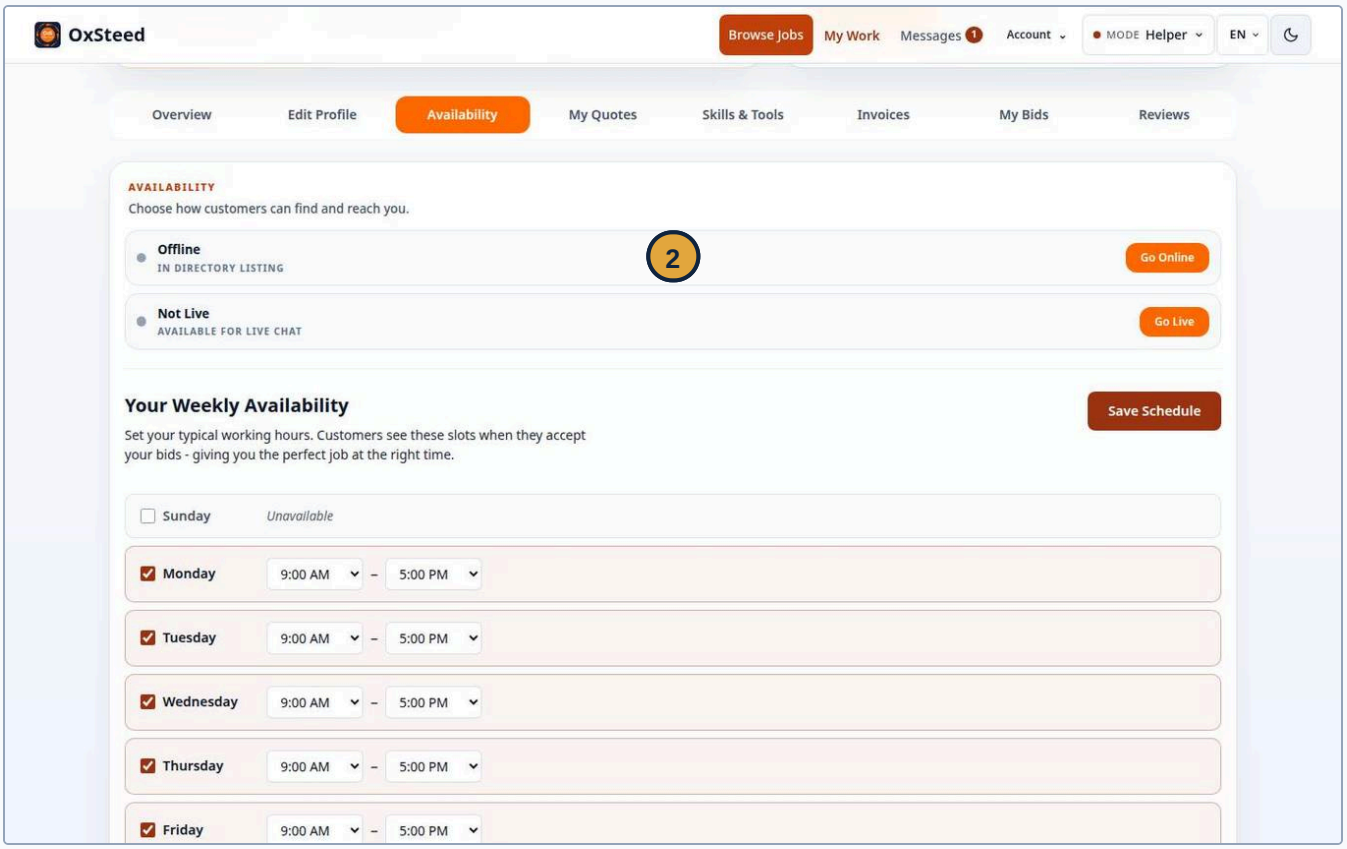

**Figure 1.** The Availability tab, desktop view. *(Image description: Availability card showing directory listing status and live chat status rows)*

1. **1.** Directory listing row
2. **2.** Live chat status row

## Step 2: Set your directory listing status

In the directory listing row, choose Go Online to appear in the helper directory, or Go Offline to hide your listing while keeping your account. The status text changes to Online or Offline immediately.

> **Expected result:** The row shows Online (visible in directory) or Offline (hidden).

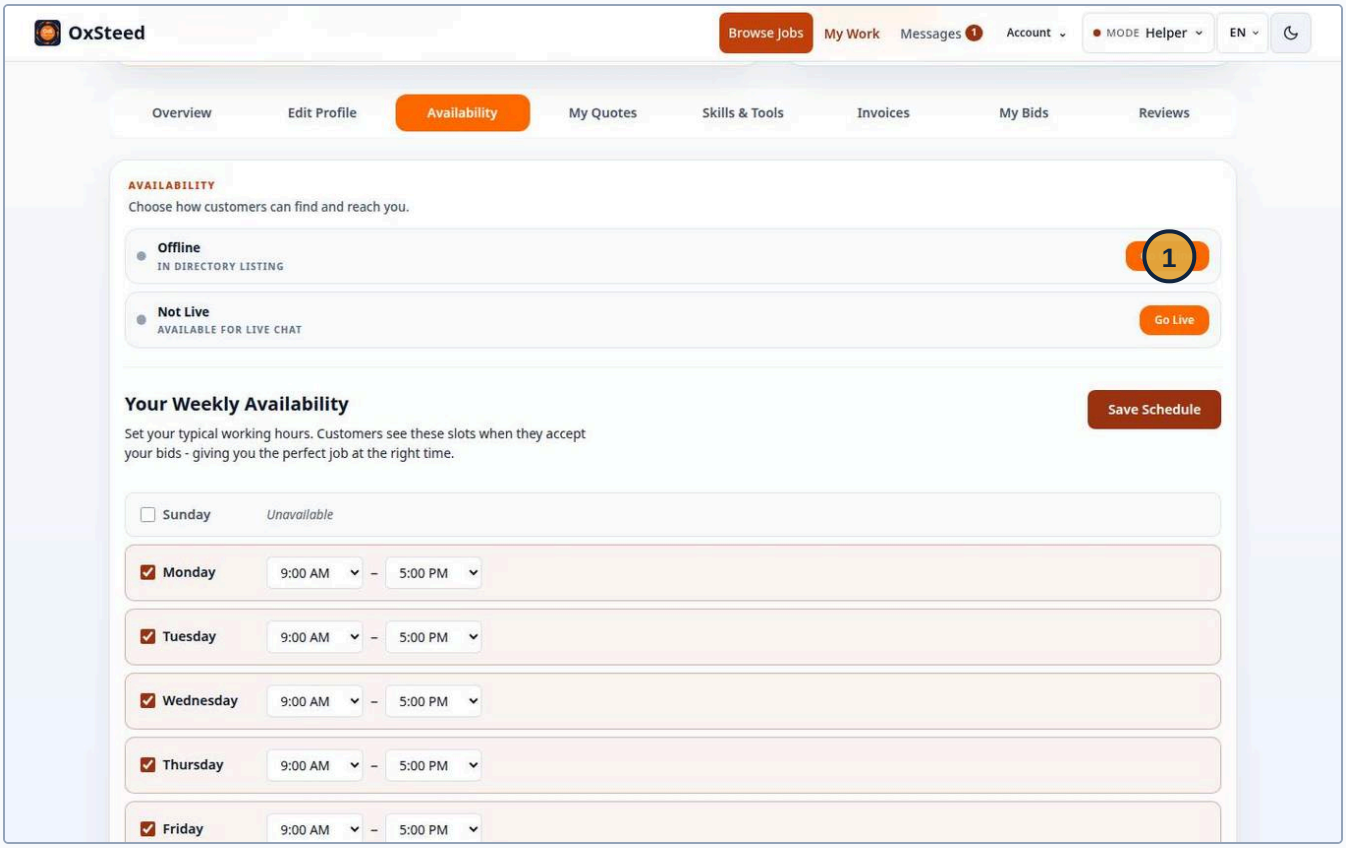

**Figure 2.** Going online in the directory, desktop view. *(Image description: Directory listing row showing Online status with a Go Offline button)*

1. **1.** Go Offline button

## Step 3: Set your live chat status

In the live chat row, choose Go Live when you are available for live chat with customers, or Go Offline when you are busy. This controls chat requests only, not your directory listing.

> **Expected result:** The row shows Live Now or Not Live.

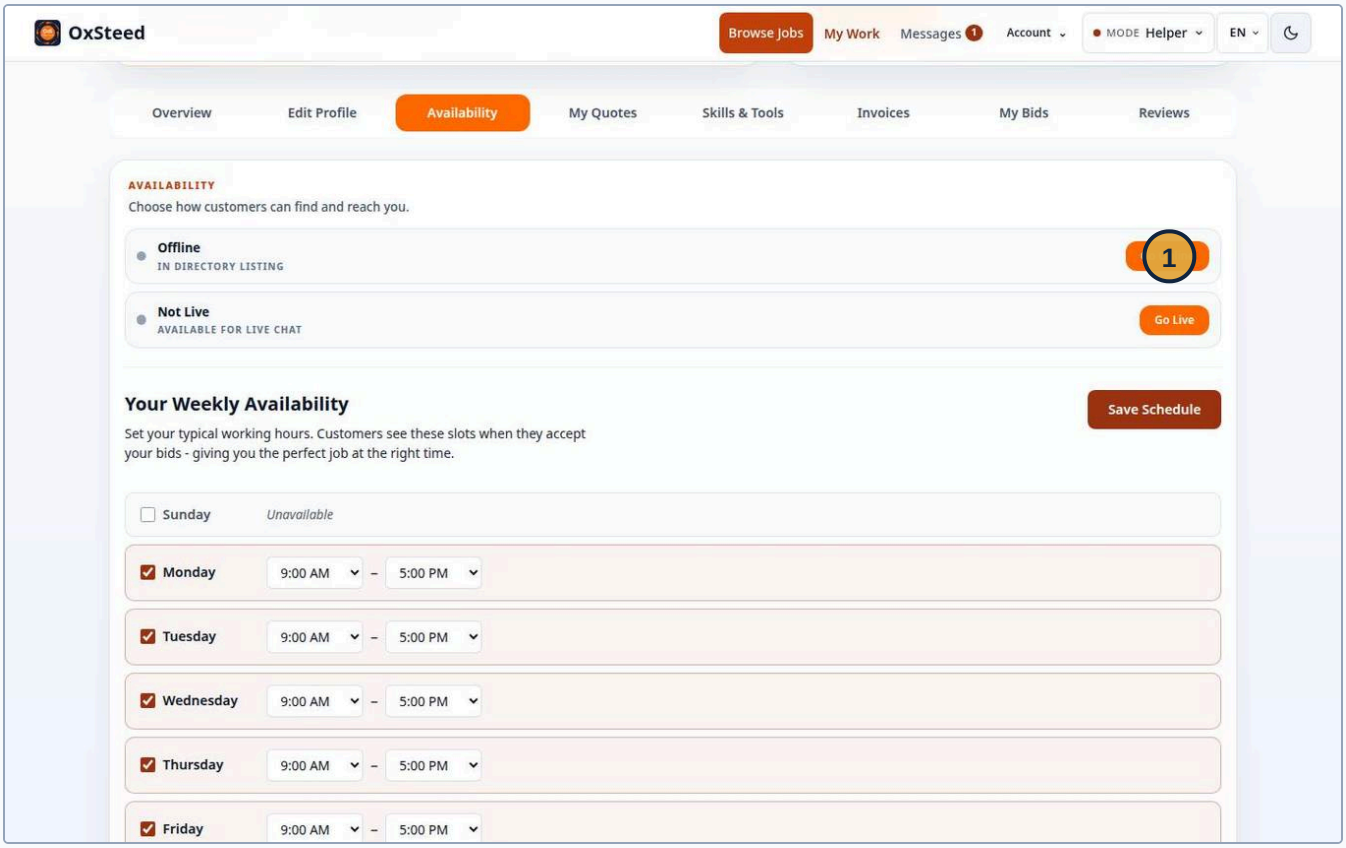

**Figure 3.** Going live for chat, desktop view. *(Image description: Live chat row showing Live Now status with a Go Offline button)*

1. **1.** Go Live / Go Offline button

## Step 4: Edit your weekly schedule

Below the status rows, use the weekly schedule editor to set the days and hours you work. Save your changes so customers see accurate hours on your public profile.

> **Expected result:** Your weekly hours are saved and shown on your public profile.

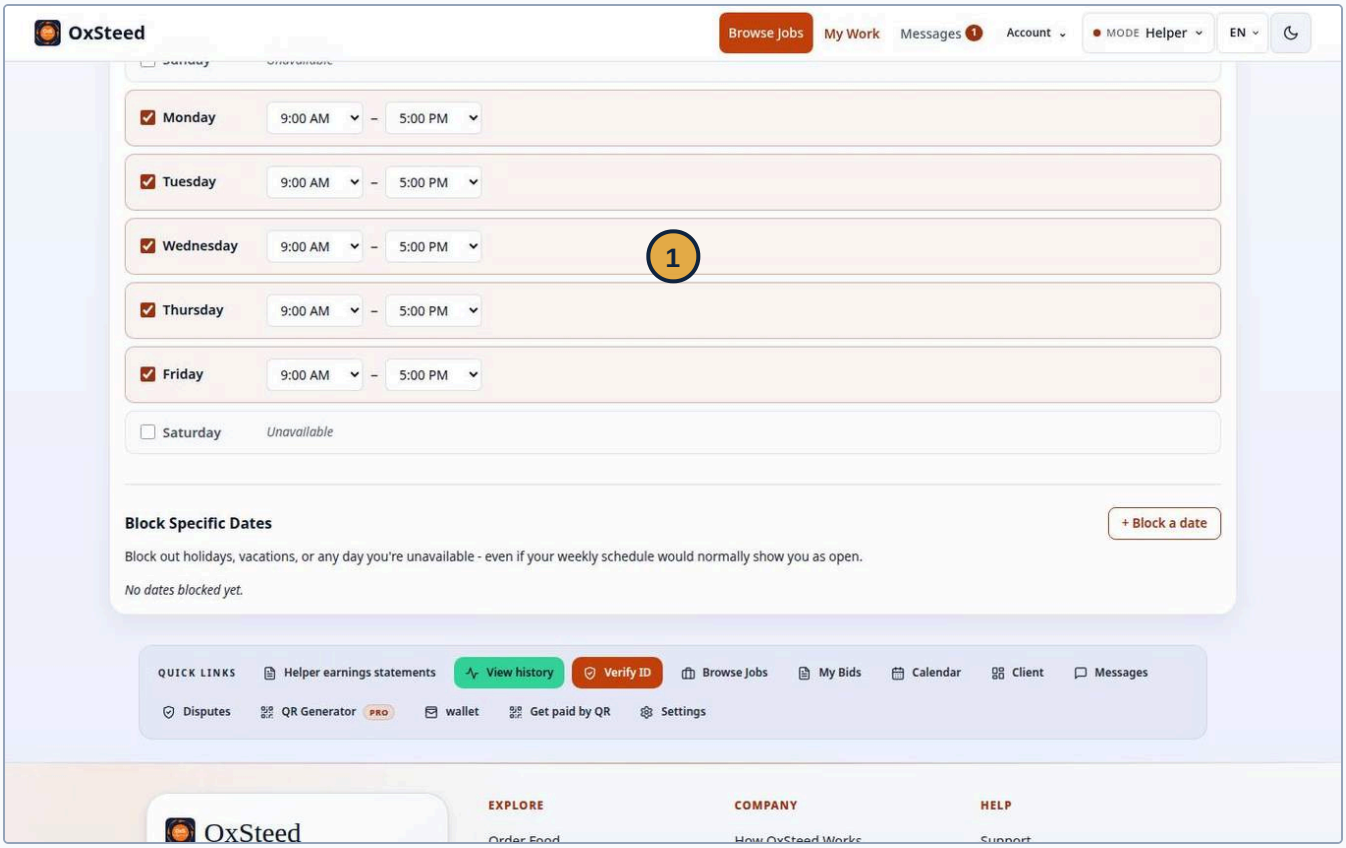

**Figure 4.** The weekly schedule editor, desktop view. *(Image description: Weekly schedule editor with days and hours set)*

1. **1.** Weekly hours editor

### Step 5: Fine-tune consultant availability and time off

Consultants can open /consultant-availability for the Your Weekly Availability page. Set weekly slots, then use the Time off section to add blocked dates with reasons. Choose Save Availability when finished; a confirmation message appears.

> **Expected result:** "Availability saved" appears and blocked dates are listed.

**Screenshot planned**

Screen: **/consultant-availability**
State: Consultant availability page with weekly slots and time off, light mode

## Confirm it worked

Your public profile shows the correct Online/Offline status and weekly hours; consultant bookings follow your blocked dates.

## If something goes wrong

| Problem | What to do |
| --- | --- |
| You are online but get no inquiries. | Check that your profile is complete and your weekly hours are set. Customers filter by availability, so empty hours can hide you from results. |
| Blocked dates do not appear. | Choose Save Availability after adding time off. Reload the page to confirm the dates persisted. |

## Need help?

If availability will not save, contact OxSteed Support from the /support page.

**Guide ID:** helper-work-bid | **Revision:** 1 | **Area:** Helper work

SOP LIBRARY / HELPER WORK ENGLISH

# Bid on a job

| | |
|---|---|
| **Guide ID** | **helper-work-bid** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Helper |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/helper-work/bid-on-a-job |

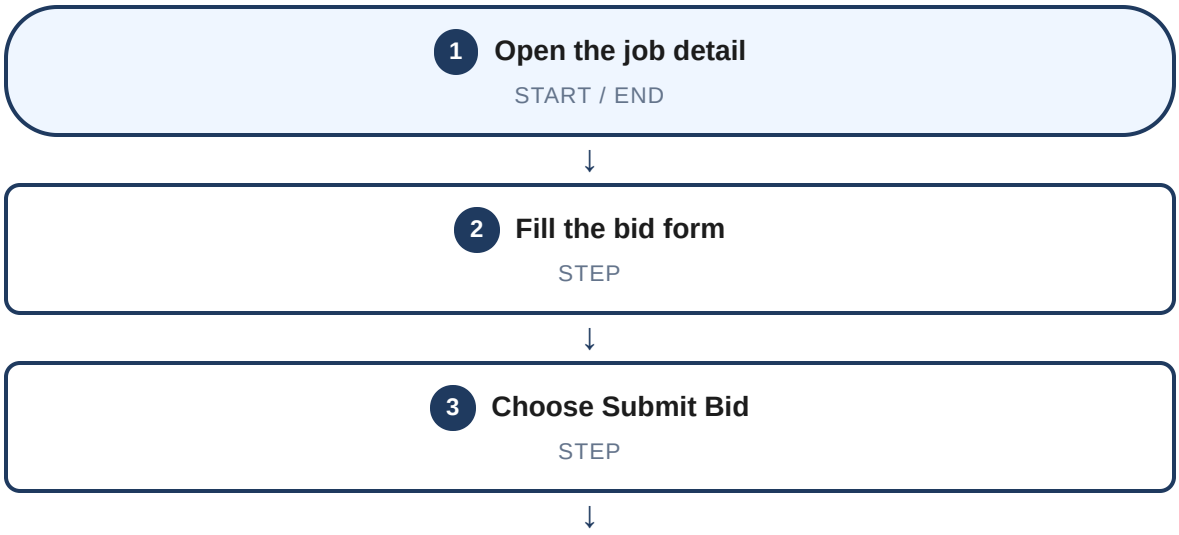

## Goal

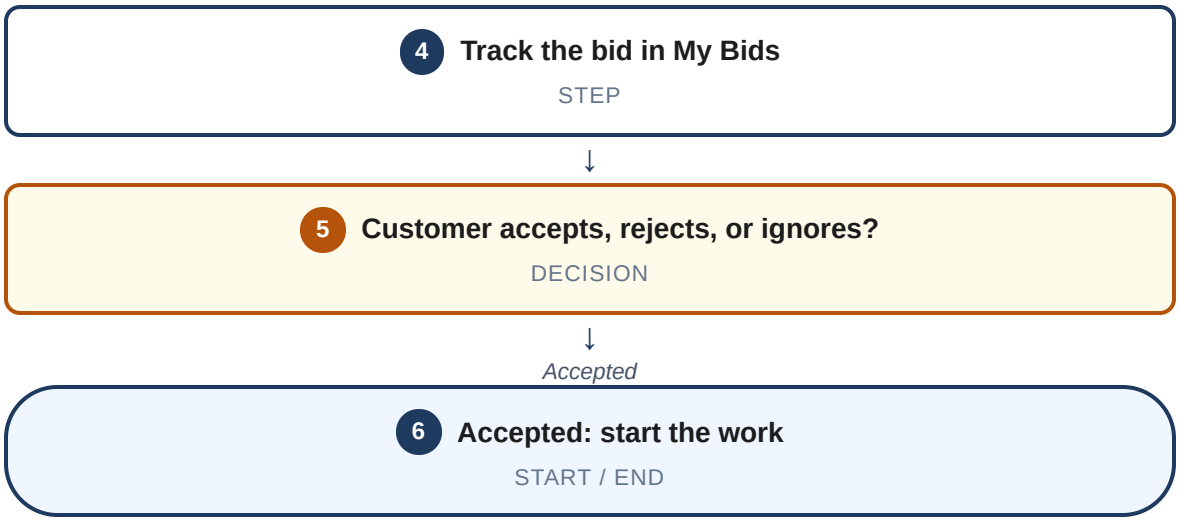

Submit a competitive bid on an open job and track it until the customer decides.

## Before you start

1. Sign in with completed helper onboarding (bidding is gated server-side).
2. Find a job you want to win.

## Process map

- *Still pending:* Customer accepts, rejects, or ignores? → Edit or withdraw while pending
- Edit or withdraw while pending → Track the bid in My Bids
- *Rejected:* Customer accepts, rejects, or ignores? → Bid resolved

**Text version.** 1. Open the job detail page. 2. Fill in the bid form with your price, estimated hours, and message. 3. Choose Submit Bid. 4. Track the bid in My Bids. 5. If the customer accepts, start the work. If it is still pending, edit or withdraw the bid. If it is rejected, the bid is resolved.

# Steps

## Step 1: Open the job detail page

From /jobs, choose a job card to open /jobs/:id. Read the full description, photos, and budget before bidding. If the job is a poor fit, keep browsing instead of bidding.

> **Expected result:** The job detail loads with the Submit Your Bid form visible (for signed-in, onboarded helpers).

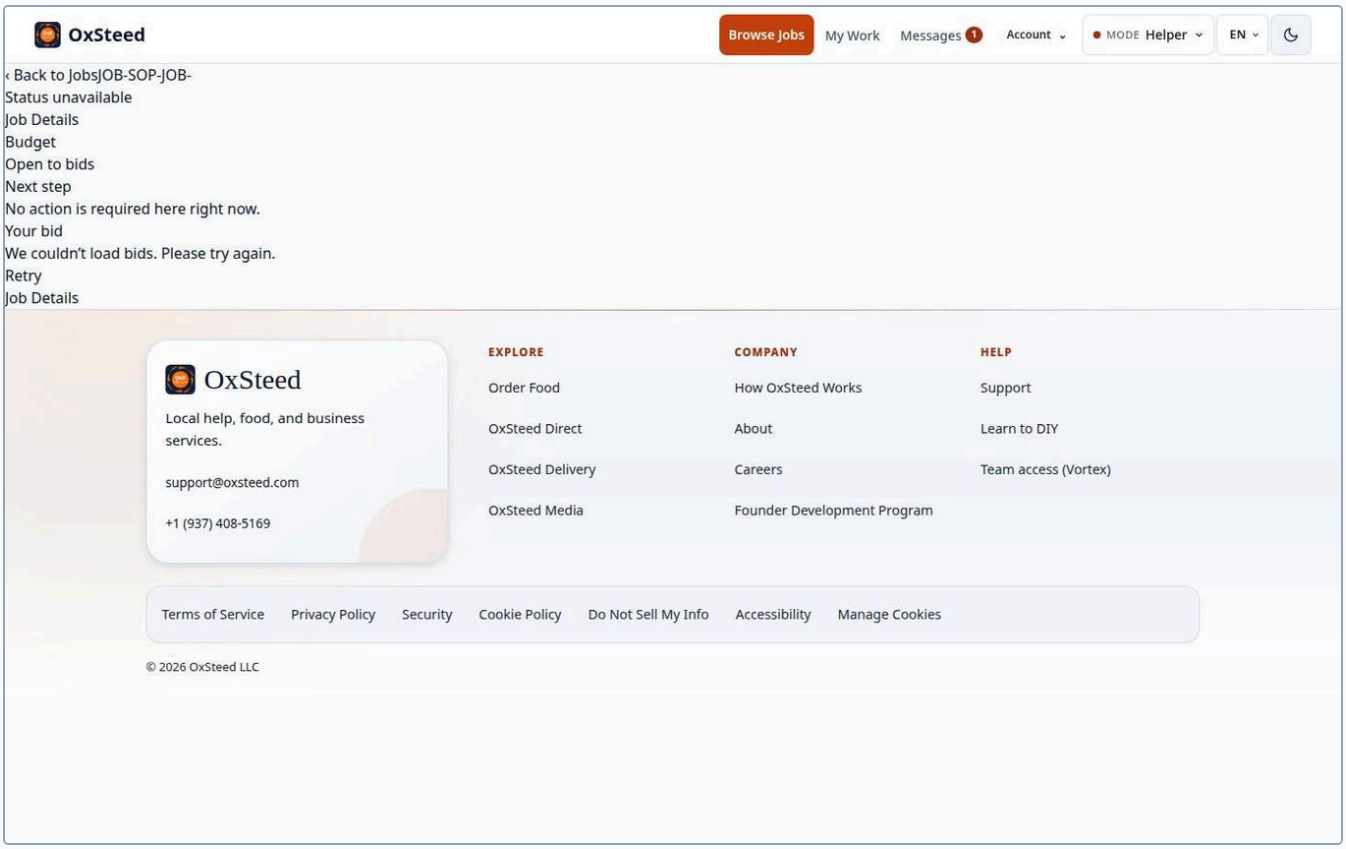

**Figure 1.** A job detail page, desktop view. *(Image description: Job detail page with the Submit Your Bid form below the description)*

## Step 2: Fill in the bid form

In the Submit Your Bid form, enter Your price, your Estimated Hours, and a message under "Why you are the right person for this job" (up to 500 characters). Describe your relevant experience, availability, and approach.

> **Expected result:** Price, hours, and message are entered with no validation errors.

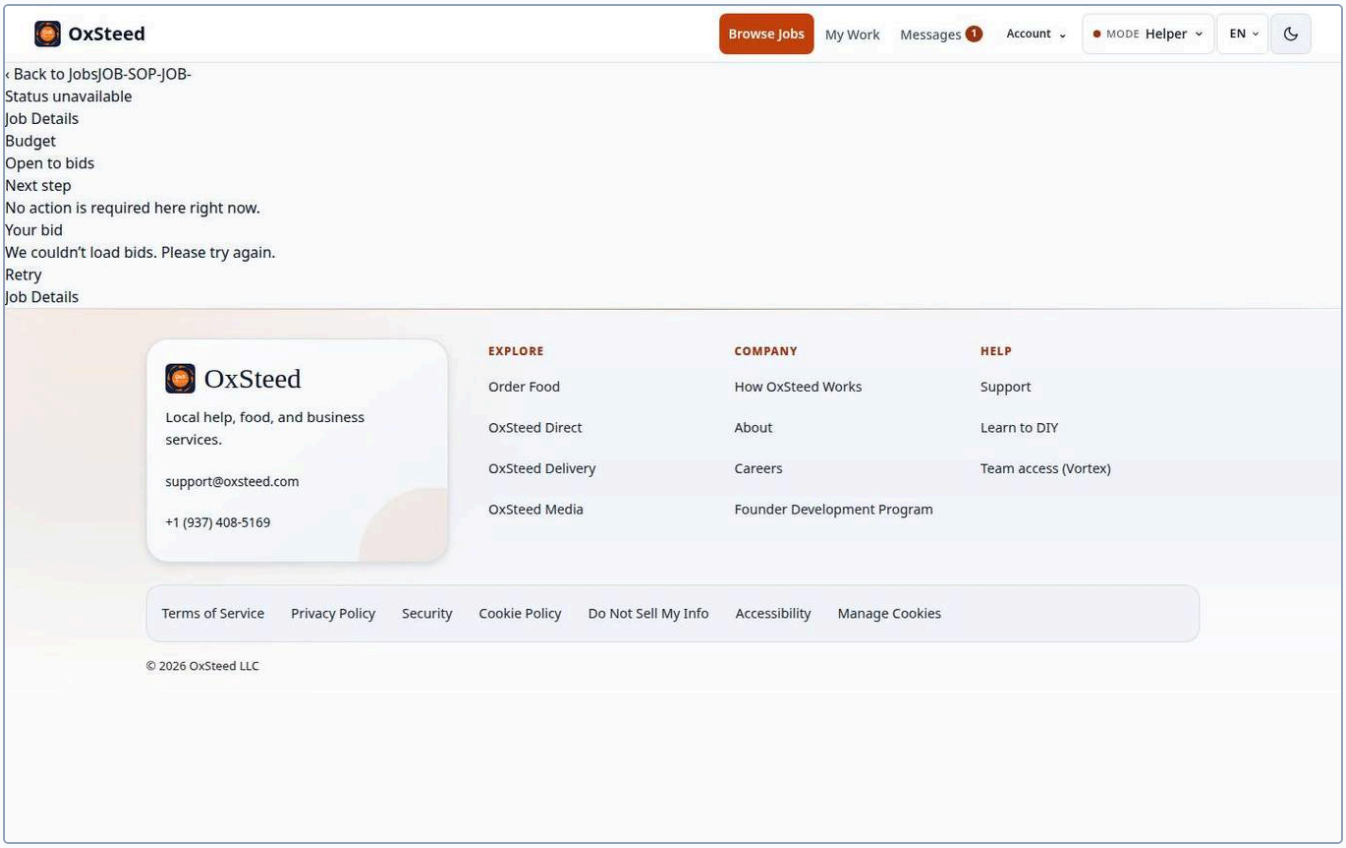

**Figure 2.** The filled bid form, desktop view. *(Image description: Submit Your Bid form filled in with price, hours, and message)*

## Step 3: Submit the bid

Choose Submit Bid. The button shows Submitting while the bid posts. Your bid appears in the job bids list and on your My Bids page.

> **Expected result:** A success confirmation appears and the bid shows as Pending in My Bids.

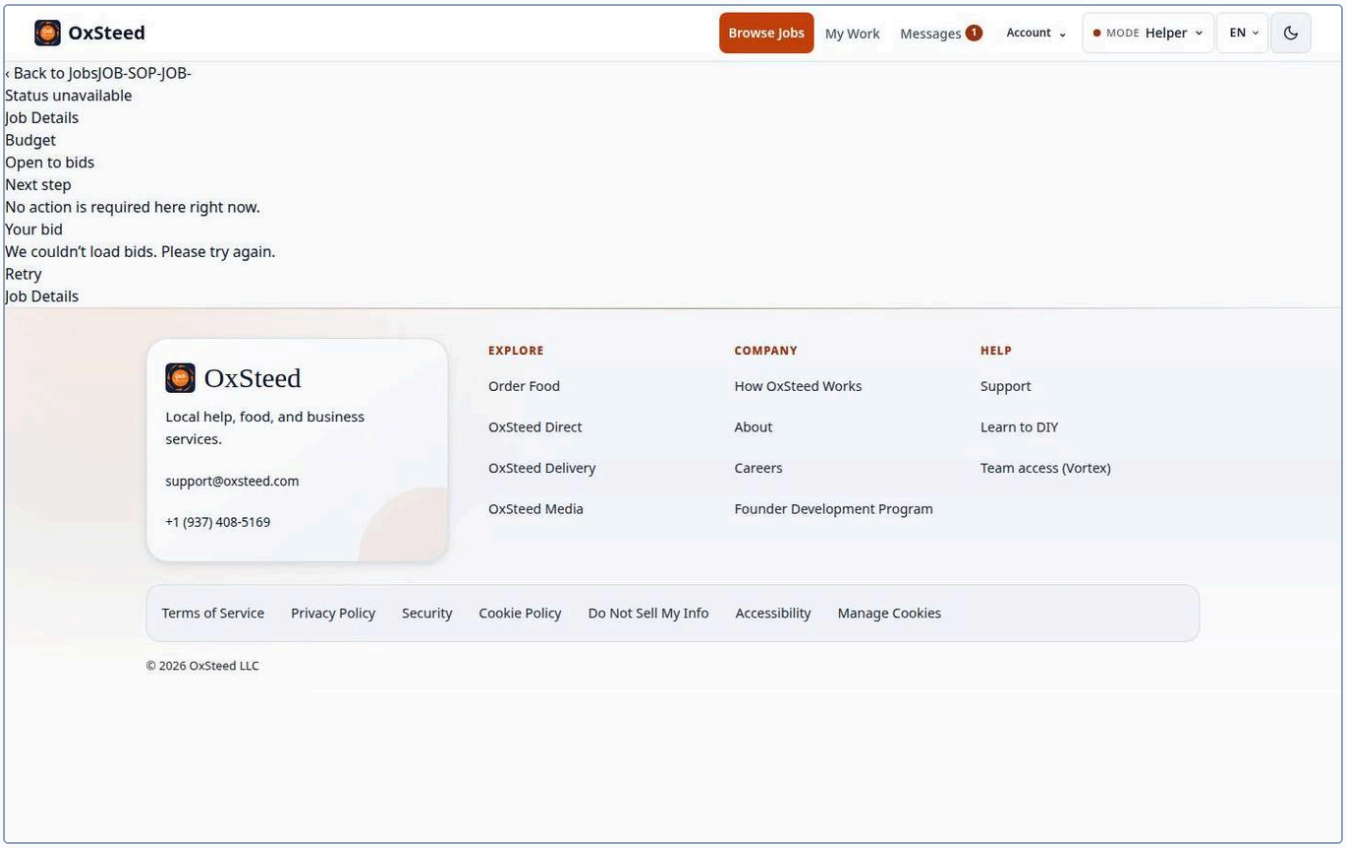

**Figure 3.** Bid submitted, desktop view. *(Image description: Job page after submitting the bid with a confirmation message)*

### Step 4: Track, edit, or withdraw the bid

Open My Bids (/my-bids) to track all your bids with status filters (all, pending, accepted, rejected, withdrawn). Choose View Bid for the bid detail. While a bid is pending, use Edit to change the price, hours, or message (Save changes), or Withdraw to pull the bid after the confirmation prompt.

> **Expected result:** The bid shows its current status; edits save or the bid is marked Withdrawn.

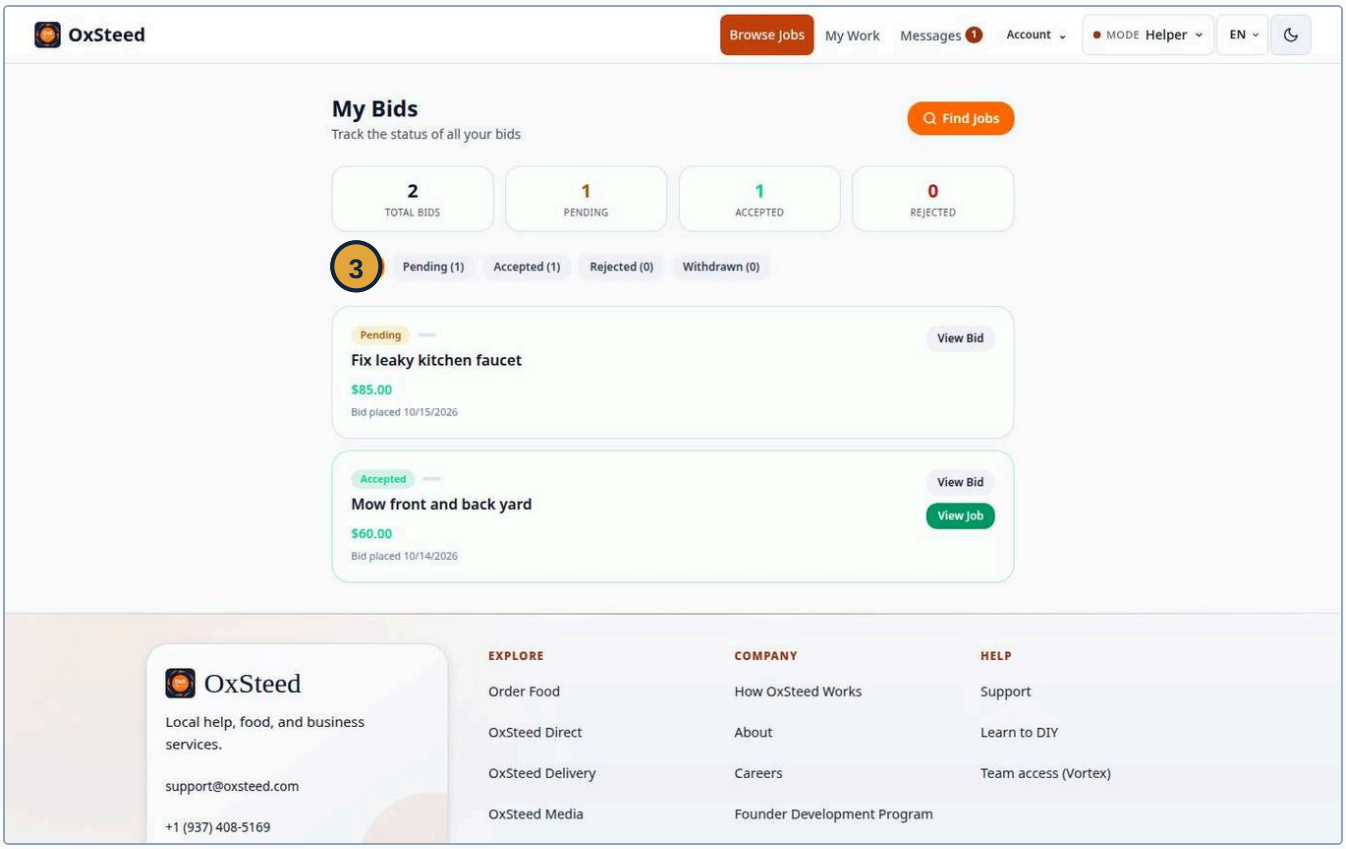

**Figure 4.** The My Bids page, desktop view. *(Image description: My Bids page with status filters and bid cards showing Withdraw and Edit controls)*

1. **2.** Withdraw button
2. **3.** Edit button

## Confirm it worked

The bid appears in My Bids with status Pending, and later updates to Accepted or Rejected.

## If something goes wrong

| Problem | What to do |
|---|---|

| | |
|---|---|
| The bid form does not appear on the job page. | Sign in and complete helper onboarding. Guests and non-onboarded accounts cannot see the bid form. |
| Submit Bid fails with a validation error. | Enter a price greater than 0 and hours between 0 and 10,000, and keep the message under the character limit shown. |

## Need help?

If a submitted bid never appears in My Bids, contact OxSteed Support from the /support page.

**Guide ID:** helper-work-clients | **Revision:** 1 | **Area:** Helper work

SOP LIBRARY / HELPER WORK ENGLISH

# Manage client relationships

| | |
|---|---|
| **Guide ID** | **helper-work-clients** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Helper |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/helper-work/manage-client-relationships |

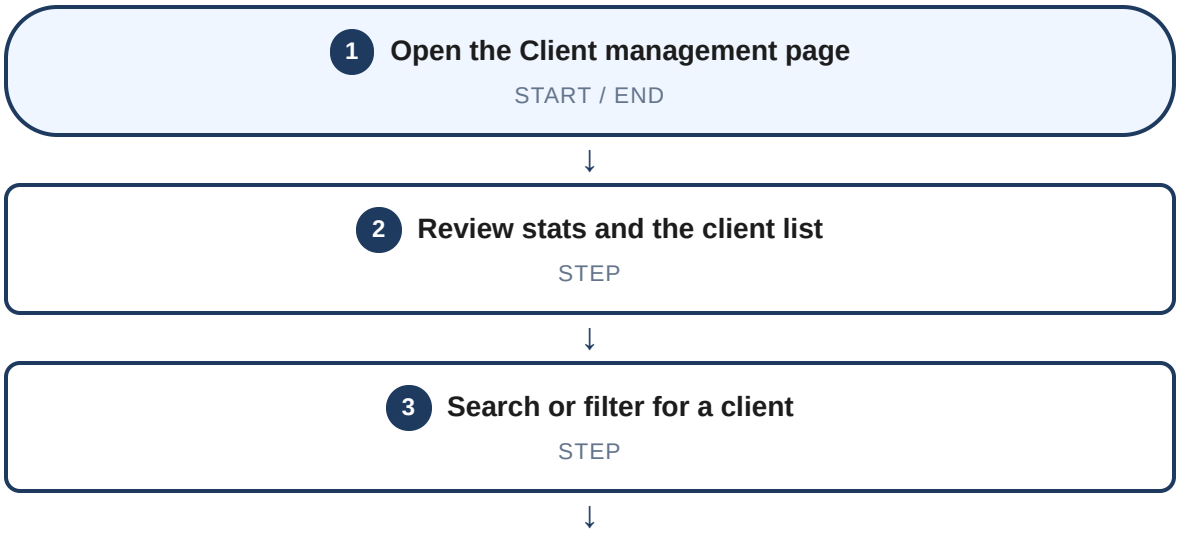

## Goal

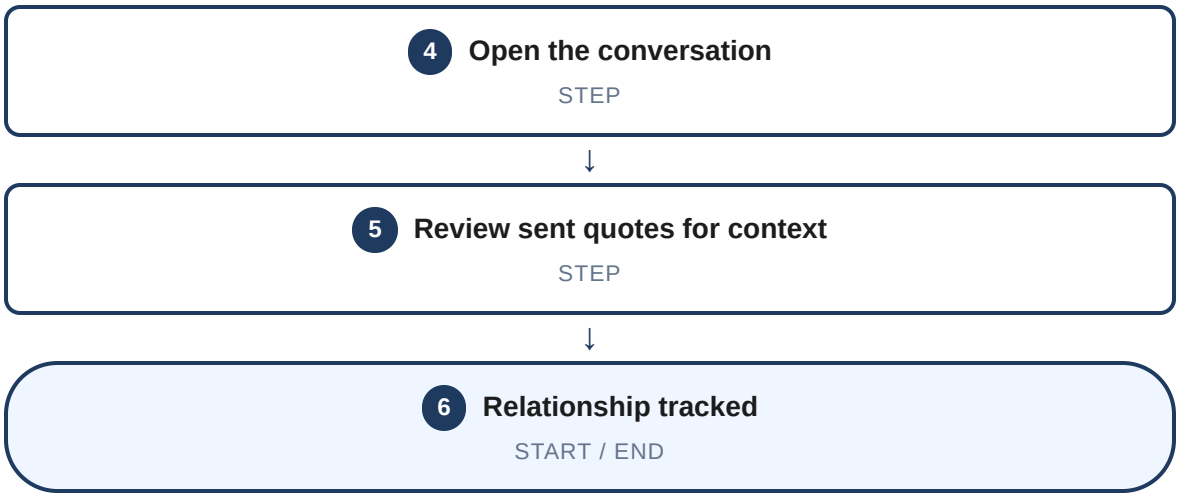

Keep track of every client, unread message, and sent quote in one workspace.

## Before you start

1. Sign in and switch to helper mode.
2. Have at least one conversation or quote started (clients appear from conversations and quote history).

## Process map

**Text version.** 1. Open the Client management page. 2. Review your stats and the client list. 3. Search or filter to find a client. 4. Open the conversation to reply or follow up. 5. Review the quotes you sent that client for context. 6. The relationship is tracked and up to date.

## Steps

### Step 1: Open the Client management page

Open /helper/clients. The Client workspace page shows who you are working with, what needs your attention, and where each relationship stands. Stats at the top show Clients, Unread messages, and Sent quotes.

> **Expected result:** Your clients list loads with the stats accurate.

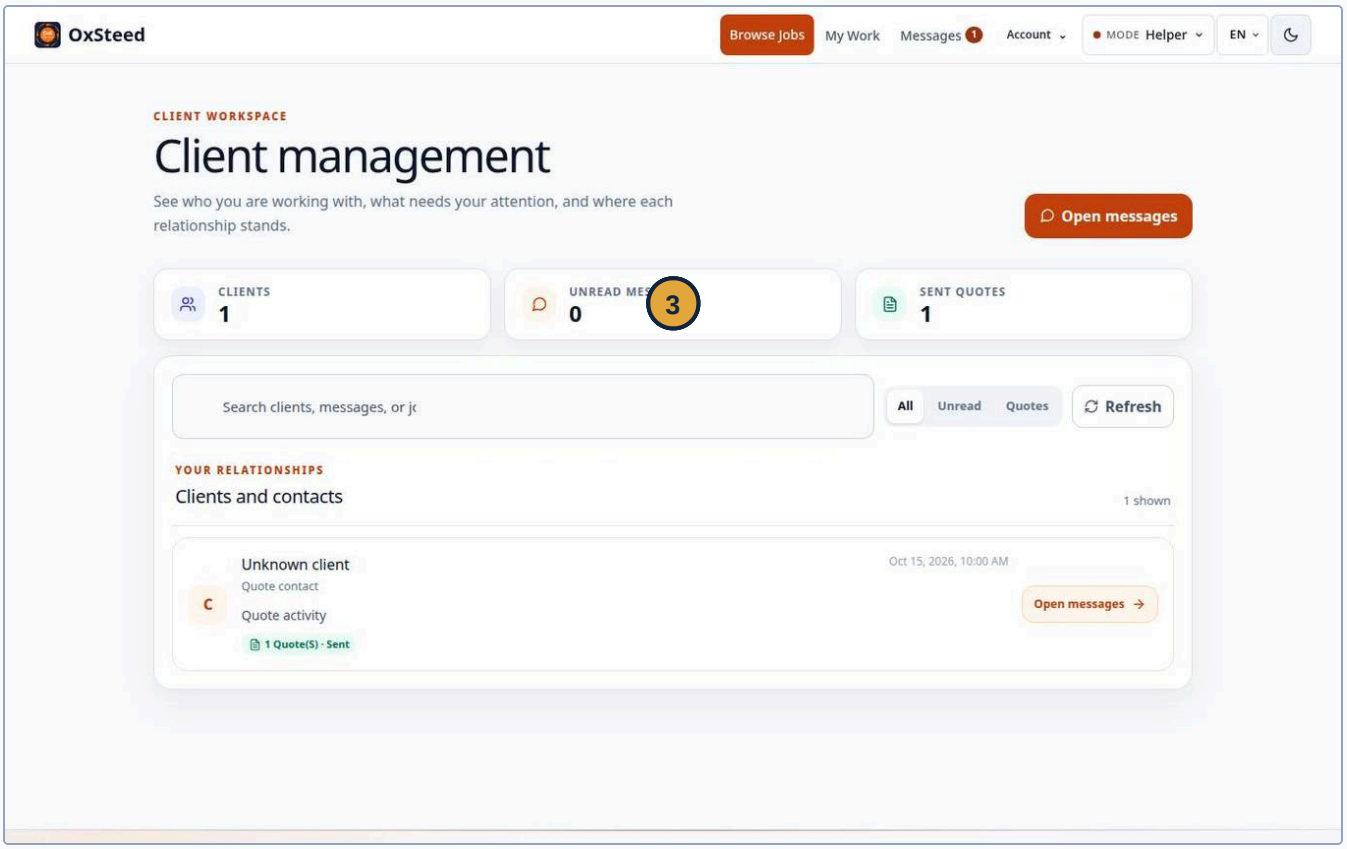

**Figure 1.** The Client management page, desktop view. *(Image description: Client management page with stats cards and the client list)*

1. **1.** Clients stat
2. **2.** Unread messages stat
3. **3.** Sent quotes stat

## Step 2: Search or filter for a client

Use the search box ("Search clients, messages, or jobs") to find someone, or use the filters: All, Unread, or Quotes (clients you have sent quotes to).

> **Expected result:** The list narrows to the matching clients.

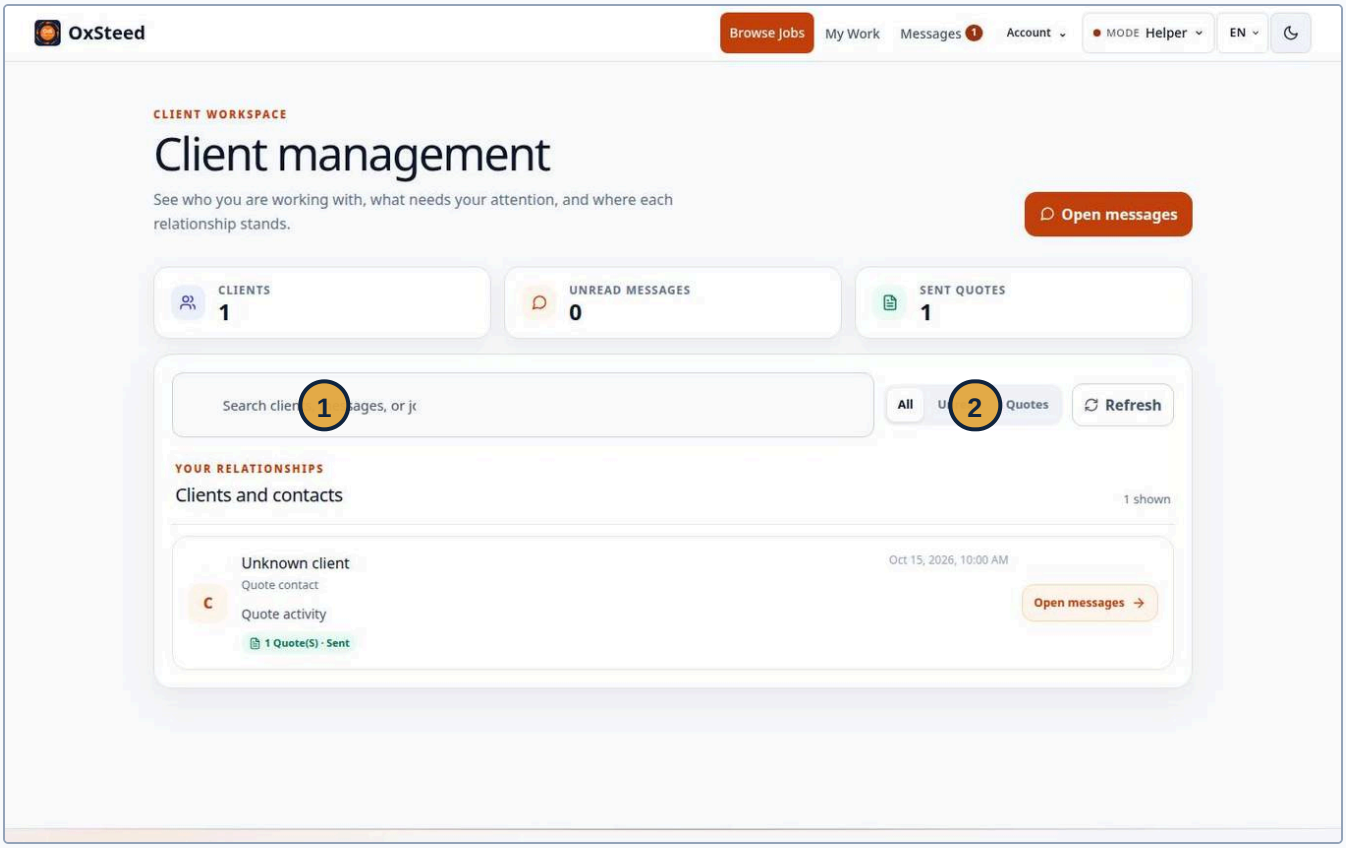

**Figure 2.** Searching and filtering clients, desktop view. *(Image description: Search box and All, Unread, and Quotes filters above the client list)*

1. **1.** Search box
2. **2.** All / Unread / Quotes filters

### Step 3: Open the conversation and follow up

On a client card, choose Open conversation to jump into the thread and reply, or Open messages to see all your threads. The card shows the last message and how many quotes you have sent that client.

> **Expected result:** The conversation opens with full history, ready for your reply.

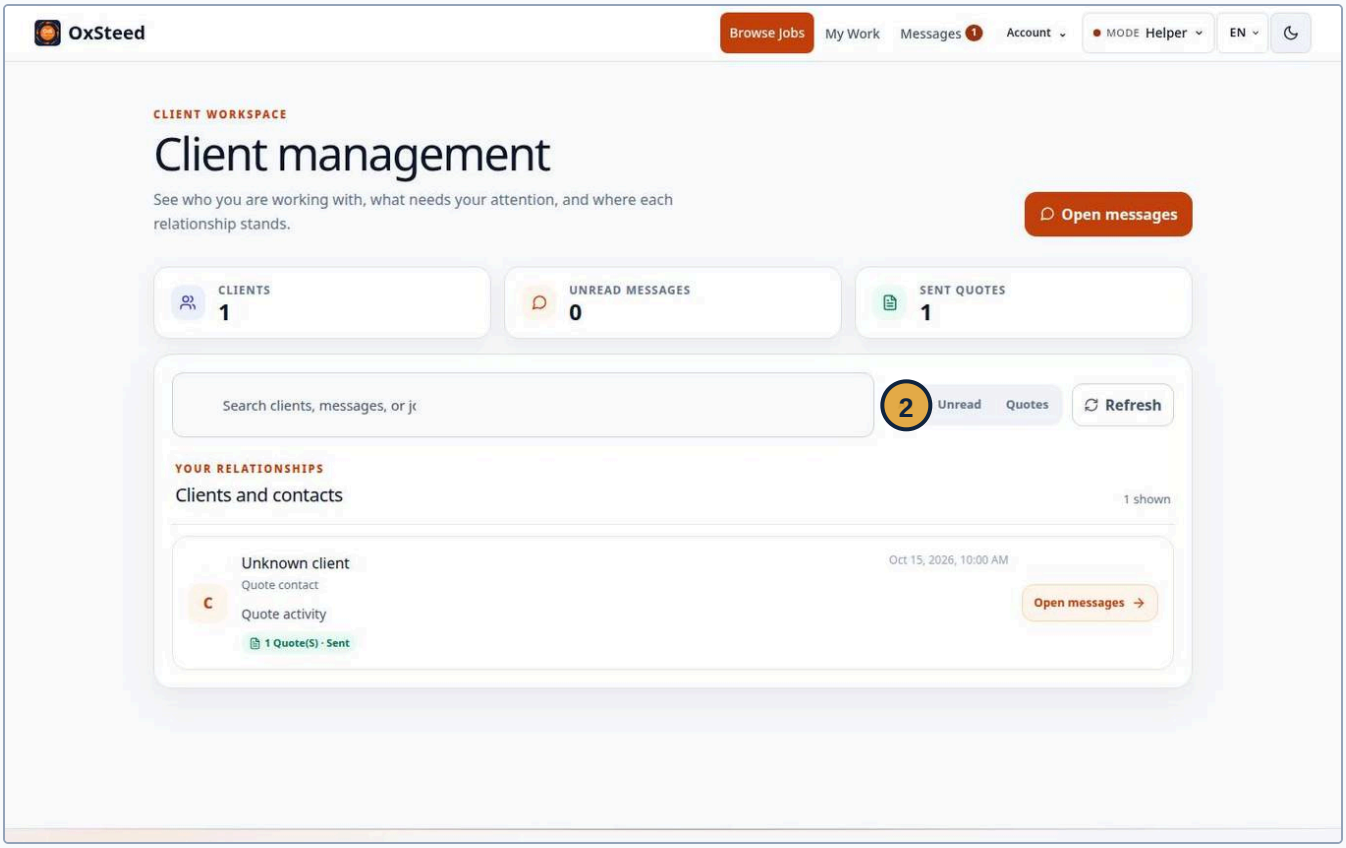

**Figure 3.** A client card, desktop view. *(Image description: Client card showing last message, quote count, and Open conversation button)*

1. **2.** Open conversation

## Confirm it worked

Each client card shows the latest message and quote activity, and conversations open from the cards.

## If something goes wrong

| Problem | What to do |
|---|---|

| | |
|---|---|
| A client is missing from the list. | Clients appear from conversations and quote history. If you have never messaged or quoted them, start a conversation from /messages first. |
| Unread counts look wrong. | Open the conversation; reading the messages clears the unread count. Reload the page if the stat lags. |

## Need help?

If the client list fails to load, contact OxSteed Support from the /support page.

**Guide ID:** helper-work-earnings | **Revision:** 1 | **Area:** Helper work

SOP LIBRARY / HELPER WORK ENGLISH

# View your earnings overview

| | |
|---|---|
| **Guide ID** | **helper-work-earnings** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Helper |
| **Availability** | **Conditional** |
| **Conditions** | • The Earnings tab on the helper dashboard is visible only while the helperEarnings launch flag is enabled (it is off by default). Your payouts at /helper/payouts and your earnings statements at /helper-earnings/statements stay available while the tab is hidden. |
| **Online version** | /how-it-works/helper-work/view-earnings-overview |

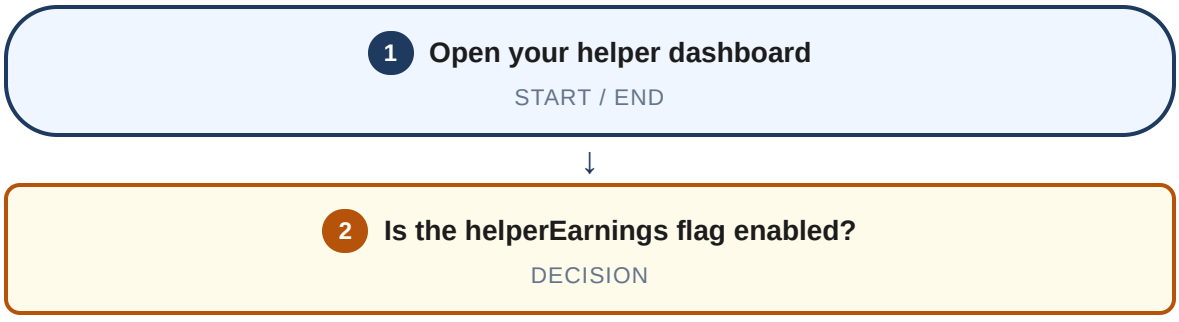

## Goal

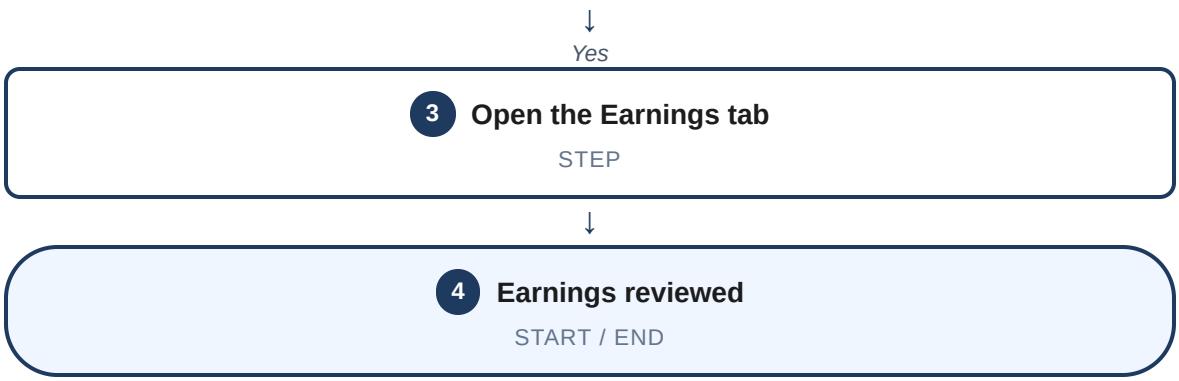

See your income, expenses, and net earnings in one place, even while the dashboard earnings section is unreleased.

## Before you start

1. Sign in and switch to helper mode.
2. Know how to receive payouts.

## Process map

- *No:* Is the helperEarnings flag enabled? → Earnings tab hidden (flag off)
- Earnings tab hidden (flag off) → Use the Payouts page instead
- Use the Payouts page instead → Open your earnings statements
- Open your earnings statements → Earnings reviewed

**Text version.** 1. Open your helper dashboard. 2. Check whether the helperEarnings flag is enabled. If it is, open the Earnings tab to review income, expenses, net, and savings rate. If it is not (the default), the Earnings tab is hidden and that is expected; use the Payouts page for balances and the earnings statements page for records. 3. In either path you finish with your earnings reviewed.

# Steps

## Step 1: Check for the Earnings tab

Open your helper dashboard (/dashboard or /helper-dashboard). If the helperEarnings launch flag is enabled, an Earnings tab appears beside the other tabs. By default the flag is off and the tab is hidden; the rest of this guide covers both paths.

> **Expected result:** You know whether the Earnings tab is available to you.

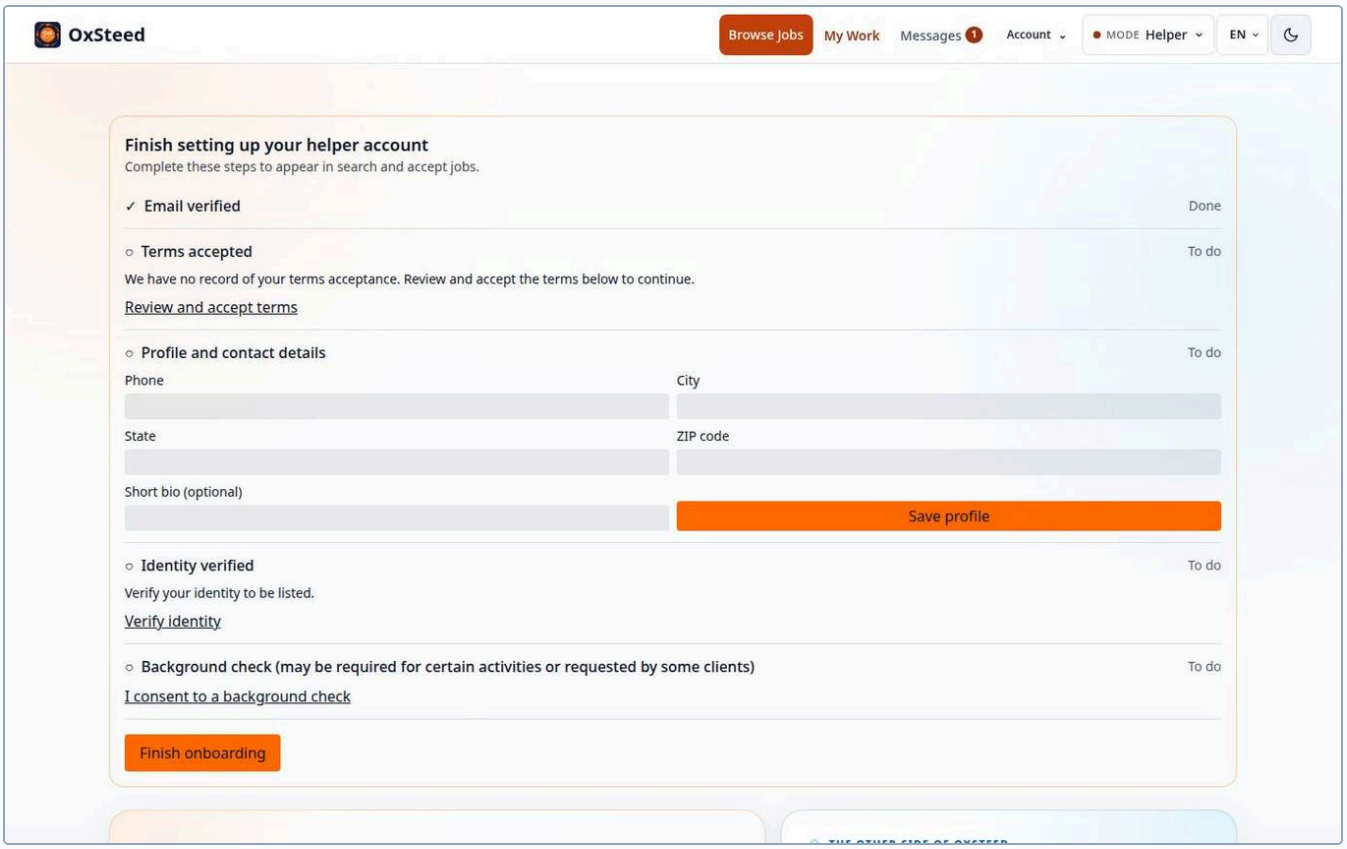

**Figure 1.** The dashboard with the Earnings tab hidden, desktop view. *(Image description: Helper dashboard tab bar without an Earnings tab)*

## Step 2: Review earnings on the Payouts page

Open /helper/payouts any time. It always shows your Available, Pending, and Available for instant payout balances, regardless of the flag. This is the always-on view of what you have earned and can withdraw.

> **Expected result:** Your current balances are visible.

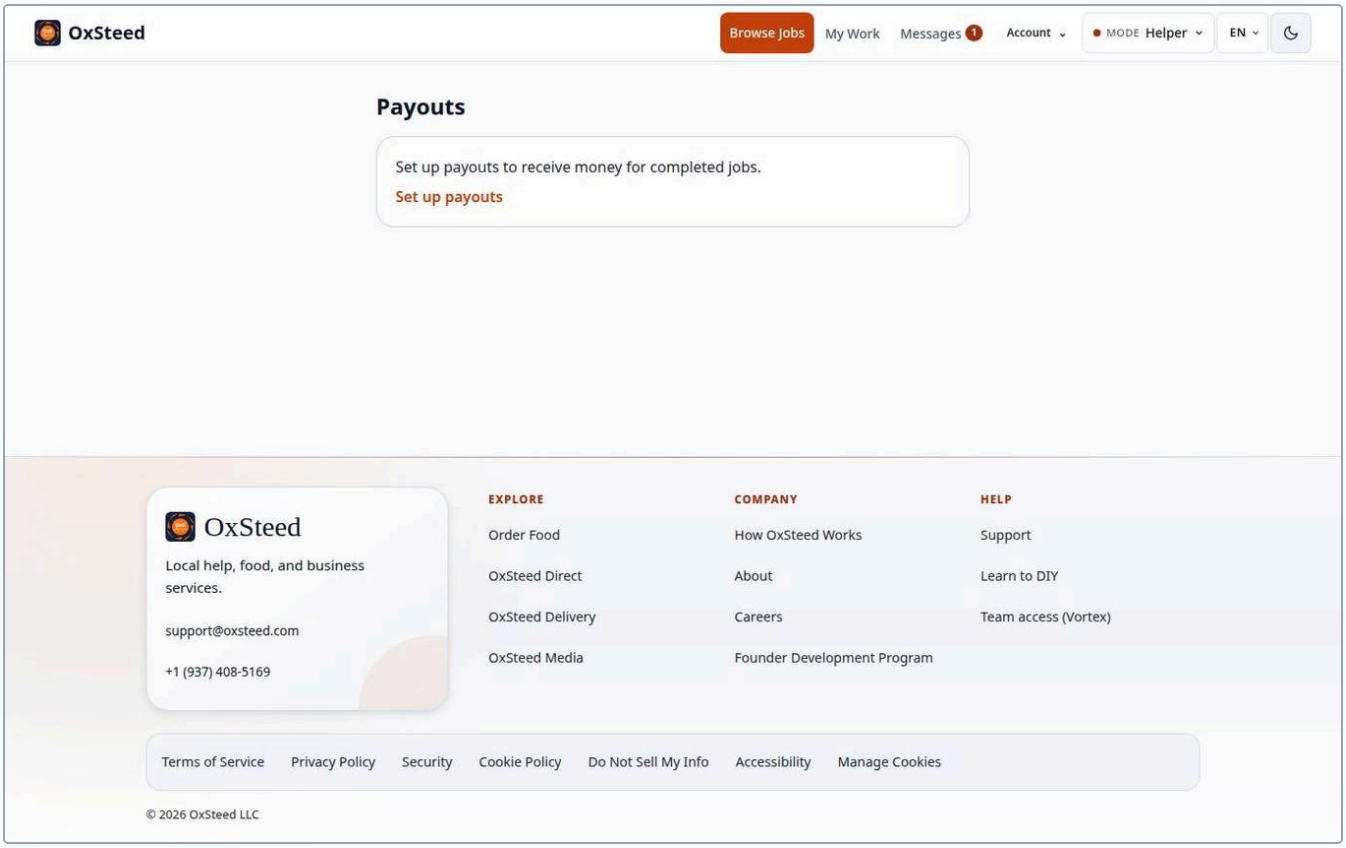

**Figure 2.** Balances on the Payouts page, desktop view. *(Image description: Payouts page showing balance breakdown)*

## Step 3: Open your earnings statements

Open /helper-earnings/statements for your archived helper earnings statements. Statements give you the period-by-period record of what you earned, independent of the dashboard tab.

> **Expected result:** Your earnings statements list loads.

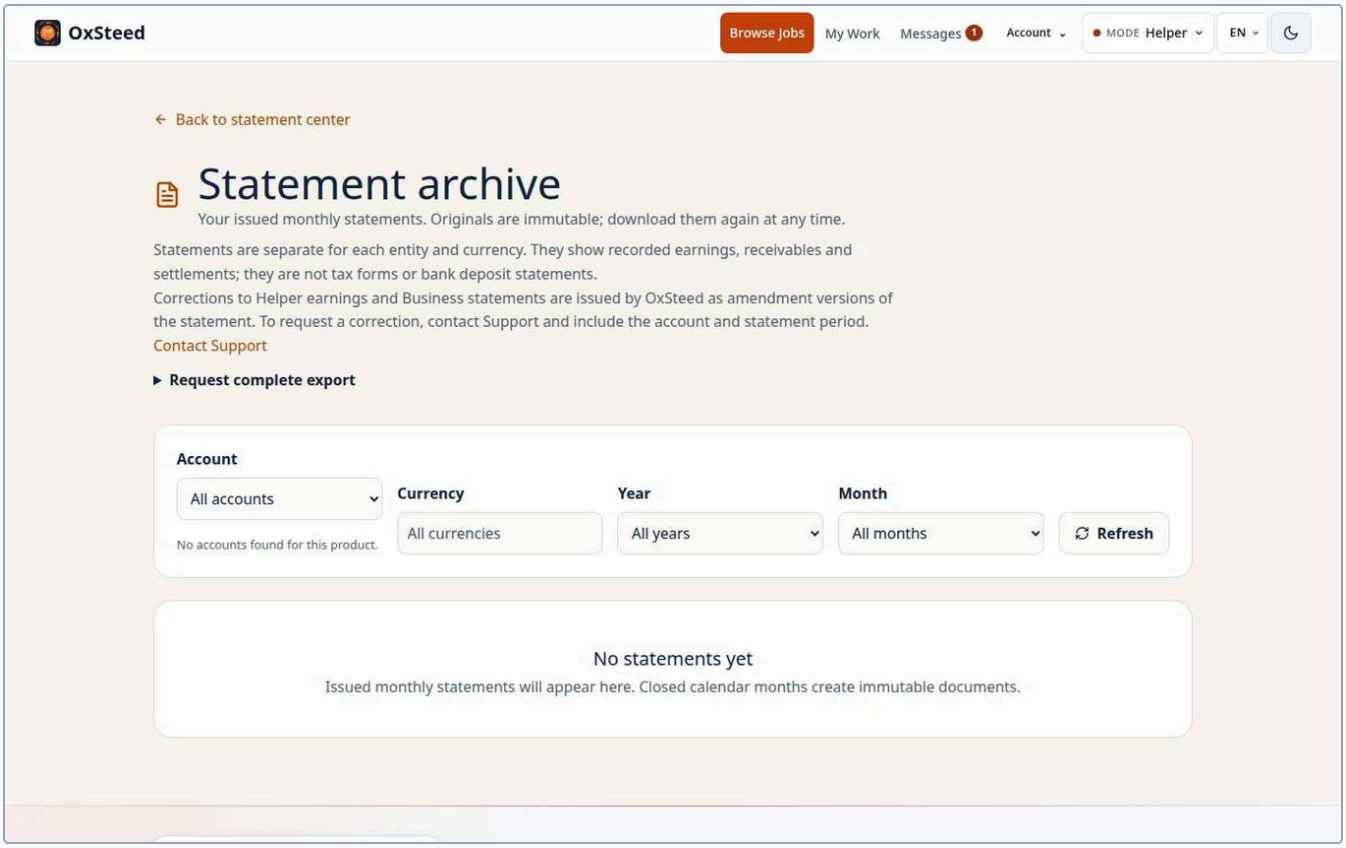

**Figure 3.** Earnings statements, desktop view. *(Image description: Earnings statements archive with statement periods listed)*

### Step 4: Use the Earnings tab when it is enabled

When the helperEarnings flag is on, open the dashboard Earnings tab. It shows income, expenses, net, and savings rate for the month, plus recent transactions and budgets. Use the log transaction button to record income and expenses.

> **Expected result:** The earnings overview shows your monthly income, expenses, net, and recent transactions.

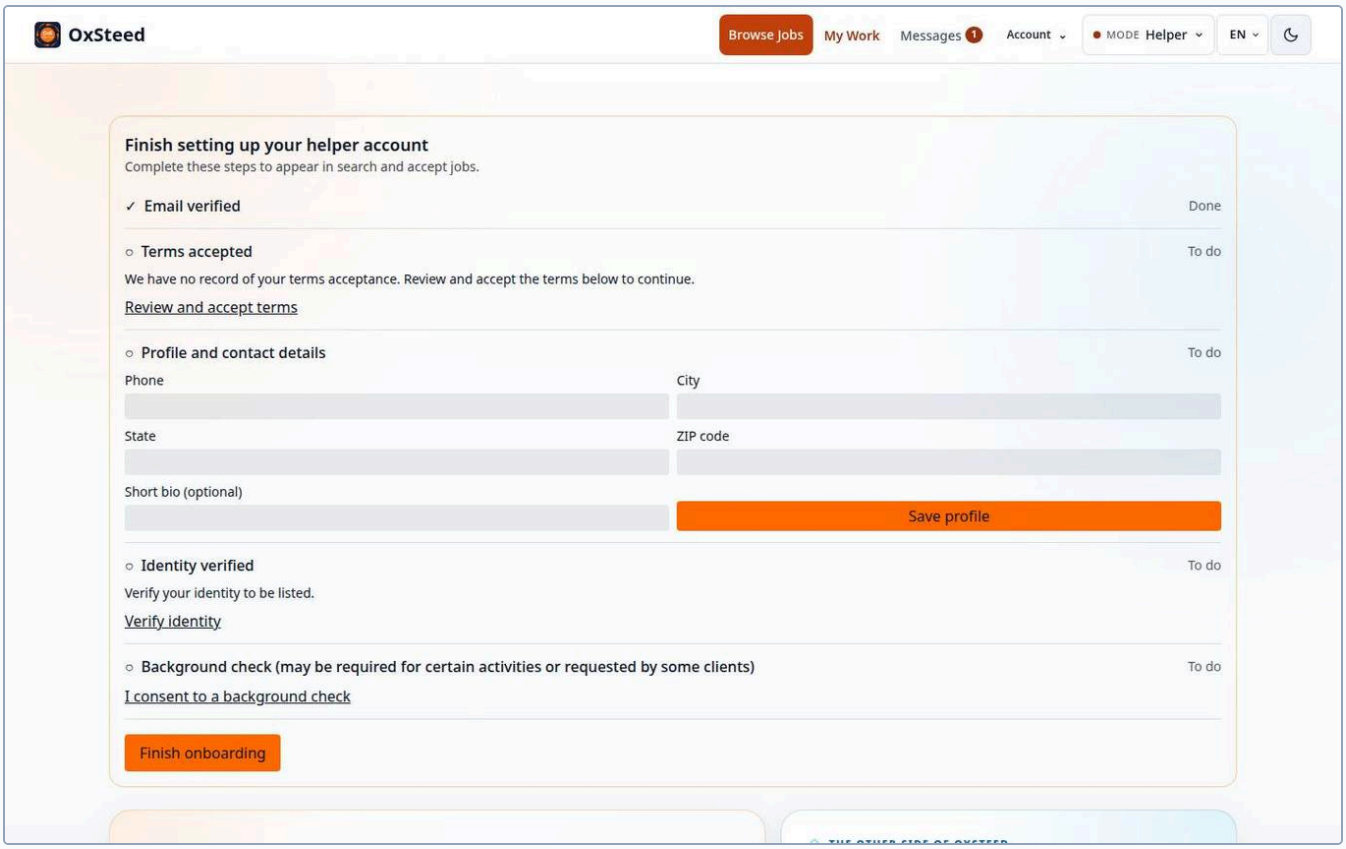

**Figure 4.** The Earnings tab (flag enabled), desktop view. *(Image description: Earnings tab showing income, expenses, net, and savings rate cards)*

## Confirm it worked

You can see your balances at /helper/payouts and your statements at /helper-earnings/statements; when the flag is on, the dashboard Earnings tab shows the full overview.

## If something goes wrong

| Problem | What to do |
|---|---|

| | |
|---|---|
| There is no Earnings tab on your dashboard. | That is expected: the helperEarnings flag is off by default. Use the Payouts page and earnings statements instead. |
| Statements show no entries. | Statements archive after payouts post. If you have earned but never been paid, the Payouts page pending balance is where the money sits. |

## Need help?

If statements fail to load, contact OxSteed Support from the /support page.

## Related guides

- Receive payouts (helper-work-payouts)

**Guide ID:** helper-work-find-work | **Revision:** 1 | **Area:** Helper work

SOP LIBRARY / HELPER WORK ENGLISH

# Browse open jobs

| | |
|---|---|
| **Guide ID** | **helper-work-find-work** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Helper |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/helper-work/browse-open-jobs |

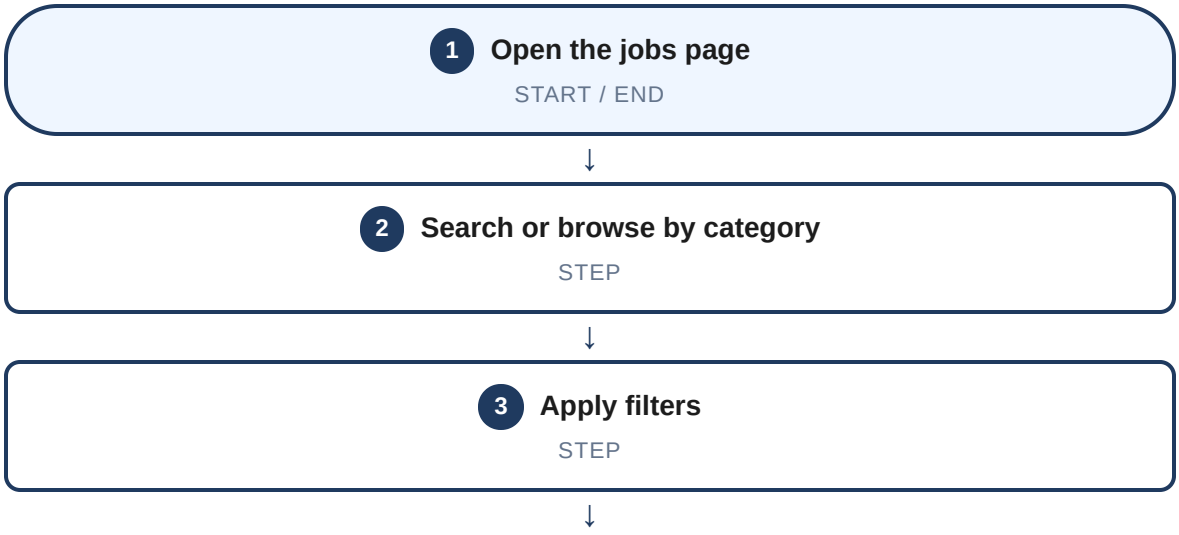

## Goal

Find open jobs that match your skills, location, and schedule.

## Before you start

1. You can browse without signing in, but you need a signed-in helper account with completed onboarding to bid.
2. Keep your skills and availability up to date so matches are accurate.

## Process map

- *No:* Good match found? → Refine the search
- Refine the search → Search or browse by category

**Text version.** 1. Open the jobs page. 2. Search by keyword or browse by category. 3. Apply filters such as job type and location. 4. If you find a good match, open the job detail. If not, refine the search and try again. 5. Optionally save the search to get alerts when matching jobs post. 6. The job is ready for you to bid on.

# Steps

## Step 1: Open the jobs page

Open /jobs (Find work). The hero panel titled "Find work that fits your skills" shows a search box, category browse links, and a Filters button.

> **Expected result:** The job list loads with open jobs shown as cards.

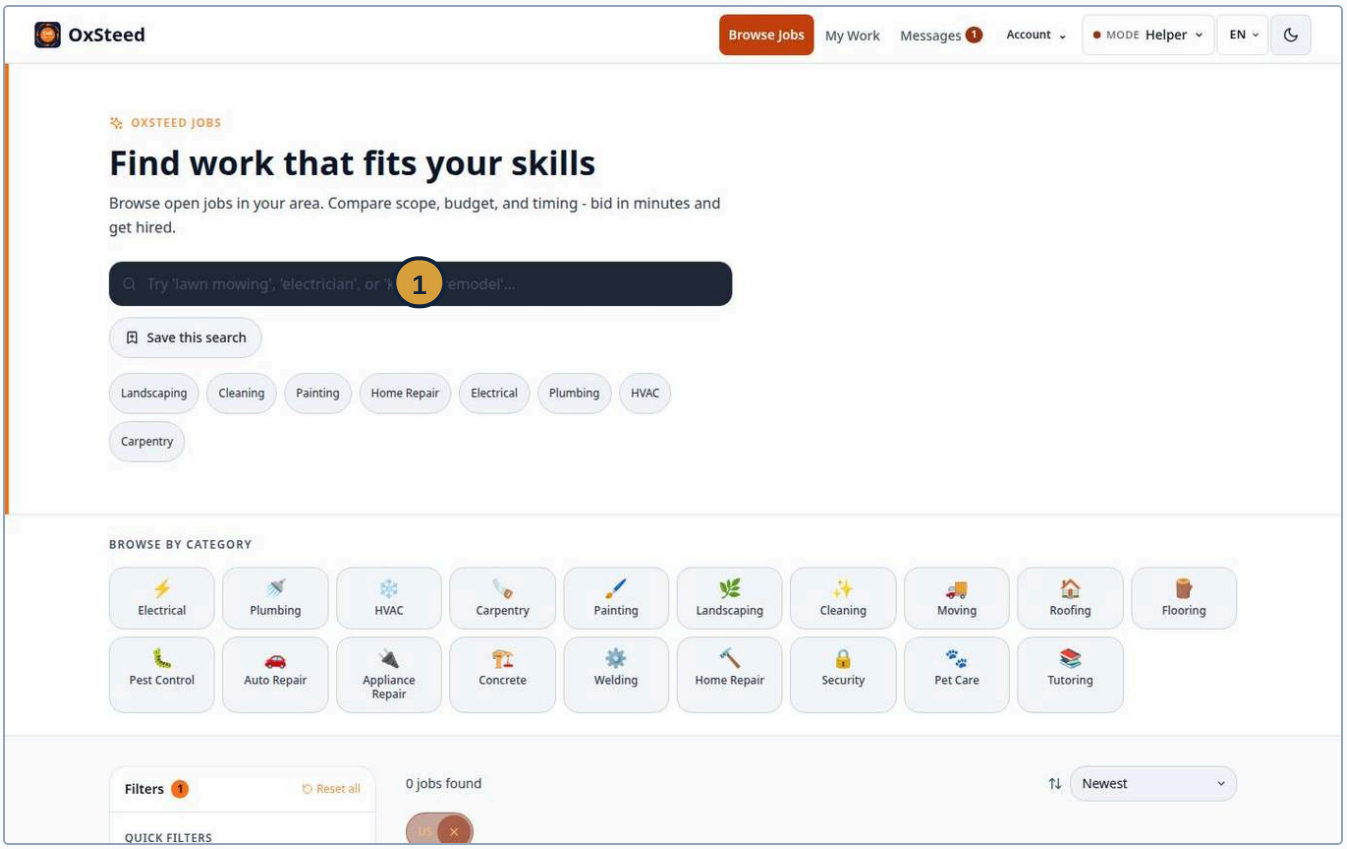

**Figure 1.** The jobs page, desktop view. *(Image description: Jobs page hero with search box and category links above job cards)*

1. **1.** Search box

## Step 2: Search and filter

Type a keyword in the search box (for example lawn mowing or electrician), or browse by category. Choose Filters to narrow by job type and location, then choose Show results to apply.

> **Expected result:** The list refreshes to show only jobs matching your search and filters.

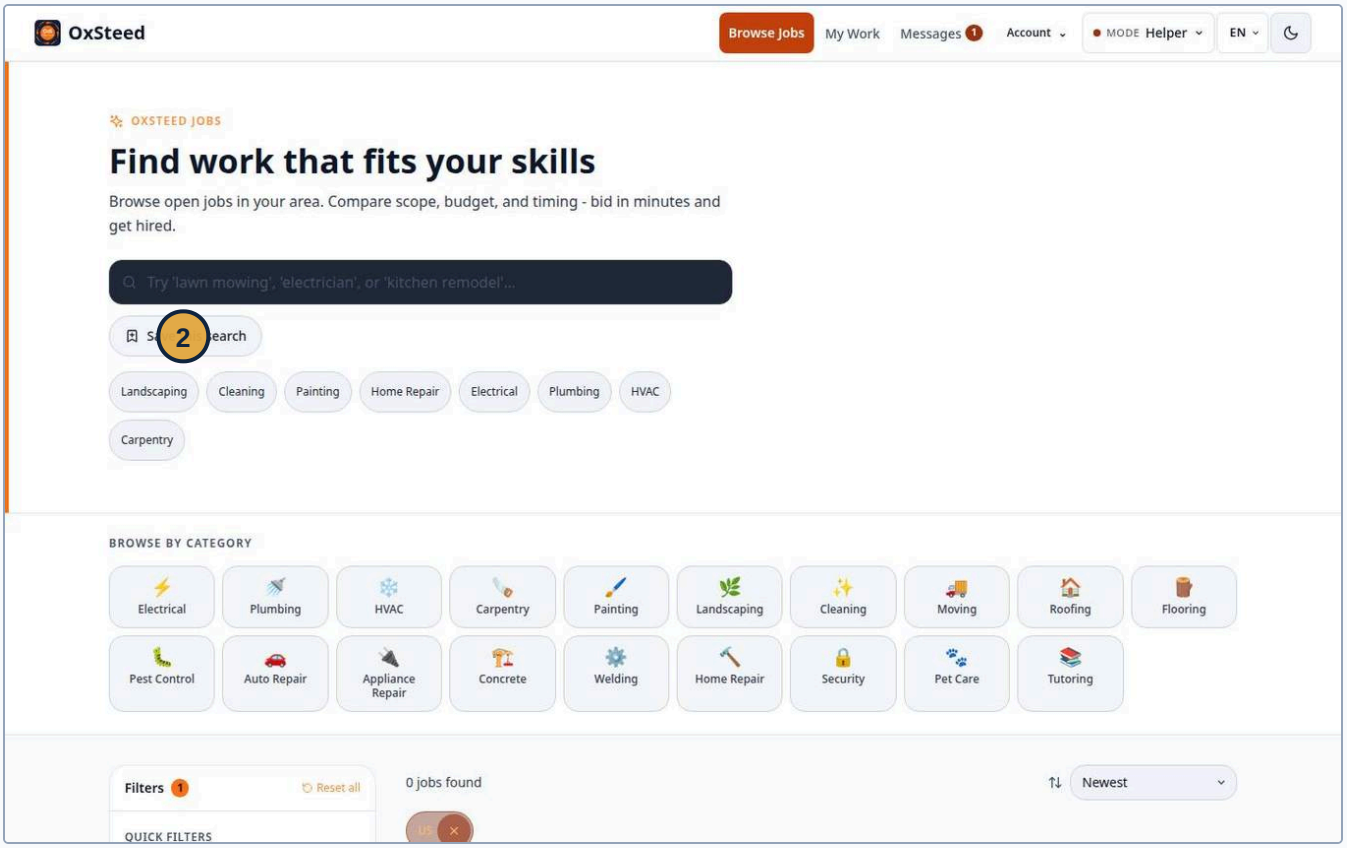

**Figure 2.** Filtering jobs, desktop view. *(Image description: Filters panel open on the jobs page with job type and location options)*

1. **2.** Show results button

## Step 3: Open a job that fits

Read the job cards for budget, location, and schedule. Choose a card to open the full job detail: description, photos, bids so far, and the Submit Your Bid form.

> **Expected result:** The job detail page loads with the full description and bid form.

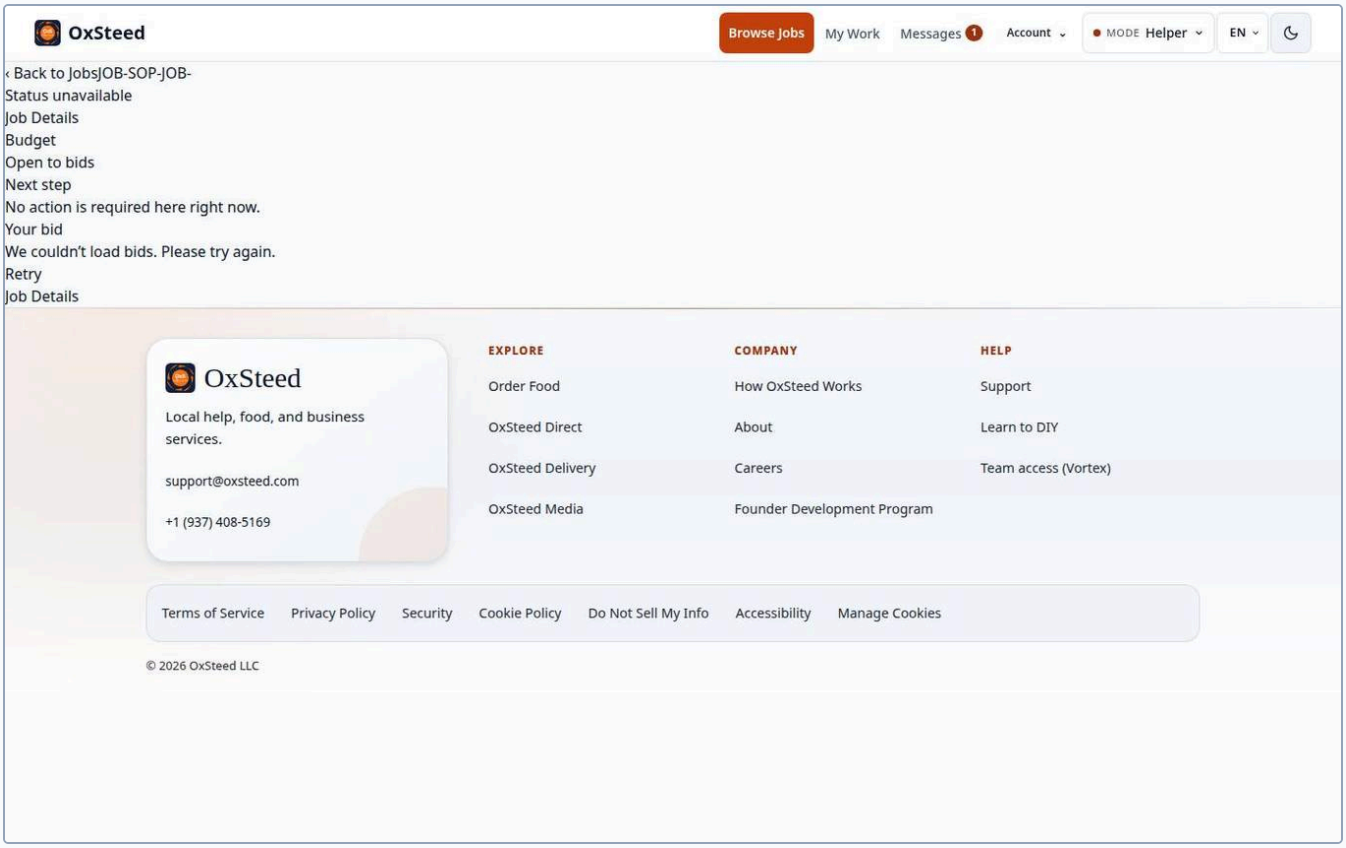

**Figure 3.** A job detail page, desktop view. *(Image description: Job detail page with description, photos, and the bid form)*

### Step 4: Save the search for alerts

If you run a search you repeat often, save it at /saved-searches. The Saved searches page explains you get alerted when new jobs, helpers, or tools match what you are looking for. You must be signed in to save searches.

> **Expected result:** Your saved search appears on the Saved searches page and alerts are active.

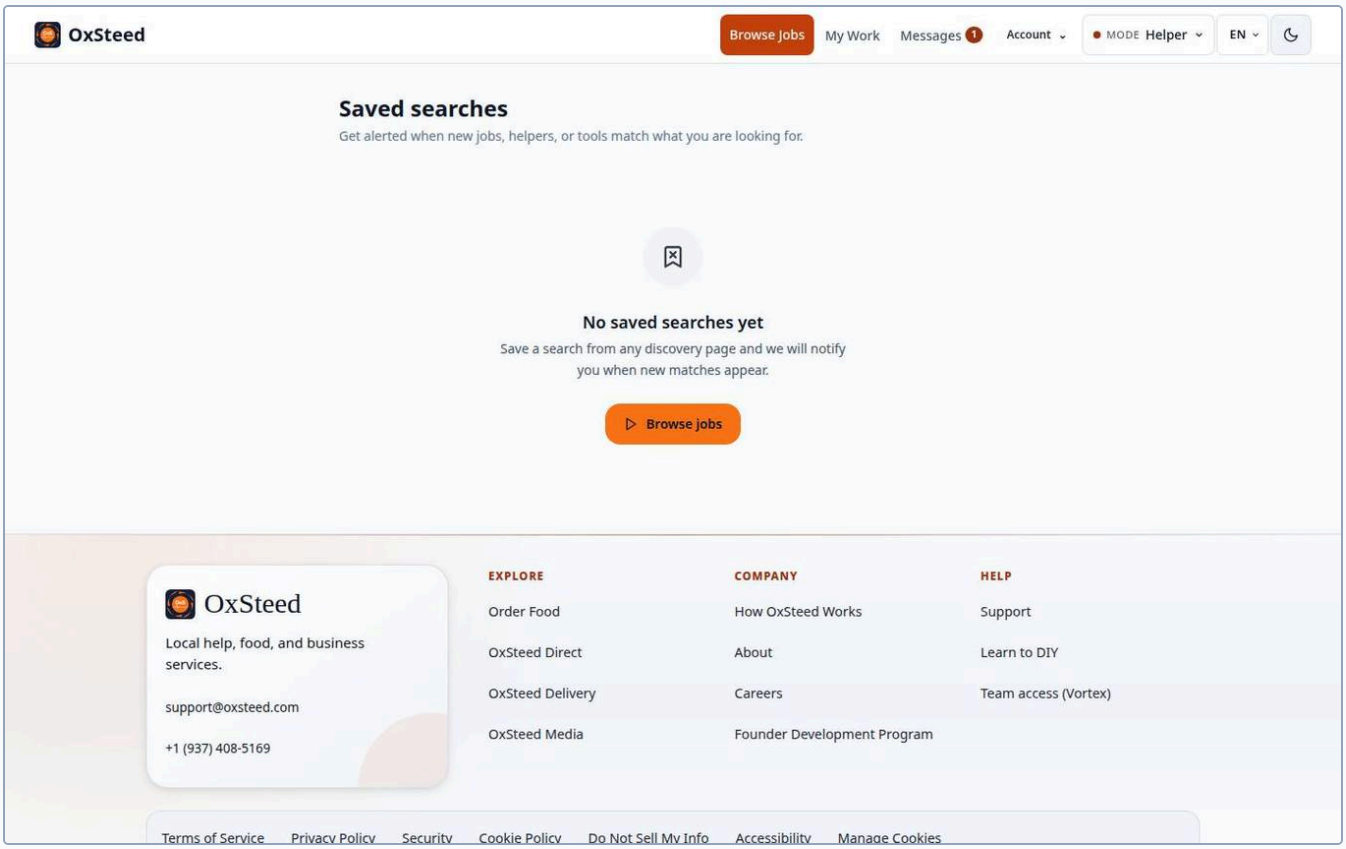

**Figure 4.** The Saved searches page, desktop view. *(Image description: Saved searches page with a saved job search listed)*

## Confirm it worked

You can open a job detail and see the Submit Your Bid form; saved searches list your search.

## If something goes wrong

| Problem | What to do |
|---|---|

| | |
|---|---|
| No jobs match your search. | Broaden the keyword, clear a filter, or browse by category. New jobs post regularly, so check back or save the search for alerts. |
| The bid form asks you to sign in or finish onboarding. | Sign in to your helper account and complete the onboarding steps. Bidding is gated server-side until onboarding is complete. |

## Need help?

If job listings fail to load, contact OxSteed Support from the /support page.

# Create and send invoices

| | |
|---|---|
| **Guide ID** | **helper-work-invoices** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Helper |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/helper-work/create-and-send-invoices |

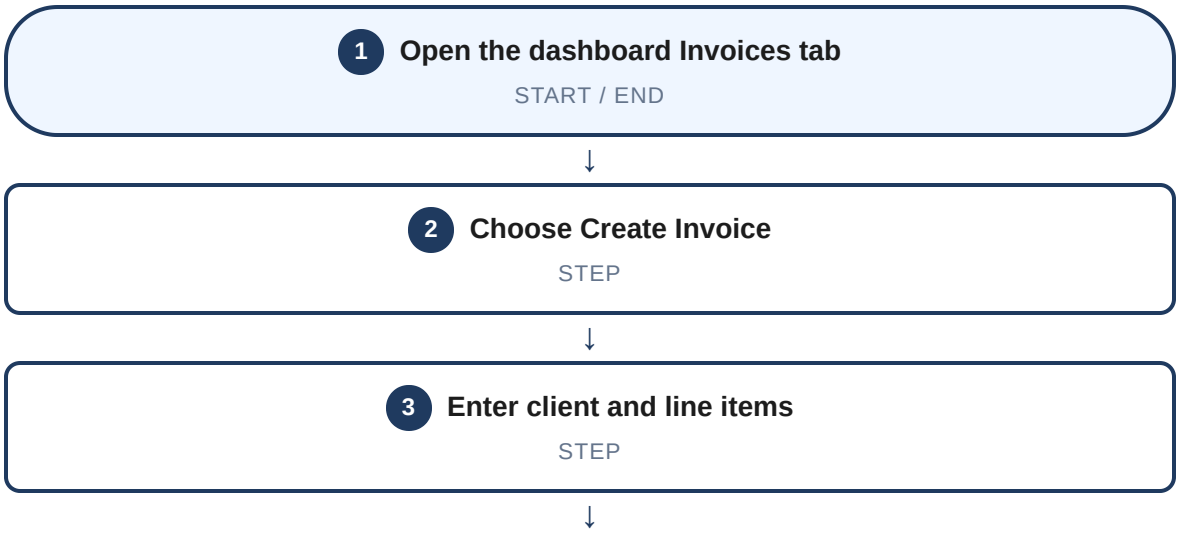

## Goal

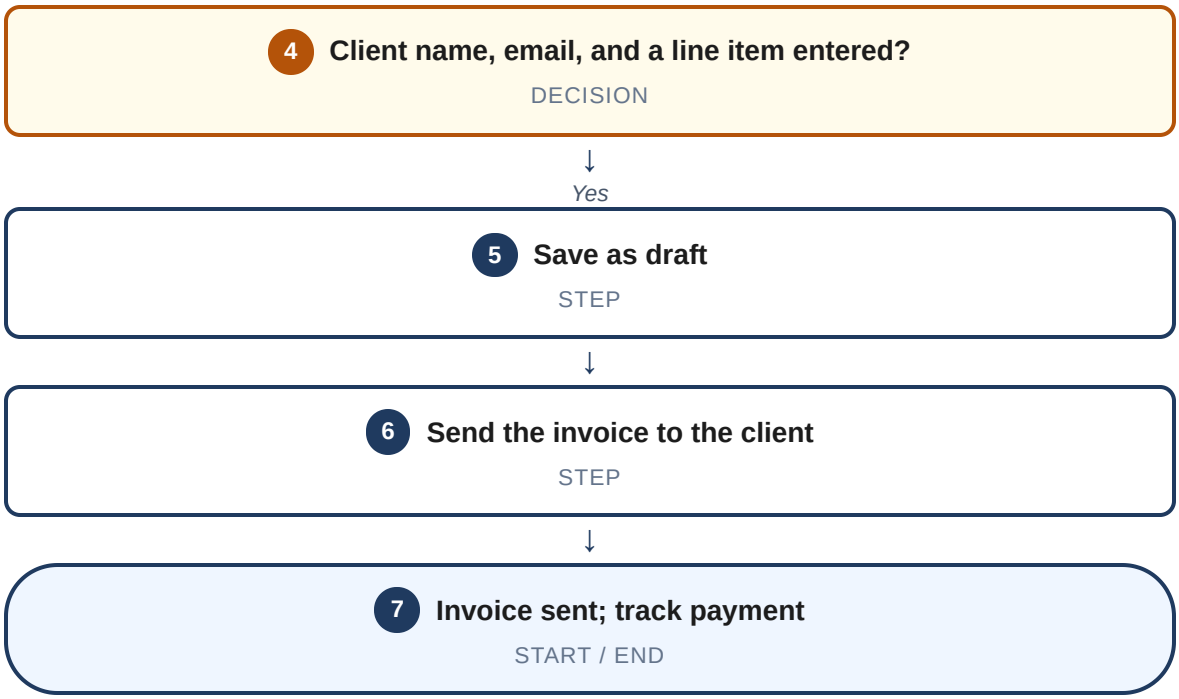

Create professional invoices for your clients, send them, and track payment.

## Before you start

1. Sign in and switch to helper mode.
2. Know the client name and email, plus the work you are billing for.

## Process map

- *No:* Client name, email, and a line item entered? → Fill the required fields
- Fill the required fields → Client name, email, and a line item entered?

**Text version.** 1. Open the Invoices tab on your helper dashboard. 2. Choose Create Invoice. 3. Enter the client name, client email, and line items with quantities and prices. 4. Check that the client name, email, and at least one line item are entered; if not, fill them in and check again. 5. Save the invoice as a draft. 6. Send the invoice to the client. 7. Track the invoice status until it is paid.

# Steps

## Step 1: Open the Invoices tab

Open your helper dashboard (/dashboard or /helper-dashboard) and choose the Invoices tab. The tab is titled "Create and send invoices to clients" and lists your invoices with their statuses (Draft, Sent, Paid). You can also review all invoices at /invoices.

> **Expected result:** Your invoice list loads, or the empty state invites you to create one.

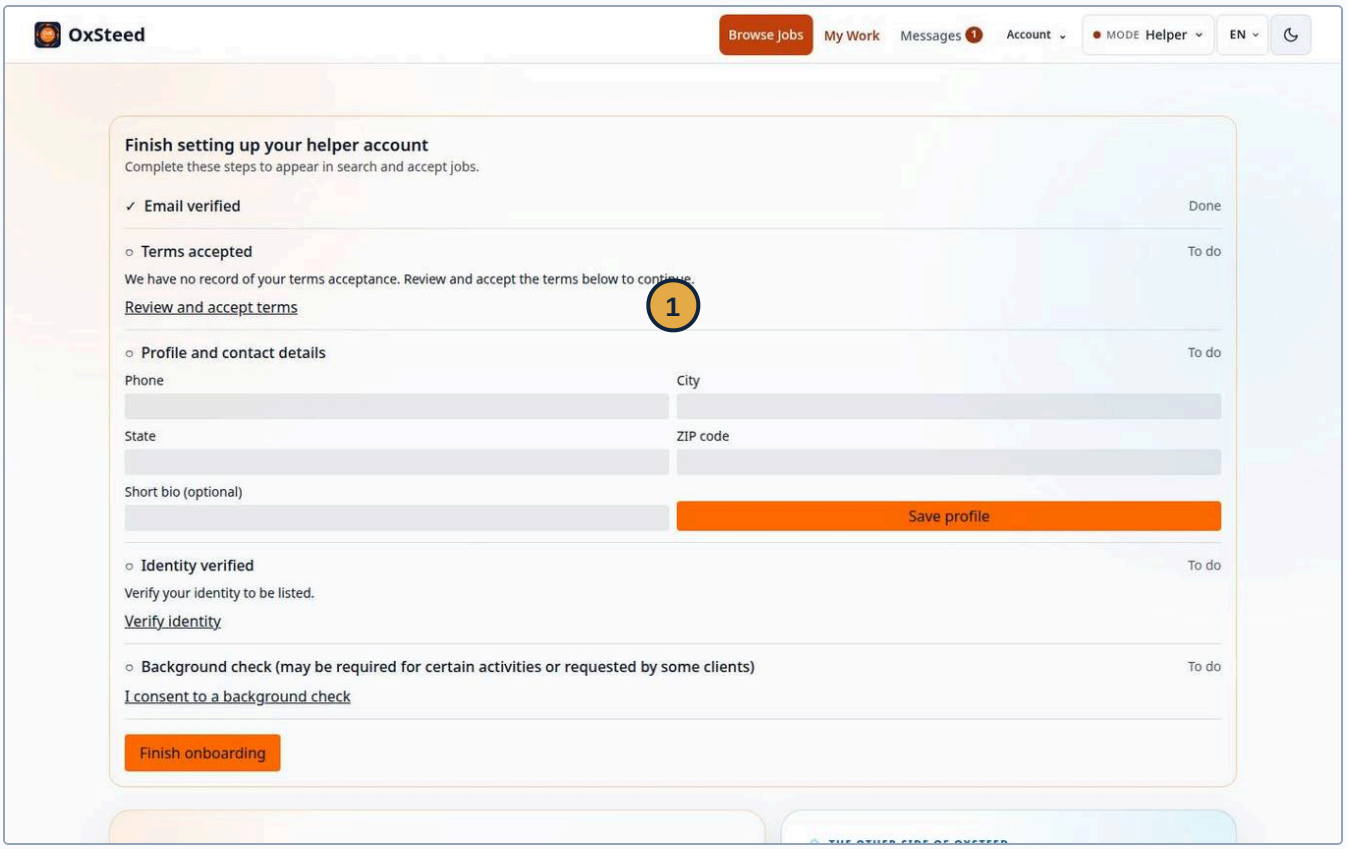

**Figure 1.** The Invoices tab, desktop view. *(Image description: Invoices tab showing the Create Invoice button and invoice cards with statuses)*

1. **1.** Create Invoice button

## Step 2: Start a new invoice

Choose Create Invoice. The Create Invoice dialog opens with fields for the client and the billable work.

> **Expected result:** The Create Invoice dialog opens with empty fields.

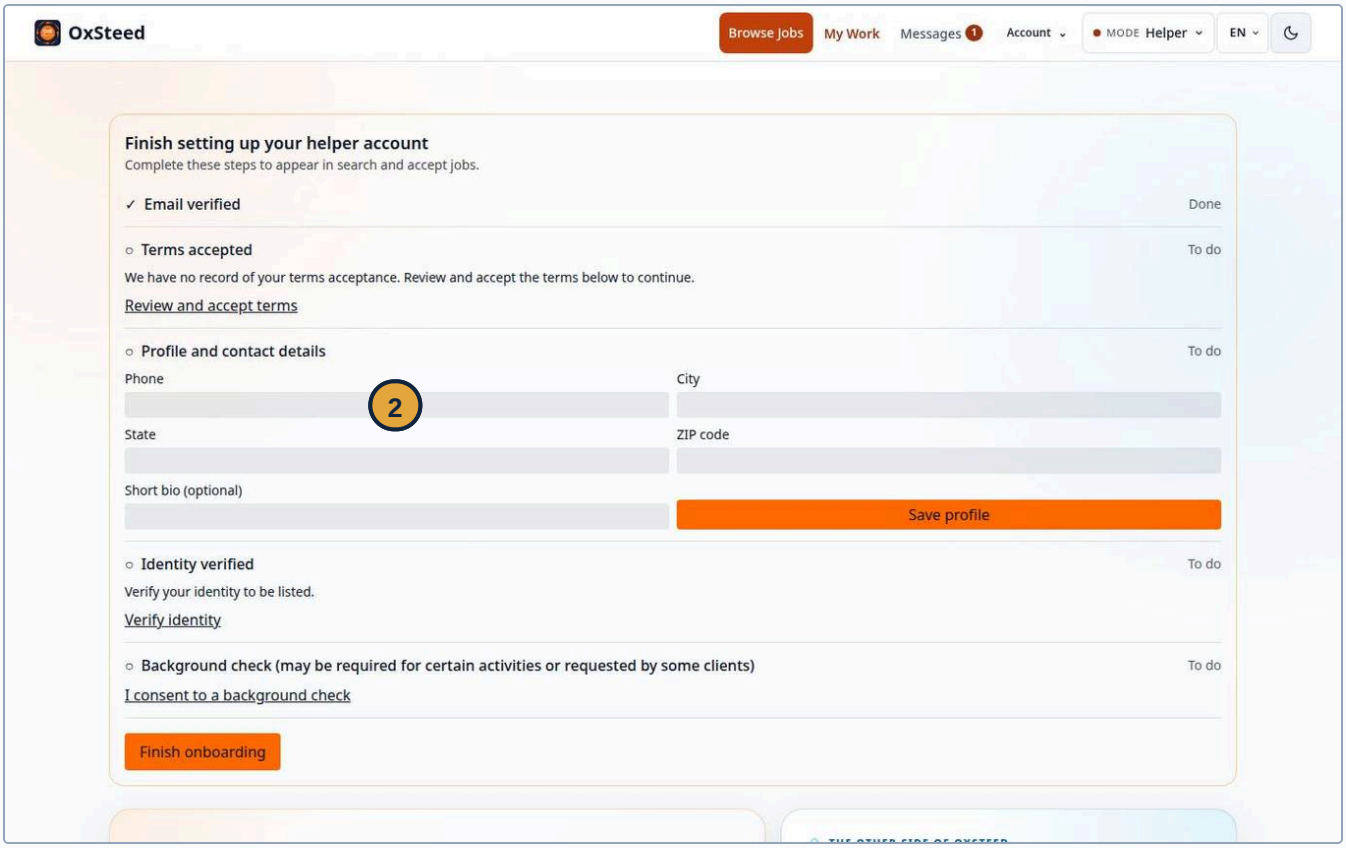

**Figure 2.** The Create Invoice dialog, desktop view. *(Image description: Create Invoice dialog with client name, email, and line item fields)*

1. **1.** Client Name field
2. **2.** Client Email field

## Step 3: Enter the client and line items

Enter the Client Name and Client Email. In Line Items, add each piece of work with a Description, Qty, and Unit Price, using Add Item for more lines. Set the optional Tax Rate (%), Due Date, and Notes/Memo, and check the Subtotal, Tax, and Total.

> **Expected result:** Client details, at least one line item, and correct totals are shown.

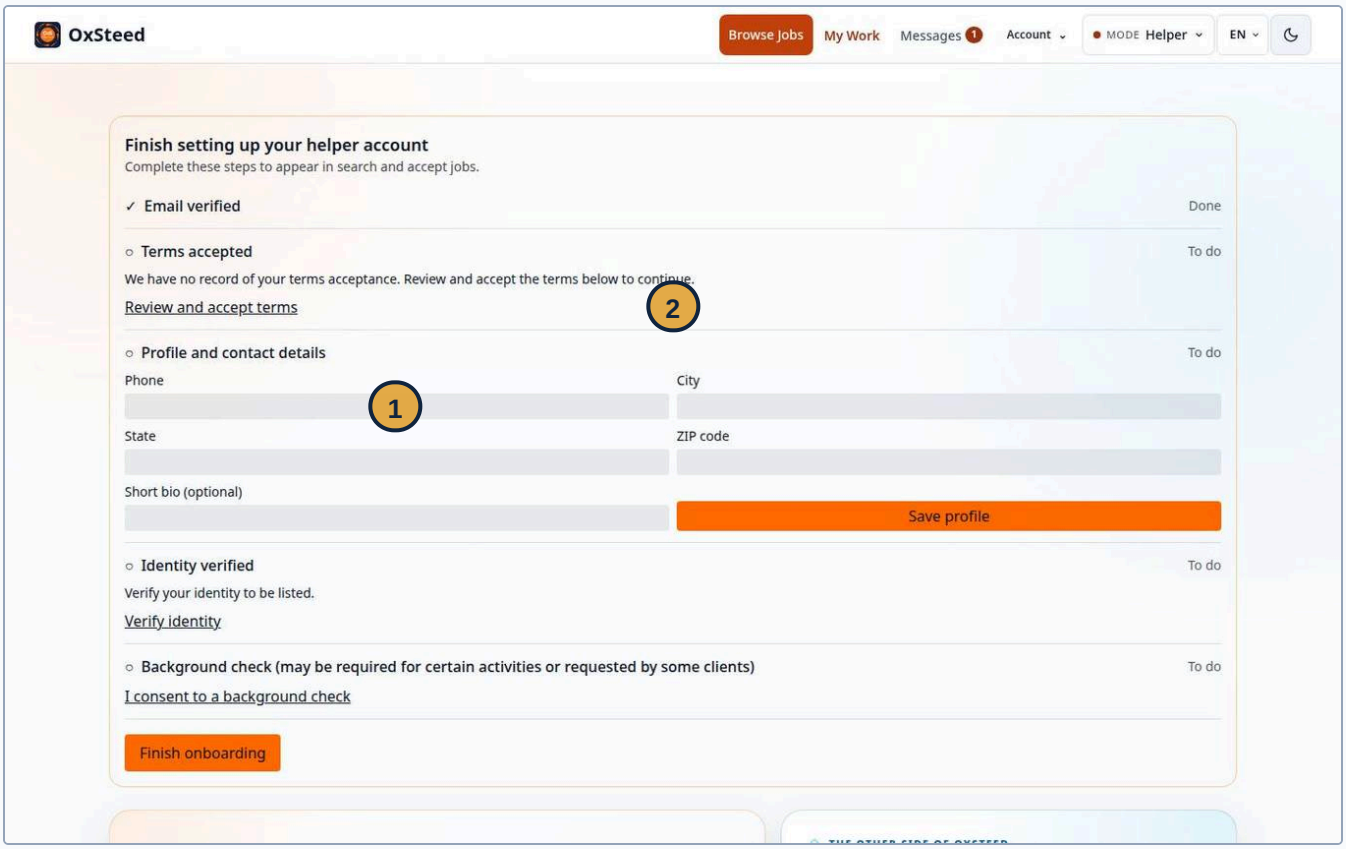

**Figure 3.** A filled-in invoice, desktop view. *(Image description: Invoice form filled in with a client and two line items plus totals)*

1. **1.** Line item description
2. **2.** Add Item

### Step 4: Send the invoice and share the link

Save the invoice (it starts as a Draft). For a draft, choose Send to email it to the client. You can also open the public invoice link (/invoice/p/:token) to preview what the client sees or share it manually.

> **Expected result:** "Invoice sent to client" appears and the status changes to Sent.

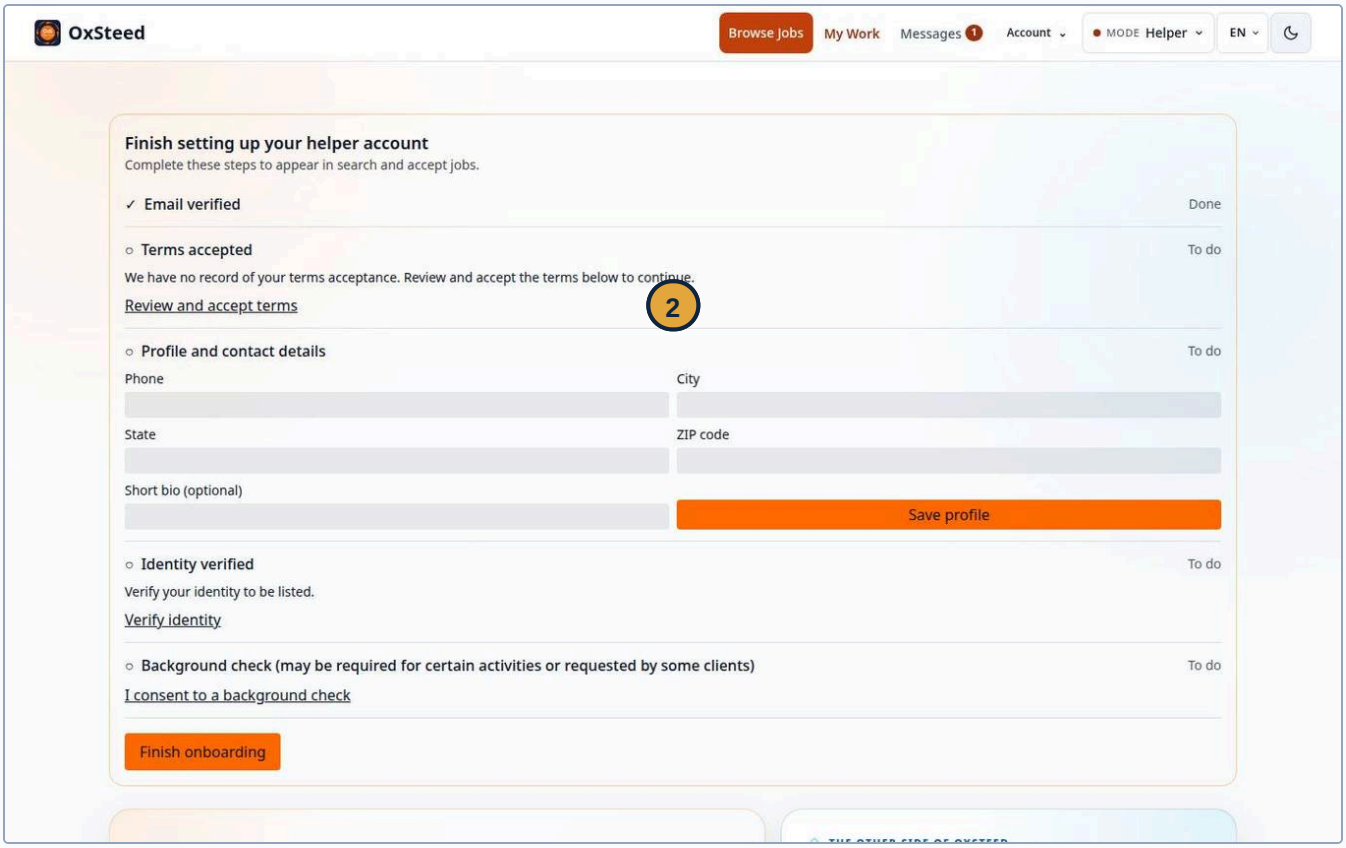

**Figure 4.** A sent invoice, desktop view. *(Image description: Invoices tab showing a Sent invoice with a share link option)*

1. **1.** Send button on draft
2. **2.** Public link view

## Confirm it worked

The invoice shows status Sent, and the client receives the invoice email or link.

## If something goes wrong

| Problem | What to do |
|---|---|

| | |
|---|---|
| The invoice does not save. | Client name, client email, and at least one line item with a description are required. Fill them and save again. |
| The client says they never got the email. | Open the public invoice link and share it with them directly, or use the resend option on the invoice. |

## Need help?

If invoices fail to send, contact OxSteed Support from the /support page.

# Receive payouts

| | |
|---|---|
| **Guide ID** | **helper-work-payouts** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Helper |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/helper-work/receive-payouts |

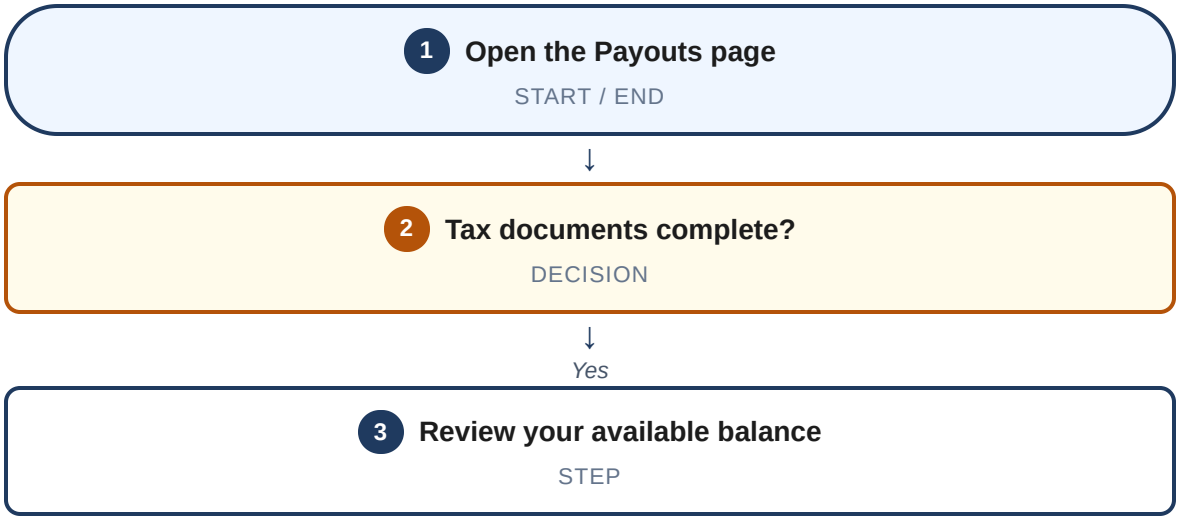

## Goal

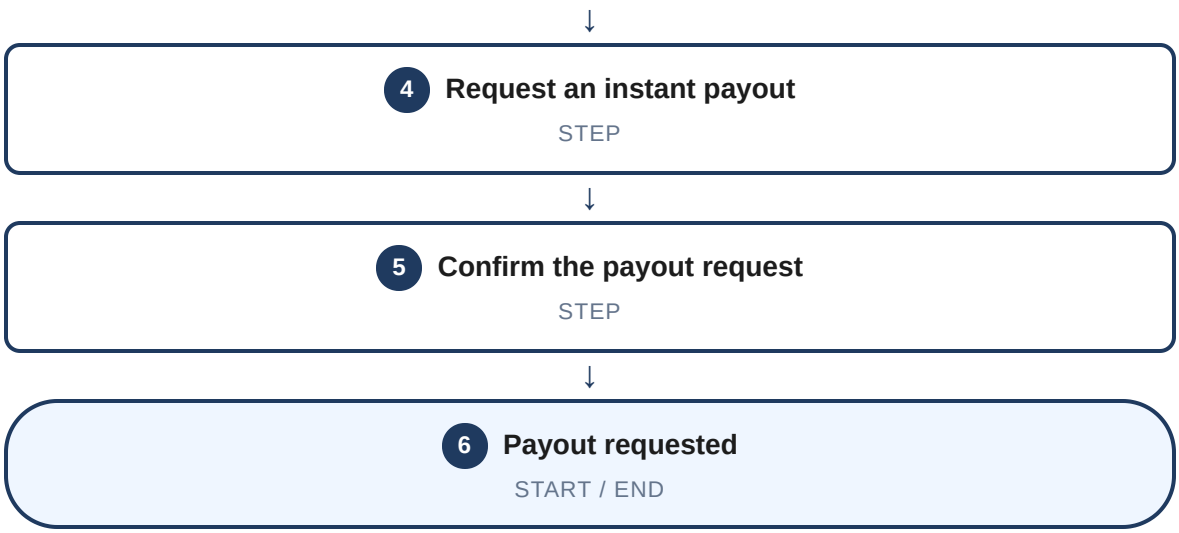

Get the money you earned for completed jobs into your bank account.

## Before you start

1. Sign in and switch to helper mode.
2. Complete Stripe payout onboarding (connect your bank details).
3. Complete your W-9 tax form in Settings (tax tab); withdrawals are gated on tax identity.

## Process map

- *No:* Tax documents complete? → Complete the W-9 tax form
- Complete the W-9 tax form → Review your available balance

**Text version.** 1. Open the Payouts page. 2. If your tax documents are incomplete, complete the W-9 first; otherwise payouts stay blocked. 3. Review your available and pending balances. 4. Request an instant payout. 5. Confirm the request. 6. The payout is requested and heads to your bank.

# Steps

## Step 1: Open the Payouts page

Open /helper/payouts. The Payouts page shows your balance breakdown: Available, Pending, and Available for instant payout.

> **Expected result:** Your balances load on the page.

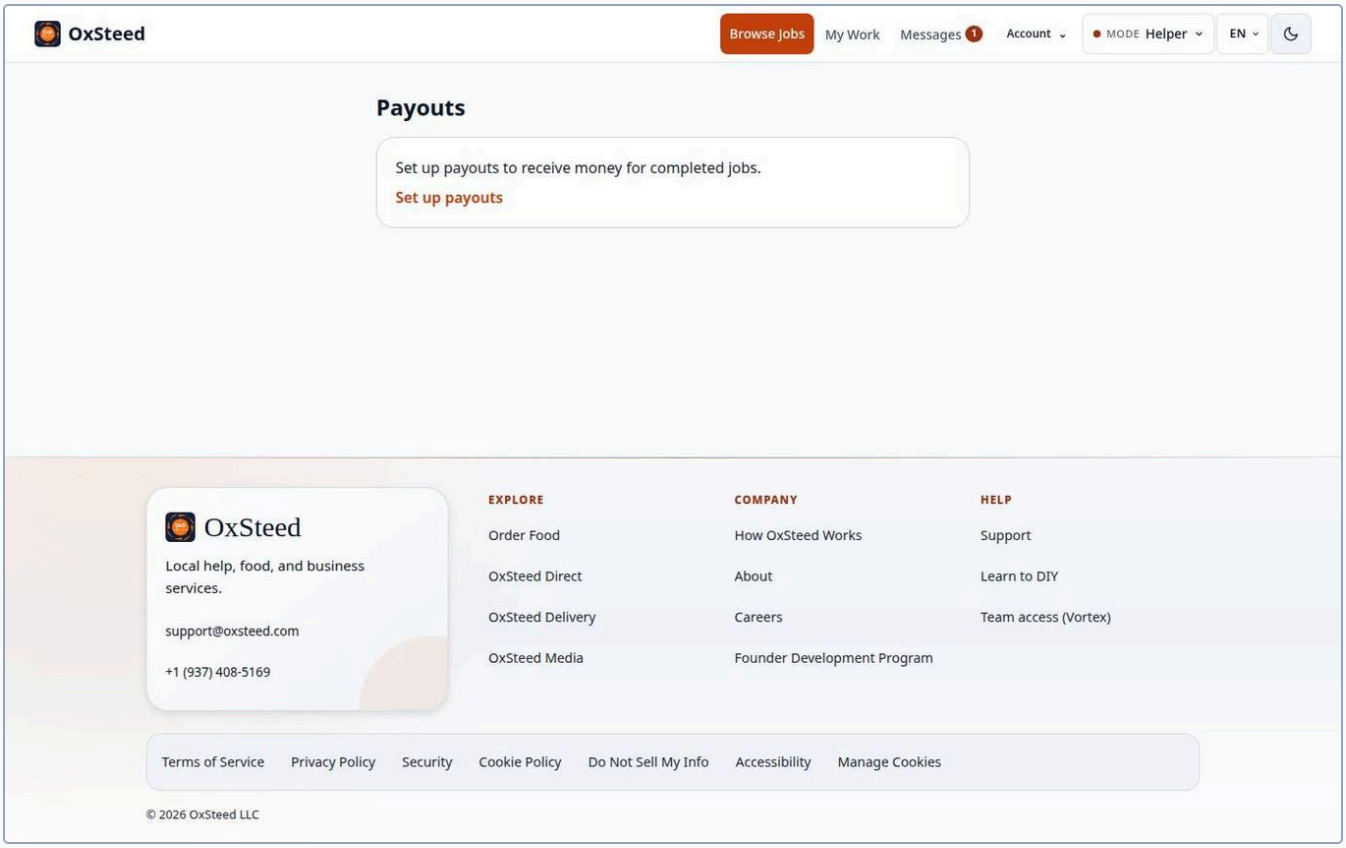

**Figure 1.** The Payouts page, desktop view. *(Image description: Payouts page showing available, pending, and instant-available balances)*

## Step 2: Clear the tax gate

If you see the "Tax documents required" notice, choose Complete W-9 and finish the W-9 tax form in the Settings tax tab. Payouts stay blocked with "Payout blocked: tax identity required" until your tax identity is on file.

> **Expected result:** The tax notice clears and the payout button becomes available.

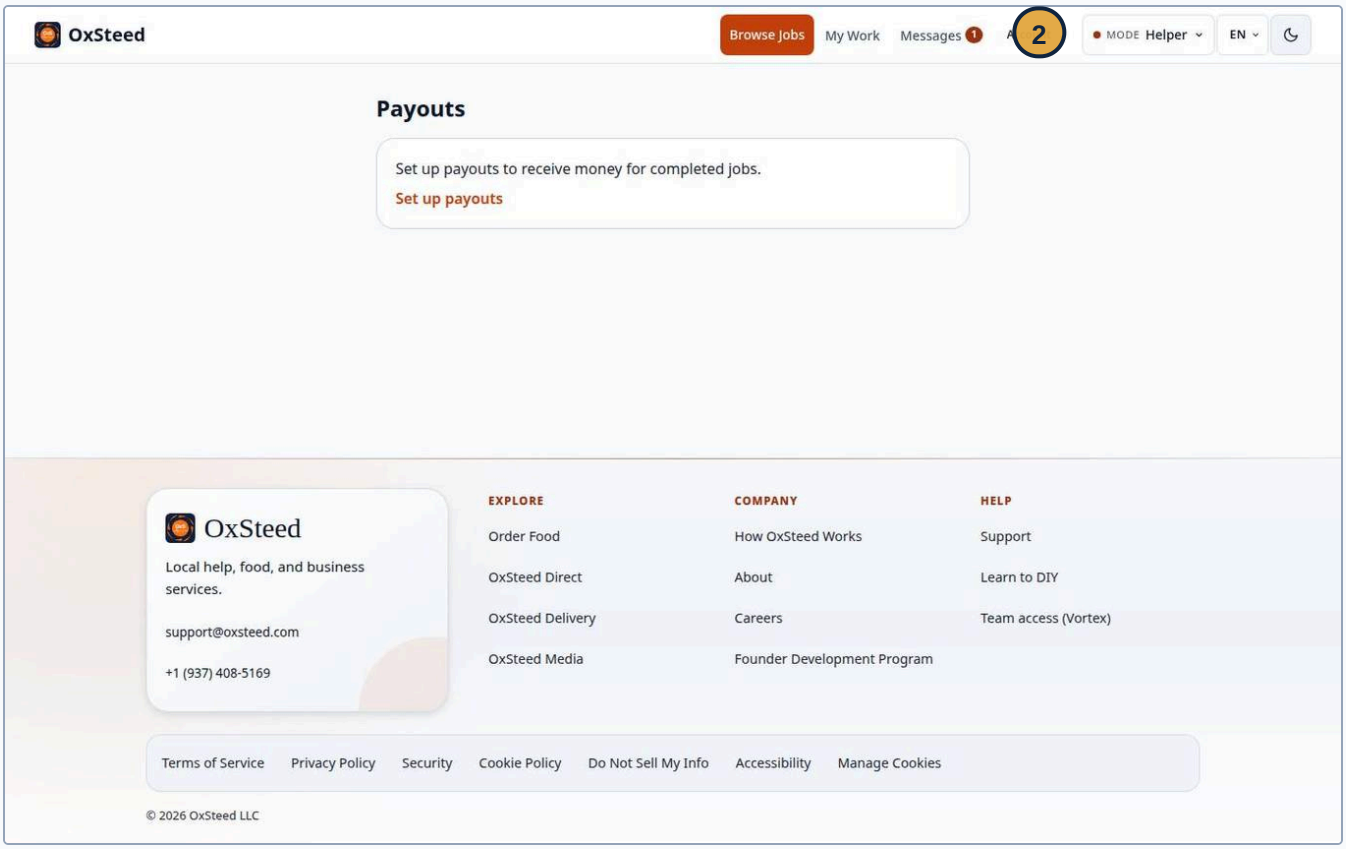

**Figure 2.** The tax gate, desktop view. *(Image description: Payouts page with the Tax documents required notice and Complete W-9 button)*

1. **2.** Complete W-9 button

### Step 3: Request an instant payout

Choose the "Pay out {amount} now" button. Instant payouts are limited per request (shown on the page, e.g. a maximum amount) and to one per day. Confirm the request when prompted.

> **Expected result:** "Instant payout of {amount} requested." appears.

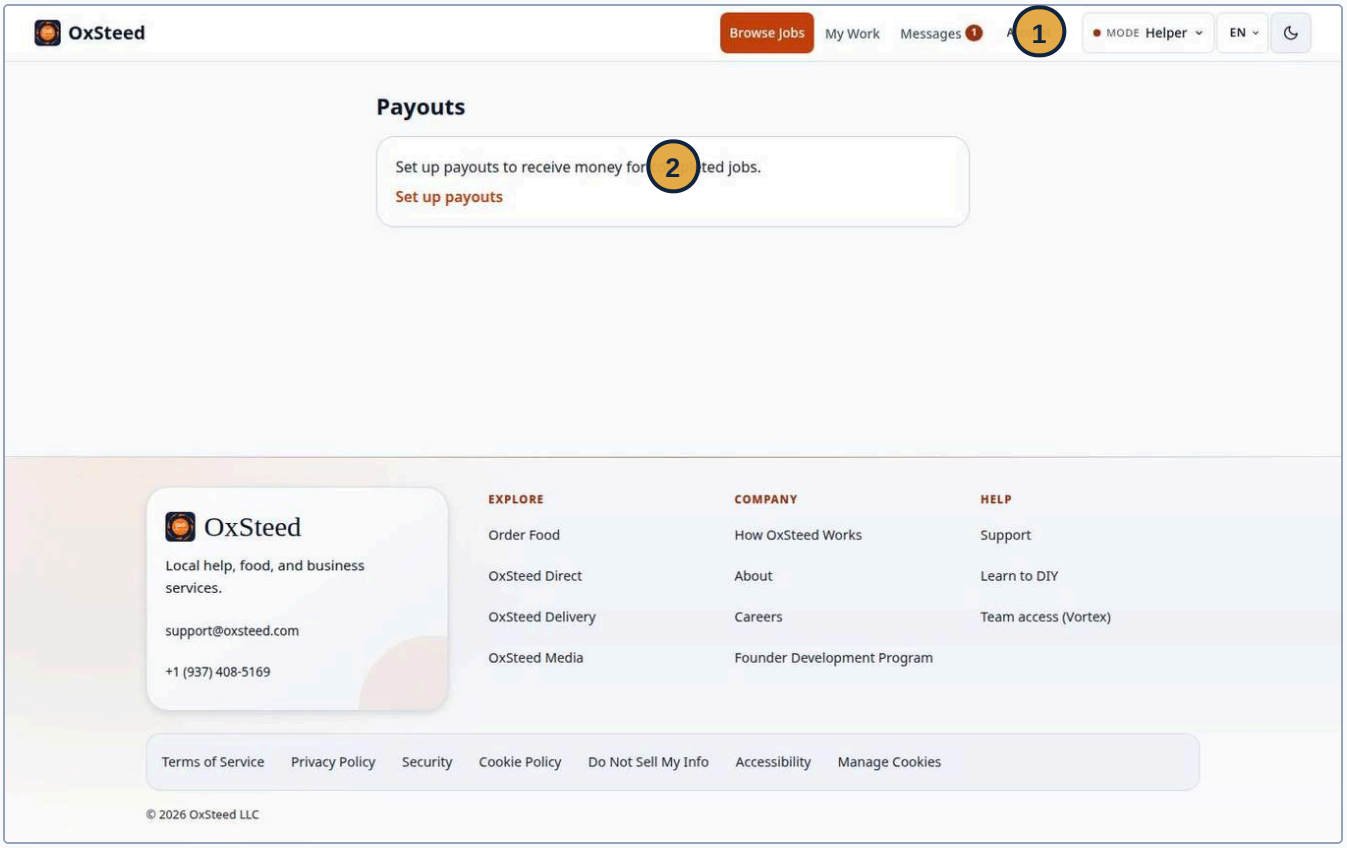

**Figure 3.** Requesting an instant payout, desktop view. *(Image description: Payouts page with the Pay out now button and the daily limit note)*

1. **1.** Pay out now button
2. **2.** Limit note

## Confirm it worked

The success message confirms the requested amount, and the payout moves out of your available balance toward your bank.

## If something goes wrong

| Problem | What to do |
|---|---|

| | |
|---|---|
| "No balance is available for instant payout yet." | Your earnings are still pending (for example, a completed job awaiting settlement). Wait for the pending balance to become available. |
| "Payouts are not enabled yet." | Finish your Stripe onboarding to connect a bank account before requesting payouts. |
| Payout blocked: tax identity required. | Complete your W-9 in the Settings tax tab, then return to the Payouts page. |

## Need help?

If a requested payout never arrives, contact OxSteed Support from the /support page.

**Guide ID:** helper-work-profile | **Revision:** 1 | **Area:** Helper work

SOP LIBRARY / HELPER WORK ENGLISH

# Manage your helper profile and public listing

| | |
|---|---|
| **Guide ID** | **helper-work-profile** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Helper |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/helper-work/helper-profile-setup |

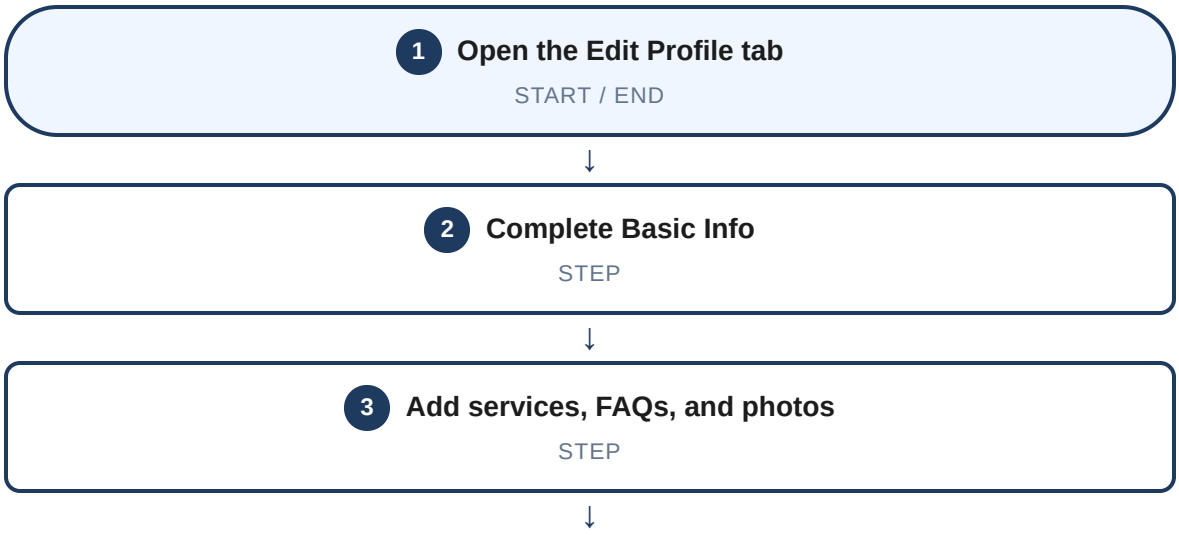

## Goal

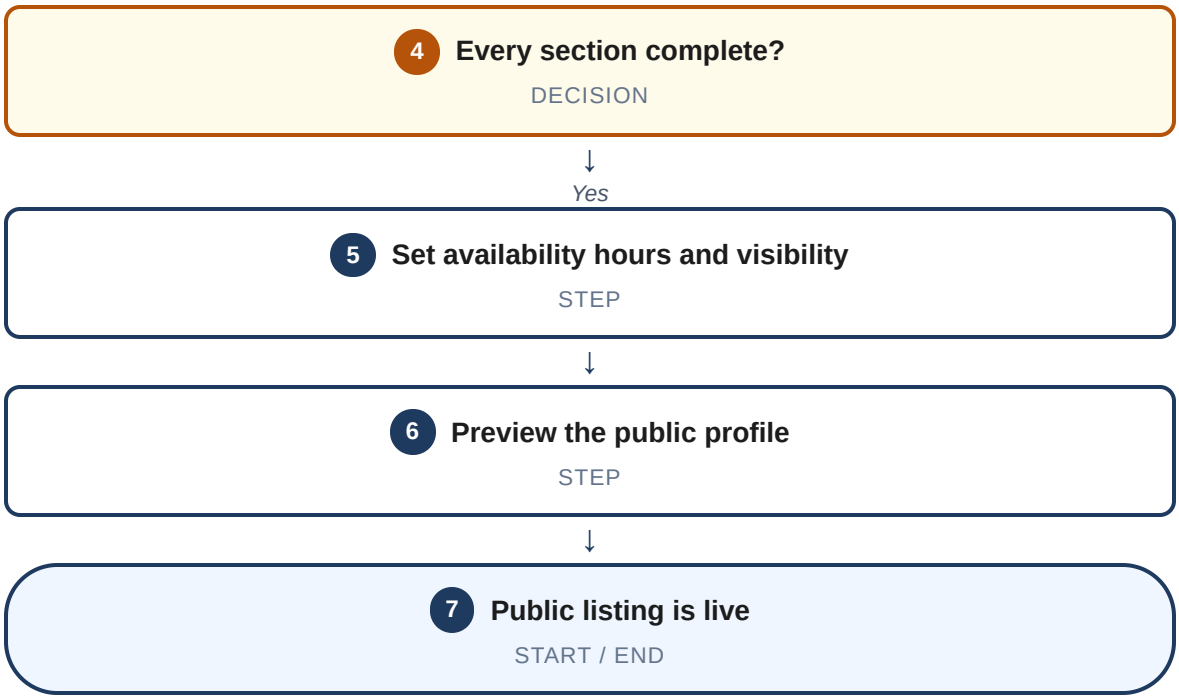

Build a complete public profile so customers can find you, trust you, and book you.

## Before you start

1. Sign in and switch to helper mode.
2. Finish helper onboarding so you can bid and take bookings.

## Process map

- *No:* Every section complete? → Fill the incomplete sections
- Fill the incomplete sections → Every section complete?

**Text version.** 1. Open the Edit Profile tab on your dashboard. 2. Complete the Basic Info section. 3. Add your services, FAQs, and photos. 4. Check whether every profile section is complete; if not, fill the incomplete sections and check again. 5. Set your availability hours and section visibility. 6. Preview your public profile. 7. Your public listing is live in the helper directory.

# Steps

## Step 1: Open the Edit Profile tab

Sign in and open your helper dashboard (/dashboard or /helper-dashboard). Choose the Edit Profile tab. The tab opens the Profile Studio, with profile sections listed as Cover, Basic Info, Availability, Services, FAQs, Policies, Photos, Media, and Section Visibility.

> **Expected result:** The Profile Studio shows your sections with completion states, starting with Basic Info.

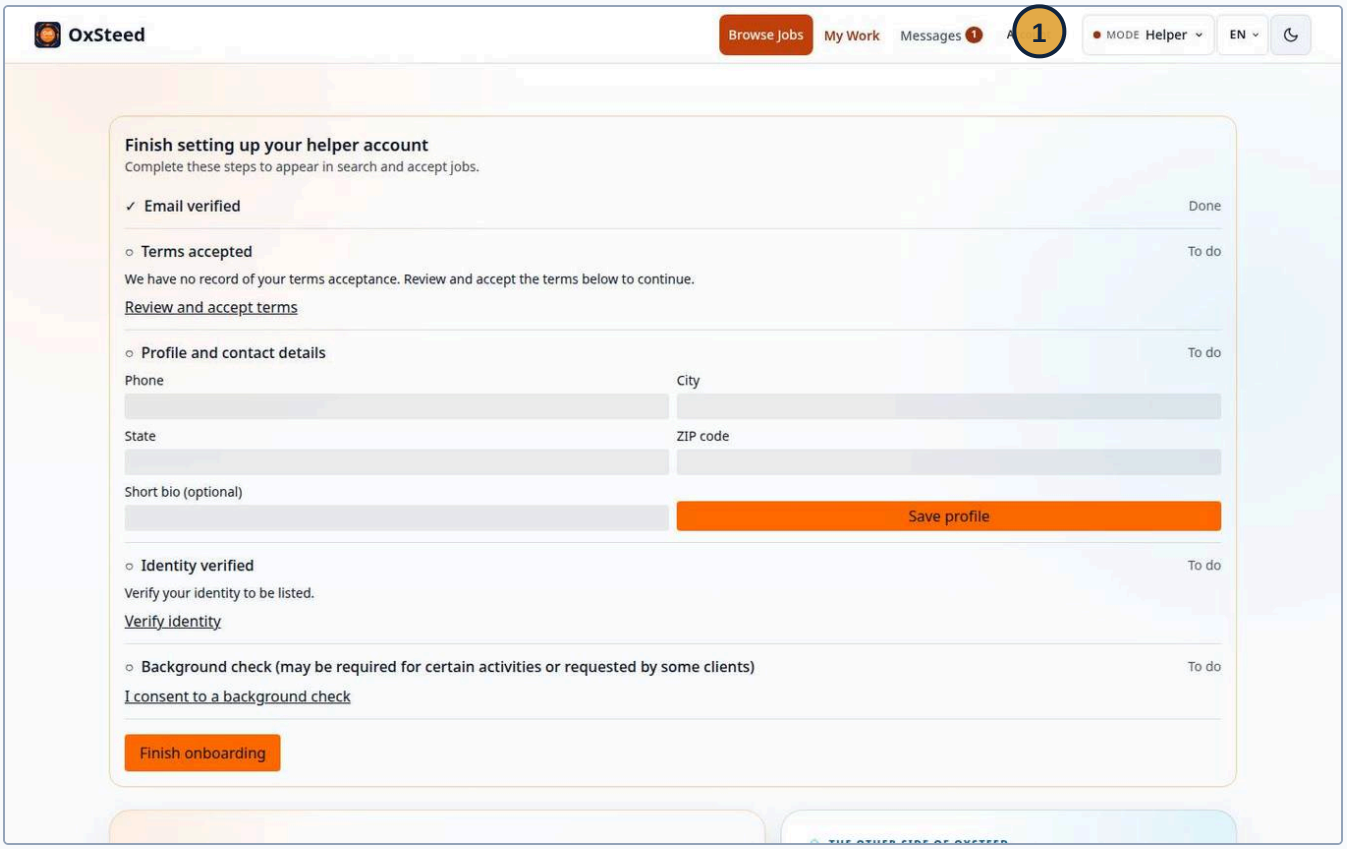

**Figure 1.** The Edit Profile tab, desktop view. *(Image description: Helper dashboard with the Edit Profile tab selected and the Profile Studio sections listed)*

1. **1.** Edit Profile tab

## Step 2: Complete the Basic Info section

In the Basic Info section, fill in your Tagline / Headline, your Bio, your rate range, and your service area with service radius in miles. Choose Save Basic Info. A confirmation appears when it saves.

> **Expected result:** "Profile saved!" appears and the Basic Info section is marked complete.

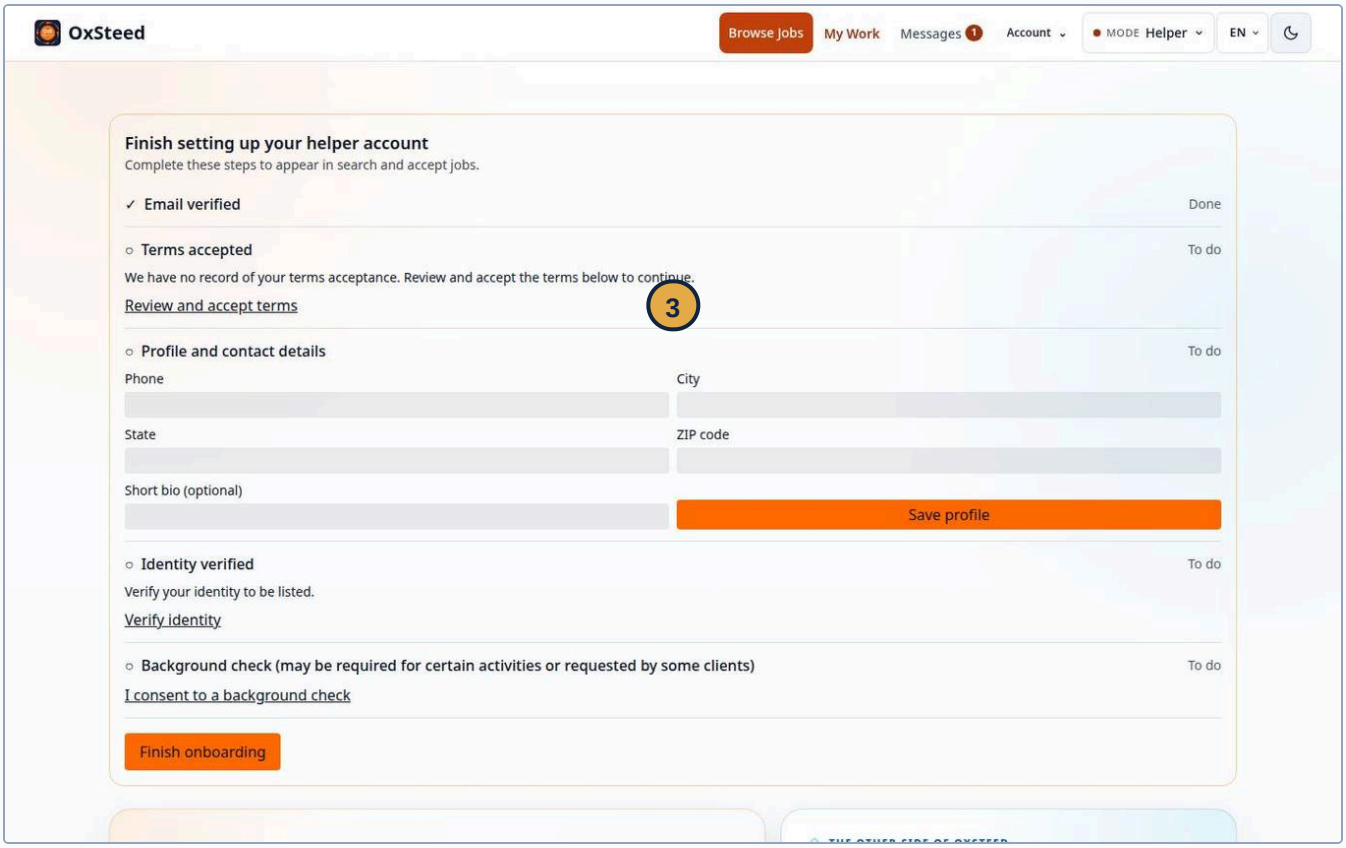

**Figure 2.** The completed Basic Info section, desktop view. *(Image description: Basic Info section with tagline, bio, rates, and service area filled in)*

1. **3.** Save Basic Info button

## Step 3: Add services, FAQs, and photos

Move through the Services, FAQs, Policies, and Photos sections. Add each service you offer with a name and description, add common questions customers ask with your answers, and upload photos of your past work. Changes in these sections save when you add, edit, or remove an item.

> **Expected result:** Your services, FAQs, and photos appear in their sections with a saved state.

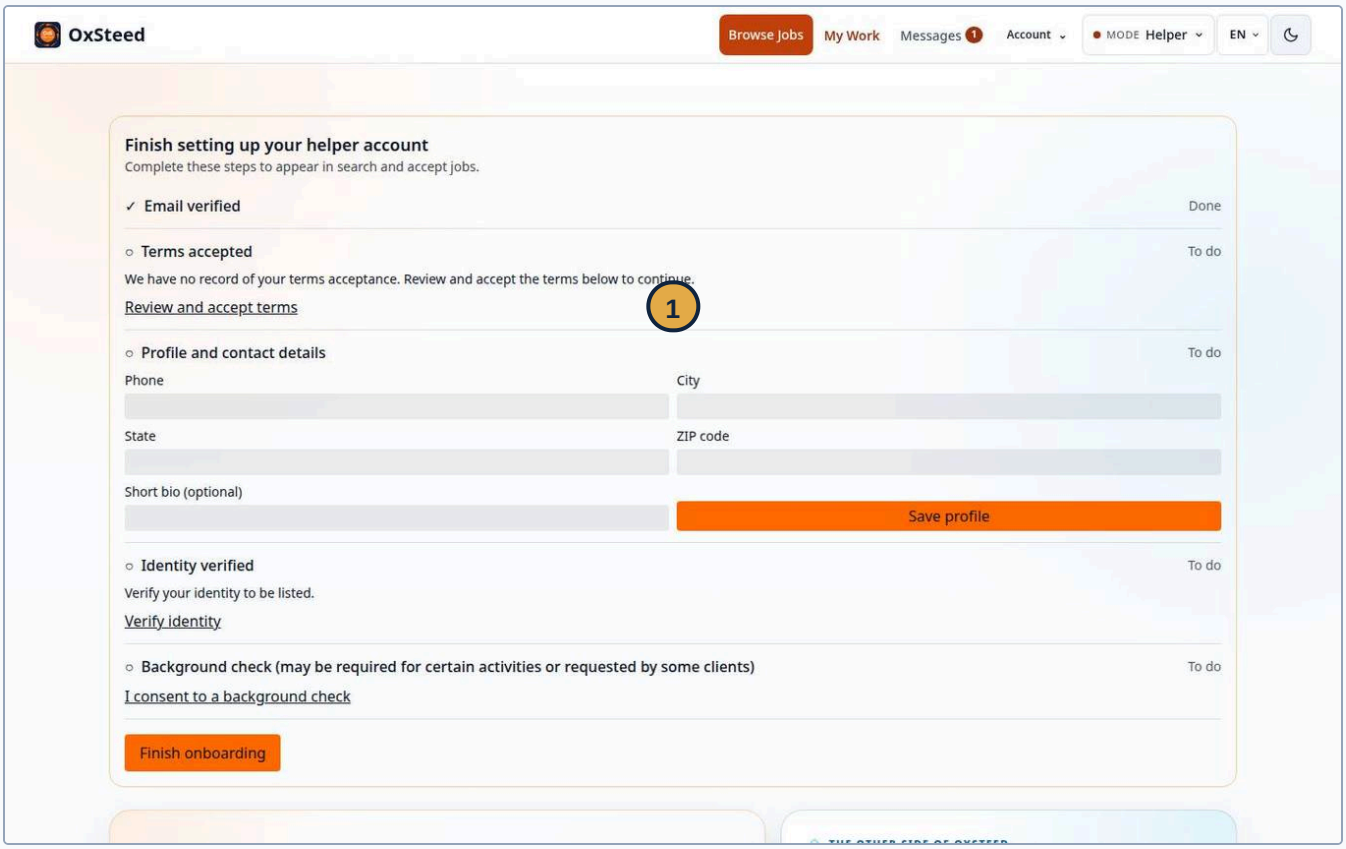

**Figure 3.** The Services section, desktop view. *(Image description: Services section showing added services with edit and delete controls)*

1. **1.** Add service control

## Step 4: Set hours and visibility

In the Availability section, set your weekly hours and choose Save Hours. In the Section Visibility section, control which profile sections show on your public page. Customers only see what you make visible.

**Expected result:** Your hours save and hidden sections no longer show on the public profile.

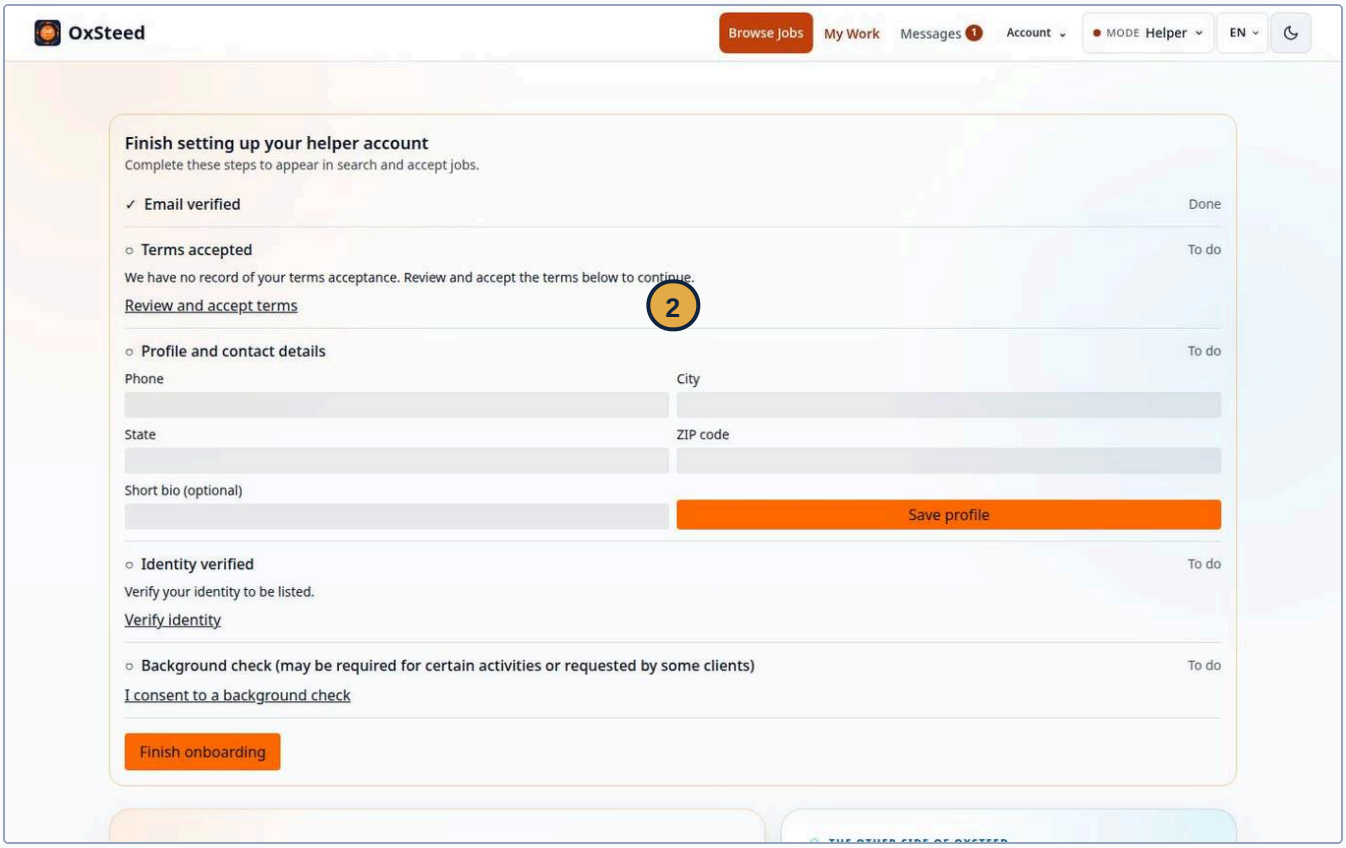

**Figure 4.** The Availability section, desktop view. *(Image description: Availability section with weekly hours and the Save Hours button)*

1. **2.** Save Hours button

### Step 5: Preview your public listing

Choose View Public Profile. Your public page opens at /helpers/:id, exactly as customers see it in the directory. Check your headline, photos, services, and availability for typos and accuracy.

> **Expected result:** Your public profile page loads with all visible sections correct.

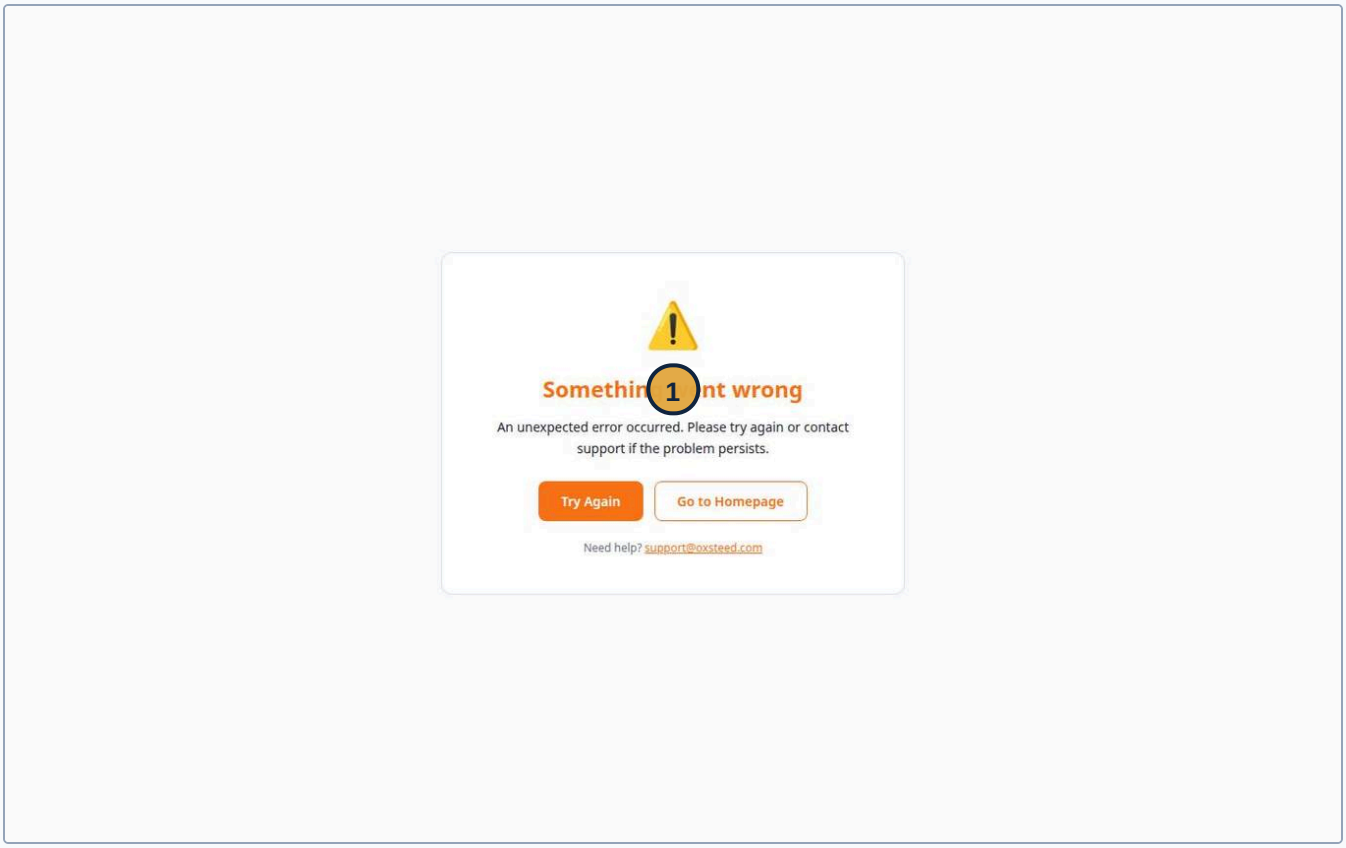

**Figure 5.** The public profile page, desktop view. *(Image description: Public helper profile page showing headline, photos, and services)*

1. **1.** Headline

## Confirm it worked

Open your public profile at /helpers/:id (or use View Public Profile). Every visible section should show your latest edits.

## If something goes wrong

| Problem | What to do |
| --- | --- |

| | |
|---|---|
| The public profile does not show your edits. | Return to the Edit Profile tab and confirm each section saved (sections show a saved state). Hidden sections in Section Visibility will not render publicly. |
| Your listing does not appear in the helper directory. | Open the Availability tab on your dashboard and choose Go Online to appear in the directory listing. |

## Need help?

If your public profile fails to load, contact OxSteed Support from the /support page.

**Guide ID:** helper-work-quotes | **Revision:** 1 | **Area:** Helper work

SOP LIBRARY / HELPER WORK ENGLISH

# Send quotes to customers

| | |
|---|---|
| **Guide ID** | **helper-work-quotes** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Helper |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/helper-work/send-customer-quotes |

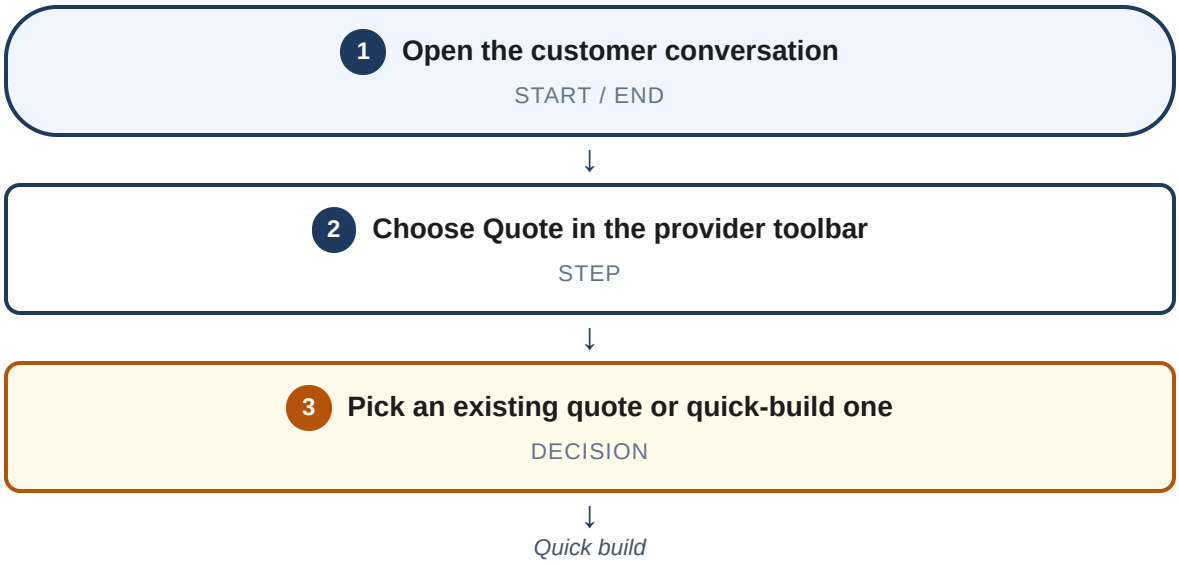

## Goal

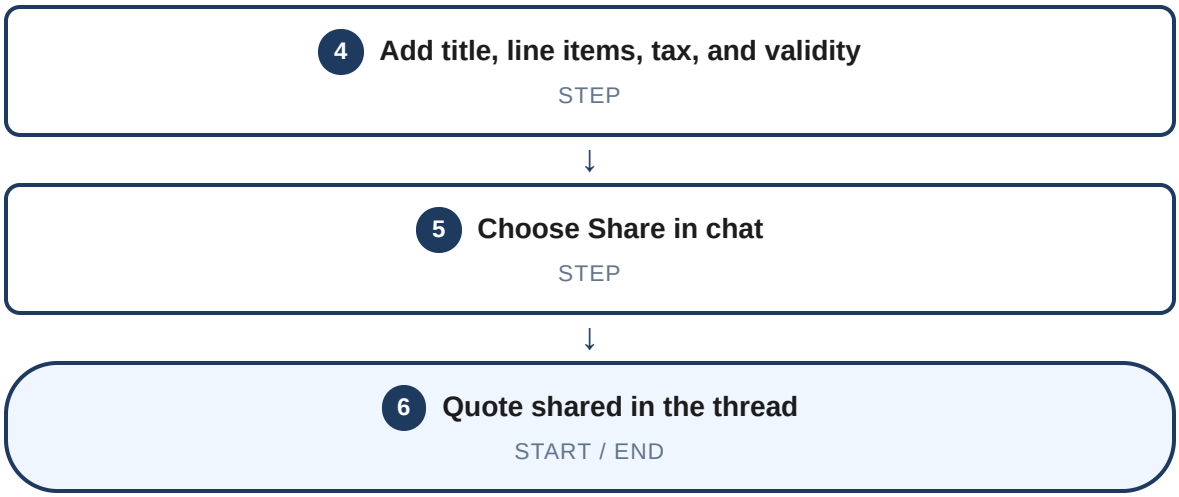

Send a priced quote to a customer from your conversation so they can accept and book.

## Before you start

1. Sign in and switch to helper mode.
2. Start a conversation with a customer (from a job, booking, or inquiry).

## Process map

- *Pick existing:* Pick an existing quote or quick-build one → Choose Share in chat

**Text version.** 1. Open the customer conversation. 2. Choose Quote in the provider toolbar. 3. Pick an existing quote or quick-build a new one. 4. For a new quote, add a title, line items, tax percentage, and validity date. 5. Choose Share in chat. 6. The quote is shared in the conversation thread and the customer can review it.

# Steps

## Step 1: Open the customer conversation

Open /messages and choose the conversation with the customer. Helper quotes are sent from the conversation thread, not from a standalone quotes page. This is the helper quote system; business quotes live in the business hub Quotes tab and Direct quotes live in the Direct portal.

> **Expected result:** The conversation thread loads with your provider toolbar visible.

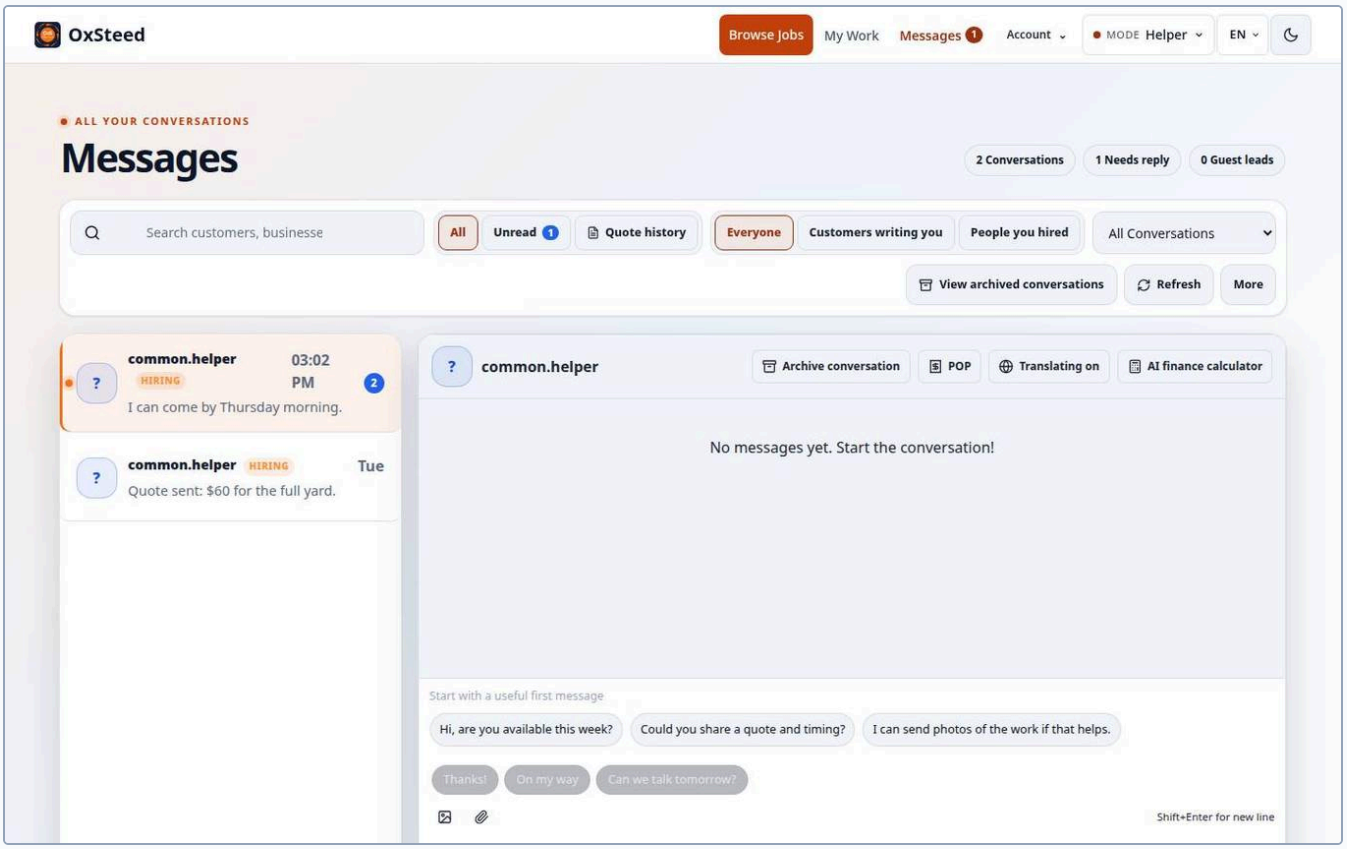

**Figure 1.** A customer conversation, desktop view. *(Image description: Conversation thread with the provider toolbar above the message list)*

## Step 2: Choose Quote in the provider toolbar

In the provider toolbar above the thread, choose the Quote button (title "Share a quote"). The Share a quote panel opens with two tabs: Pick existing and Quick build.

> **Expected result:** The Share a quote panel opens with Pick existing and Quick build tabs.

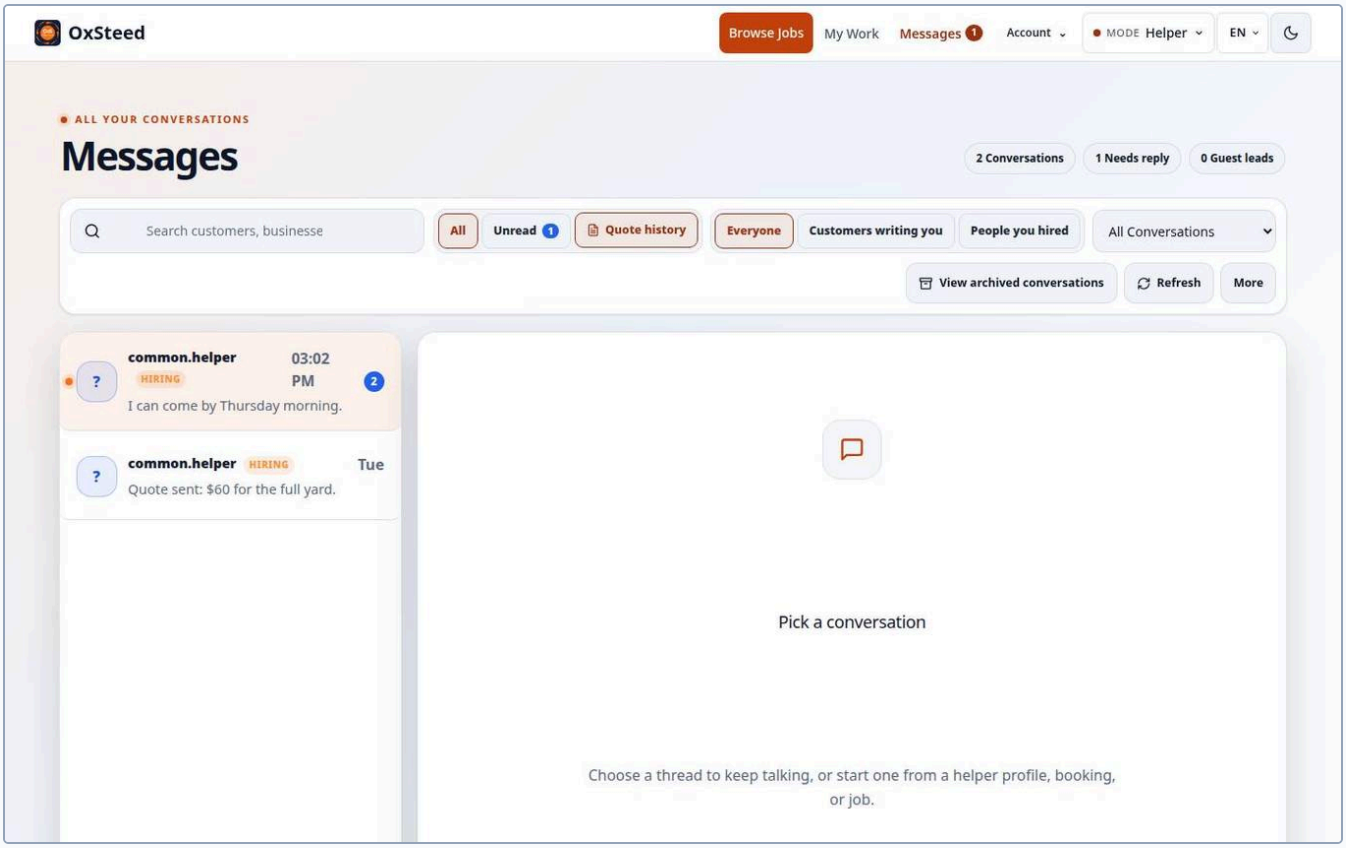

**Figure 2.** The Share a quote panel, desktop view. *(Image description: Share a quote panel with Pick existing and Quick build tabs)*

## Step 3: Build the quote

On the Quick build tab, enter a Title, then add line items with Description, Qty, and Price (use Add line for more items). Set the Tax % and the Valid until date so the customer knows how long the price holds.

> **Expected result:** At least one line item is entered and the totals preview correctly.

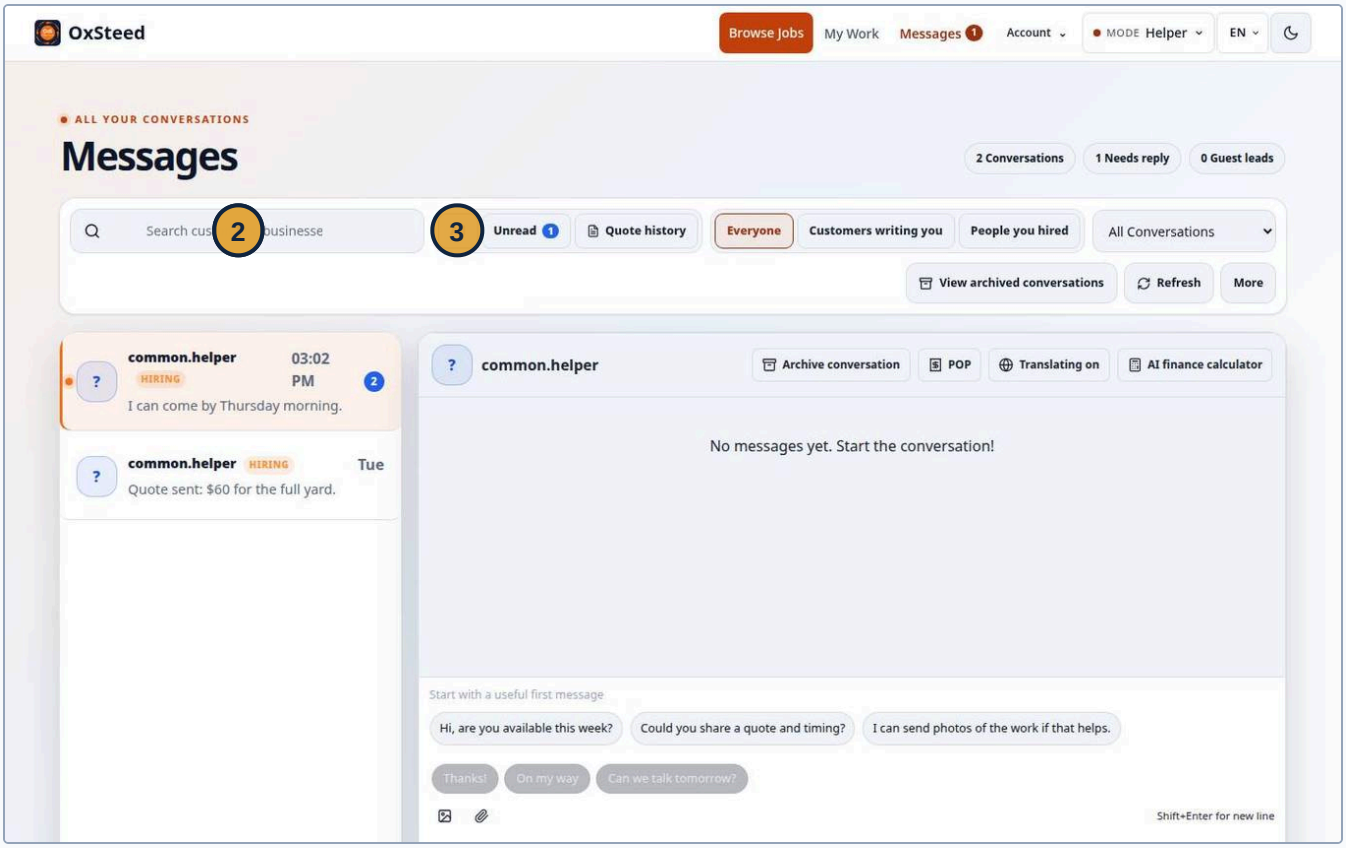

**Figure 3.** Building a quote, desktop view. *(Image description: Quick build tab with title, two line items, tax, and valid-until date filled in)*

1. **1.** Line item description
2. **2.** Price
3. **3.** Add line

## Step 4: Share the quote in chat

Choose Share in chat. The quote posts into the conversation thread where the customer can open and review it. If sharing fails, check your connection and try again.

> **Expected result:** The quote appears in the thread as a quote card.

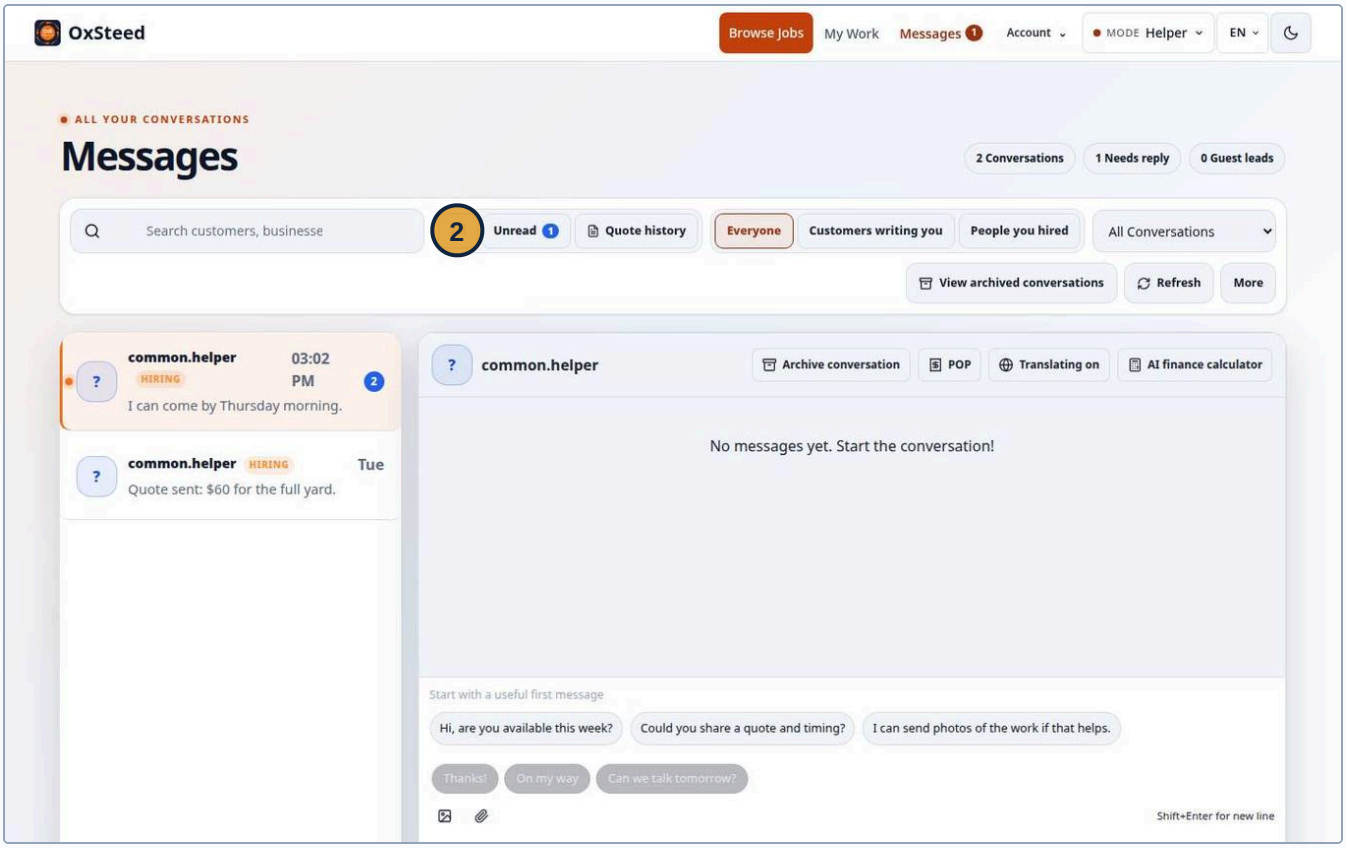

**Figure 4.** A shared quote in the thread, desktop view. *(Image description: Conversation thread showing the shared quote card with the total price)*

1. **2.** Share in chat button

### Step 5: Review your sent quotes

Open your dashboard Quotes tab (My Quotes) or choose Quote history in Messages to see every quote you have sent, with their status. Picking an existing quote in the Share a quote panel reuses one of these.

> **Expected result:** Your sent quotes list shows the quote with its current status.

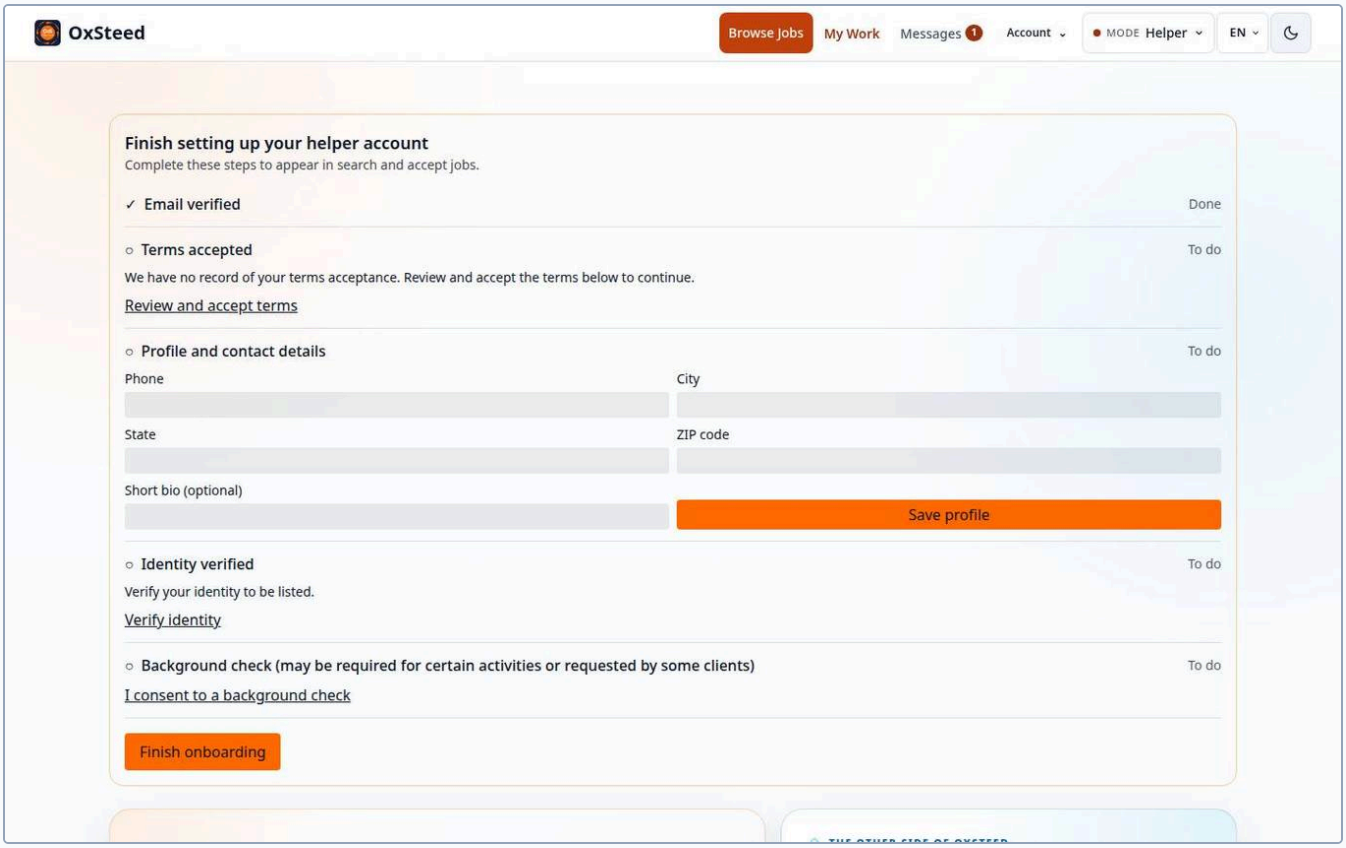

**Figure 5.** Quotes sent, desktop view. *(Image description: Quotes sent list on the dashboard showing quote titles and statuses)*

## Confirm it worked

The quote card appears in the conversation and the quote is listed under Quotes sent with its status.

## If something goes wrong

| Problem | What to do |
|---|---|

| | |
|---|---|
| The Quote button is missing from the thread. | Only providers (helpers or business staff) see the provider toolbar. Switch to helper mode and confirm the conversation is one where you are the provider. |
| Share in chat fails. | Add at least one line item with a description and price, then try again. A lost connection will also fail, so reload and retry. |

## Need help?

If quotes do not appear for the customer, contact OxSteed Support from the /support page.

SOP LIBRARY / HELPER WORK ENGLISH

# Manage your skills

| | |
|---|---|
| **Guide ID** | **helper-work-skills** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Helper |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/helper-work/manage-skills |

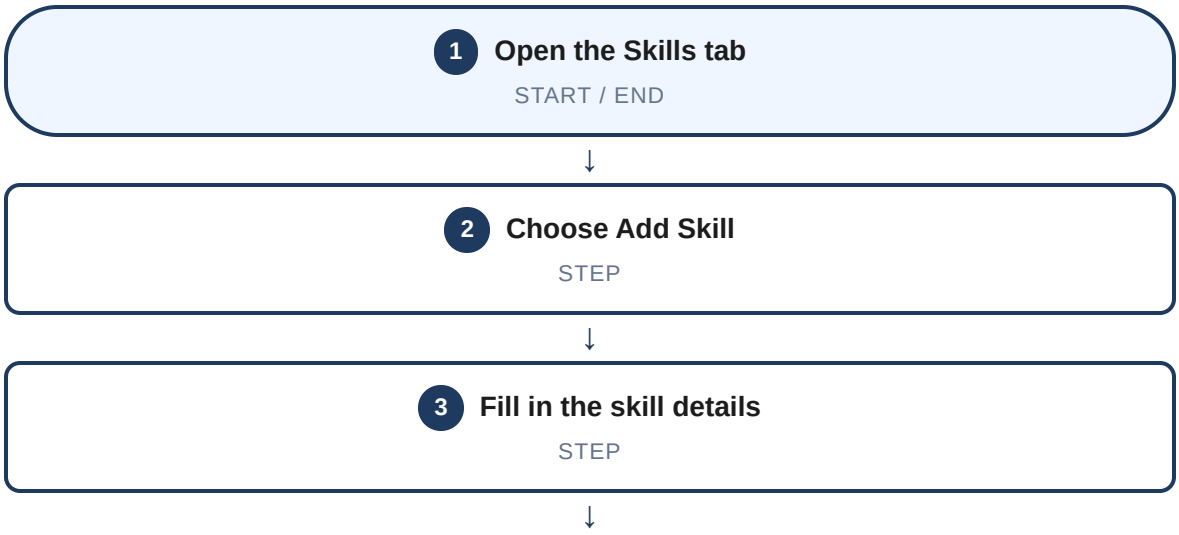

## Goal

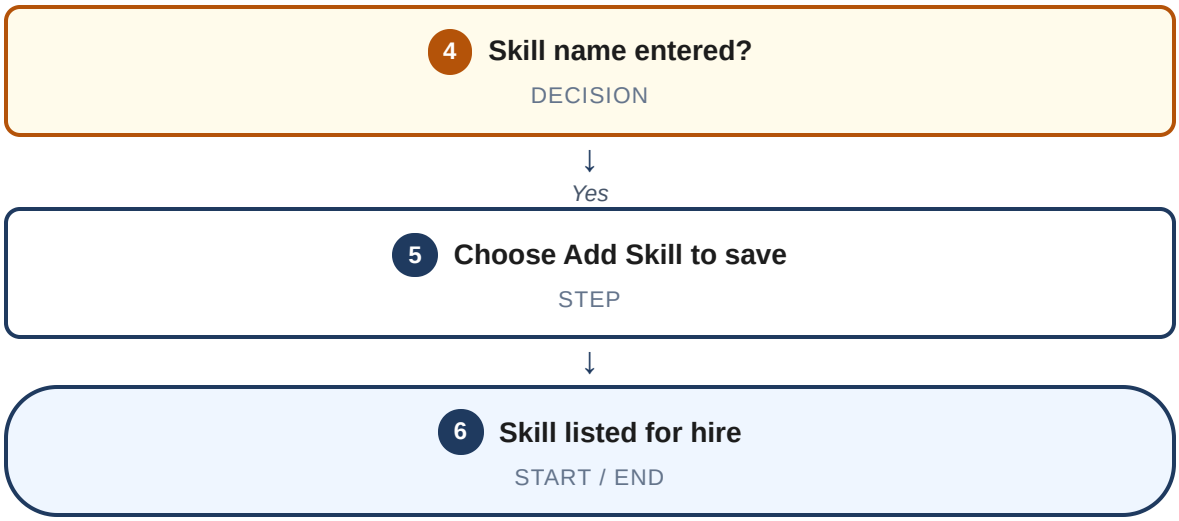

List every skill you offer with accurate rates so customers can find and hire you directly.

## Before you start

1. Sign in and switch to helper mode.
2. Complete your helper profile first.

## Process map

- *No:* Skill name entered? → Enter the required skill name
- Enter the required skill name → Skill name entered?

**Text version.** 1. Open the Skills tab on your dashboard. 2. Choose Add Skill. 3. Fill in the skill name, category, rate, experience, and description. 4. Check whether the required skill name is entered; if not, enter it and check again. 5. Choose Add Skill to save. 6. The skill is listed in your skills and appears on your public profile.

# Steps

## Step 1: Open the Skills tab

Open your helper dashboard (/dashboard or /helper-dashboard) and choose the Skills tab. The tab shows the My Skills for Hire section with your current skills, or an empty state if you have none yet.

> **Expected result:** The My Skills for Hire section loads with your existing skills or an empty state.

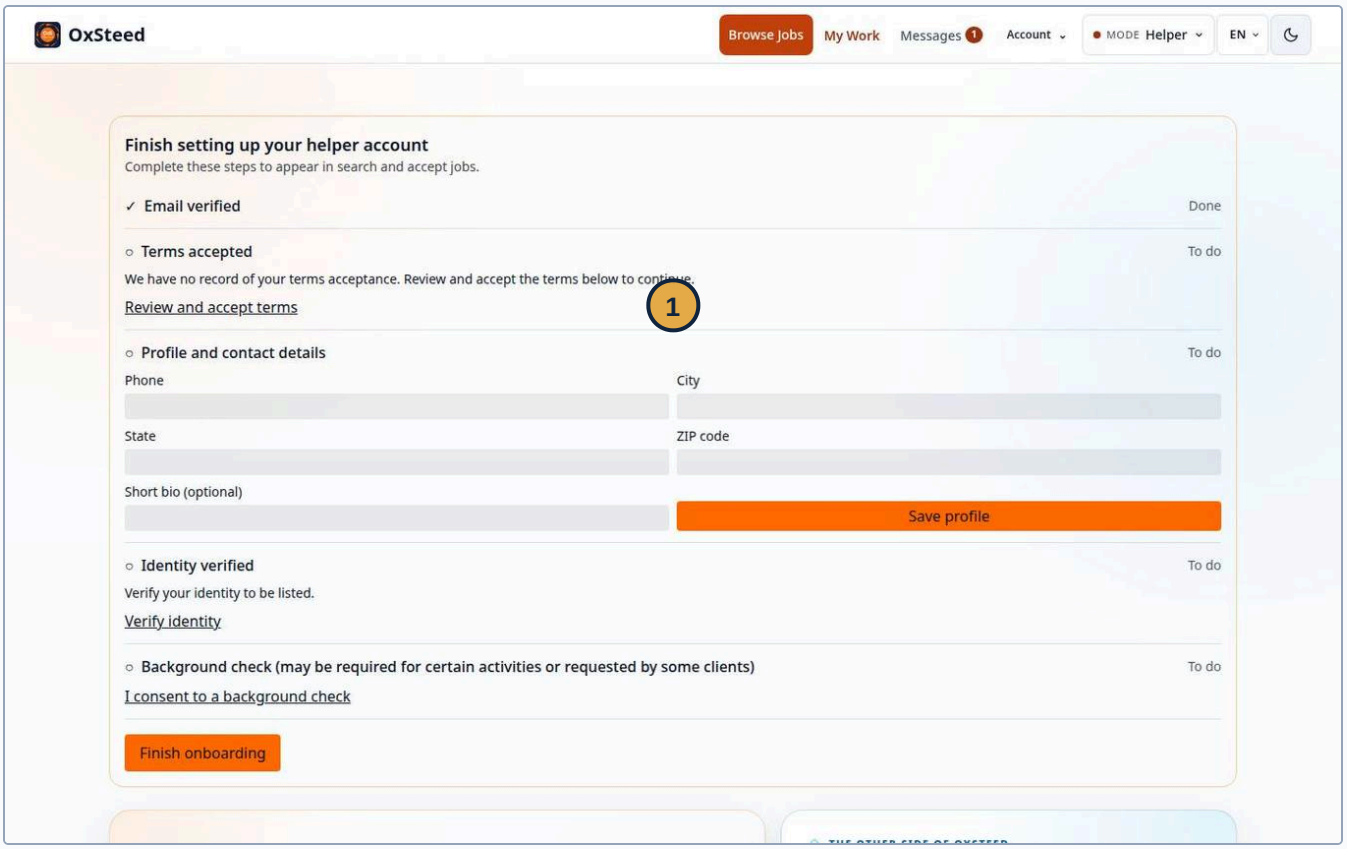

**Figure 1.** The Skills tab, desktop view. *(Image description: Skills tab showing the My Skills for Hire section with one skill)*

1. **1.** Add Skill button

## Step 2: Add a new skill

Choose + Add Skill. The Add a Skill dialog opens with a Skill Name field that suggests matching categories as you type.

> **Expected result:** The Add a Skill dialog is open with empty fields.

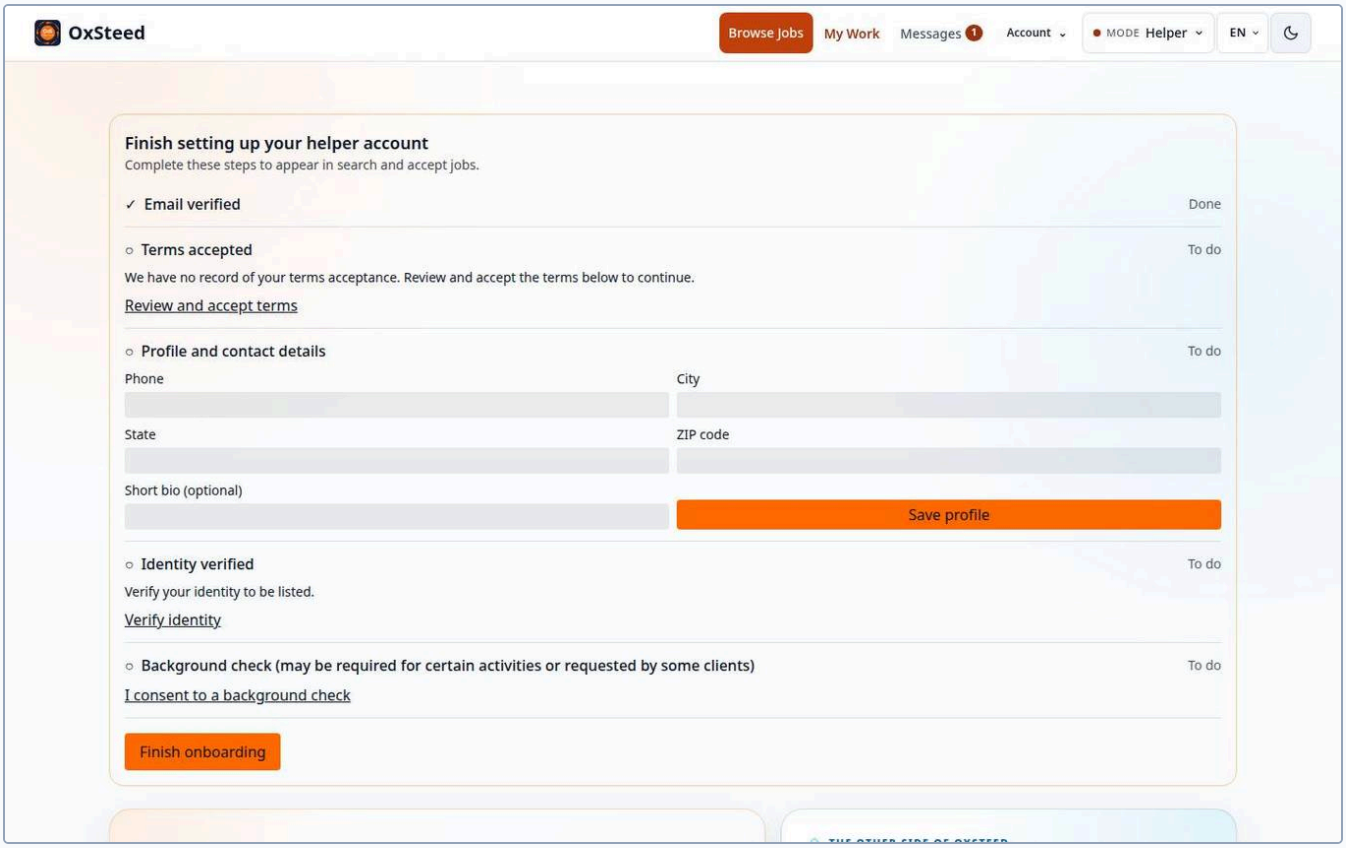

**Figure 2.** The Add a Skill dialog, desktop view. *(Image description: Add a Skill dialog with the skill name, category, rate, and experience fields)*

## Step 3: Describe the skill and set your rate

Enter the Skill Name, pick the suggested Category, set your optional Hourly Rate and Years of Experience, and write a short description of what the skill covers. Keep the Available for hire toggle on if you currently take this work.

> **Expected result:** All fields show your entries and the Available for hire toggle reflects your choice.

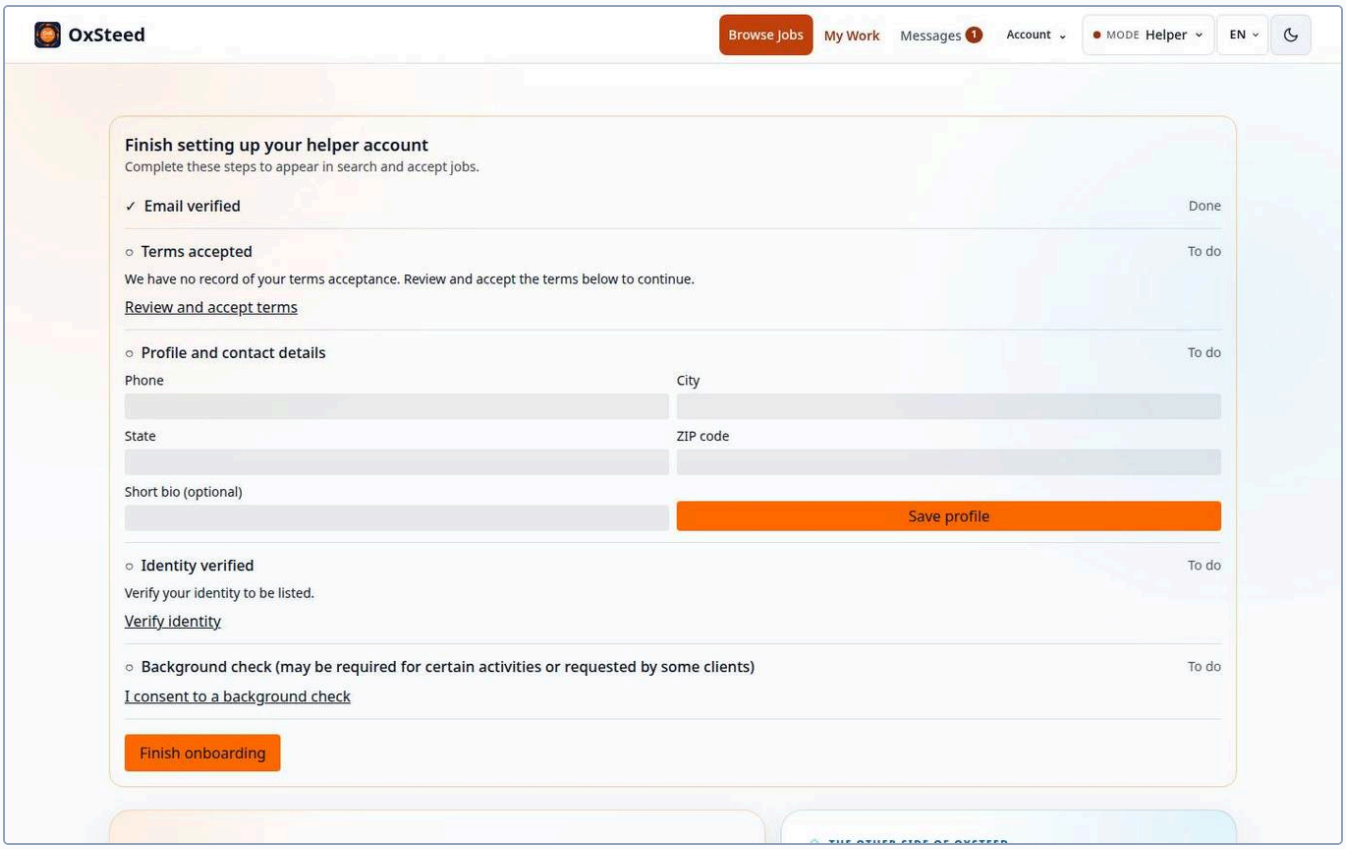

**Figure 3.** A filled-in skill form, desktop view. *(Image description: Add a Skill dialog filled in with a sample electrical repair skill)*

### Step 4: Save and keep skills accurate

Choose Add Skill to save. Edit a skill later from the same tab when your rate or experience changes, and remove skills you no longer offer. Turn the Available for hire toggle off instead of deleting a skill you may offer again.

> **Expected result:** The skill appears in your list and on your public profile; edits save immediately.

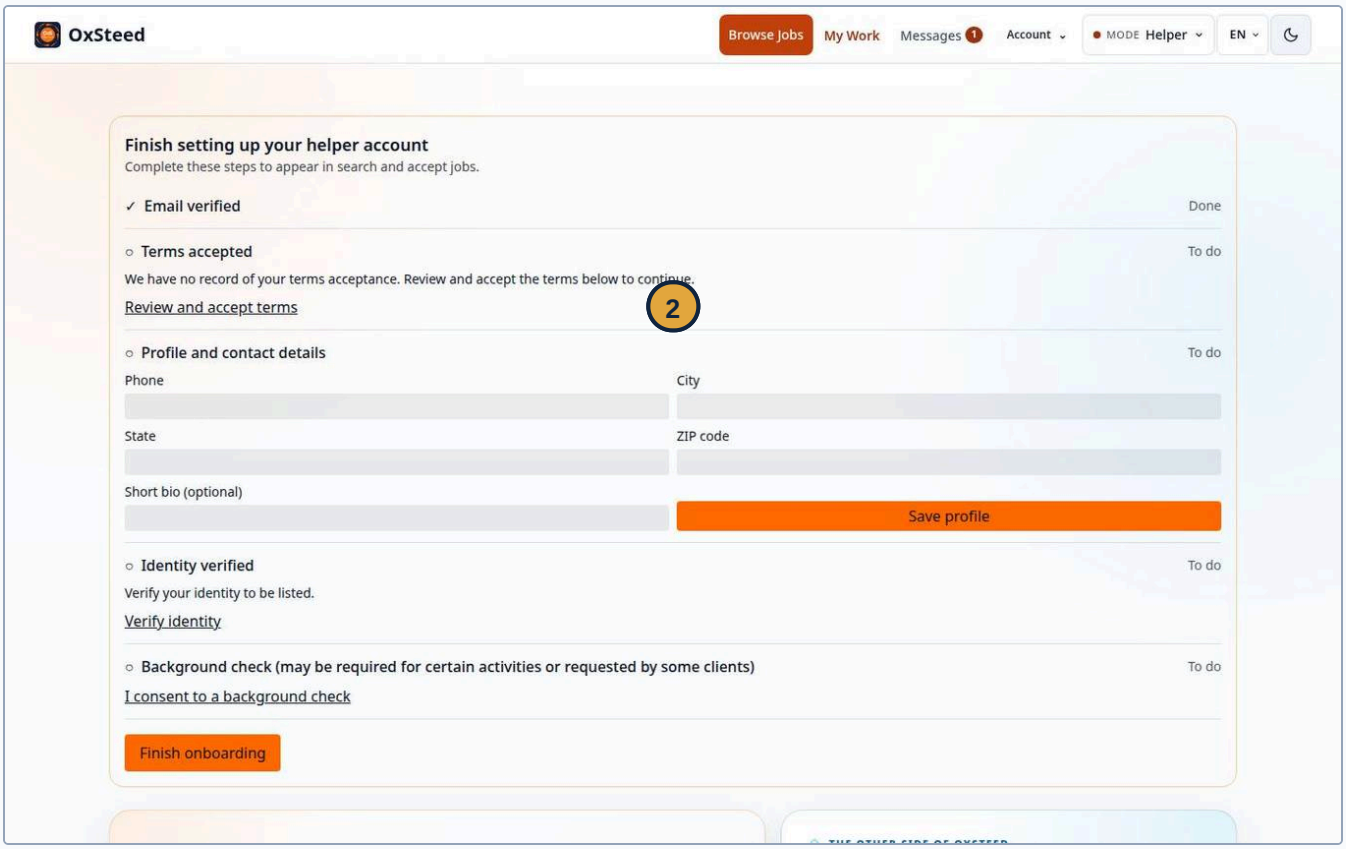

**Figure 4.** Saved skills, desktop view. *(Image description: Skills tab with two saved skills and edit and delete controls)*

1. **1.** Edit skill
2. **2.** Delete skill

## Confirm it worked

Your skills appear in the Skills tab list and on your public helper profile.

## If something goes wrong

| Problem | What to do |
|---|---|

| | |
|---|---|
| The skill does not save. | The Skill Name field is required. Enter a name, then choose Add Skill again. |
| A skill shows an outdated rate. | Open the Skills tab, edit the skill, update the hourly rate, and choose Update Skill. |

## Need help?

If skills fail to load, contact OxSteed Support from the /support page.

**Guide ID:** financial-archives | **Revision:** 1 | **Area:** Financial records

SOP LIBRARY / FINANCIAL RECORDS ENGLISH

# Browse archived statements

| | |
|---|---|
| **Guide ID** | **financial-archives** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Restaurant owner, Helper, Business owner |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/financial/financial-archives |

## Goal

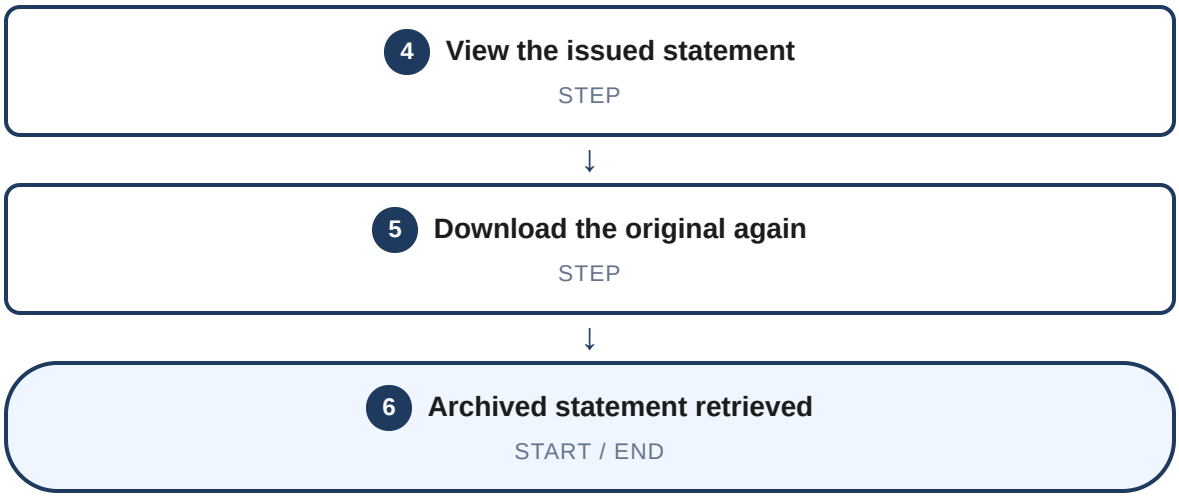

Find issued monthly statements in the archive and view or download the immutable originals.

## Before you start

1. Sign in to your OxSteed account.
2. Know which product the statement belongs to (OxSteed Credit, Restaurant Credit, helper earnings, business, or restaurant settlement).

## Process map

**Text version.** Open a product archive, for example /oxsteed-credit/statements/archive ("Statement archive": "Your issued monthly statements. Originals are immutable; download them again at any time."). Pick the product (OxSteed Credit, Restaurant Credit, helper earnings, business, or restaurant settlement). Find the statement period ("Jan 1 – Jan 31"), open it ("View"), and download the original ("Download issued", "Download CSV"). Each product has its own archive; they never merge.

## Steps

### Step 1: Open a statement archive

Open one of the archive routes: /oxsteed-credit/statements/archive for OxSteed Credit, /restaurant-credit/statements/archive for Restaurant Credit, /helper-earnings/statements for helper earnings, /business/statements for business statements, or /restaurant-settlement/statements for restaurant settlement. The page is titled "Statement archive".

> **Expected result:** The archive loads with the product selector and the issued statements.

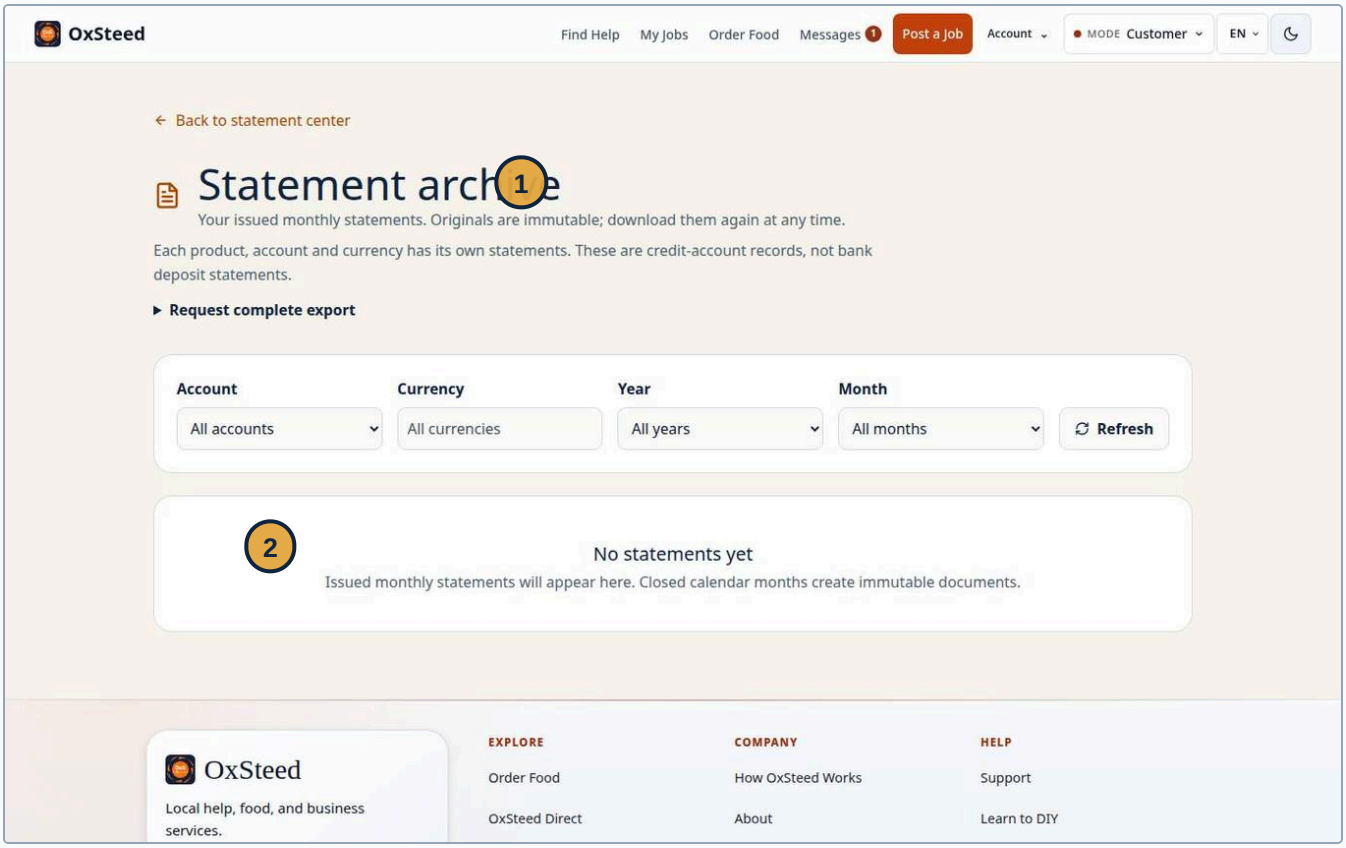

**Figure 1.** The statement archive, desktop view. *(Image description: Statement archive with issued monthly statements)*

1. **1.** Page title
2. **2.** Product selector

## Step 2: Pick the product and find the period

Use the "Product" selector to switch products ("Each product, account and currency has its own statements. These are credit-account records, not bank deposit statements."). Find the statement by its period heading ("Jan 1 – Jan 31"). The totals line uses the product's own accounting vocabulary (for example "Opening payable", "Posted earnings", "Settled payouts and status removals", "Closing payable" for helper earnings).

> **Expected result:** The right statement document is on screen with its totals.

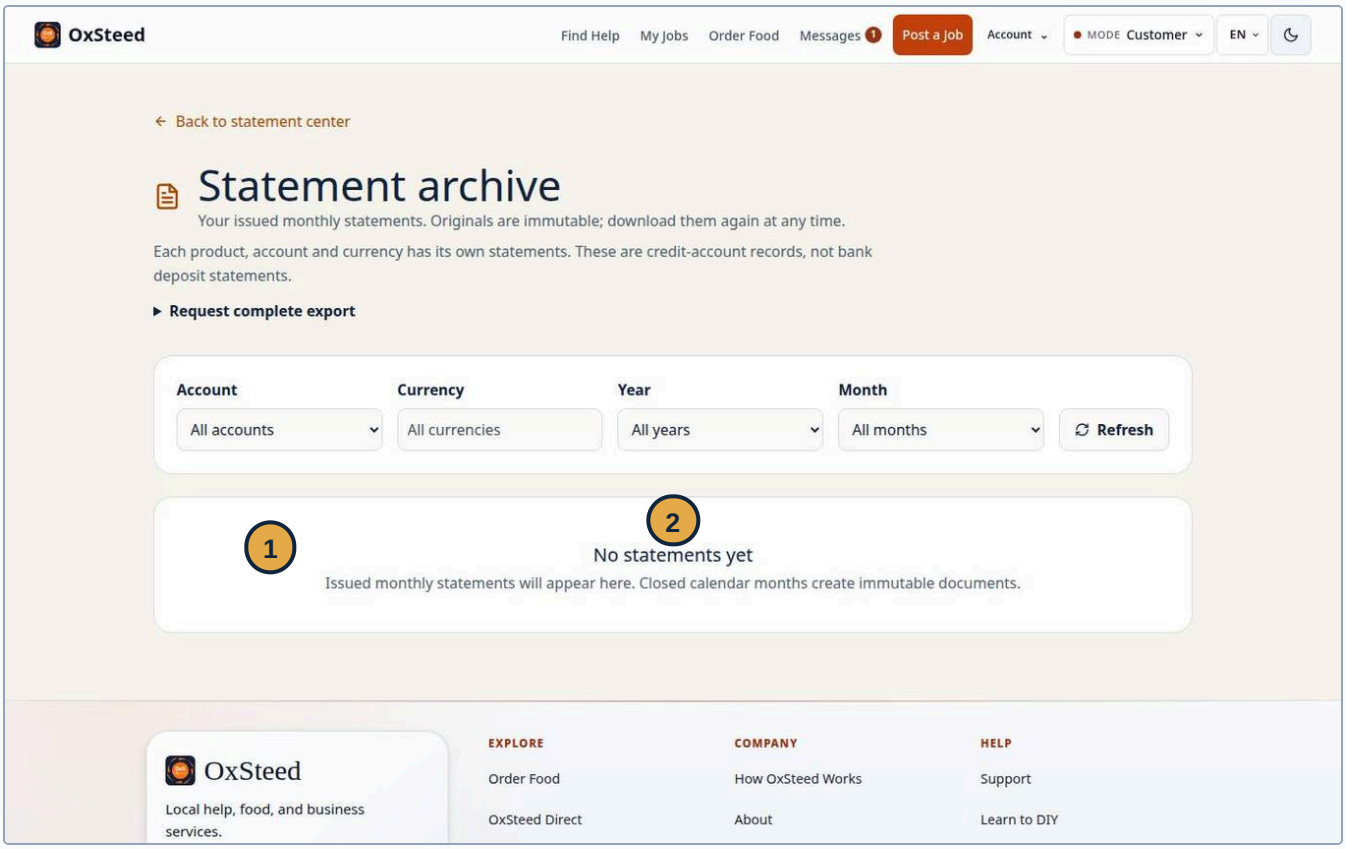

**Figure 2.** Picking a product and period, desktop view. *(Image description: Product selector and statement periods)*

1. **1.** Product selector
2. **2.** Statement periods

### Step 3: View and download the issued statement

Choose "View" on the statement to read the issued document. Use "Download issued" for the immutable original or "Download CSV" for the data. Originals never change; if a statement was amended, the archive marks it and links the correction.

> **Expected result:** The statement opens or downloads with its full transaction history.

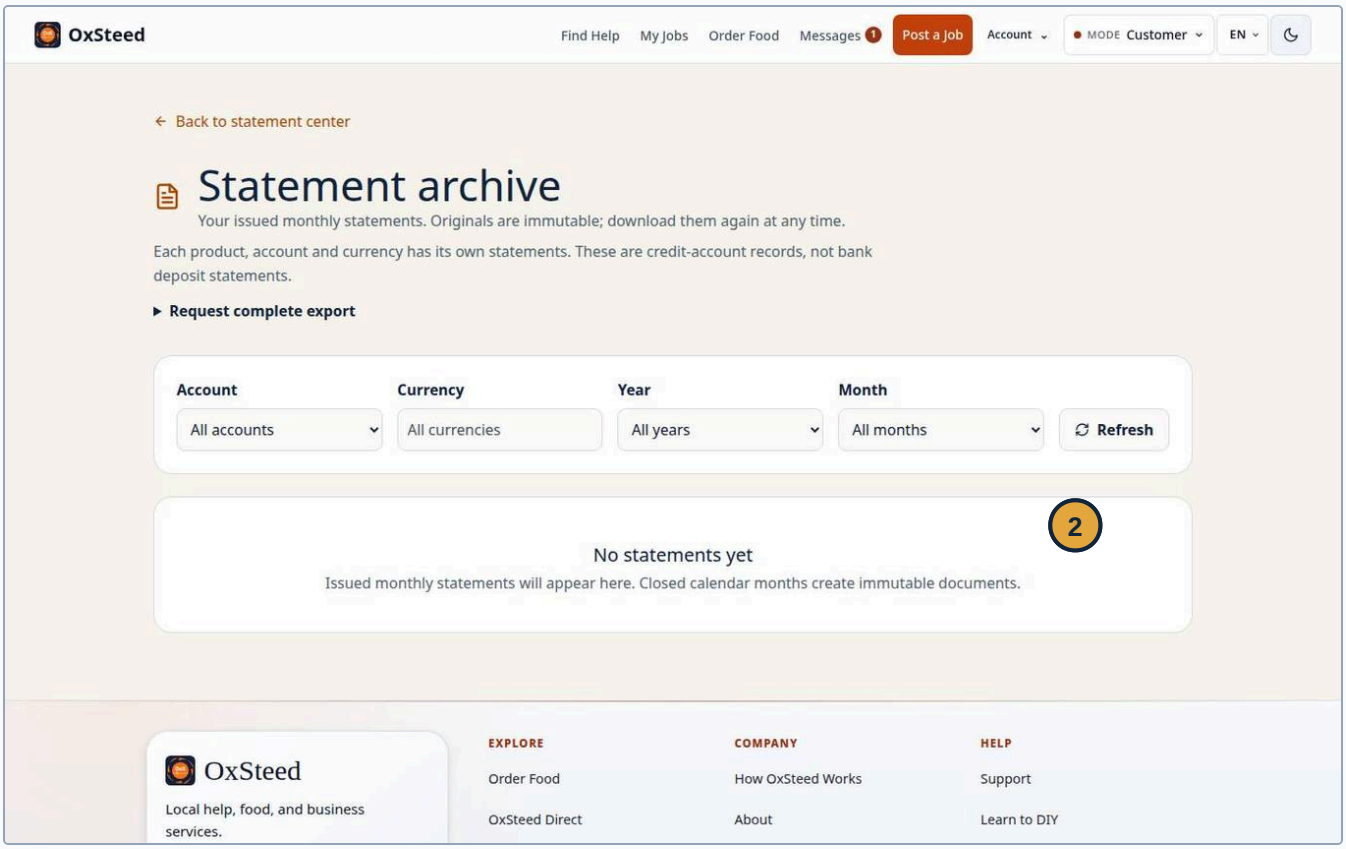

**Figure 3.** Viewing an issued statement, desktop view. *(Image description: Issued statement with View and Download actions)*

1. **1.** View button
2. **2.** Download issued button

## Confirm it worked

You have the issued statement open or downloaded, from the right product archive, with the immutable original.

## If something goes wrong

| Problem | What to do |
| --- | --- |
| The archive shows "No statements yet". | "Issued monthly statements will appear here. Closed calendar months create immutable documents." If you expected one, check the product selector; statements live under their own product. |
| You cannot find a statement for a different product. | Switch the "Product" selector or open the product's own archive route directly (for example /restaurant-credit/statements/archive). |

## Need help?

For archive issues, use the in-app support page at /support.

SOP LIBRARY / FINANCIAL RECORDS ENGLISH

# Download statement exports

| | |
|---|---|
| **Guide ID** | **financial-downloads** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Restaurant owner, Helper, Business owner |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/financial/financial-downloads |

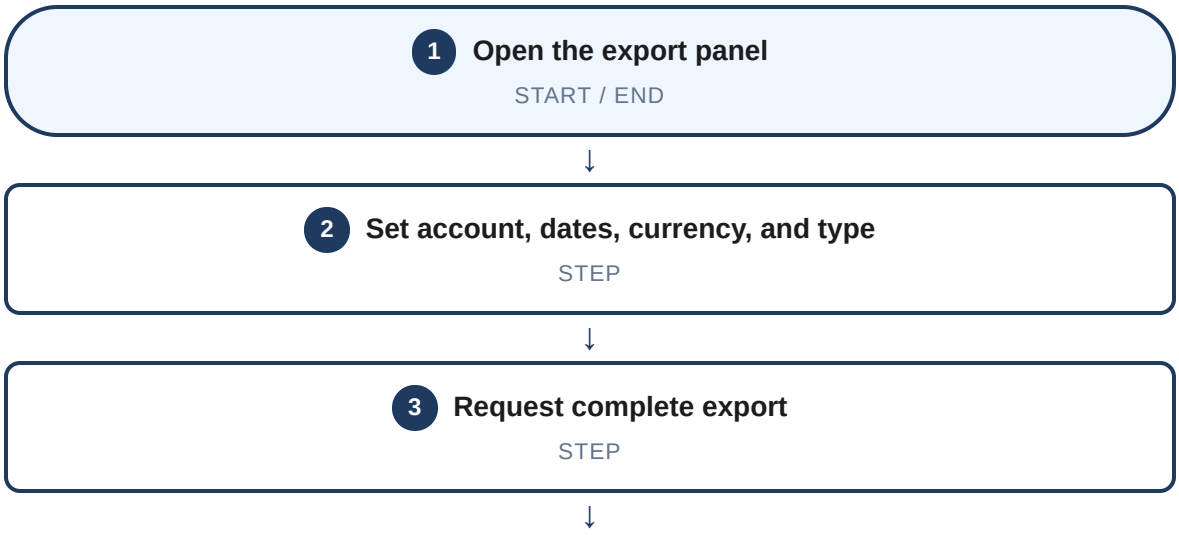

## Goal

Export statement data as CSV or PDF for accounting, audits, or taxes.

## Before you start

1. Sign in to your OxSteed account.
2. Know the account, date range, and format you need.

## Process map

**Text version.** Open the export panel from a statement archive ("Request complete export") or at /statements/exports/:jobId. Set the "Account", "From", "To", "Currency", and "Type" fields, then submit the export. The export runs as a tracked job; you can cancel it with "Cancel export" or retry it with "Retry export". When it completes, the "Export files" list shows each file with its rows; download them, or open "View export history" for past jobs.

# Steps

## Step 1: Open the export panel

From a statement archive, expand the export section and choose "Request complete export". You can also track a specific job at /statements/exports/:jobId. The panel heading reads "Request complete export".

> **Expected result:** The export form loads with the account and period fields.

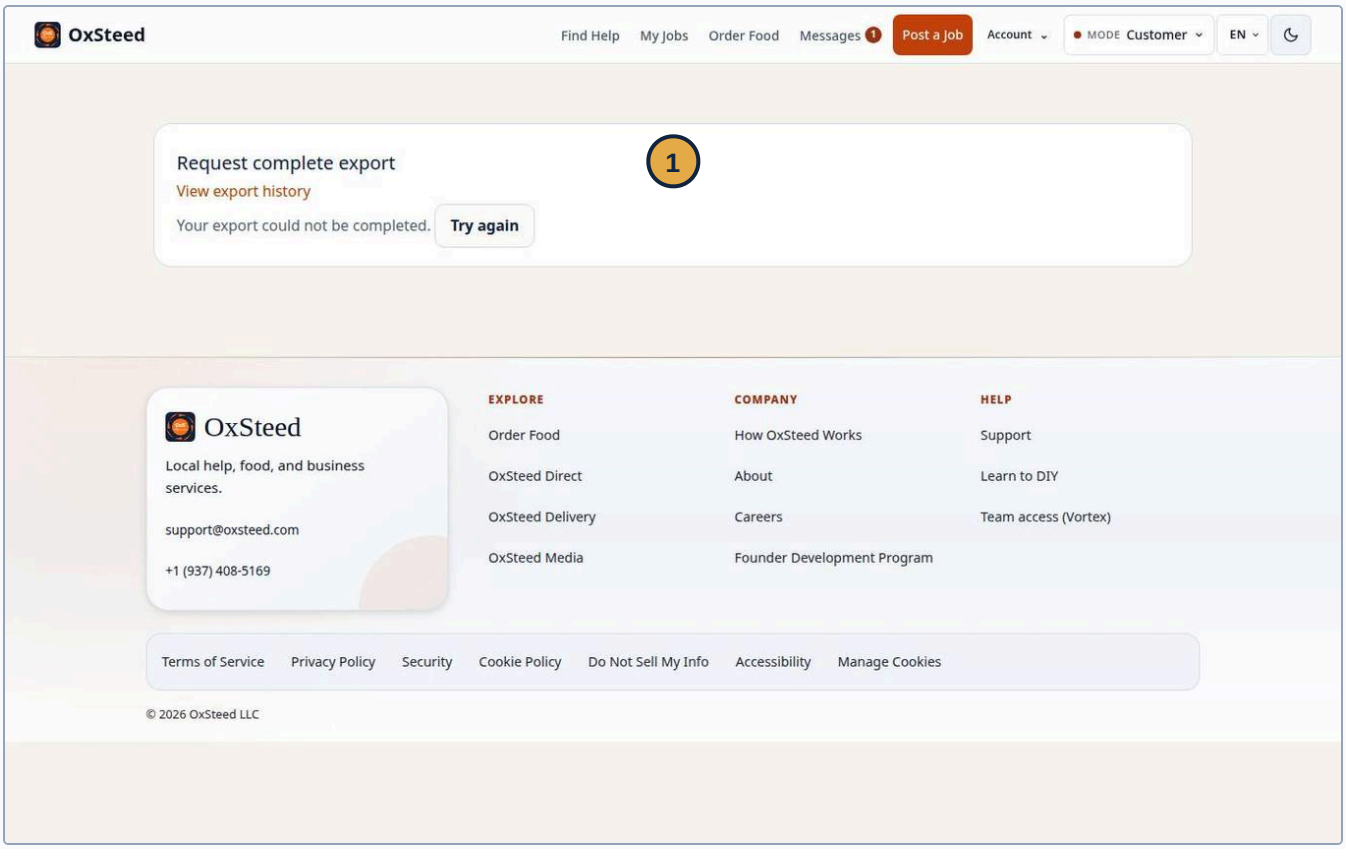

**Figure 1.** The export panel, desktop view. *(Image description: Export request form)*

1. **1.** Export heading

## Step 2: Set the export parameters and submit

Choose the "Account", the "From" and "To" dates, the "Currency" (3-letter code), and the "Type" (format), then choose "Request complete export". For several accounts at once, use the bulk section: check the accounts, pick the "Type", and start the bulk export.

> **Expected result:** The export job starts and shows its pending state.

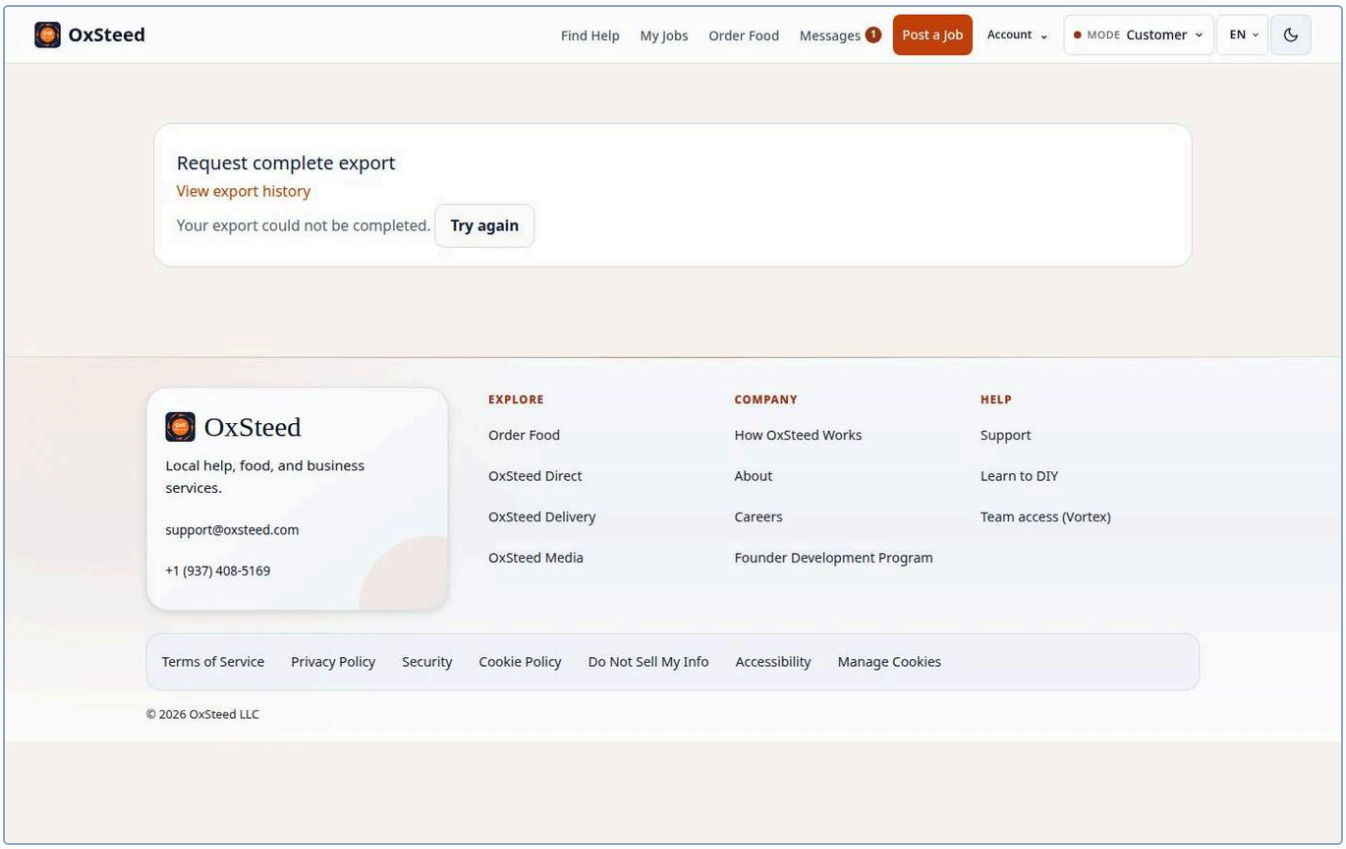

**Figure 2.** Submitting an export, desktop view. *(Image description: Export form with the submit button)*

### Step 3: Track the job and download the files

The job shows its state: pending, complete, failed, or cancelled. While it runs you can use "Cancel export"; if it fails and "Retry export" is offered, use it. When complete, the "Export files" section lists each file ("Download CSV · part", with the row range). Use "View export history" for past jobs.

> **Expected result:** The export files download to your device.

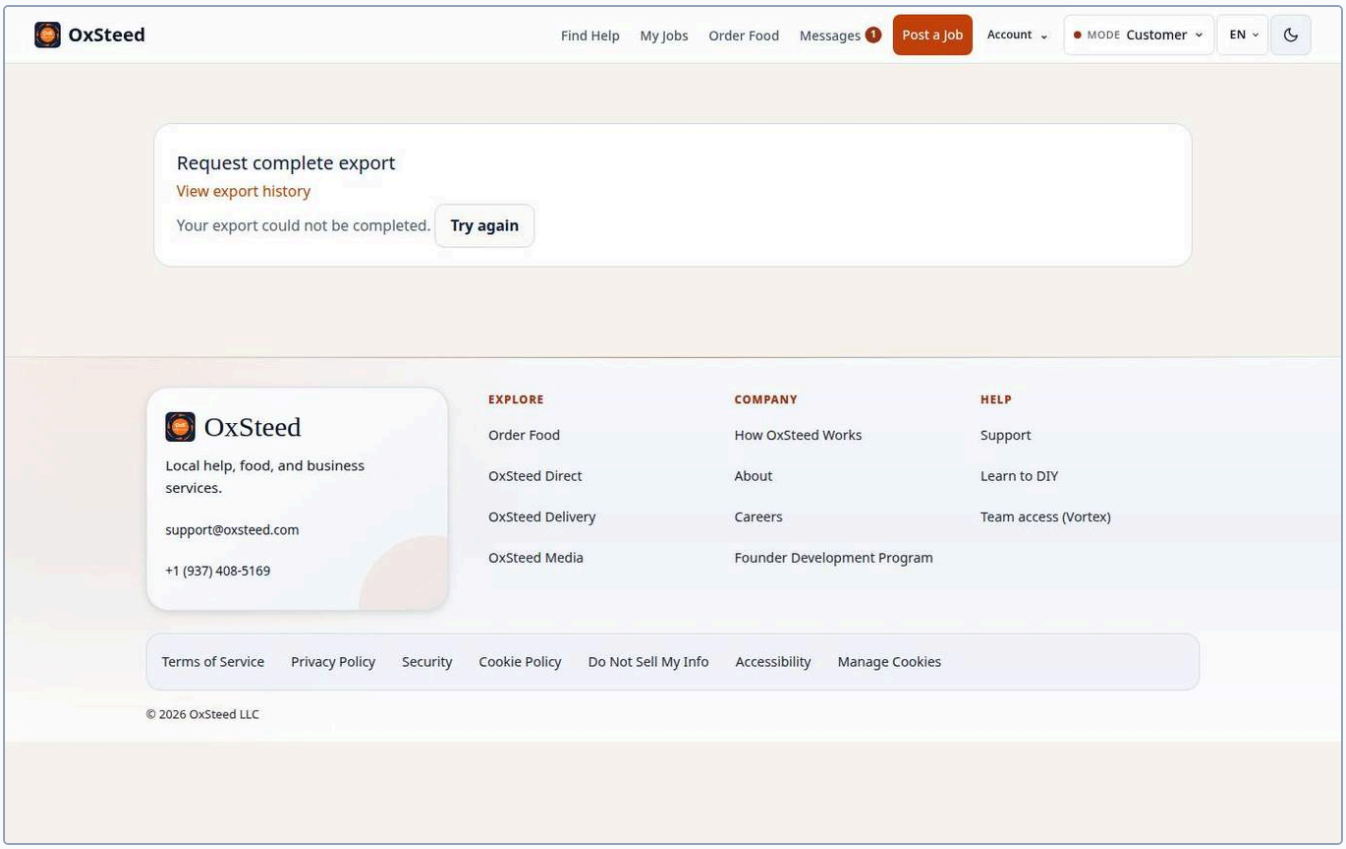

**Figure 3.** Downloading export files, desktop view. *(Image description: Export files list with download buttons)*

## Confirm it worked

The export files are on your device and the history lists the completed job.

## If something goes wrong

| Problem | What to do |
|---|---|
| The export fails. | You see "Your export could not be completed." Use "Retry export" if offered, or narrow the date range and request again. |

| | |
|---|---|
| The job is still running. | Large date ranges take longer. You can "Cancel export" and re-request a smaller range, or check "View export history" later. |

## Need help?

For export issues, use the in-app support page at /support.

**Guide ID:** financial-qr-payments | **Revision:** 1 | **Area:** Financial records

SOP LIBRARY / FINANCIAL RECORDS ENGLISH

# Get paid by QR and pay by QR

| | |
|---|---|
| **Guide ID** | **financial-qr-payments** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Helper, Business owner, Customer |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/financial/financial-qr-payments |

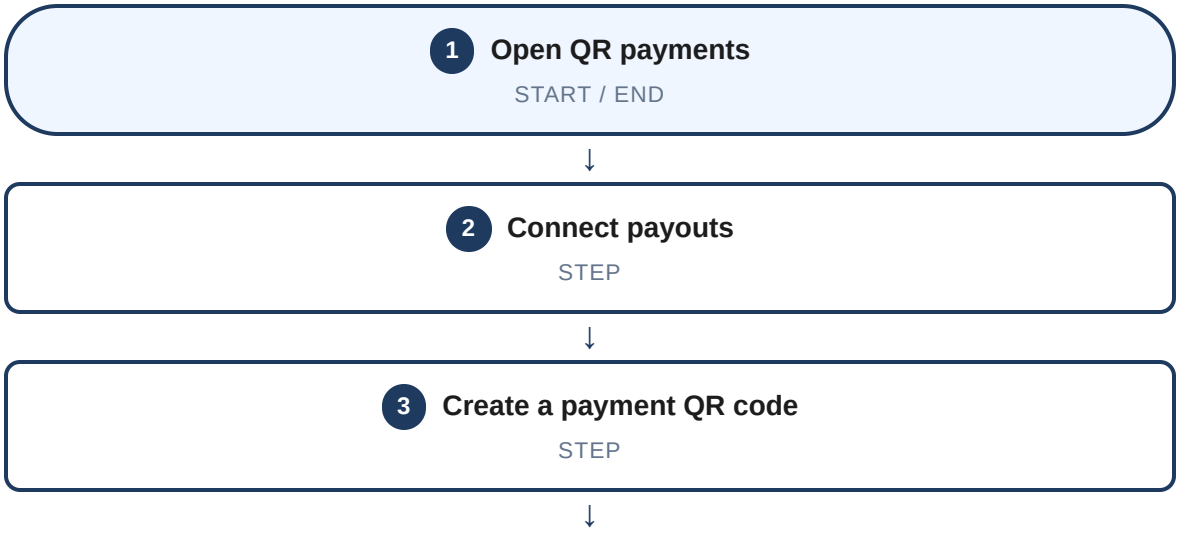

## Goal

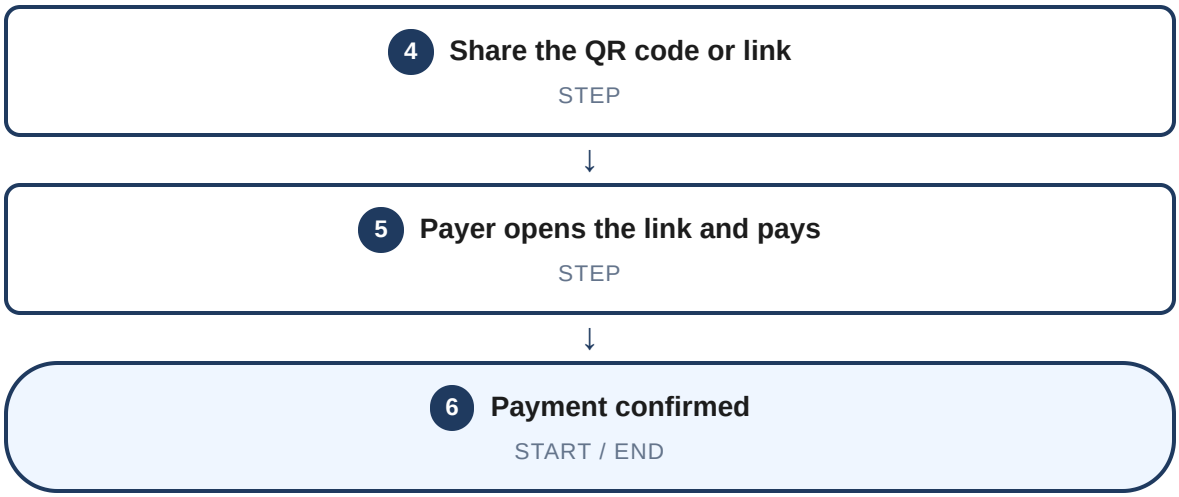

Create reusable QR payment codes as a helper or business, and pay someone by scanning or opening their QR link.

## Before you start

1. Sign in to create or manage payment QR codes.
2. Payers need no OxSteed account: "Secure payment powered by Stripe. You do not need an account."

## Process map

**Text version.** Open /qr-payments ("Get paid with QR codes": "Create QR codes your customers can scan to pay you directly. No app needed on their side."). First connect payouts with "Connect payouts". Then create a code under "Create a payment QR code" with a "Label" and either "Customer enters amount" or "Fixed amount". Manage codes under "Your payment QR codes" (Copy link, Download, Print, Activate/Deactivate, Delete). The payer opens /pay/:code, enters the amount if needed, and pays through the secure checkout step.

# Steps

## Step 1: Open QR payments and connect payouts

Open /qr-payments. If payouts are not connected, you see "Connect payouts first" ("To receive QR payments, connect your bank account with our secure payment partner. It takes a few minutes."). Choose "Connect payouts" and finish the partner setup. If the setup is incomplete you see "Finish Stripe setup" with "Continue in Stripe".

> **Expected result:** The create form and your code list unlock once payouts are connected.

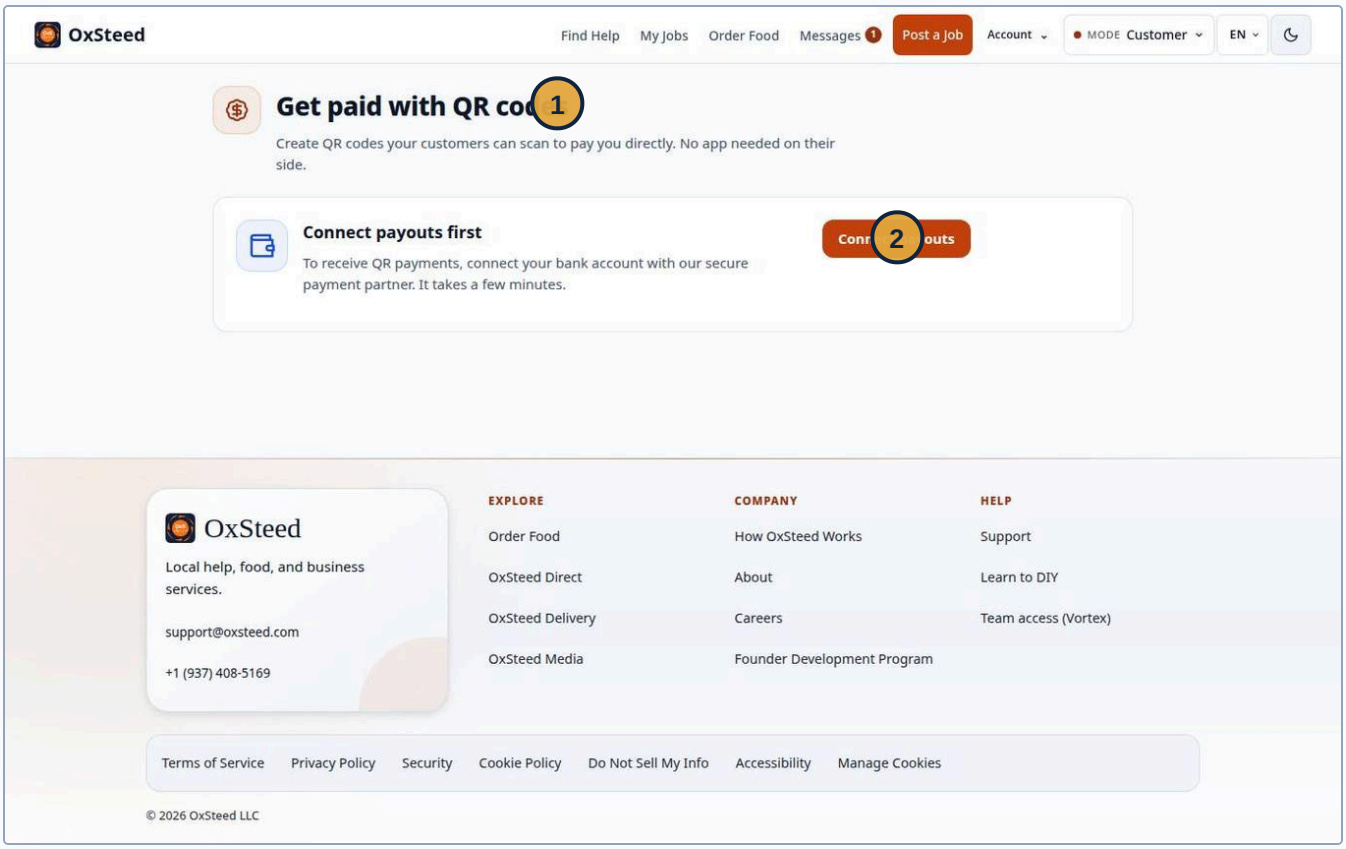

**Figure 1.** Connecting payouts, desktop view. *(Image description: QR payments page prompting to connect payouts)*

1. **1.** Page title
2. **2.** Connect payouts button

## Step 2: Create a payment QR code

Under "Create a payment QR code", enter a "Label" ("e.g. Lawn mowing, Bakery pickup"). Under "Amount", pick "Customer enters amount" ("The customer chooses how much to pay when they scan.") or "Fixed amount" ("Every scan pays the same amount.") and enter the "Amount (USD)". Choose "Create QR code".

> **Expected result:** The new code appears under "Your payment QR codes" with its pay link.

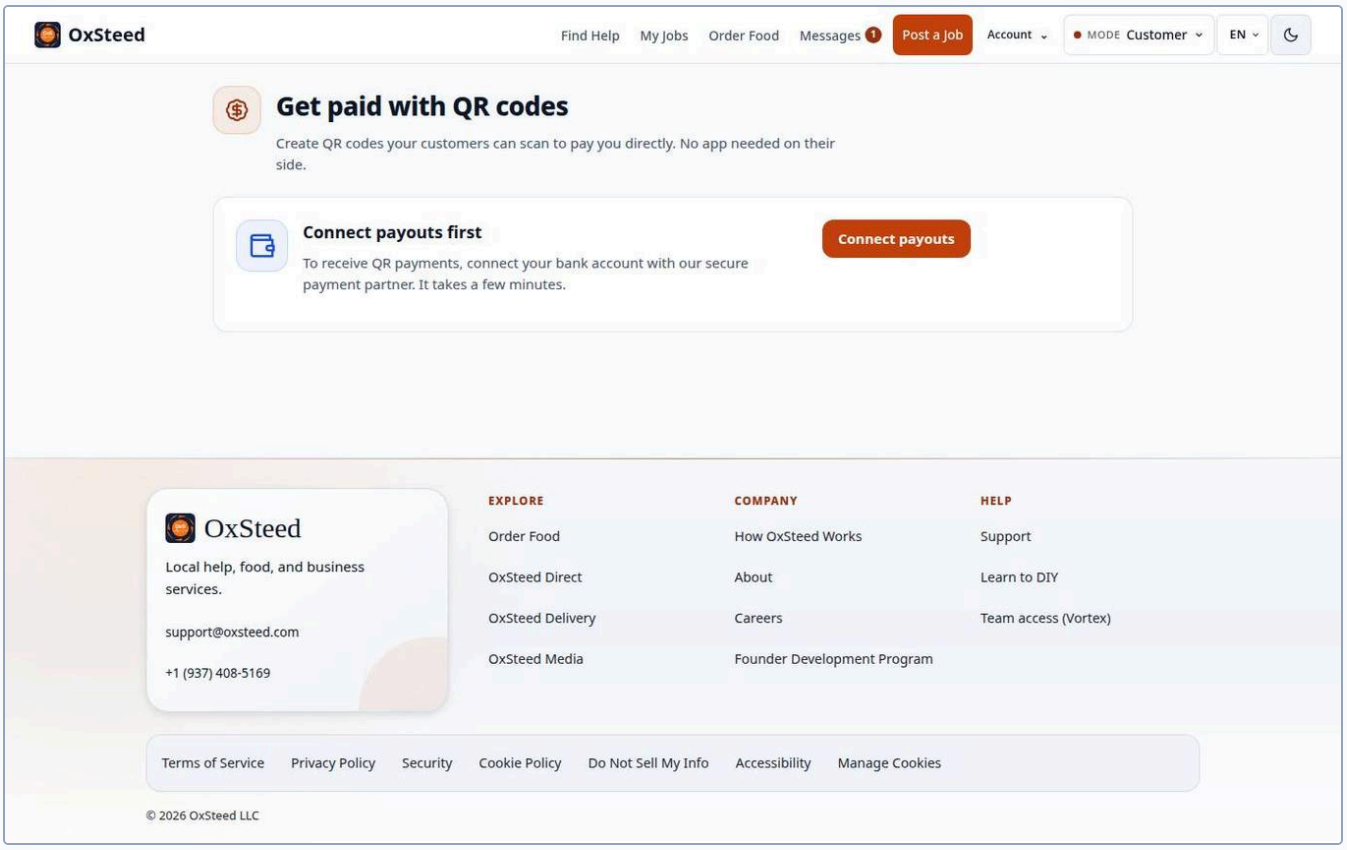

**Figure 2.** Creating a payment QR code, desktop view. *(Image description: Create form with label and amount mode cards)*

## Step 3: Manage and share your codes

Under "Your payment QR codes", each card shows the label, the "Active"/"Inactive" badge, the amount ("Open amount" for flexible codes), the total received, and the payment count. Use "Copy link" to share the pay URL, "Download" or "Print" for the QR image, the "Activate"/"Deactivate" toggle to control availability, and "Delete" to remove a code.

> **Expected result:** The code is shared or printed and ready to scan.

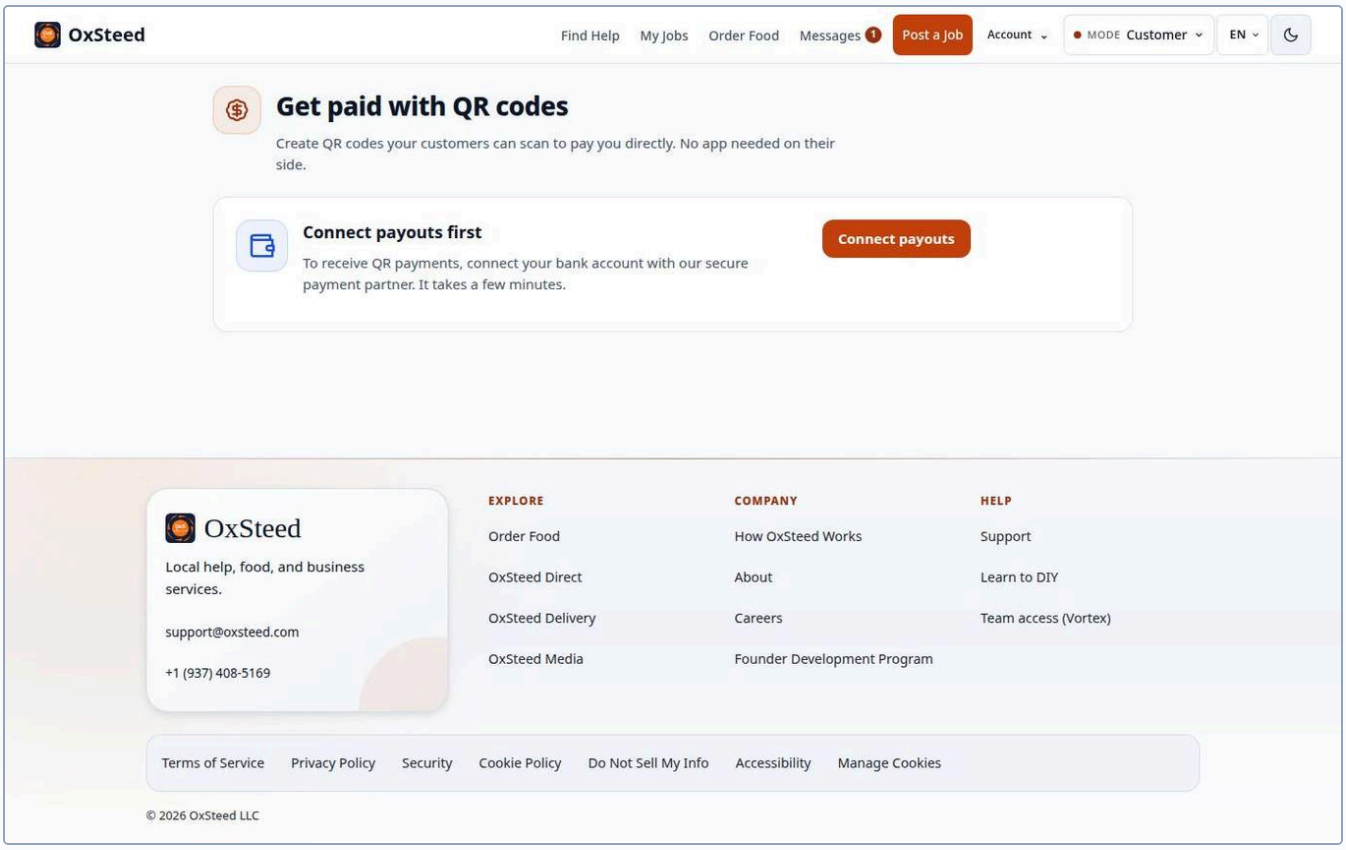

**Figure 3.** Managing QR codes, desktop view. *(Image description: Code cards with copy, download, print, and toggle actions)*

## Step 4: Pay through a QR link as a payer

Open the pay link (/pay/:code) or scan the QR. You see "Pay" plus the recipient name and either "Amount to pay" (fixed) or "Amount (USD)" ("Enter amount") for flexible codes. Optionally enter the "Email for receipt (optional)" ("you@example.com"). Choose the "Pay" button ("Pay X") to continue to the secure checkout step. If the recipient accepts credit, you may also see "Pay with OxSteed Credit".

> **Expected result:** You move to the secure checkout step; OxSteed returns you when the payment completes.

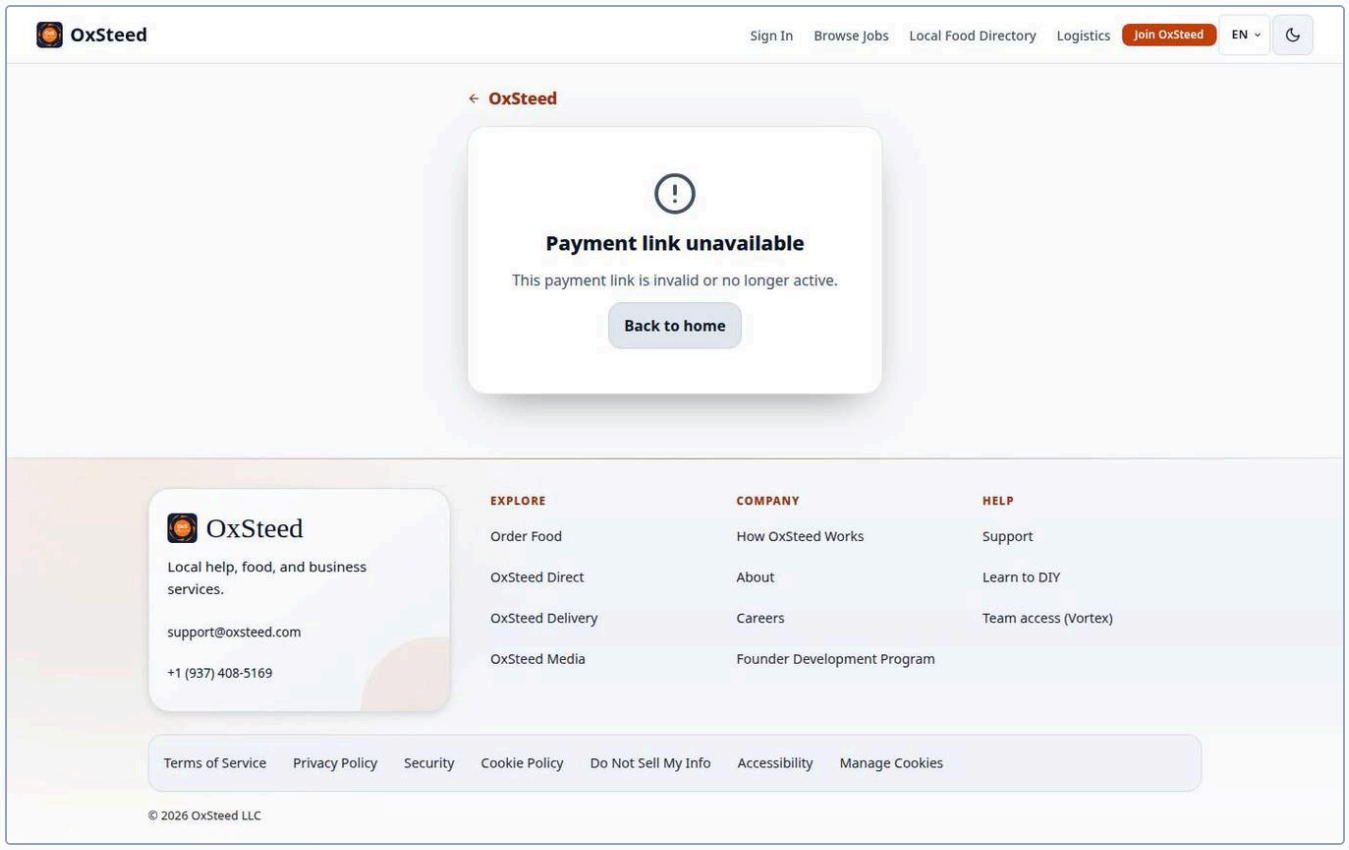

**Figure 4.** Paying through a QR link, desktop view. *(Image description: Payer form with amount and pay button)*

### Step 5: Confirm the payment succeeded

After the payment completes you see "Payment successful" with the amount and recipient, and "Back to home". If the link expired, you see "Payment link unavailable" with "Try again" on the current link.

> **Expected result:** The recipient sees the payment in their code stats and the payer has confirmation.

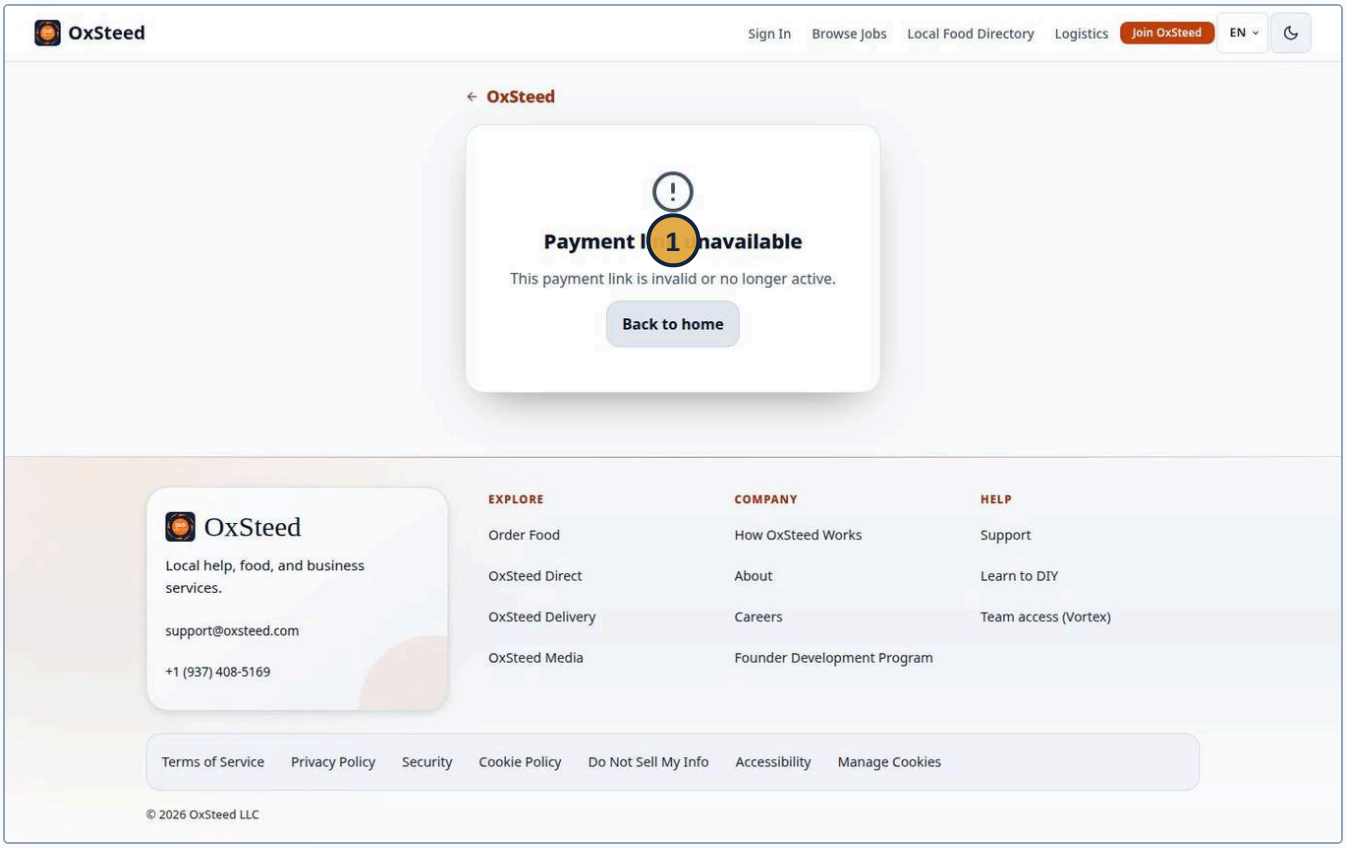

**Figure 5.** Payment confirmed, desktop view. *(Image description: Payment successful screen)*

1. **1.** Payment successful heading

## Confirm it worked

The code exists under "Your payment QR codes", and payments show "Payment successful" with updated received totals on the card.

## If something goes wrong

| Problem | What to do |
|---|---|

| | |
|---|---|
| You see "Could not load your QR codes." | Choose "Retry" to reload the list. |
| A payer sees "Payment link unavailable". | The code was deactivated or deleted. Reactivate it with the "Activate" toggle, or share a new link with "Copy link". |
| The checkout step does not finish. | Return to /pay/:code and try again. OxSteed only counts the payment once the checkout step completes. |

## Need help?

For QR payment issues, use the in-app support page at /support.

**Guide ID:** financial-statements | **Revision:** 1 | **Area:** Financial records

SOP LIBRARY / FINANCIAL RECORDS ENGLISH

# View statements

| | |
|---|---|
| **Guide ID** | **financial-statements** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Restaurant owner, Helper, Business owner |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/financial/financial-statements |

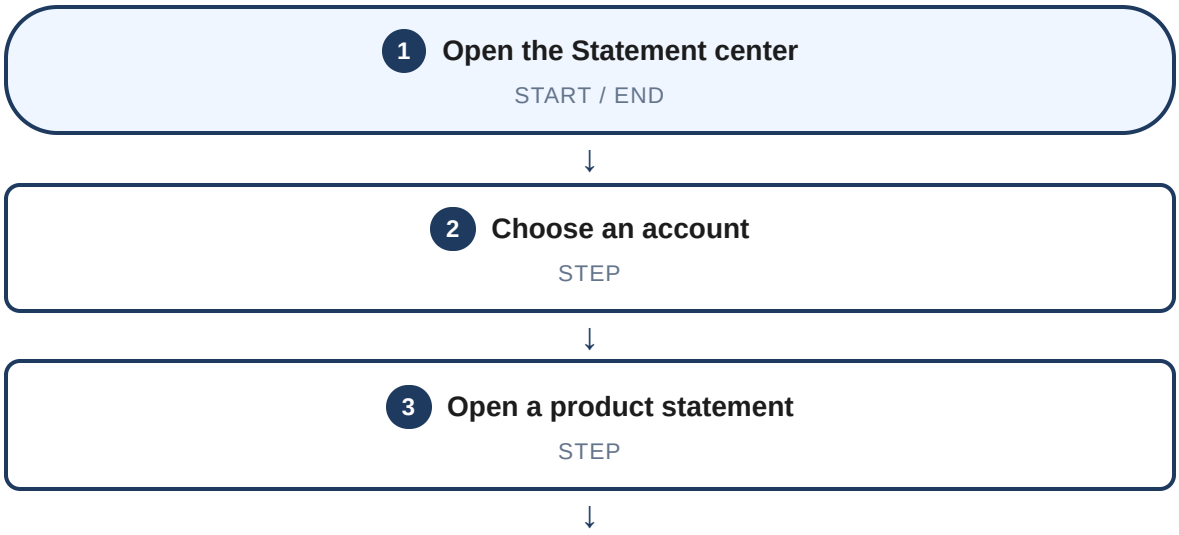

## Goal

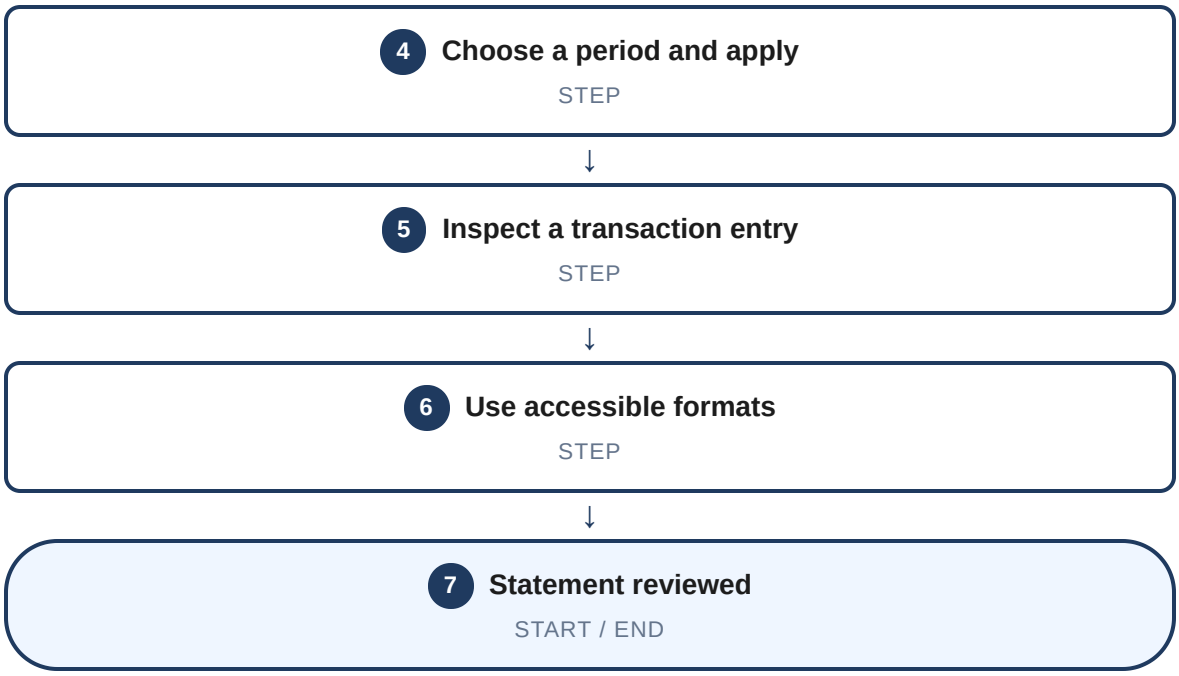

Find and read the right statement: the statement center, product statements, transaction details, and accessible formats.

## Before you start

1. Sign in to your OxSteed account.

## Process map

**Text version.** Open /statements ("Statement center": "Choose an account and a period, then review or download your records."). Note "Balances, currencies, and statement types stay separate." Choose an account ("Account and currency"), then open a product statement at /oxsteed-credit/statements or /restaurant-credit/statements ("Account statements": "Choose an account and statement period", then "Apply"). Inspect entries ("Entry details") and report issues. Use the accessible statement page for a tagged PDF, accessible HTML, or CSV.

# Steps

## Step 1: Open the Statement center and choose an account

Open /statements. The "Statement center" shows "Choose an account" with your statement accounts. Use "Search all records" or "Period activity" to narrow, and "Change account" to switch. The note "Balances, currencies, and statement types stay separate." reminds you each account keeps its own records.

> **Expected result:** The accounts list loads with the selected account's periods.

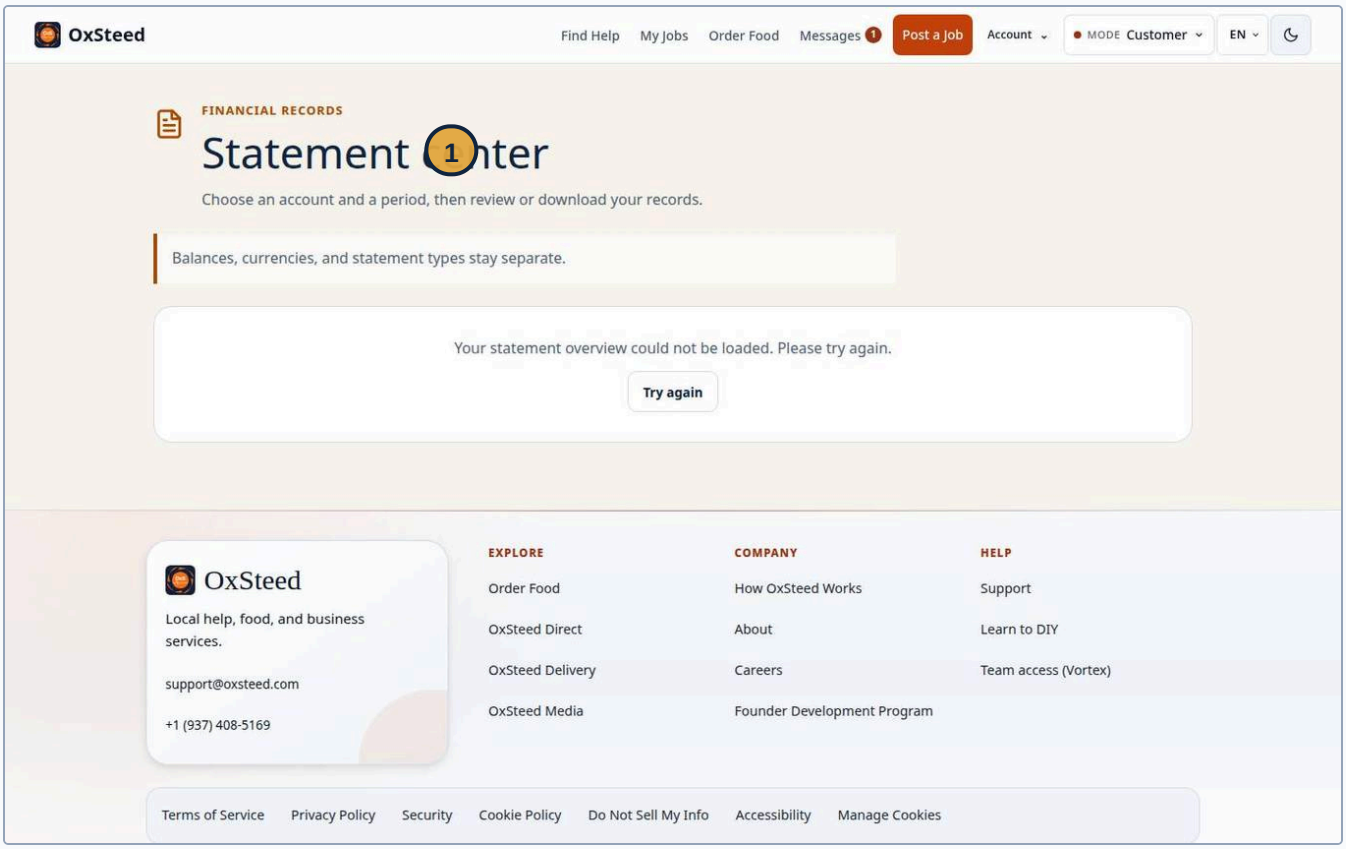

**Figure 1.** The Statement center, desktop view. *(Image description: Statement center with the account list)*

1. **1.** Page title

## Step 2: Open a product statement and choose a period

Open /oxsteed-credit/statements ("OxSteed Credit" statements) or /restaurant-credit/statements ("Restaurant Credit" statements). "Choose an account and statement period" ("Select Apply to generate or retrieve your statement."), then choose "Apply". Dates use UTC; "Closed calendar months create immutable monthly documents on demand. Current or custom periods are interim reports."

> **Expected result:** The "Posted activity" list fills with the period's transactions and "Download PDF" / "Download CSV" appear.

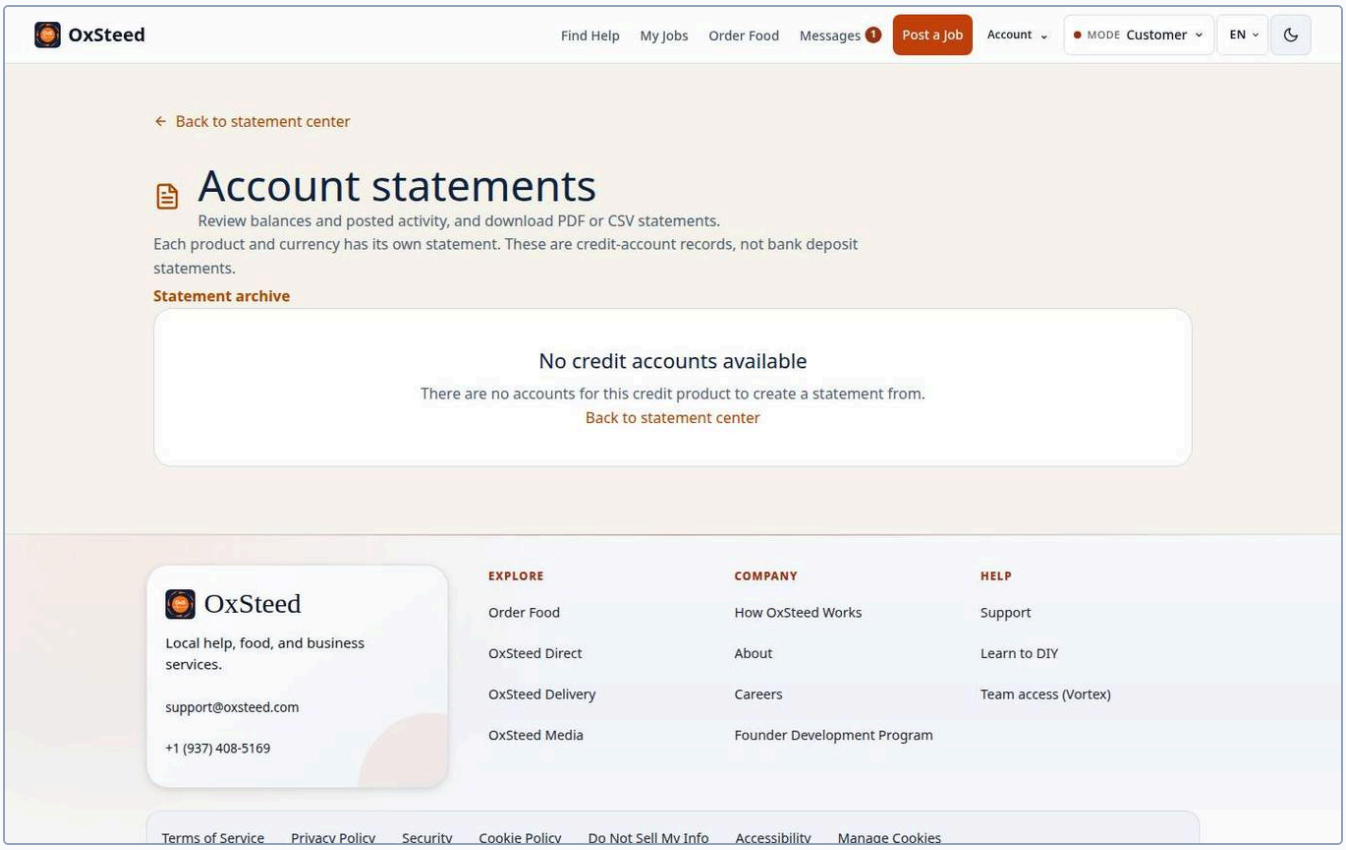

**Figure 2.** Choosing a statement period, desktop view. *(Image description: Statement page with account and period controls)*

## Step 3: Filter and review posted activity

In "Posted activity", each row shows the date, type, "Credit"/"Debit", "Description", and "Balance after". Use "Advanced filters" to narrow by "Activity type", "Min amount"/"Max amount", "Direction" ("Debits and credits", "Debits only", "Credits only"), "Status", or related record ("Food orders", "Top-ups and funding", "Settlements and payouts", "Adjustments", "Refunds"), then "Apply filters".

> **Expected result:** The list shows "{{count}} of {{total}} transactions" matching your filters.

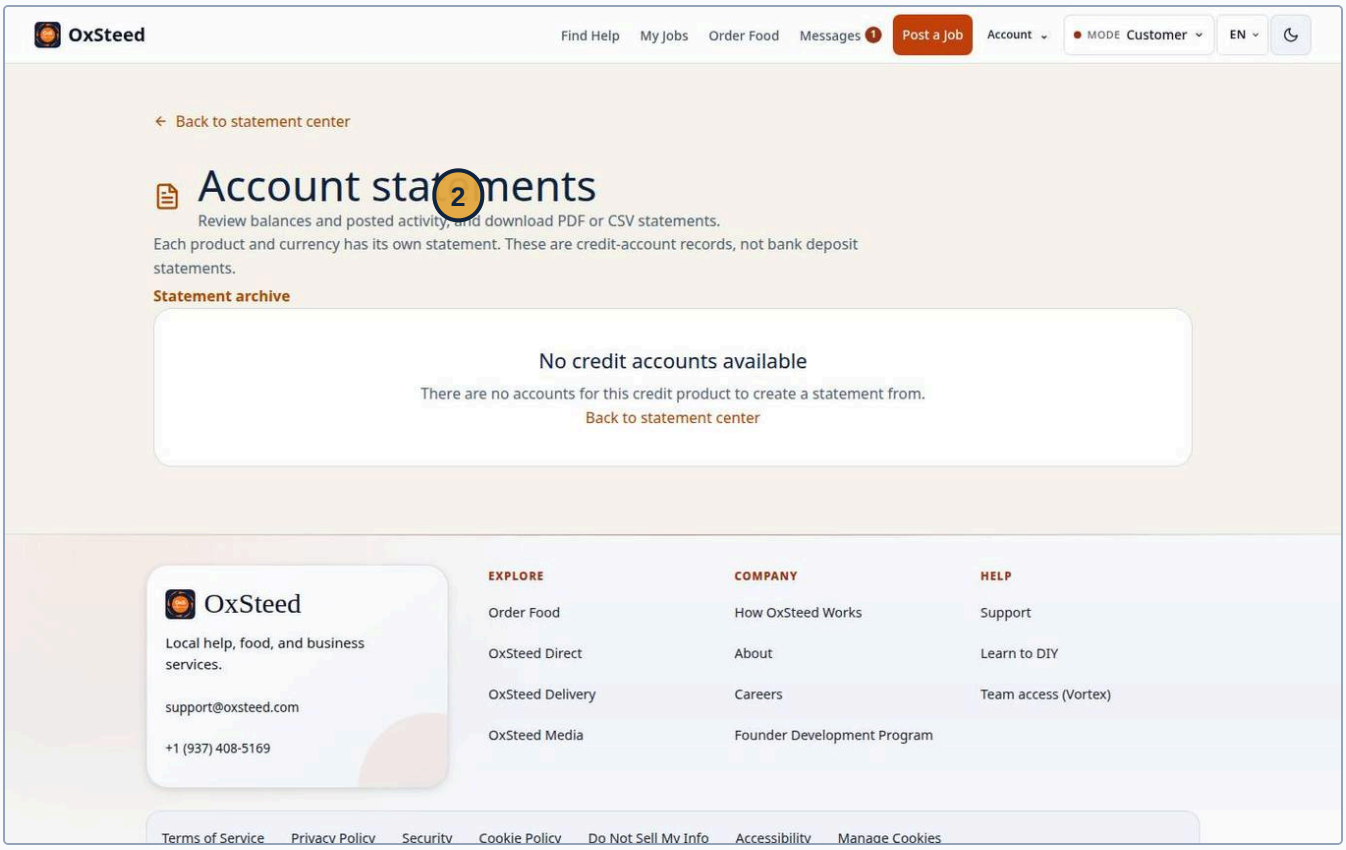

**Figure 3.** Filtering activity, desktop view. *(Image description: Activity list with the advanced filters panel)*

1. **2.** Posted activity list

## Step 4: Inspect a transaction entry

Open an entry to reach /statements/:documentId/entries/:entryId ("Statement transaction": "Entry details"). Review "Posted (UTC)", "Type", "Amount", "Balance after", "Reference", and the related record ("View" opens the linked order or payment). If something looks wrong, use "Report an issue" with a "Reason" and "Details", then "Submit report" ("Tell us what looks wrong. Filing a report never moves money; it opens a case for review.").

> **Expected result:** The entry facts are clear and any issue is filed as a report.

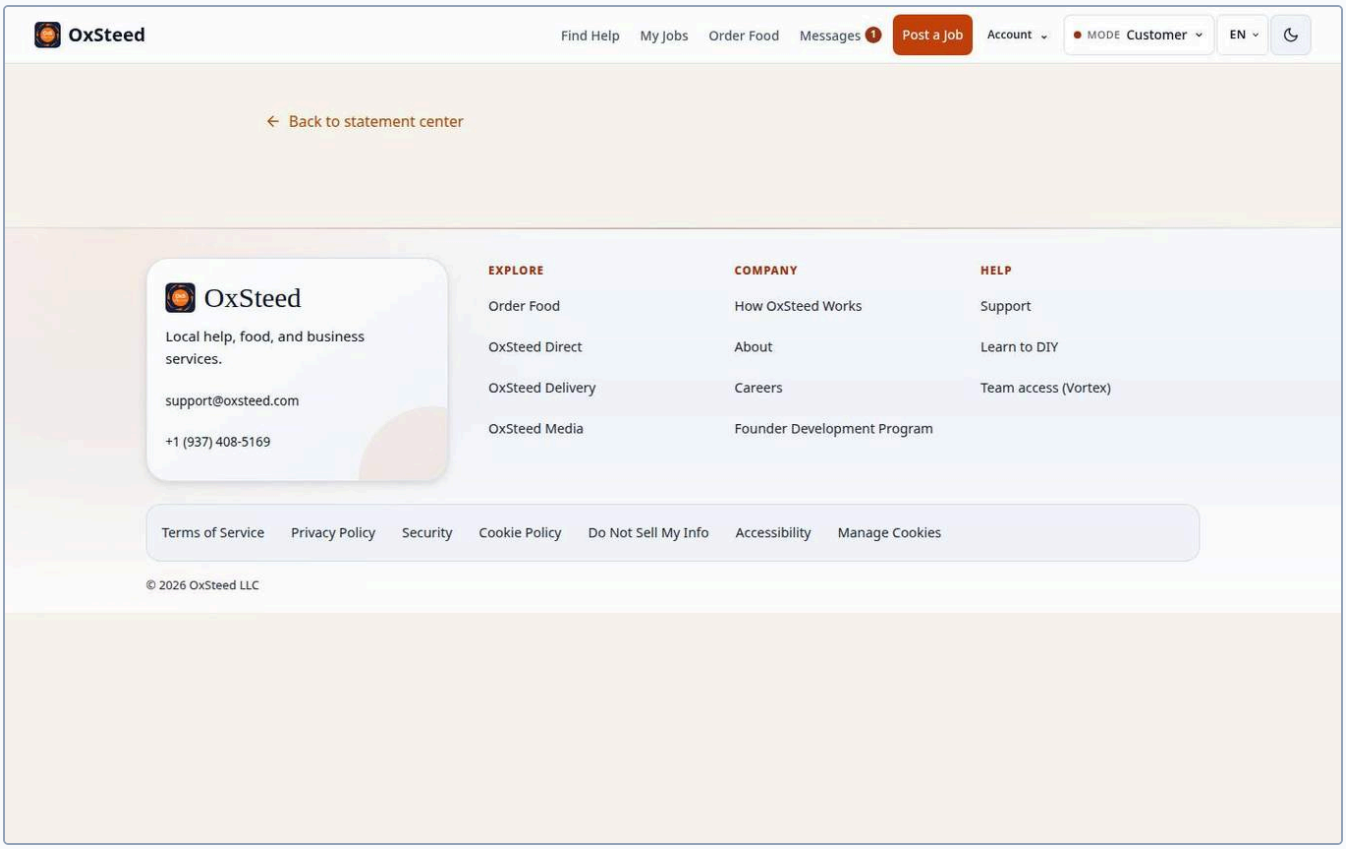

**Figure 4.** Inspecting an entry, desktop view. *(Image description: Entry details with posted date, type, and amounts)*

### Step 5: Use accessible formats

Open /statements/:documentId/accessible ("Accessible statement": "Download a tagged PDF, an accessible HTML version, or a CSV of this statement."). Choose "Download accessible PDF" ("Tagged PDF": "A PDF with a tagged structure for screen readers."), "Open accessible HTML" ("Accessible HTML": "The same statement as a web page with a semantic table, headings, and right-to-left support for Arabic."), or "Download CSV" ("CSV data": "Every transaction row as plain data for spreadsheets and screen readers.").

> **Expected result:** The statement downloads in the format you chose.

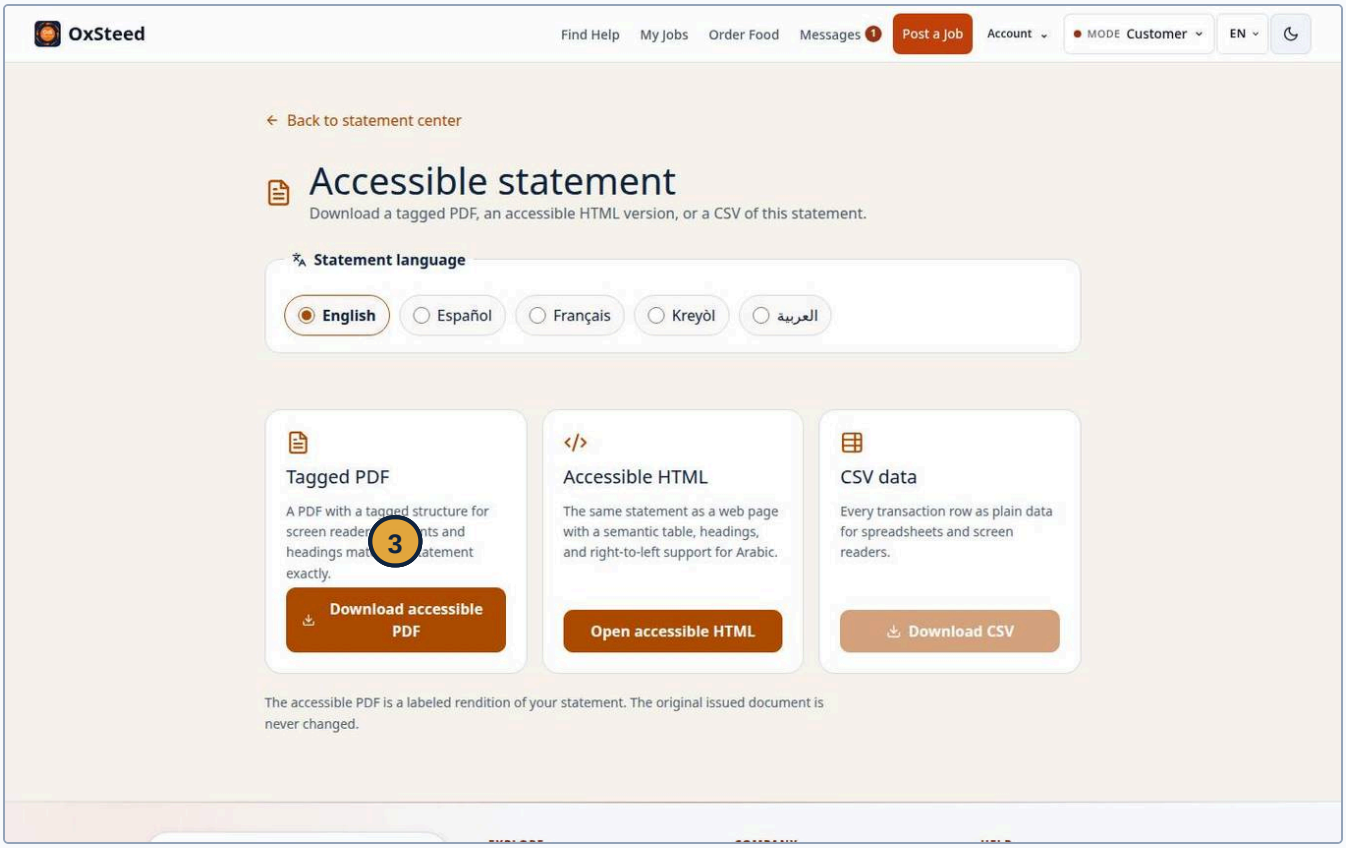

**Figure 5.** Accessible formats, desktop view. *(Image description: Accessible statement with PDF, HTML, and CSV options)*

1. **1.** Tagged PDF card
2. **2.** Accessible HTML card
3. **3.** CSV data card

## Confirm it worked

You can open the right account, period, and entry, and download the statement in a usable format.

## If something goes wrong

| Problem | What to do |
| --- | --- |
| The page shows "No statement accounts are available yet." | Accounts appear here when available to you. If you expect one (for example after a top-up), use "Retry" and check the wallet first. |
| The period shows "No posted activity in this period". | Widen the From/To range or choose a different account; current or custom periods are interim reports and may legitimately be empty. |
| A report cannot be opened from an entry. | You see "A report cannot be opened from this statement entry. Contact Support for help." Use the in-app support page at /support instead. |

## Need help?

For statement issues, use the in-app support page at /support.

**Guide ID:** other-media | **Revision:** 1 | **Area:** Media

SOP LIBRARY / MEDIA **ENGLISH**

# Use OxSteed Media (feed, posts, communities)

| | |
|---|---|
| **Guide ID** | **other-media** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper, Business owner |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/media/use-oxsteed-media |

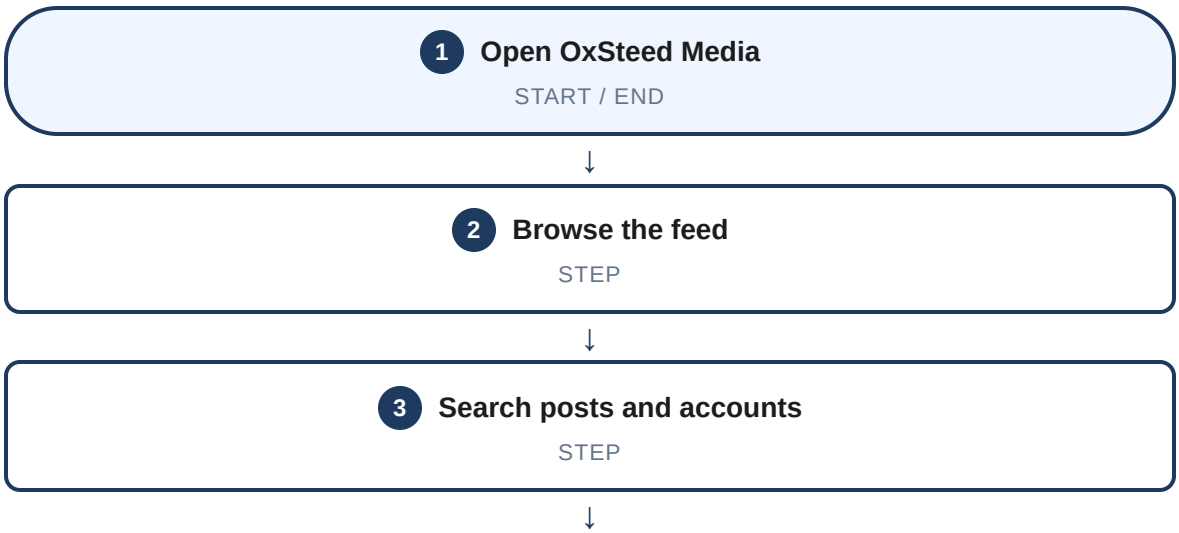

## Goal

Browse the Media feed, publish a post, and follow communities.

## Before you start

1. No account needed to browse. Sign in to post, save, or message.

## Process map

**Text version.** 1. Open OxSteed Media at /media. 2. Browse the feed, titled "OxSteed Media" with the subtitle "Local voices, useful connections, and updates from the OxSteed network." 3. Use Search Media to find posts and accounts. 4. Sign in and open the composer at /media/compose. 5. Write your post ("New post", "What's happening in your local economy?"), choose where it goes, and publish. 6. Join communities at /media/communities to follow topics you care about.

# Steps

## Step 1: Open OxSteed Media and browse the feed

Open /media. The page is titled "OxSteed Media" with the subtitle "Local voices, useful connections, and updates from the OxSteed network." The composer prompt reads "What's happening nearby?" The navigation offers Home, Search, Spaces, Notifications, Messages, "Saved posts", and Verification. Guests can read; sign-in is required for posting.

> **Expected result:** The feed loads with recent posts from the network.

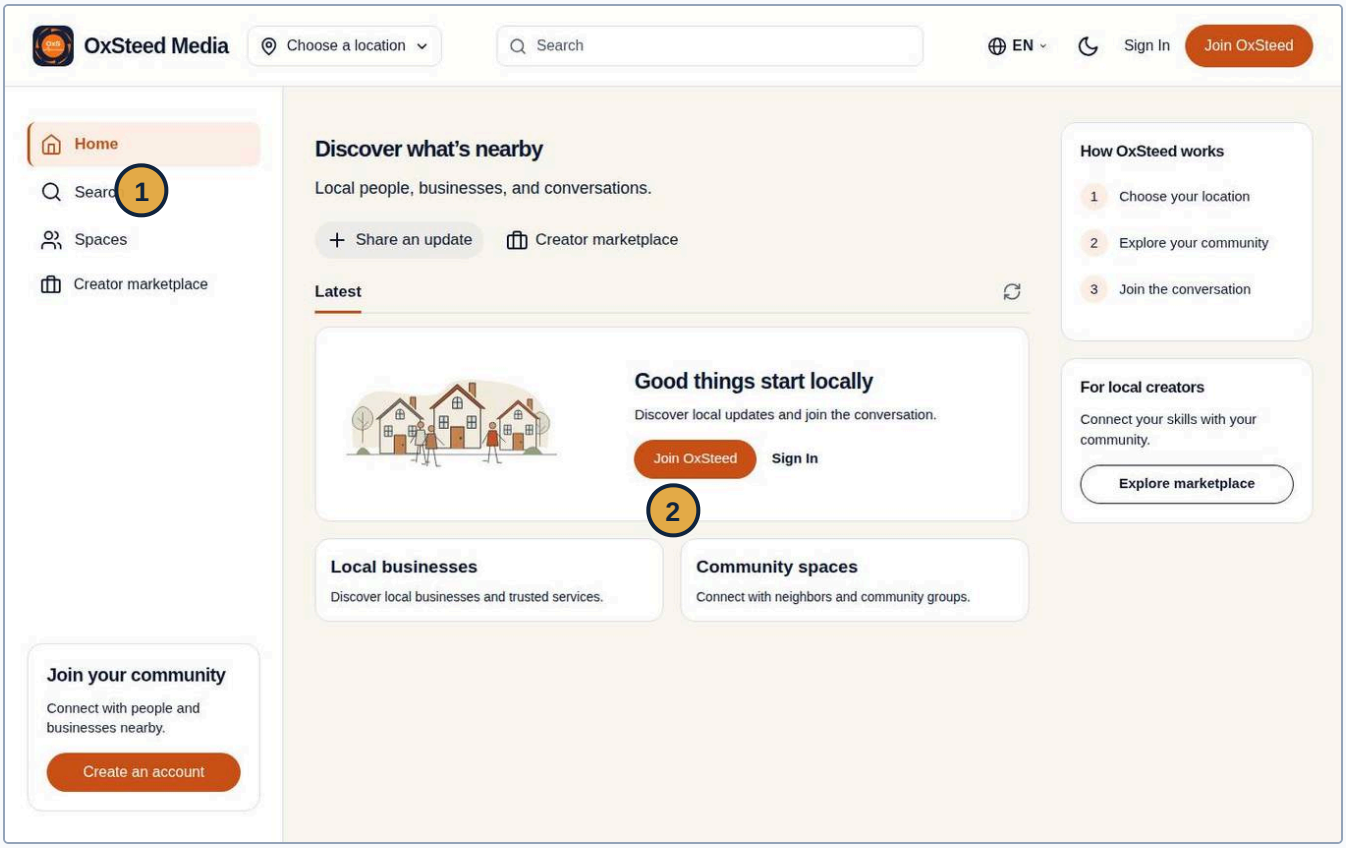

**Figure 1.** The Media feed, desktop view. *(Image description: OxSteed Media feed with posts)*

1. **1.** Media navigation
2. **2.** Composer prompt

## Step 2: Search posts and accounts

Open /media/search. The page is titled "Search Media" with the field "Search posts and accounts…" and the "Search" button. Results split into "Accounts" and "Posts" tabs.

**Expected result:** Matching accounts and posts appear under their tabs.

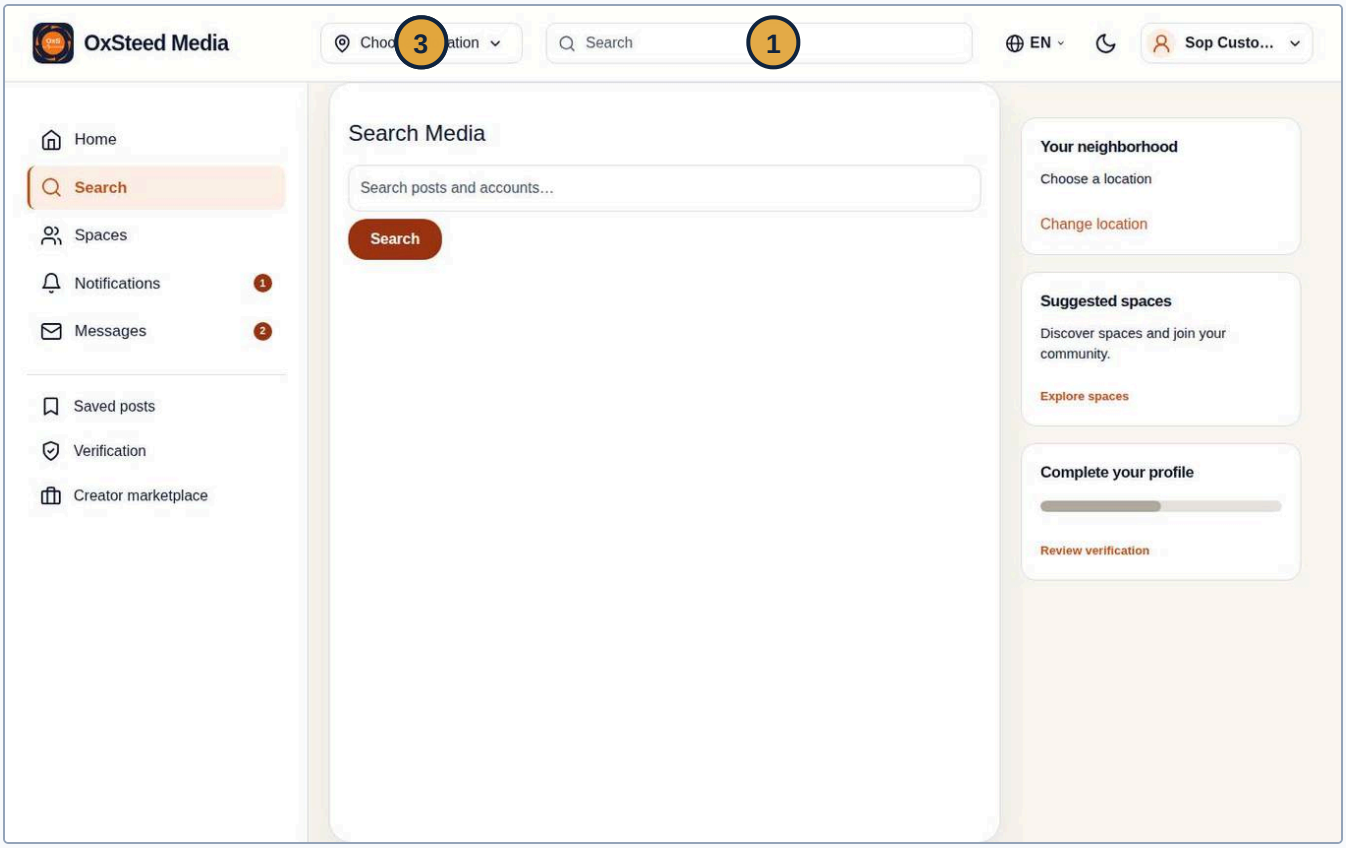

**Figure 2.** Searching Media, desktop view. *(Image description: Media search results for posts and accounts)*

1. **1.** Search field
2. **2.** Accounts tab
3. **3.** Posts tab

## Step 3: Compose a post

Sign in, then open /media/compose. The page is titled "New post" with the placeholder "What's happening in your local economy?" Choose "Post as" to pick your publishing identity ("My helper profile" for helper accounts). Use "Add link" or "YouTube or Vimeo video" to attach media. "Save draft" keeps your work; "Discard draft" removes it.

> **Expected result:** Your draft is ready in the composer with the correct publishing identity.

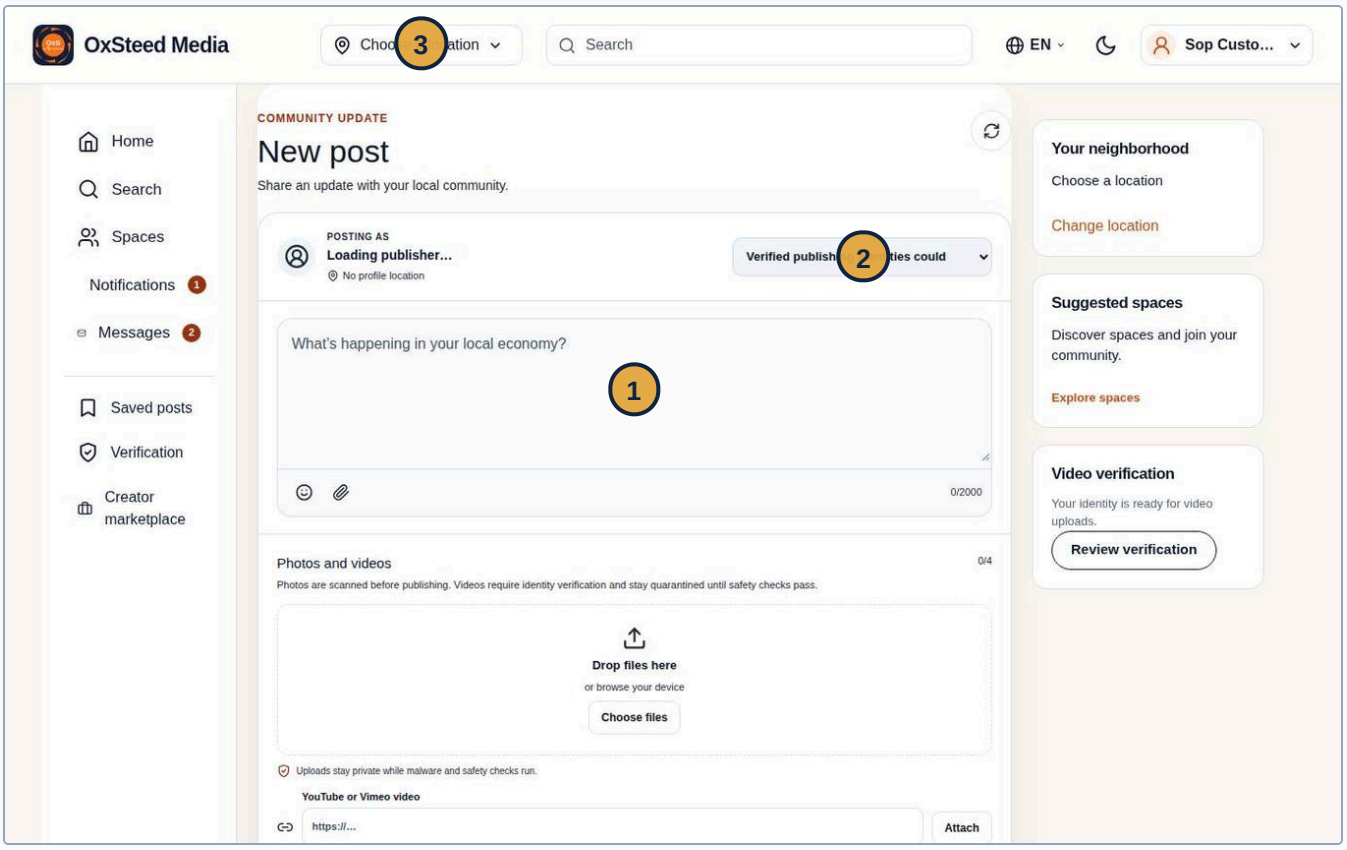

**Figure 3.** Composing a post, desktop view. *(Image description: New post composer with text and attachment options)*

1. **1.** Post text area
2. **2.** Post as selector
3. **3.** Add link

### Step 4: Publish and explore communities

Publish the post; it appears in the feed and on your profile. Then open /media/communities to browse communities, open a community to read its posts, and follow the ones you care about. Saved posts live under "Saved posts" at /media/bookmarks, and notifications under Notifications.

> **Expected result:** Your post is live in the feed and you follow at least one community.

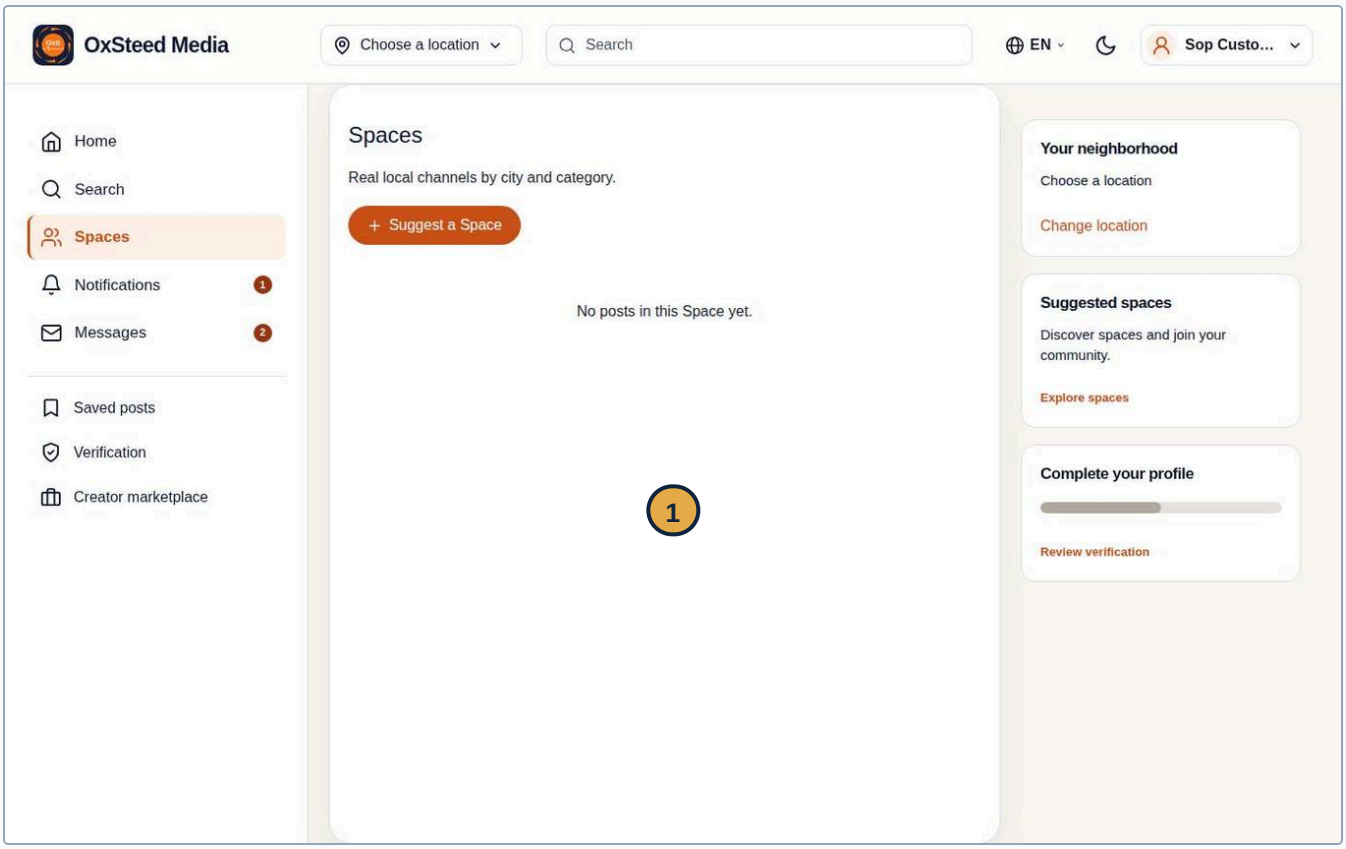

**Figure 4.** Media communities, desktop view. *(Image description: Media communities list)*

1. **1.** Community list

## Confirm it worked

Your post appears in the feed and on your profile, and your followed communities show in your list.

## If something goes wrong

| Problem | What to do |
| --- | --- |

| | |
|---|---|
| The composer says "Verification required" or "Not verified". | Complete verification first at /media/verification, then return to the composer. |
| A video attachment fails with "Video posts aren't available right now." | Remove the video and post photos instead, or try again later. |

## Need help?

Media issues: contact support from the in-app support page at /support.

**Guide ID:** other-delivery | **Revision:** 1 | **Area:** Delivery

SOP LIBRARY / DELIVERY **ENGLISH**

# Request and track deliveries

| | |
|---|---|
| **Guide ID** | **other-delivery** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper (driver) |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/delivery/request-delivery |

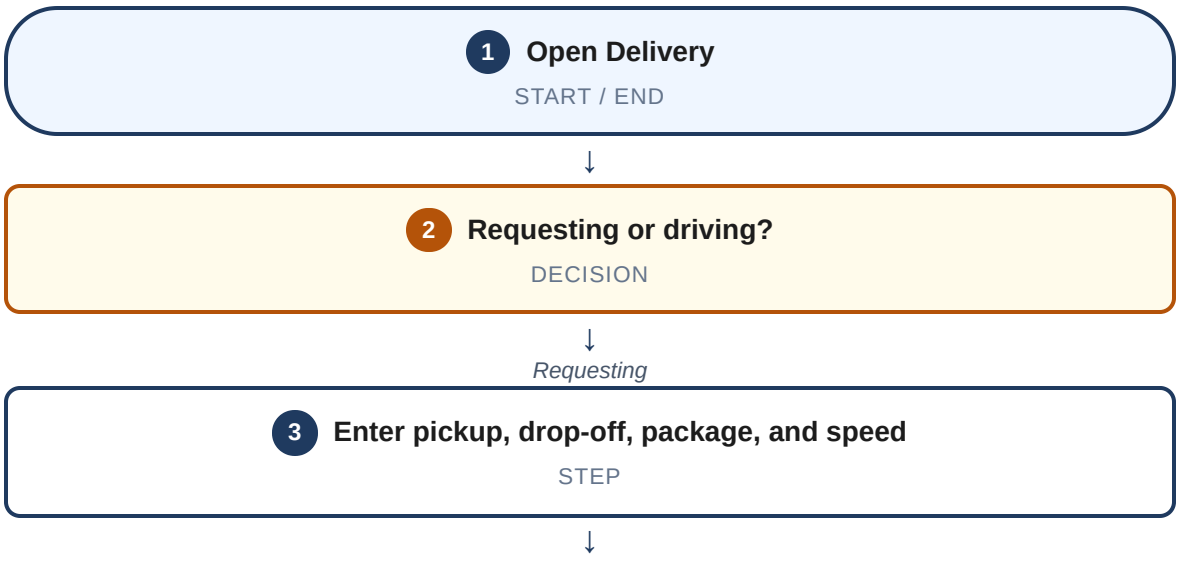

## Goal

Get a delivery quote, post the delivery job, and track it; or claim a delivery job as a driver.

## Before you start

1. Guests can see the landing and get quotes. Sign in to post or claim delivery jobs.

## Process map

- *Driving:* Requesting or driving? → Choose Claim delivery on an open job
- Choose Claim delivery on an open job → Delivery posted or claimed

**Text version.** 1. Open Delivery at /delivery. Guests see the landing page; signed-in users see the delivery workspace. 2. If you are requesting a delivery: enter the Pickup and Drop-off addresses, Package size, Weight (lb), Speed, and Delivery notes. 3. Choose "Get a quote" to see "Your estimated price" with the route distance, duration, and breakdown. 4. Choose "Post delivery" to publish the job. 5. Track it at /delivery/jobs/:id, or share the public tracking link /t/:token. If you are driving: open the driver view titled "Deliver nearby work", choose "Claim delivery" on an open job, and move it through pickup, transit, and drop-off.

## Steps

### Step 1: Open Delivery and enter the route

Open /delivery. The customer form is titled "Book a delivery" with the body "Tell us where it starts, where it is going, and how quickly it needs to arrive." Enter "Pickup" ("Choose a pickup address") and "Drop-off" ("Choose a drop-off address"). Choose an address suggestion for both stops so the route can be priced accurately.

> **Expected result:** Both stops show selected addresses.

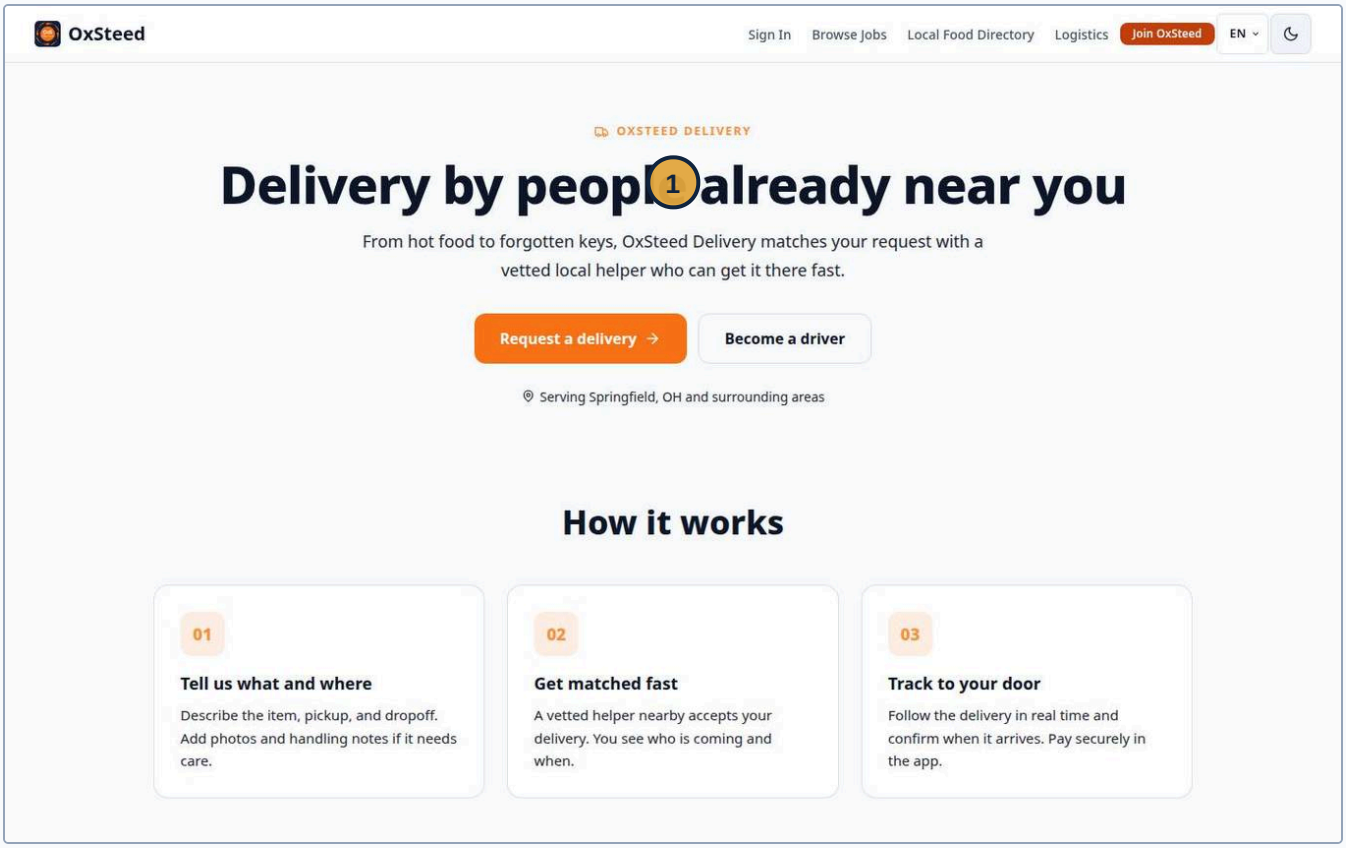

**Figure 1.** Booking a delivery, desktop view. *(Image description: Book a delivery form with pickup and drop-off fields)*

1. **1.** Book a delivery title

## Step 2: Set package details and get a quote

Set "Package size", "Weight (lb)", "Speed", and "Delivery notes" ("Access instructions, landmarks, or special handling"). Choose "Get a quote". The panel "Your estimated price" shows the route ("{{miles}} mi route", "About {{minutes}} min") and the breakdown: Delivery, Platform fee, Tolls and parking, and Customer total. Quotes expire: "Quote valid for {{minutes}} minutes".

> **Expected result:** The estimated price panel shows the route and the customer total.

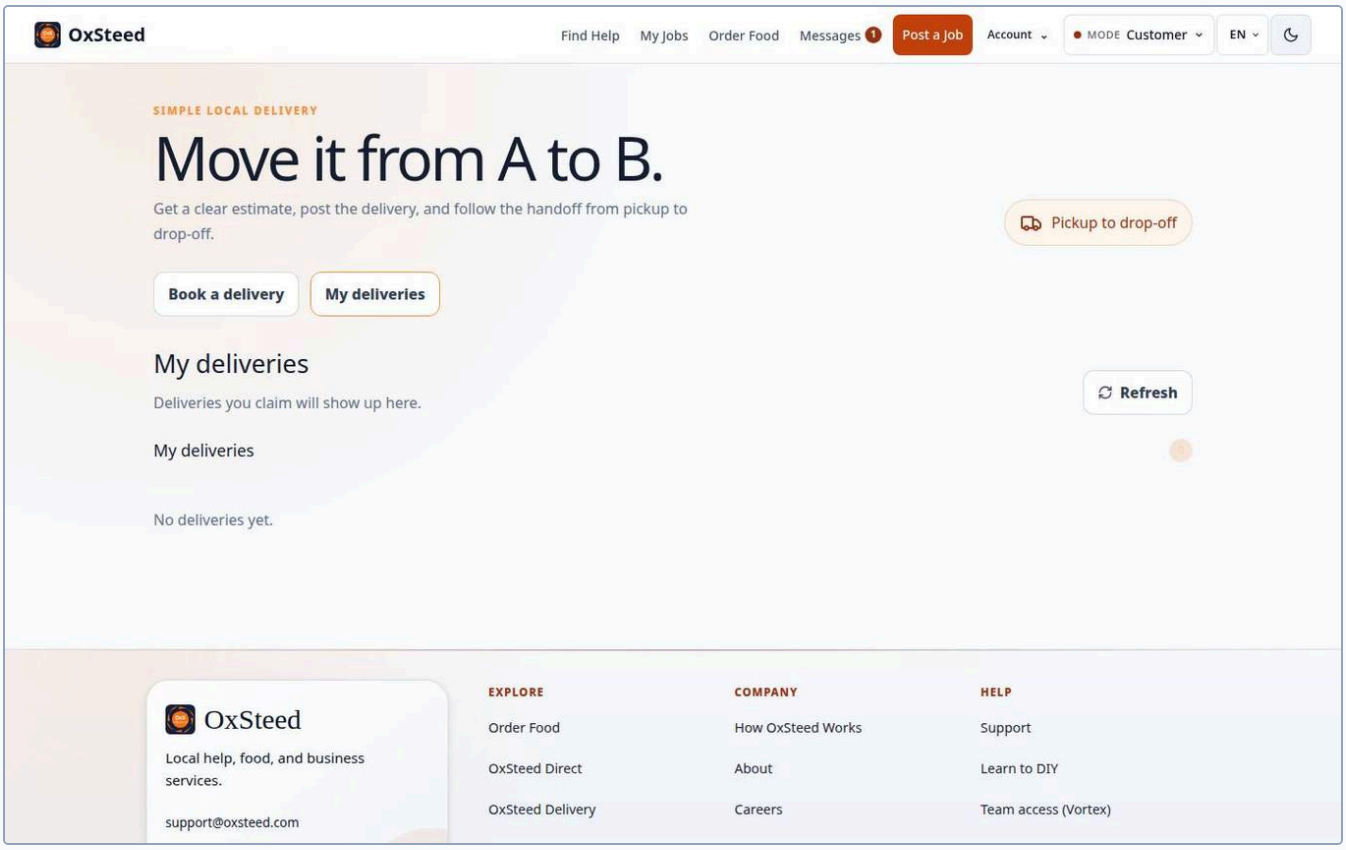

**Figure 2.** The delivery quote, desktop view. *(Image description: Estimated price panel with route and total)*

## Step 3: Post the delivery and track it

Choose "Post delivery". You see "Delivery posted". Open the job at /delivery/jobs/:id to follow the timeline, message the driver with "Open messages", or cancel with "Cancel delivery" ("Cancelling releases the job and notifies the other party. This cannot be undone."). Share the public tracking link /t/:token with the recipient so they can follow without signing in.

> **Expected result:** The delivery job is posted and tracking is available.

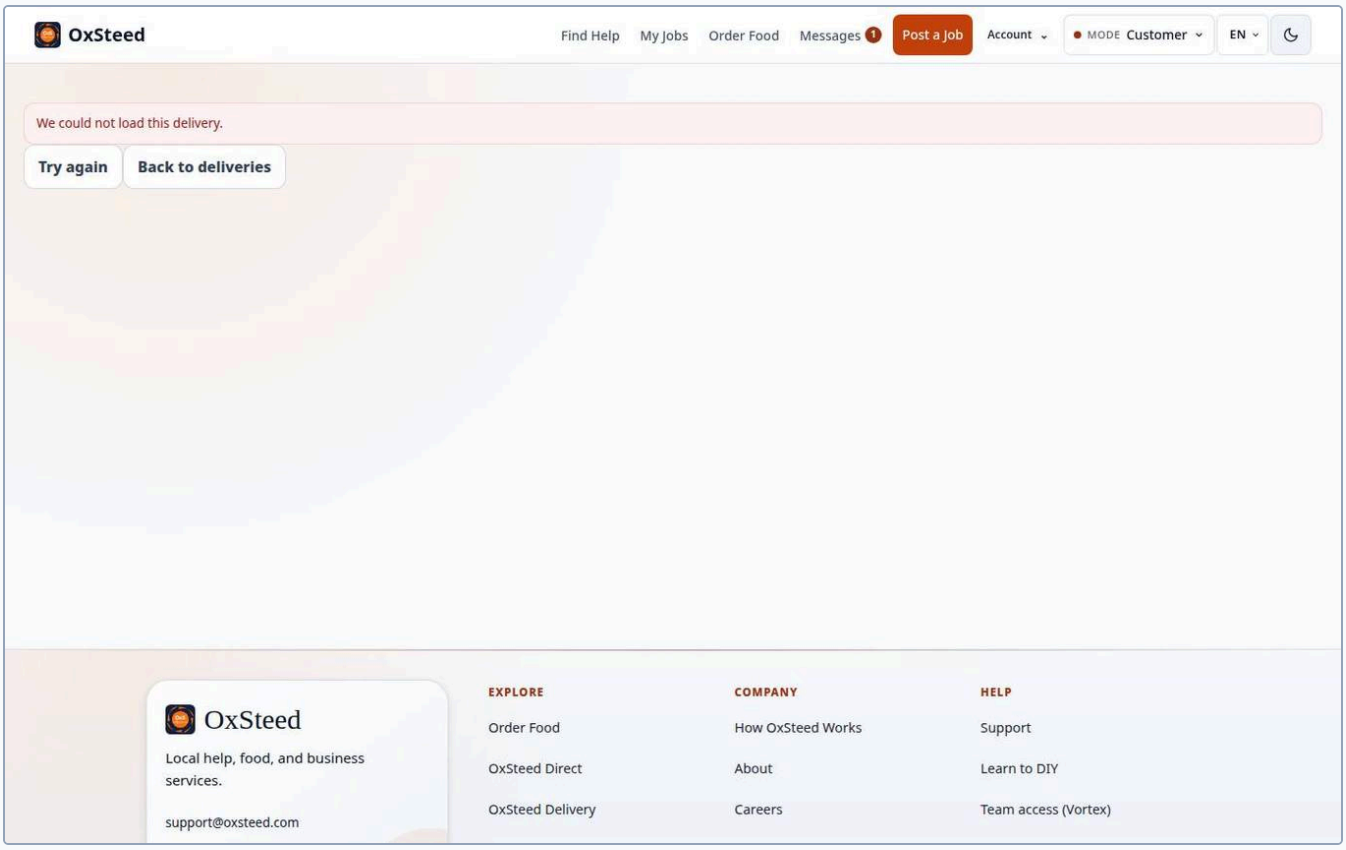

**Figure 3.** Tracking a delivery, desktop view. *(Image description: Delivery job detail with the tracking timeline)*

### Step 4: Claim a delivery as a driver

Drivers: open /delivery while signed in as a helper to see the driver view titled "Deliver nearby work" with the body "Claim a route that fits your day and move it through pickup, transit, and drop-off." Open "My deliveries" for your claimed jobs. On an open job choose "Claim delivery", then move it through pickup, transit, and drop-off using the status actions.

> **Expected result:** The job is claimed and appears under "My deliveries".

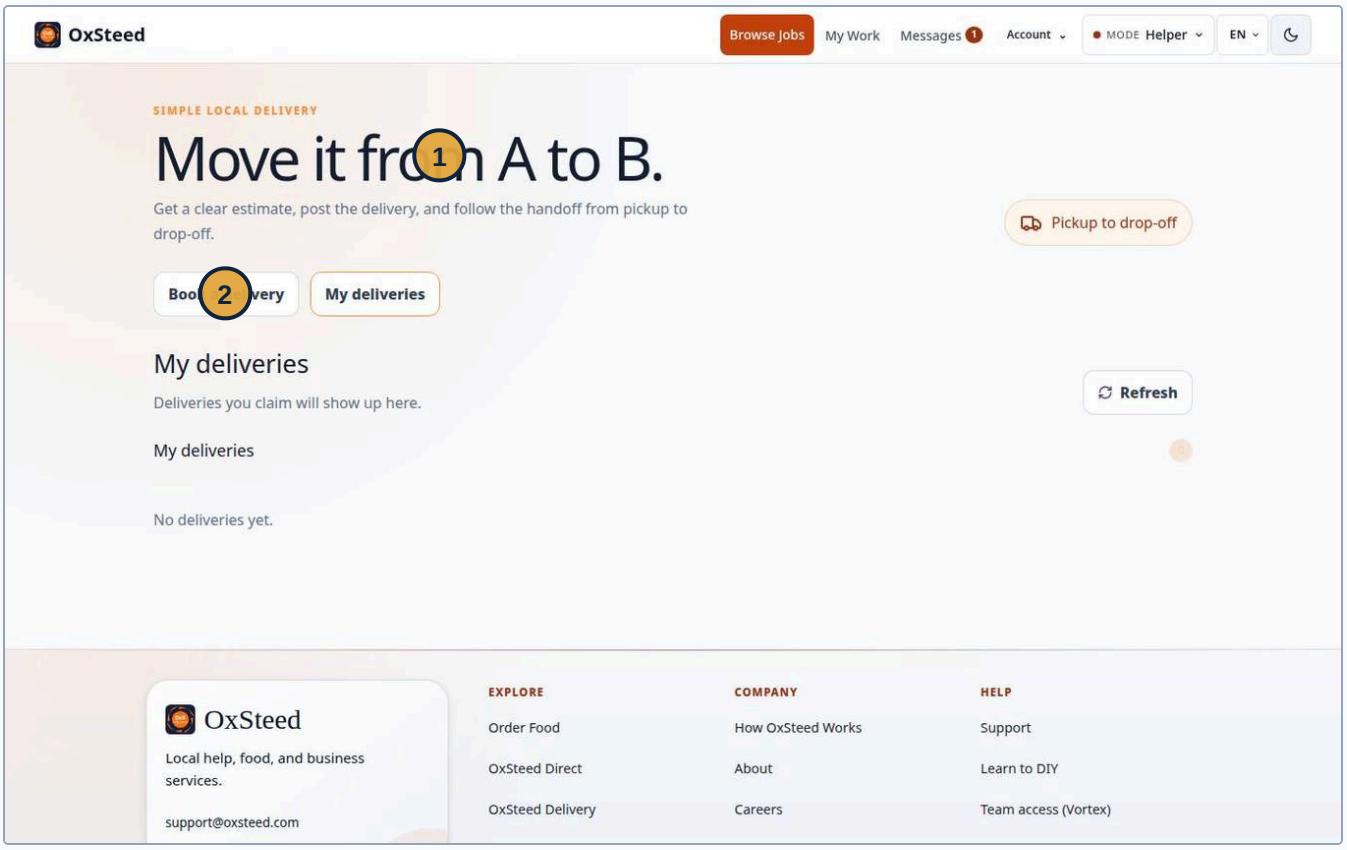

**Figure 4.** The driver view, desktop view. *(Image description: Driver delivery list with Claim delivery buttons)*

1. **1.** Deliver nearby work title
2. **2.** Claim delivery button

## Confirm it worked

The delivery job is posted and trackable, or claimed and listed under "My deliveries".

## If something goes wrong

| Problem | What to do |
| --- | --- |
| You see "This delivery quote has expired. Get a new quote to continue." | Choose "Get a quote" again to refresh the price, then post. |
| You see "The delivery details changed after pricing. Get a new quote before posting." | Re-check the stops and package details, then get a fresh quote before posting. |

## Need help?

Delivery issues: contact support from the in-app support page at /support.

**Guide ID:** other-calendar | **Revision:** 1 | **Area:** Calendar

SOP LIBRARY / CALENDAR **ENGLISH**

# Manage the calendar

| | |
|---|---|
| **Guide ID** | **other-calendar** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper, Business owner |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/calendar/manage-calendar |

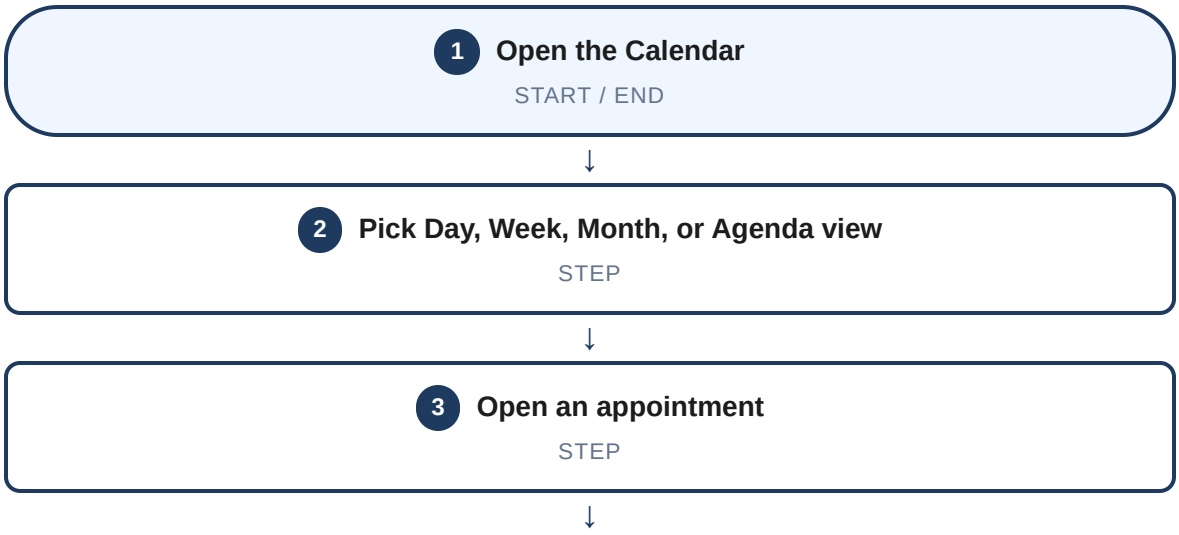

## Goal

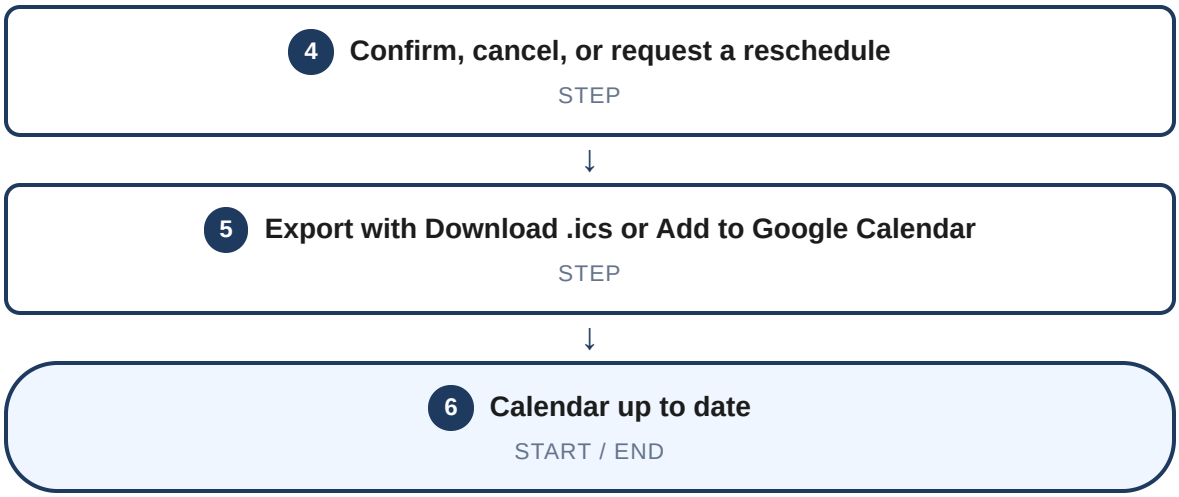

Review appointments, confirm or cancel them, request reschedules, and export to your calendar app.

## Before you start

1. A signed-in OxSteed account.
2. Appointments created from bookings or job work.

## Process map

**Text version.** 1. Open the Calendar at /calendar. 2. Switch between Day, Week, Month, and Agenda views. 3. Open an appointment to see its details. 4. Confirm it, cancel it with a reason, or request a reschedule. 5. Export it with "Download .ics" or "Add to Google Calendar". 6. Your calendar stays in sync with your bookings.

# Steps

## Step 1: Open the Calendar

Open /calendar while signed in. The page is titled "Calendar". The view switcher offers "Day", "Week", "Month", and "Agenda". The legend explains job, booking, and event-type markers. "My Bookings" and "Booking Requests" sections sit alongside the grid.

> **Expected result:** Your appointments appear on the calendar in the selected view.

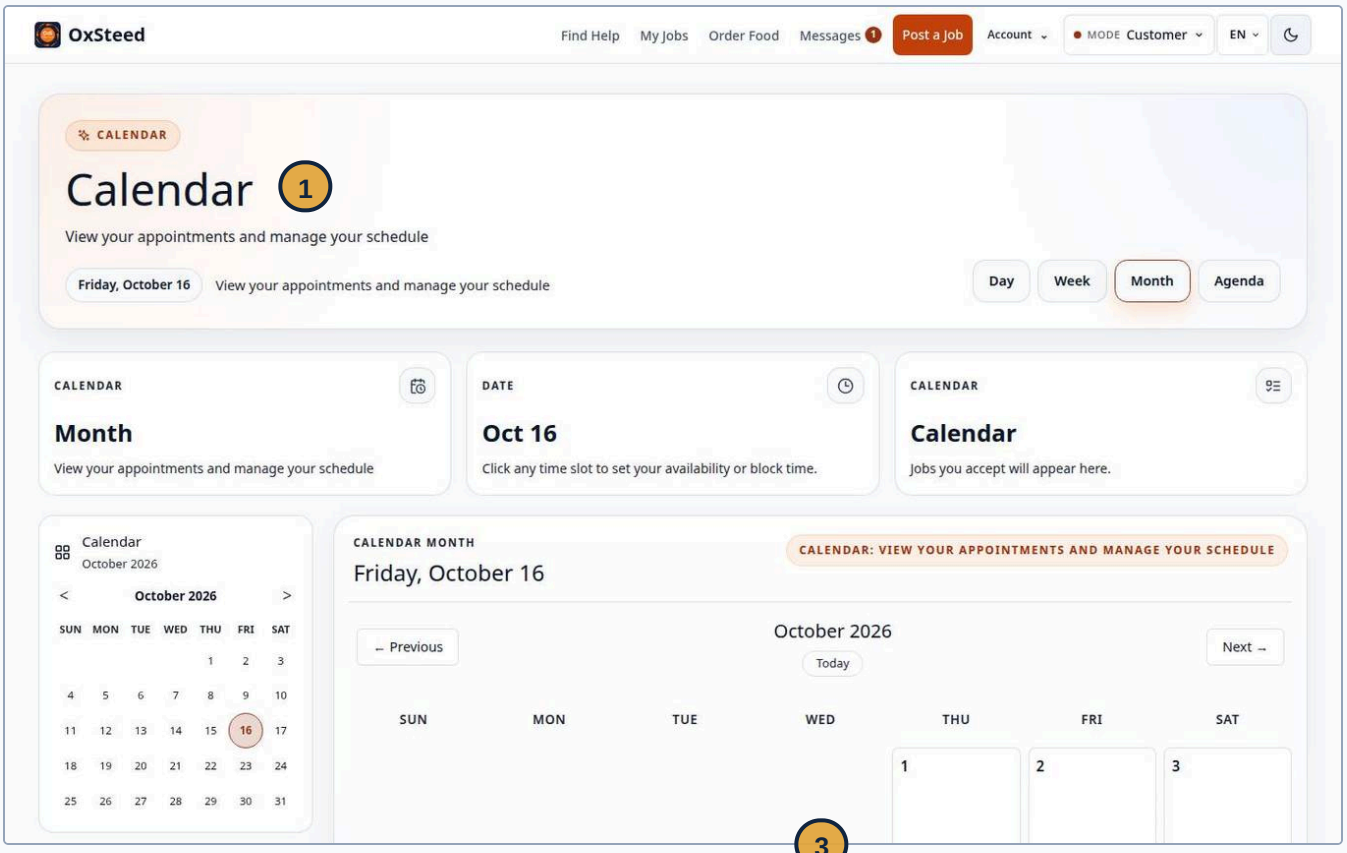

**Figure 1.** The Calendar, desktop view. *(Image description: Calendar week view with appointment blocks)*

1. **1.** Calendar title
2. **3.** Appointment blocks

## Step 2: Open an appointment

Choose an appointment to open /calendar/appointments/:appointmentId. The detail page shows "Appointment Details" with date, time, duration, status (Requested, Confirmed, In Progress, Completed, Cancelled, Rescheduled), plus customer and helper info and notes.

> **Expected result:** The appointment detail page loads with its current status.

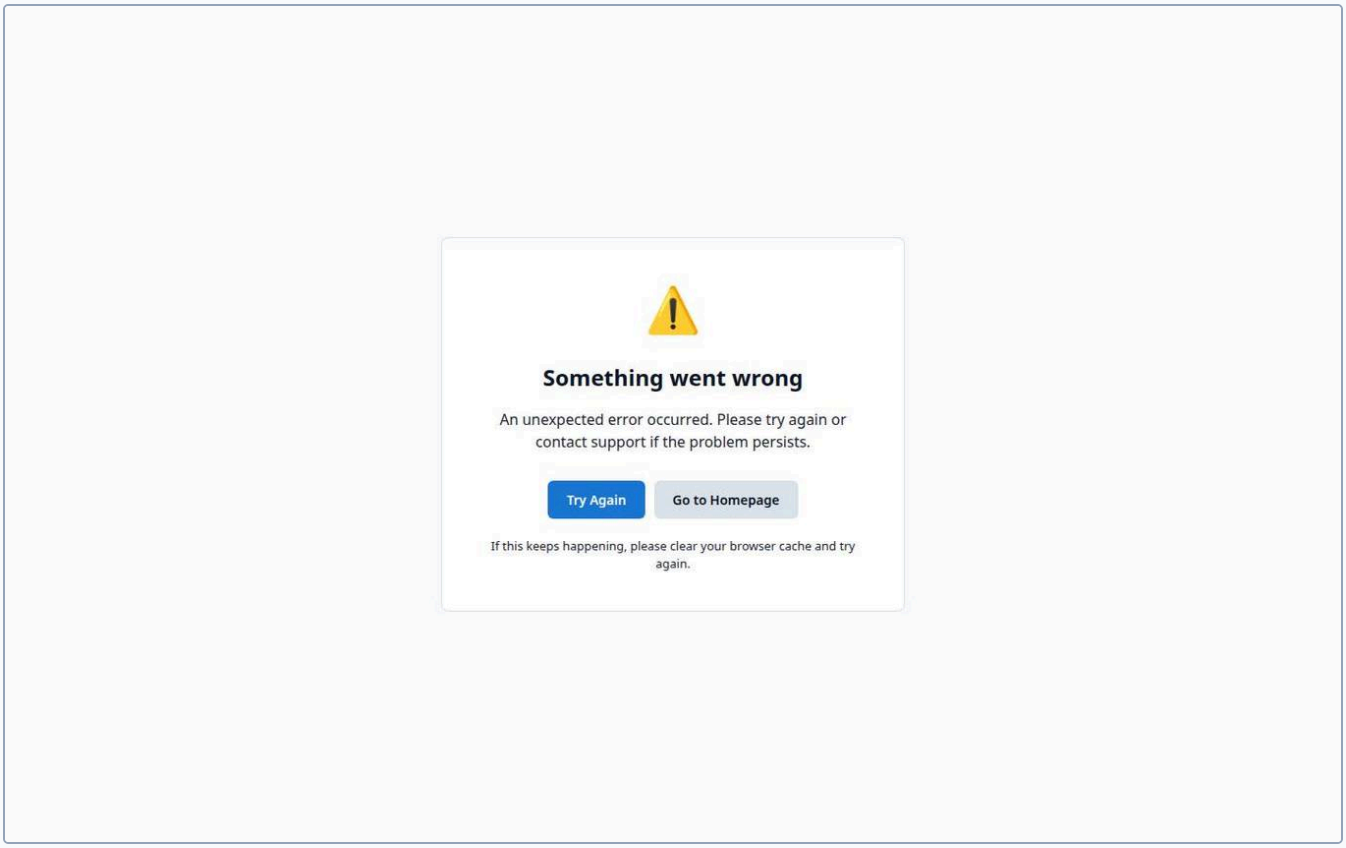

**Figure 2.** An appointment, desktop view. *(Image description: Appointment detail with status and participant info)*

## Step 3: Confirm, cancel, or request a reschedule

Use "Confirm appointment" to confirm a requested appointment. Use "Cancel appointment" to cancel; you can add a "Cancel reason" in the "Cancel reason" field. Use the reschedule action to request a new time. Status changes are saved immediately and both parties are notified.

> **Expected result:** The appointment status updates (for example to Confirmed or Cancelled).

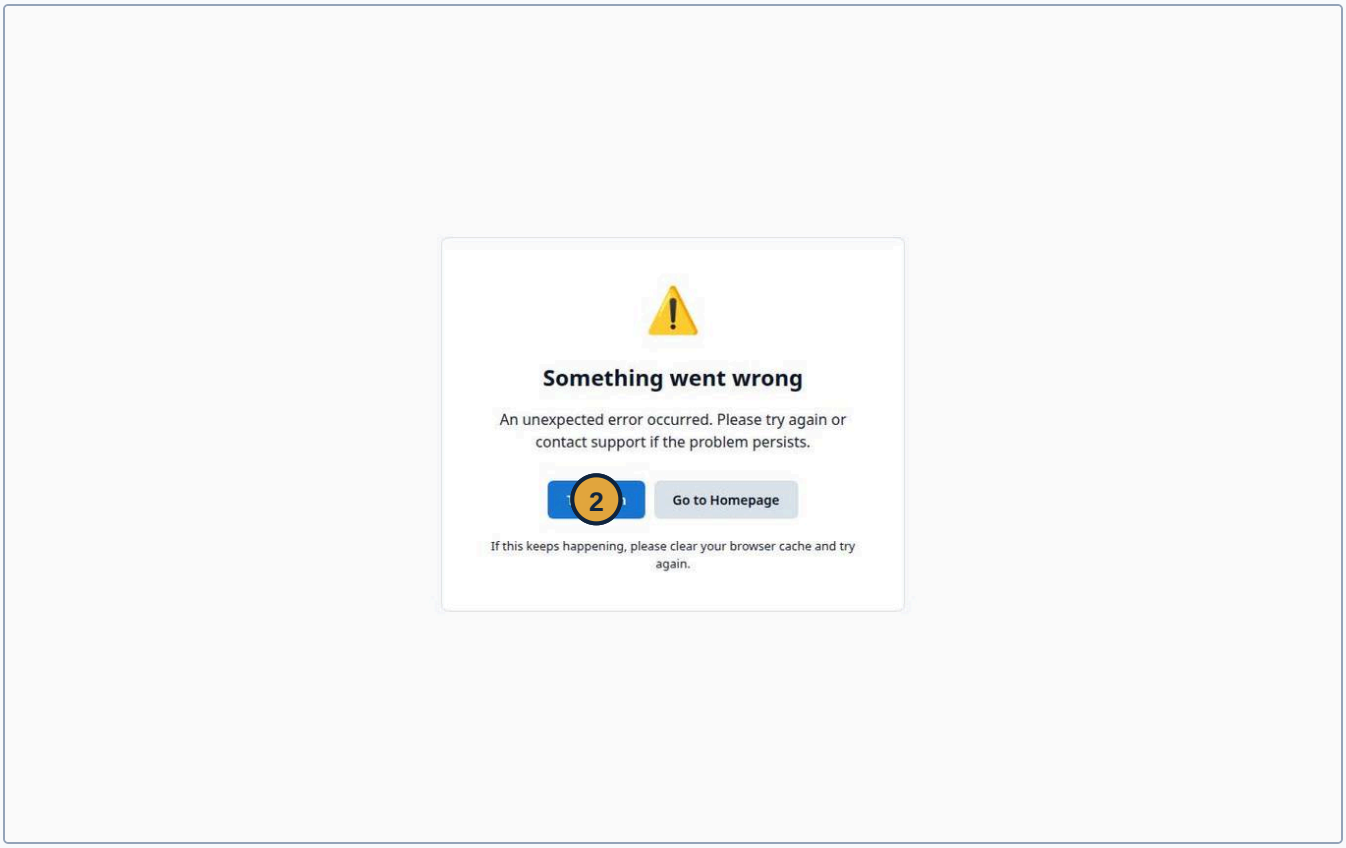

**Figure 3.** Appointment actions, desktop view. *(Image description: Confirm and Cancel appointment buttons)*

1. **1.** Confirm appointment button
2. **2.** Cancel appointment button

### Step 4: Export the appointment

Use "Download .ics" to save the appointment as an iCalendar file you can import anywhere, or "Add to Google Calendar" to add it directly. Both use the appointment date, time, and duration shown on the detail page.

> **Expected result:** The appointment is saved to your external calendar.

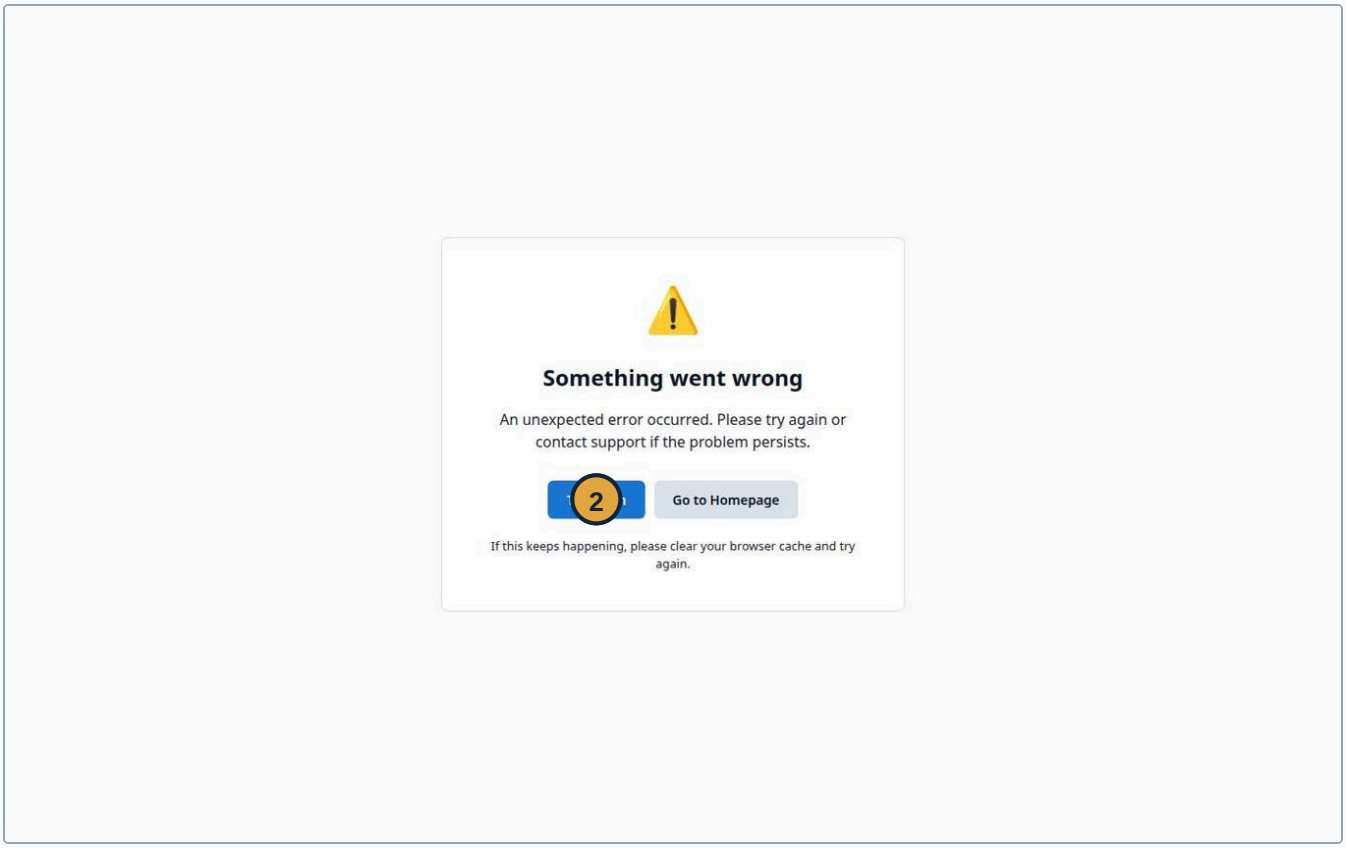

**Figure 4.** Exporting an appointment, desktop view. *(Image description: Download .ics and Add to Google Calendar options)*

1. **1.** Download .ics
2. **2.** Add to Google Calendar

## Confirm it worked

The appointment shows the expected status and appears in your external calendar after export.

## If something goes wrong

| Problem | What to do |
| --- | --- |

| | |
|---|---|
| An appointment fails to load ("Appointment unavailable"). | It may have been cancelled by the other party. Check "My Bookings" for the current state. |
| You cancelled by mistake. | A cancelled appointment cannot be un-cancelled here. Message the other party to create a new booking. |

## Need help?

Calendar issues: contact support from the in-app support page at /support.

## Related guides

- Message across the platform (other-messages)

## Links in the app

- Calendar /calendar

**Guide ID:** other-messages | **Revision:** 1 | **Area:** Messages

SOP LIBRARY / MESSAGES **ENGLISH**

# Message across the platform

| | |
|---|---|
| **Guide ID** | **other-messages** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper, Business owner |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/messages/send-messages |

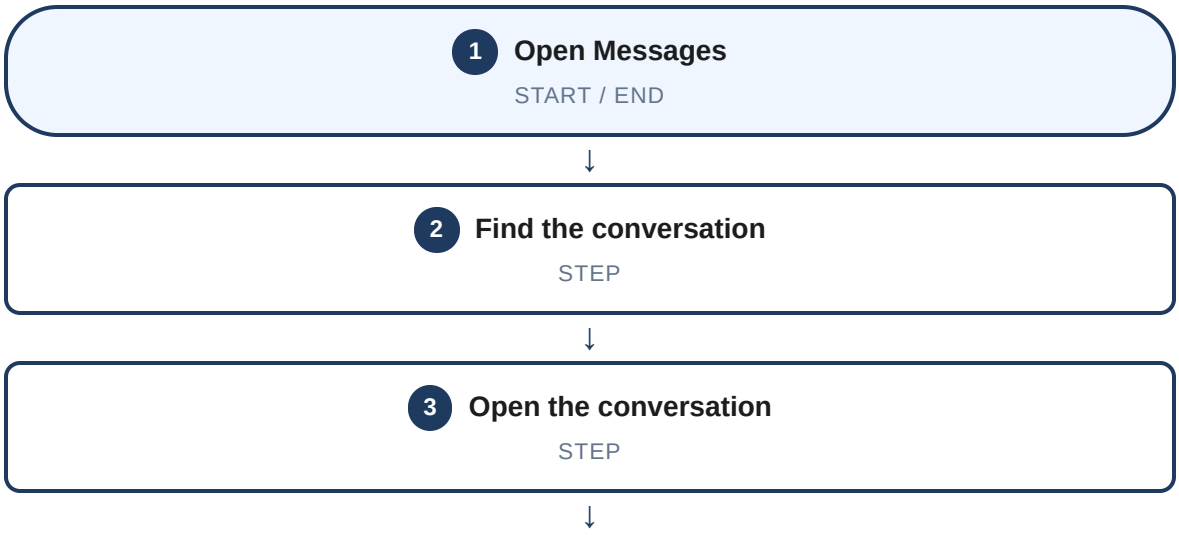

## Goal

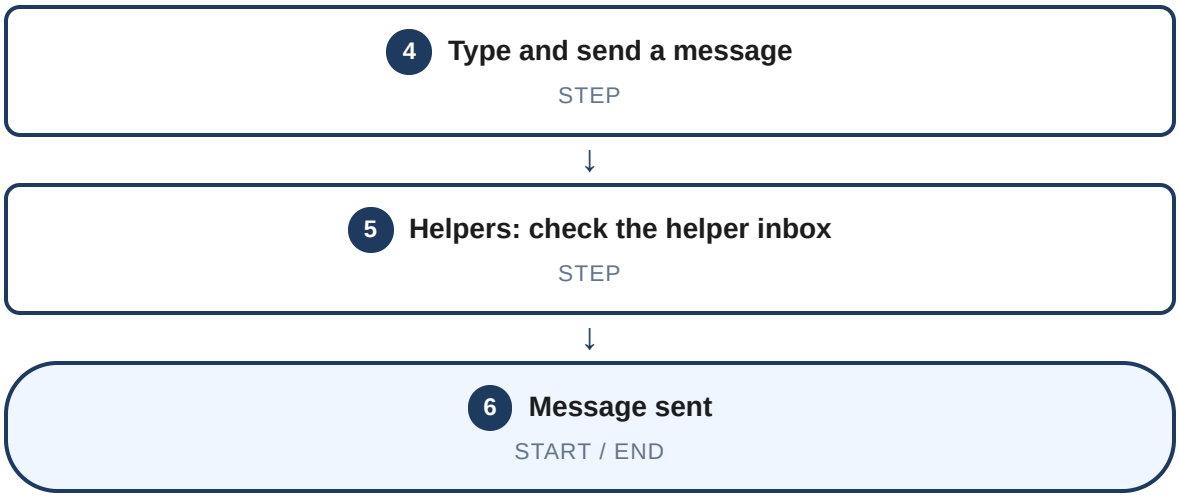

Find a conversation, read messages, and send replies across customer and helper inboxes.

## Before you start

1. A signed-in OxSteed account.
2. A job, booking, or inquiry that created a conversation.

## Process map

**Text version.** 1. Open Messages at /messages. 2. Find the conversation in the list; an empty inbox shows "No conversations yet". 3. Open the conversation at /messages/:conversationId. 4. Type in the "Type a message…" box and choose "Send". 5. Helpers have a separate inbox at /helper/messages with the same flow. 6. Your message is delivered and marked seen when read.

# Steps

## Step 1: Open the Messages inbox

Open /messages while signed in. The page is titled "Messages". The conversation list shows recent threads with unread badges. An empty inbox shows "No conversations yet". Helpers also have a dedicated inbox at /helper/messages with the same layout.

> **Expected result:** Your conversations are listed, newest first.

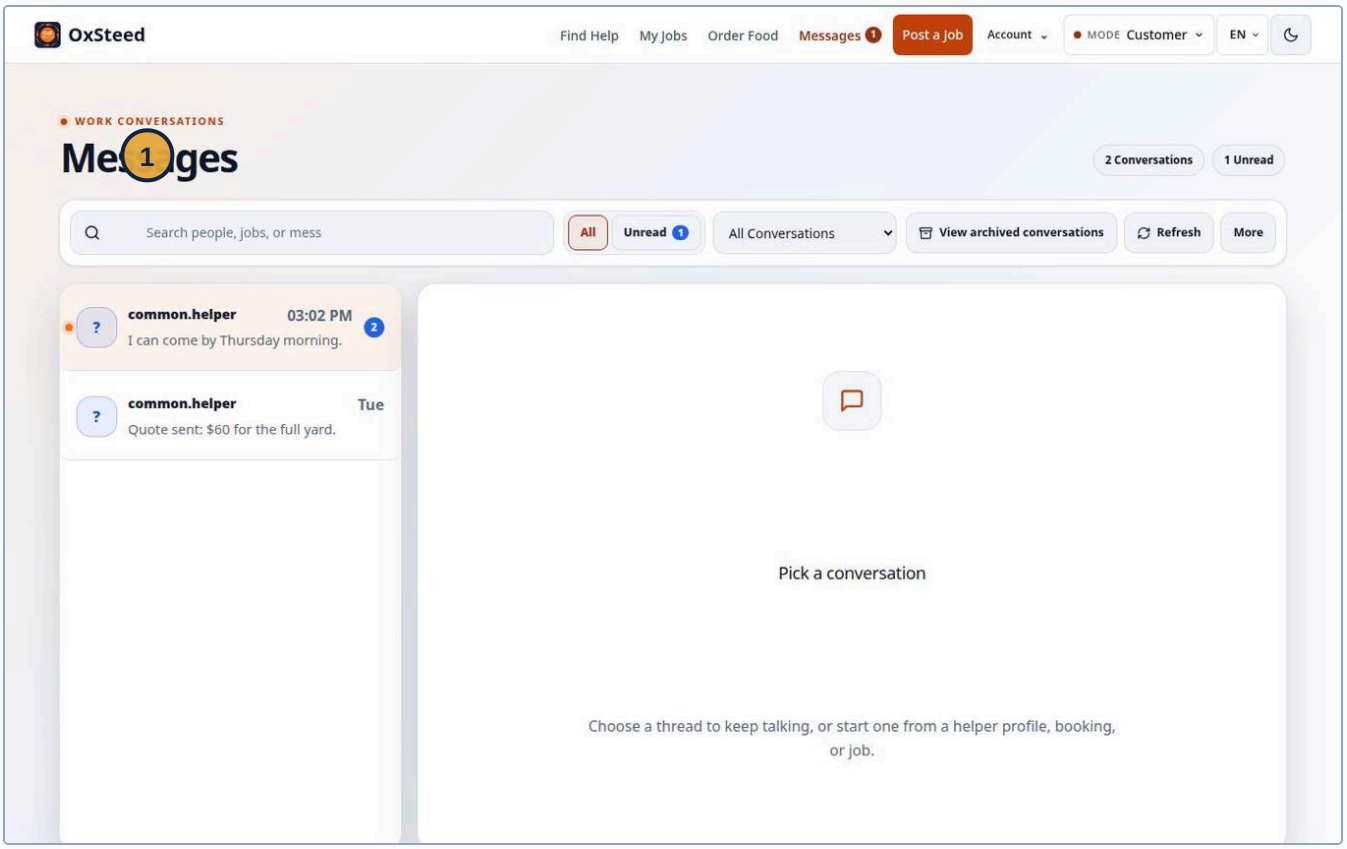

**Figure 1.** The Messages inbox, desktop view. *(Image description: Messages inbox with the conversation list)*

1. **1.** Messages title

## Step 2: Open a conversation

Choose a conversation to open /messages/:conversationId. The thread shows message history with timestamps ("Today", "Yesterday") and seen indicators. If the conversation is missing, the page shows a not-found message.

> **Expected result:** The full message thread loads.

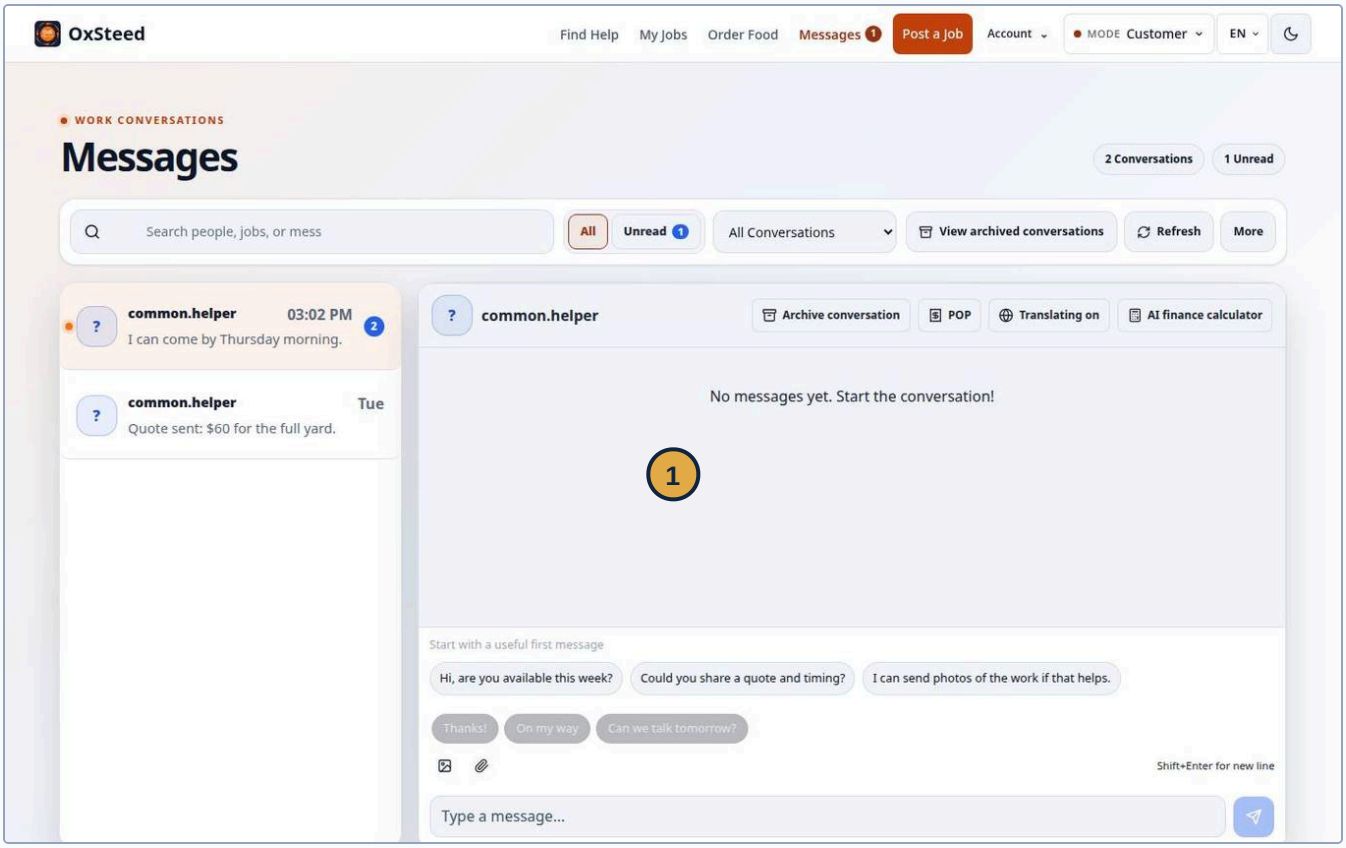

**Figure 2.** A conversation, desktop view. *(Image description: Open conversation with message history)*

1. **1.** Message history

## Step 3: Type and send a message

Type in the "Type a message…" box at the bottom and choose "Send". The other party sees a typing indicator while you write. Your sent message appears in the thread and shows as seen once read.

> **Expected result:** Your message appears in the thread immediately.

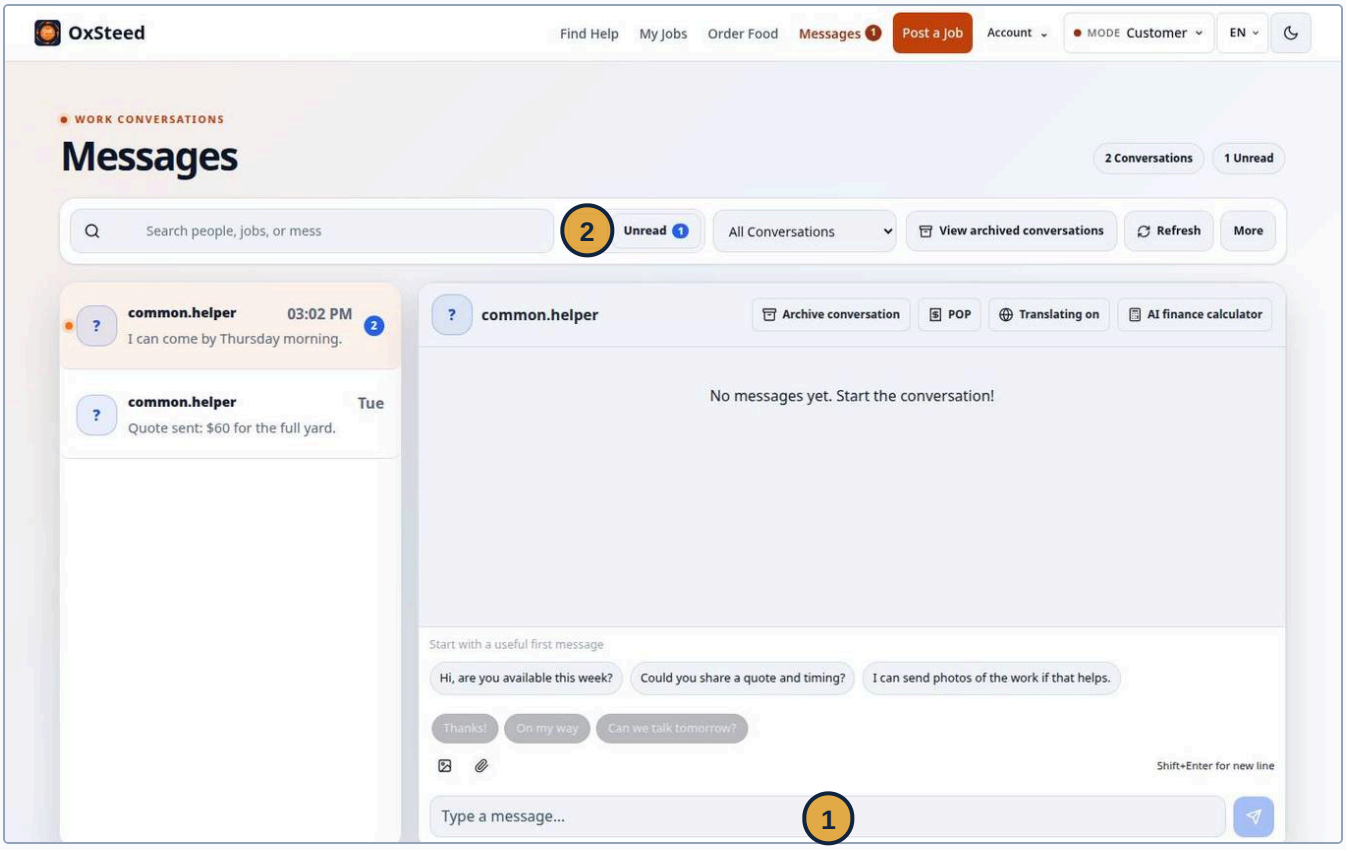

**Figure 3.** Sending a message, desktop view. *(Image description: Message composer with the Send button)*

1. **1.** Type a message box
2. **2.** Send button

### Step 4: Check the helper inbox

Helpers: open /helper/messages for the helper inbox, which mirrors the same flow with helper-context threads (guest inquiries, job conversations). Switch back to /messages for customer-context threads.

> **Expected result:** You see helper-context conversations separately from customer ones.

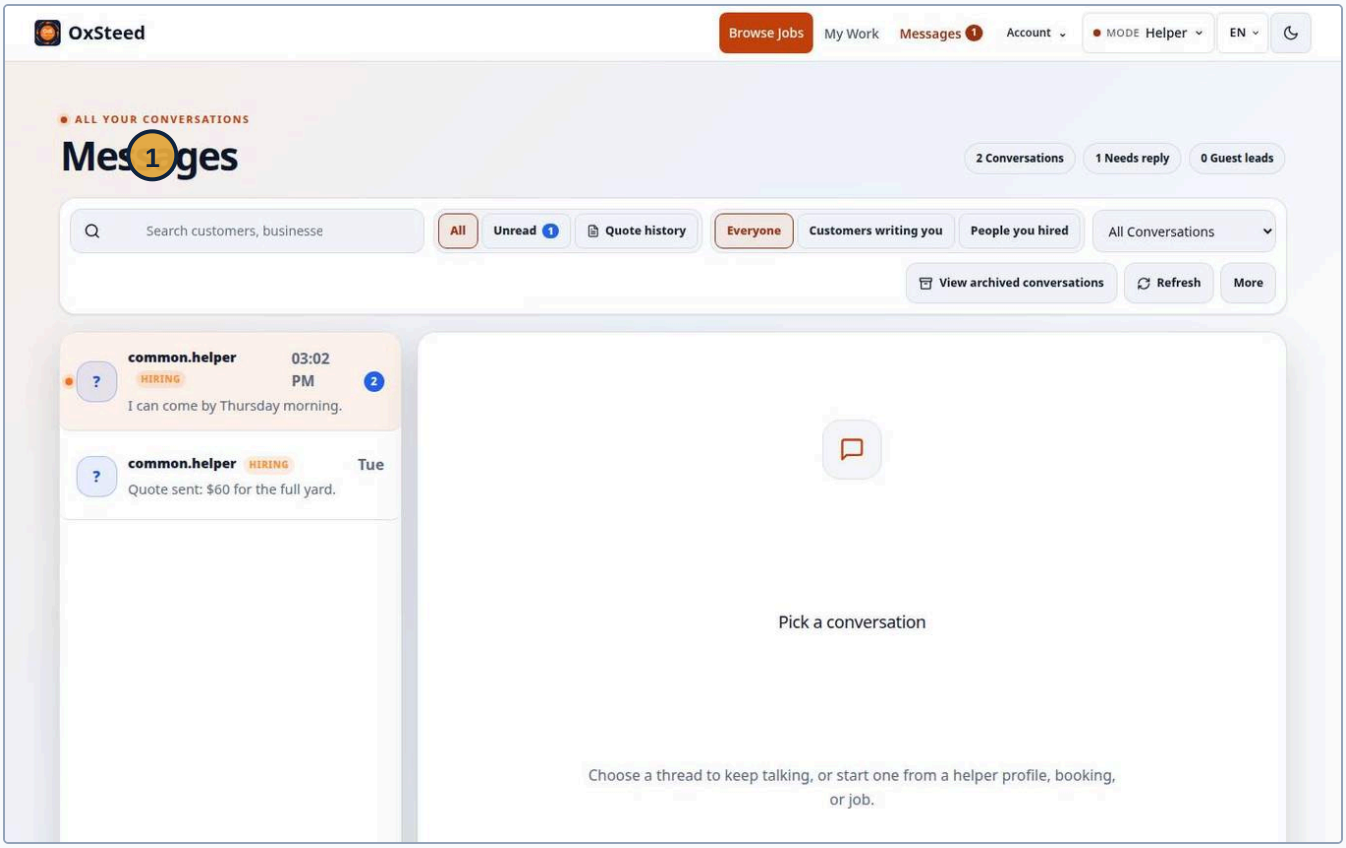

**Figure 4.** The helper inbox, desktop view. *(Image description: Helper messages inbox)*

1. **1.** Helper inbox title

## Confirm it worked

Your message appears in the thread and is marked seen when the other party reads it.

## If something goes wrong

| Problem | What to do |
|---|---|
| A conversation is missing from the list. | Check the other inbox (customer vs helper). Guest inquiries also appear under their own entry. |

| | |
|---|---|
| Messages fail to send. | Check your connection and try again. If the thread still fails, contact support at /support. |

## Need help?

Messaging issues: contact support from the in-app support page at /support.

## Related guides

**Guide ID:** other-consulting | **Revision:** 1 | **Area:** Consulting

SOP LIBRARY / CONSULTING **ENGLISH**

# Request and deliver consulting

| | |
|---|---|
| **Guide ID** | **other-consulting** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper (consultant) |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/consulting/request-consulting |

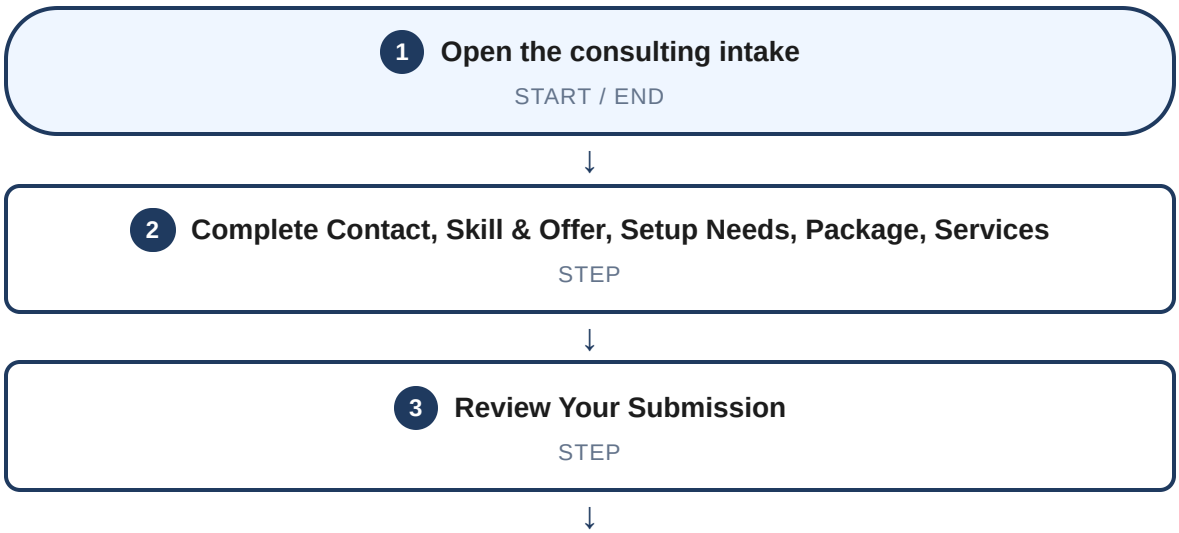

## Goal

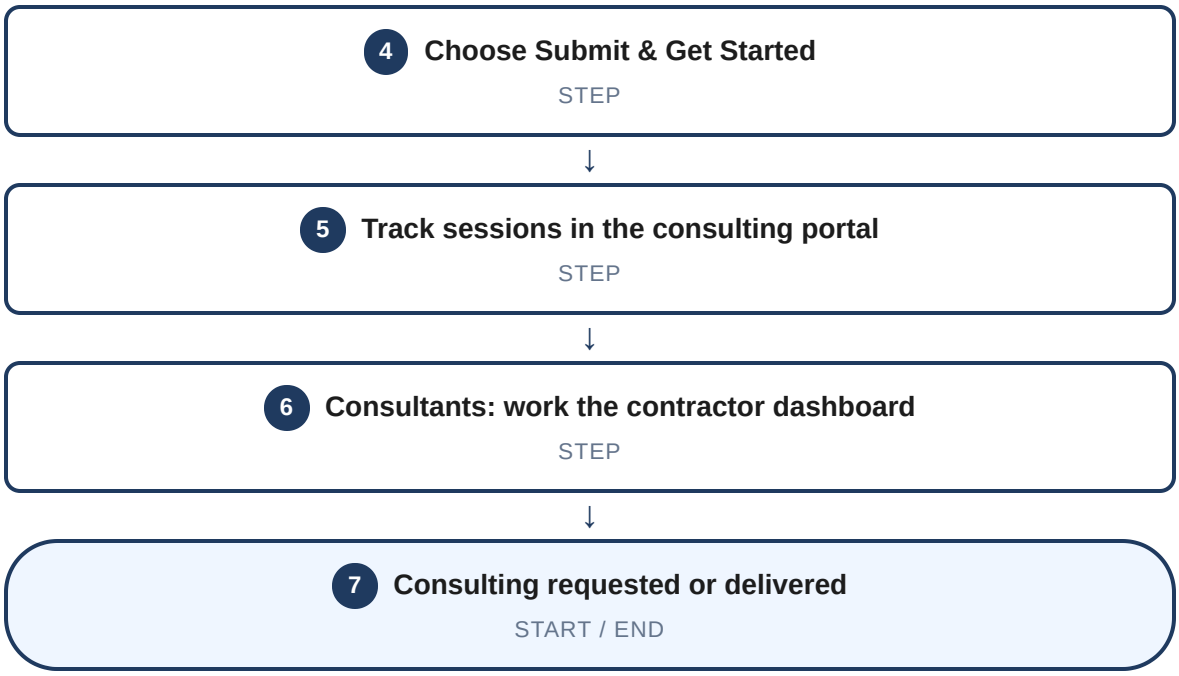

Submit a consulting intake request, or manage consulting work as a consultant.

## Before you start

1. No account needed for intake. Sign in to use the portal and contractor dashboard.

## Process map

**Text version.** 1. Open the consulting intake at /consulting-intake, titled "Business Ascension Consulting Intake". 2. Work through the steps: Contact, Skill & Offer, Setup Needs, Package, and Services. 3. Review everything on "Review Your Submission". 4. Choose "Submit & Get Started". 5. Track your sessions in the consulting portal at /consulting/portal. 6. Consultants manage their pipeline from the contractor dashboard at /consulting/contractor-dashboard.

# Steps

## Step 1: Open the consulting intake

Open /consulting-intake. The page is titled "Business Ascension Consulting Intake". The step indicator shows Contact, "Skill & Offer", "Setup Needs", Package, Services, and Confirm. Guests can complete intake without an account.

> **Expected result:** The intake form loads on the Contact step.

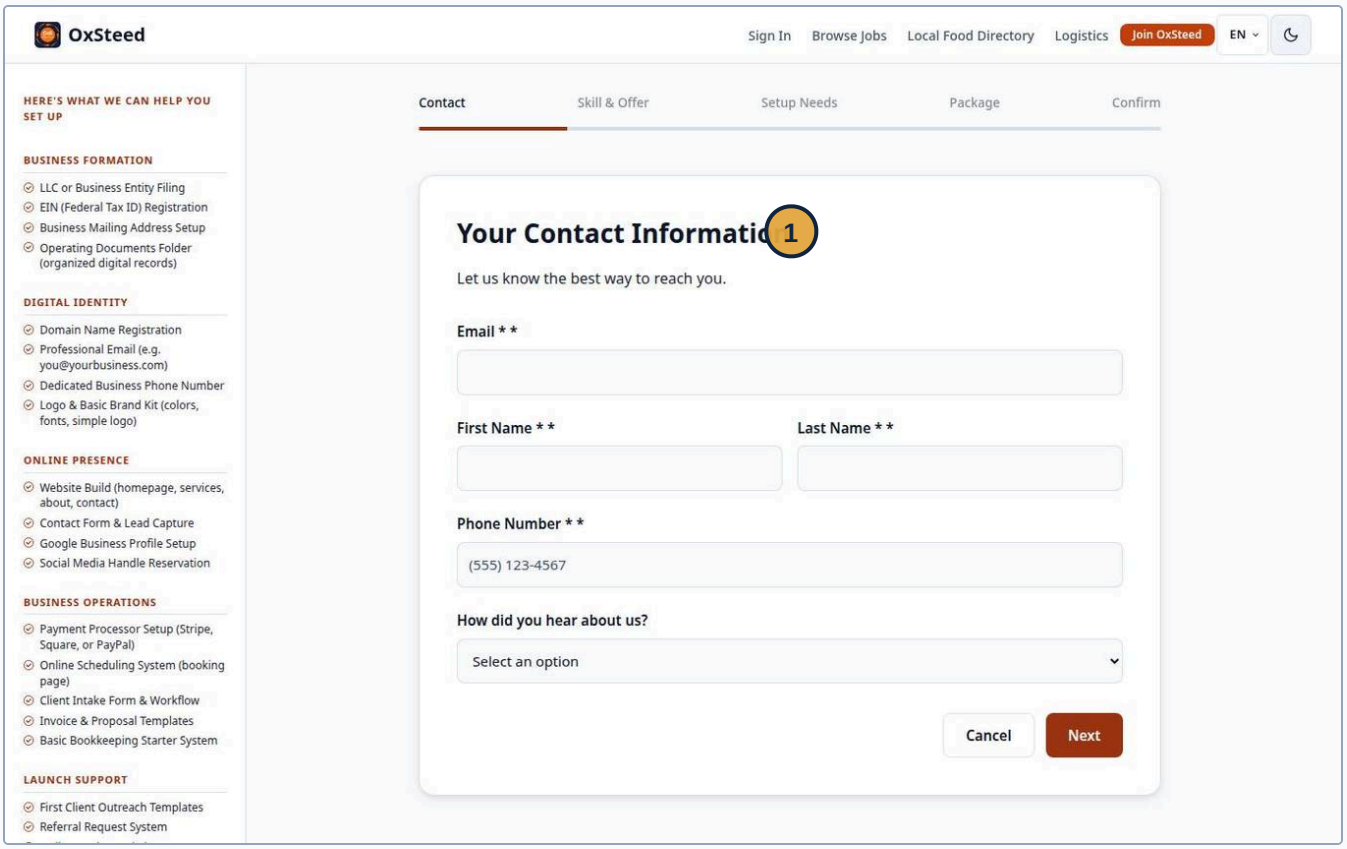

**Figure 1.** The consulting intake, desktop view. *(Image description: Consulting intake with the step indicator)*

1. **1.** Intake title

## Step 2: Complete the intake steps

Fill in Contact (name, email, phone, business name, country), then "Skill & Offer", "Setup Needs", Package, and Services. Use "Back" to go to the previous step and "Next" to continue. Each step validates before you can move on.

> **Expected result:** All steps show as complete and you reach the Confirm step.

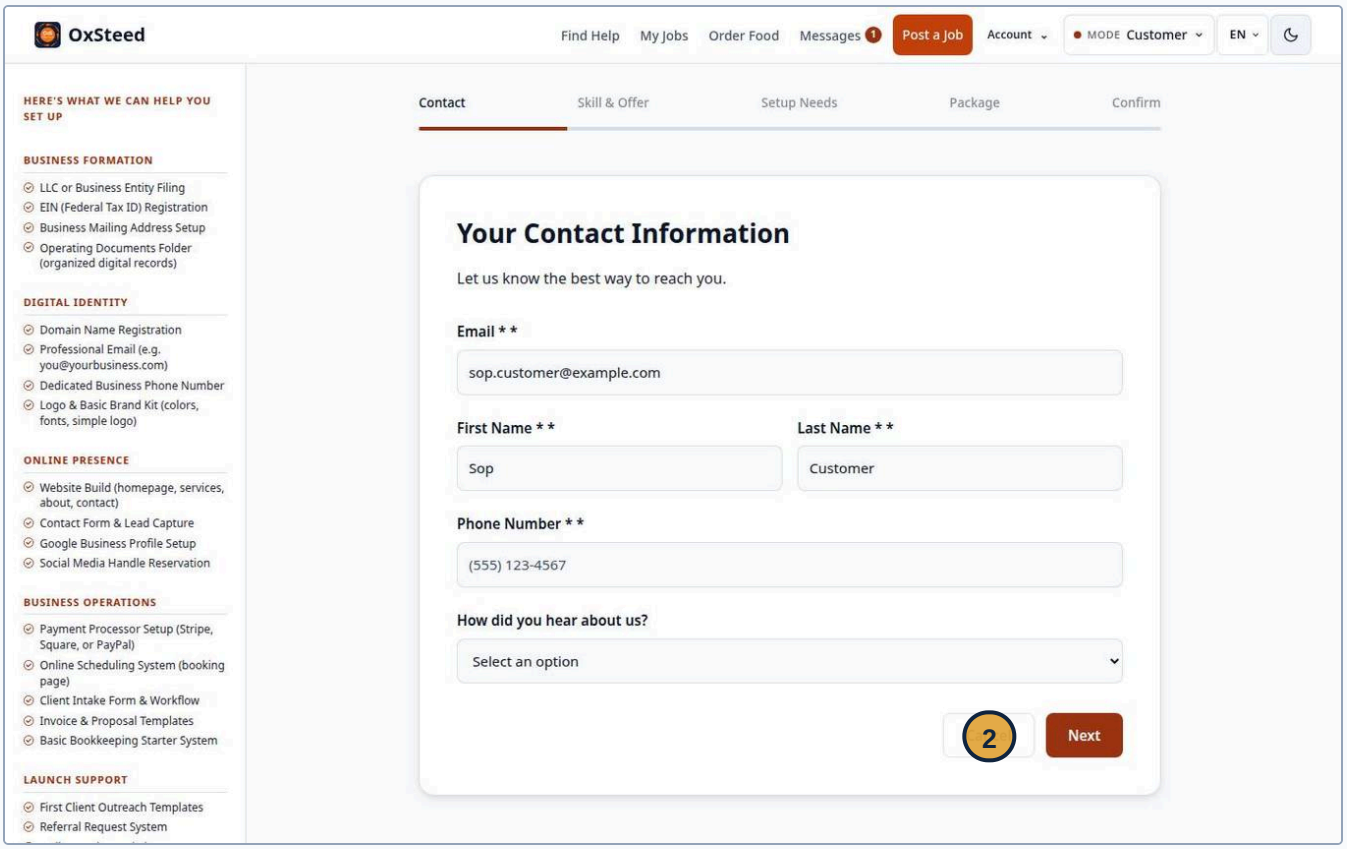

**Figure 2.** Completing intake steps, desktop view. *(Image description: Package step of the consulting intake)*

1. **2.** Next button

## Step 3: Review and submit

On the Confirm step, titled "Review Your Submission", check every section: contact details, selected skill and package, setup needs, and services. Choose "Submit & Get Started". You receive a confirmation of your request.

> **Expected result:** The intake is submitted and a confirmation appears.

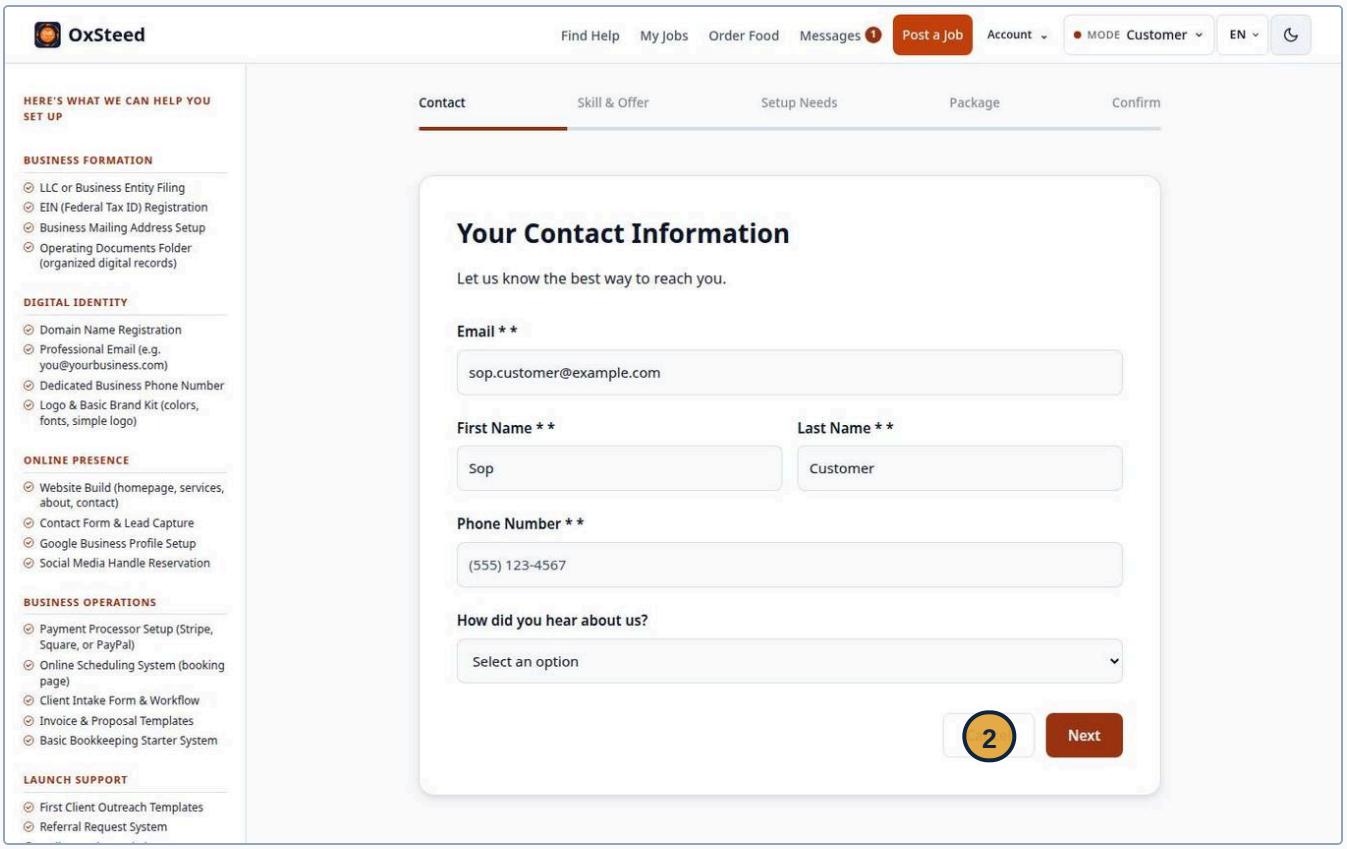

**Figure 3.** Reviewing the submission, desktop view. *(Image description: Intake review with Submit and Get Started button)*

1. **2.** Submit & Get Started button

### Step 4: Track sessions in the portal and dashboard

Sign in and open /consulting/portal to track your consulting sessions. Consultants (helper-class mode) open /consulting/contractor-dashboard to manage their pipeline, referrals, and availability; availability itself is managed at /consultant-availability.

> **Expected result:** Your sessions and pipeline are visible in the portal and dashboard.

**Screenshot planned**

Screen: **/consulting/portal**
State: Consulting portal, signed in, light mode

## Confirm it worked

Your intake shows as submitted, and sessions appear in the consulting portal.

## If something goes wrong

| Problem | What to do |
|---|---|
| You cannot move past a step. | Complete every required field on the current step; validation errors are shown inline. |
| The portal shows no sessions after submitting. | Sessions appear after the request is matched. If nothing appears within a few days, contact support at /support. |

## Need help?

Consulting questions: contact support from the in-app support page at /support.

**Guide ID:** other-rentals | **Revision:** 1 | **Area:** Rentals

SOP LIBRARY / RENTALS ENGLISH

# Rent and list tools

| | |
|---|---|
| **Guide ID** | **other-rentals** |
| **Revision** | Revision 1 (generated October 16, 2026) |
| **Intended for** | Customer, Helper (tool owner) |
| **Availability** | **Supported** |
| **Online version** | /how-it-works/rentals/rent-list-tools |

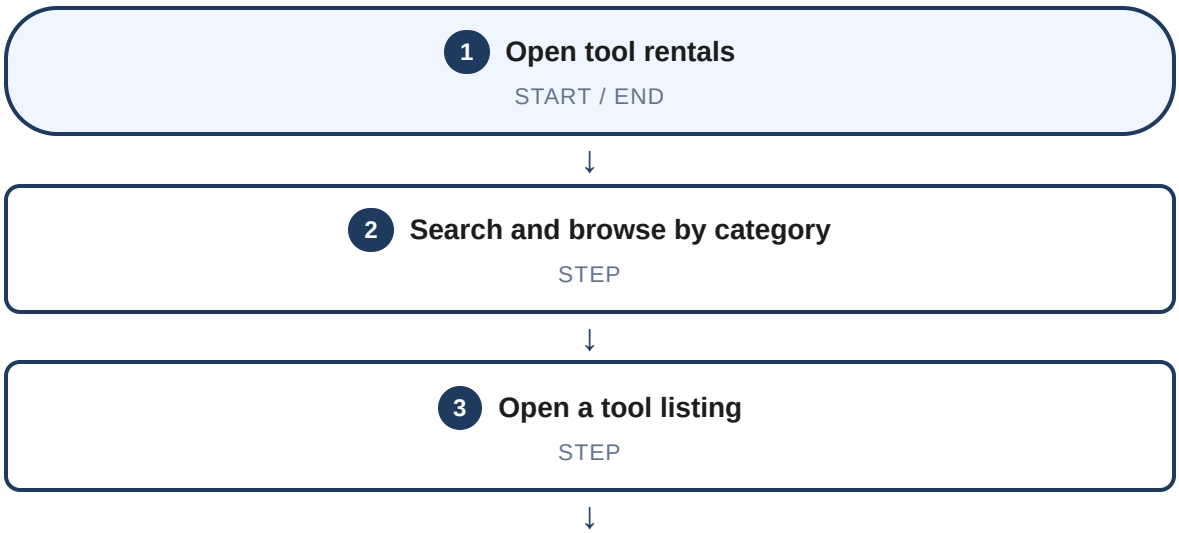

## Goal

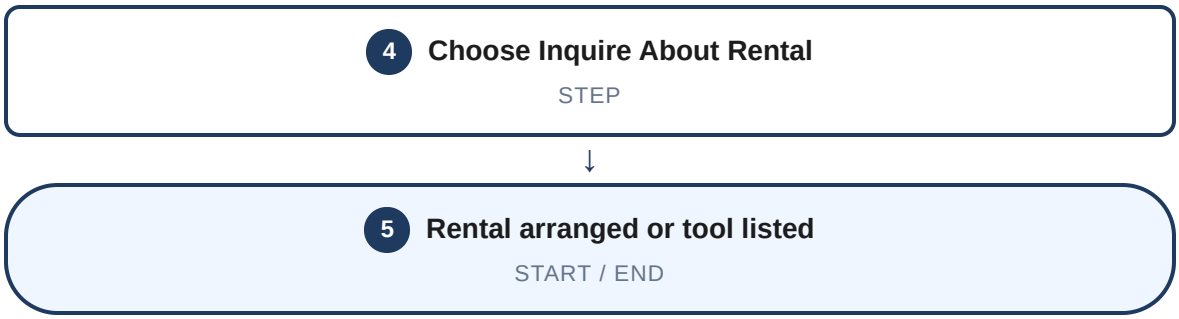

Find a tool to rent from a neighbor, or list your own tool to earn money.

## Before you start

1. Guests can browse. Sign in to inquire, rent, or list a tool.

## Process map

- *Listing a tool:* Open tool rentals → List your own tool from the dashboard
- List your own tool from the dashboard → Owners: review the analytics dashboard
- Owners: review the analytics dashboard → Rental arranged or tool listed

**Text version.** 1. Open /tool-rentals, titled "Rent Tools from Your Neighbors". 2. Use the search field ("Search tools, brands, or categories...") and "Browse by category" tiles to find a tool. 3. Open the tool listing at /tool-rentals/:toolId. 4. Sign in and choose "Inquire About Rental" to start a rental. To list your own tool: 5. Choose "List Your Tool" (via the dashboard skills tab). 6. Owners review earnings and activity in the analytics dashboard at /tool-rentals/analytics.

# Steps

## Step 1: Browse tools for rent

Open /tool-rentals. The hero reads "Rent Tools from Your Neighbors" with the subtitle "Find affordable tools for rent from trusted community members in your area." Use the search field ("Search tools, brands, or categories..."), the "Browse by category" tiles, and the "Filters" panel to narrow by category and city.

> **Expected result:** Tool listings appear with photos, prices, and locations.

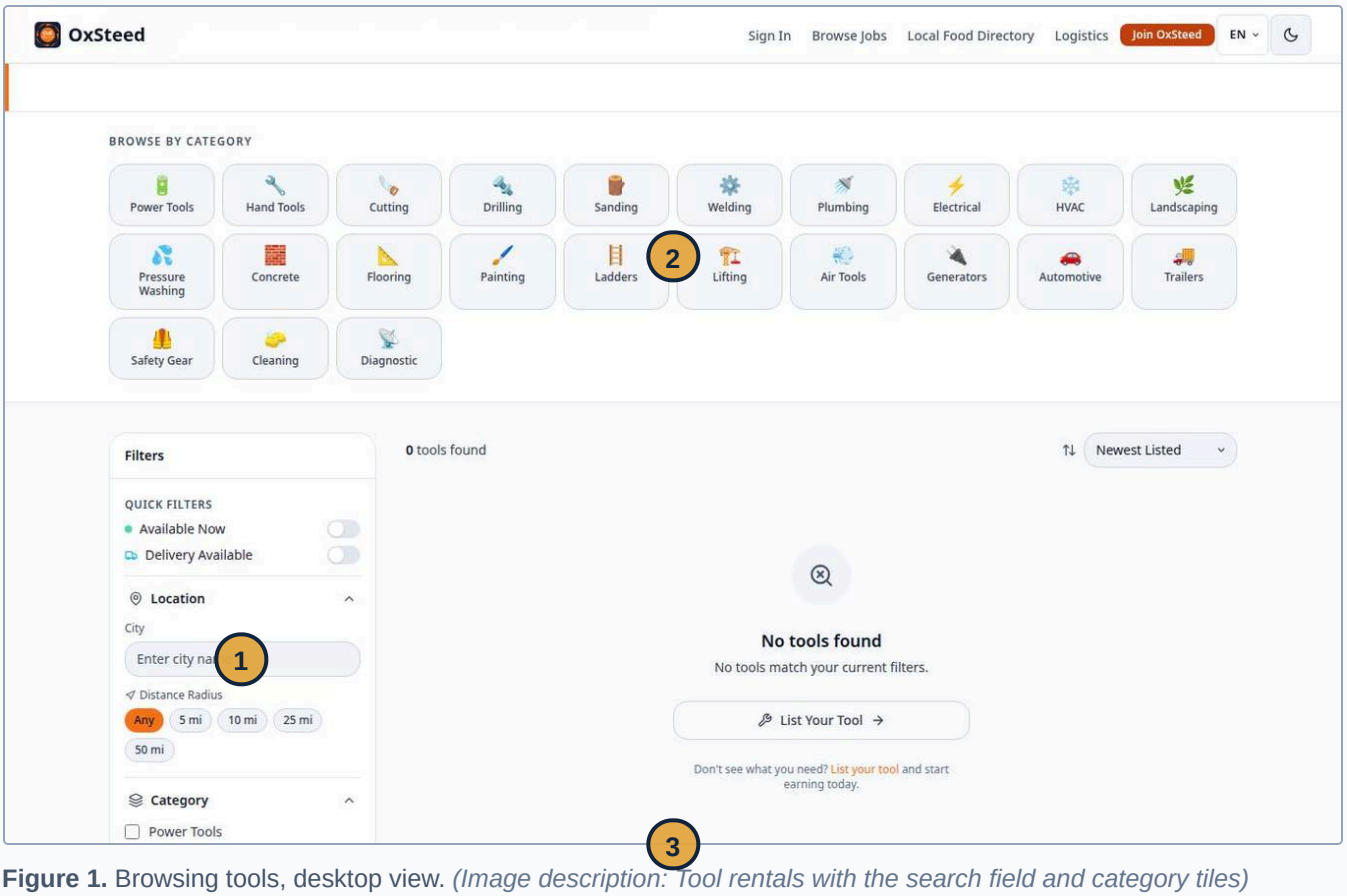

**Figure 1.** Browsing tools, desktop view. *(Image description: Tool rentals with the search field and category tiles)*

1. **1.** Search field
2. **2.** Browse by category tiles
3. **3.** Tool listings

## Step 2: Open a tool and inquire

Choose a tool to open /tool-rentals/:toolId with its photos, rental terms, deposit, and availability. Sign in, then choose "Inquire About Rental" to start the conversation with the owner and arrange the rental.

> **Expected result:** Your inquiry reaches the tool owner.

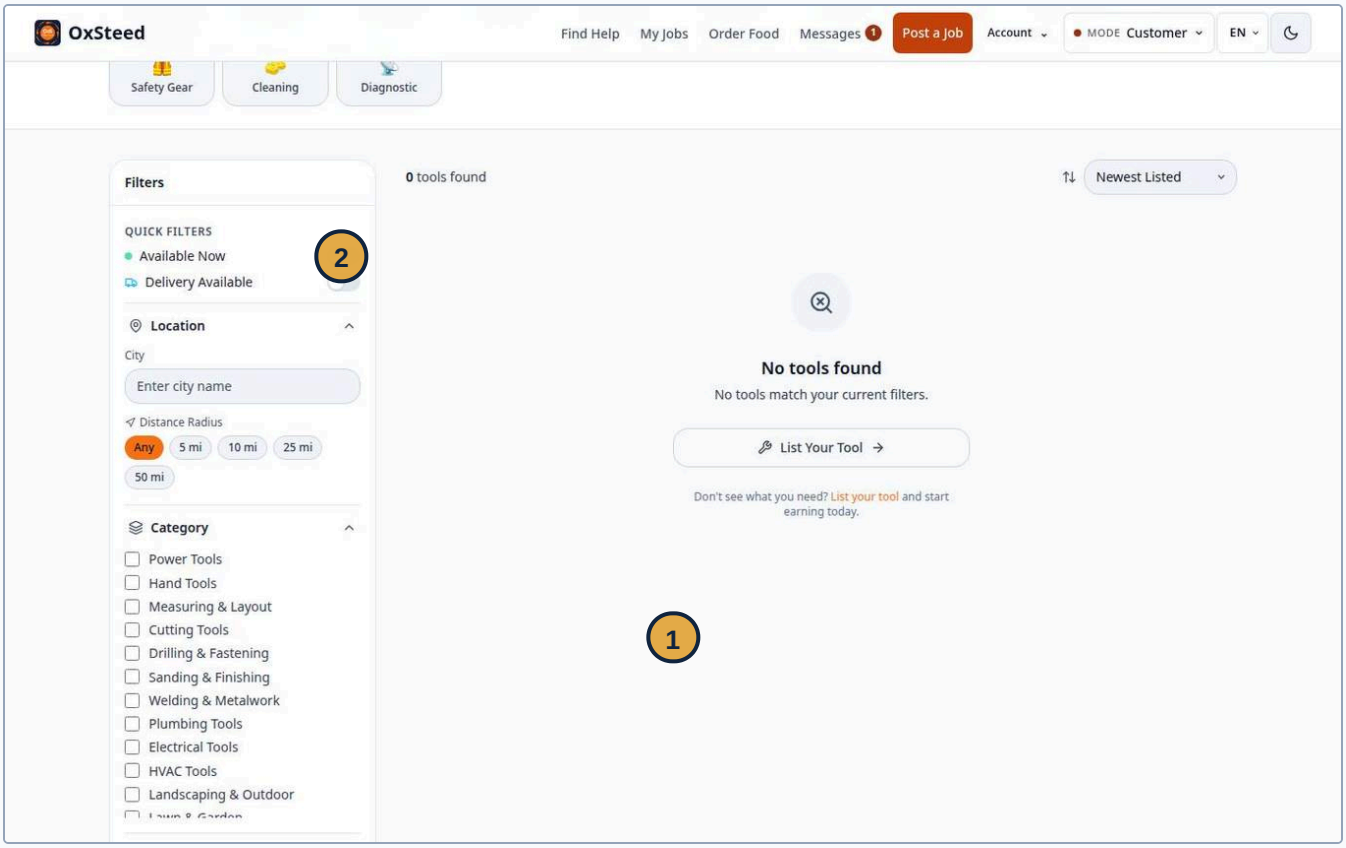

**Figure 2.** A tool listing, desktop view. *(Image description: Tool detail page with the inquiry action)*

1. **1.** Tool photos and terms
2. **2.** Inquire About Rental button

## Step 3: List your own tool

To earn from a tool sitting in your garage, choose "List Your Tool". Tool listings are managed from the dashboard skills tab (/profile/tool-rentals redirects to /dashboard?tab=skills). Create the listing with photos, description, daily rate, and deposit, then publish it.

> **Expected result:** Your tool appears in the browse results for your area.

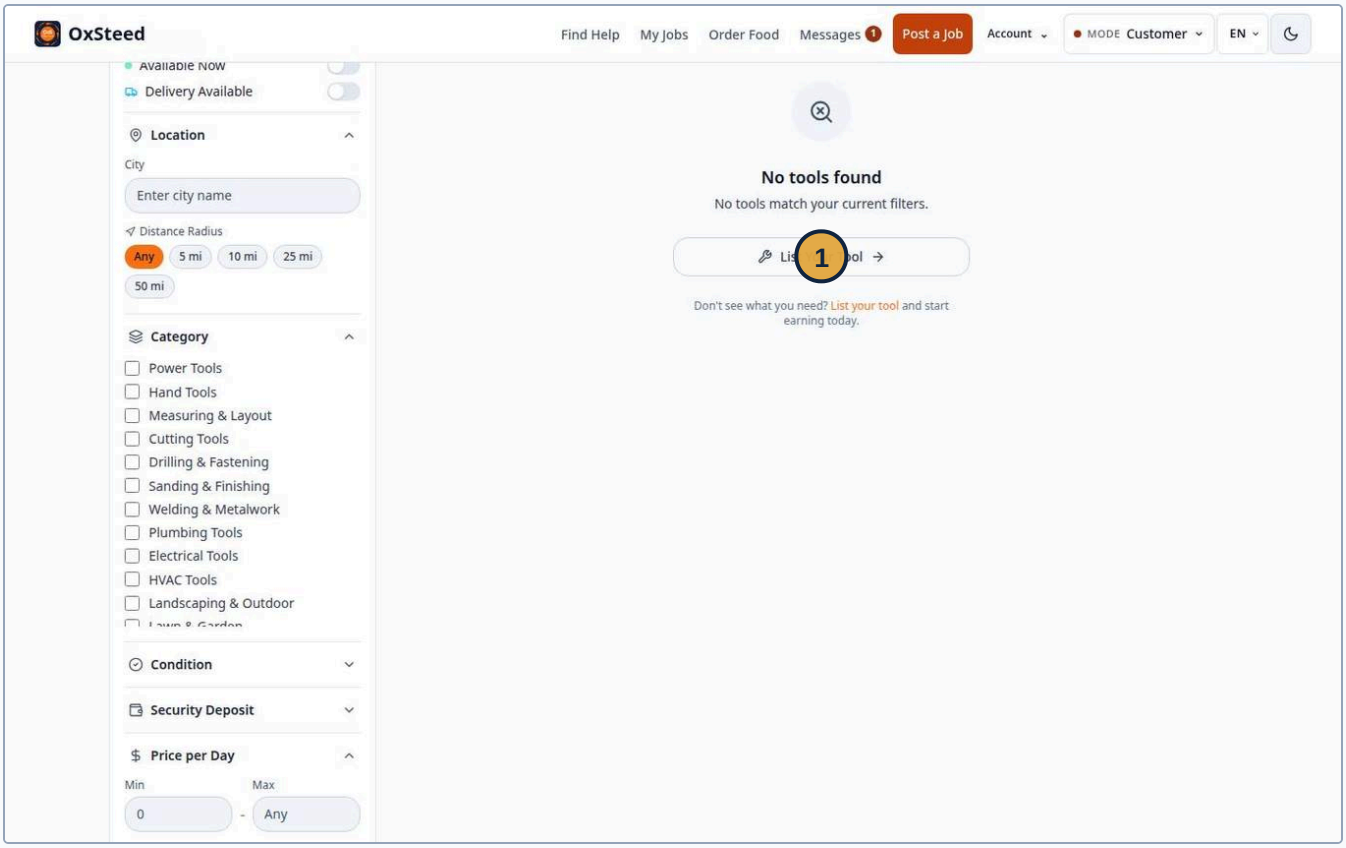

**Figure 3.** Listing a tool, desktop view. *(Image description: List Your Tool call to action)*

1. **1.** List Your Tool

### Step 4: Review owner analytics

Tool owners (tool_owner is a helper-class mode): open /tool-rentals/analytics for the owner analytics dashboard with rental activity, earnings, and favorites. Deposit handling (held, returned, withheld) is tracked per rental.

> **Expected result:** You can see rental activity and earnings for your tools.

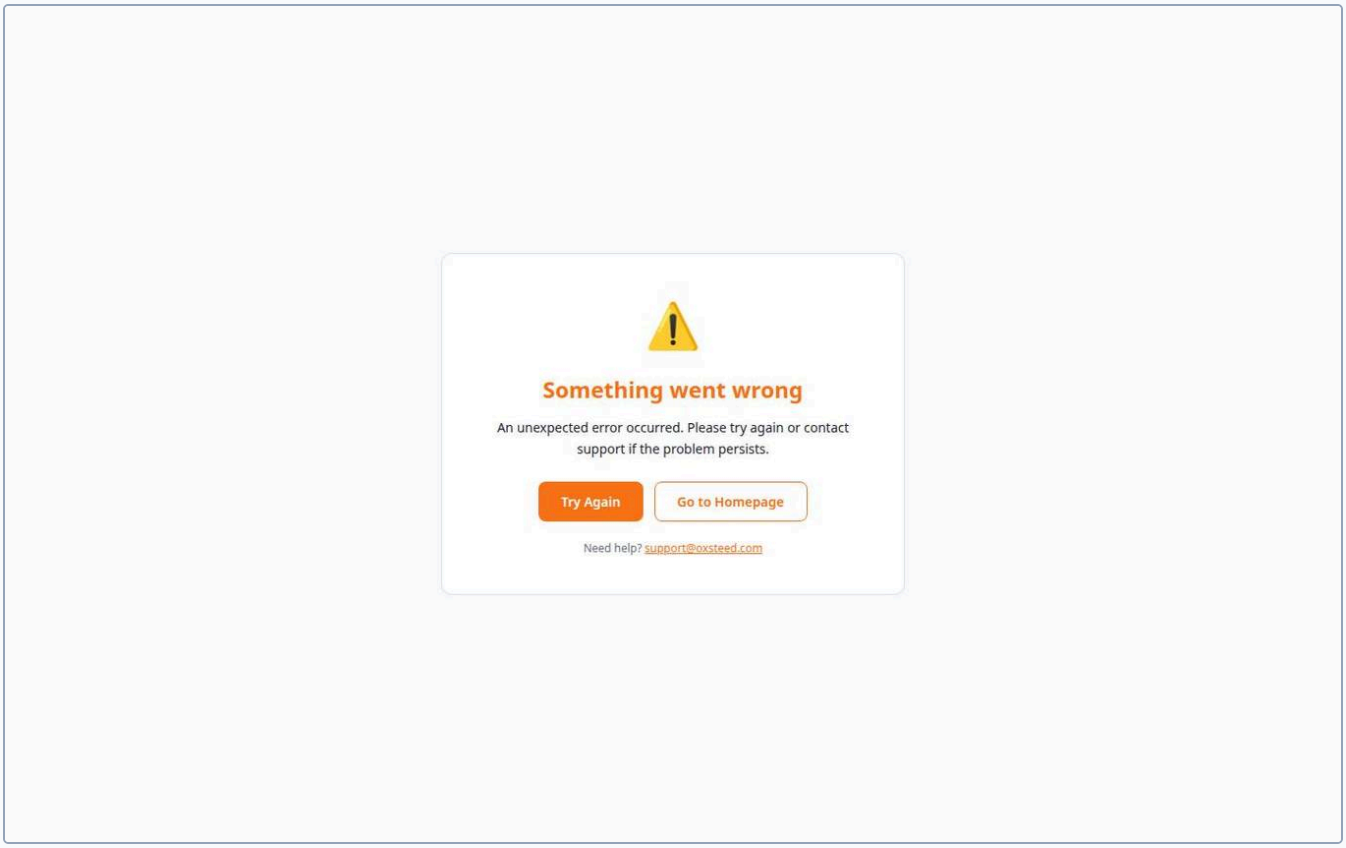

**Figure 4.** Owner analytics, desktop view. *(Image description: Tool owner analytics dashboard)*

## Confirm it worked

Your rental inquiry is with the owner, or your listed tool appears in browse results and analytics.

## If something goes wrong

| Problem | What to do |
|---|---|
| No tools appear for your search. | Clear filters and widen the category or city. Tool availability depends on owners near you. |

| | |
|---|---|
| An owner does not respond to your inquiry. | Inquire on another nearby listing, or adjust your requested dates. |

## Need help?

Rental issues: contact support from the in-app support page at /support.

## Related guides
